

Congratulations!

To the Moon Area High School Graduating Class of 2025!

Here are a few housekeeping items to keep in mind as you go out into the world.

Final Transcripts:

All seniors completed a graduation survey. It was mandatory. For students who are going on to any post-secondary education, their final Moon Area High School transcript will be sent to the school they indicated on the survey. Schools need their final transcript to ensure they've graduated from high school. The final transcripts will be sent to all schools by June 20. In the meanwhile, you might get notifications from the school your child is attending, reminding you to send the final transcript. As long as they indicated the correct school, I assure you, the transcript will be sent. If your child is still unsure where they're going, and they indicated "Undecided" on the graduation survey, they will email Ms. Monyak (mmonyak@moonarea.net) over the summer and she can send the final transcript for them.

Unofficial transcripts in Skyward:

I will post a copy of the final high school transcript in the portfolio section of the student's Skyward account by June 10. Students and parent/guardian will have access to the student's Skyward account until August 15. I highly recommend you access the final transcript and print it/save it, so you have it if you need it. It's always a good idea to have your transcript, or if nothing else, it might be fun to find it 10 years from now and see how your child did in high school!

Finally, I wish all graduates in the Class of 2025 the best of luck. I've enjoyed working with all them and getting to know you (students and parents) and navigating this interesting high school experience. Make Moon proud and do wonderful things with your life!
