

Summer Math Assignments (Rising 6th–12th Grades)

Students will complete their summer math work through [Delta Math](#), an interactive platform that includes instructional videos and practice problems to reinforce key concepts. Delta Math also provides valuable feedback for teachers, helping them identify areas that may need additional attention in the upcoming school year.

Returning students should log in using their existing Delta Math account from the previous school year. New students may create a free account.

To join the correct class, click the link provided and use the class code which are the final 8 digits of the link.

6th Grade - <https://www.deltamath.com/students?code=2GB9-DH5P>
