Mrs. Dysart noted that the next agenda item was not presented to the Committee so it comes to the Board meeting without a recommendation. Ms. Voitier presented the pertinent info about a new policy for the School Board Policy Manual titled EBBI – PUBLIC HEALTH EMERGENCY. Ms. Voitier stated that this policy is mandated by recent legislation as noted in the policy.

The policy was adopted by joint acclimation of the Board Members present.

PUBLIC HEALTH EMERGENCY

When a declared public health emergency exists, the St. Bernard Parish School Board shall grant the Superintendent broad authority to develop, implement, and maintain administrative regulations and procedures necessary to protect employees and students from the conditions giving rise to the declared emergency.

In the development and implementation of necessary administrative regulations and procedures for safely reopening of schools or maintaining the safety of employees and students when schools are open during a health emergency, the Superintendent and staff shall rely upon the practices, guidelines, and suggestions of the Louisiana Department of Education in coordination with the Department of Health and Hospitals.

The St. Bernard Parish School Board adopts and incorporates as if set forth fully herein, the provisions of Chapter 4 of Bulletin 741, *Louisiana Handbook for School Administrators*, for the 2020-2021 school year, and shall abide by the health and safety standards included therein.

New policy: July, 2020

With no recommendation from the Committee, the Board addressed a new agenda item regarding a motion to adopt a resolution to obtain special counsel for opioid-related claims. Ms. Voitier explained that after a discussion with a local attorney she was made aware of the possibility that local school systems could file a claim against the bankruptcy filing of Purdue Pharmaceuticals in association with their distribution of the drug oxycontin. In that matter, Ms. Voitier requests the adoption of the following resolution regarding that filing on behalf of the St. Bernard School Board.

After some discussion a motion was made by Mr. Egan to adopt the following resolution to obtain special counsel for opioid-related claims with no cost to St. Bernard School Board if the suit is unsuccessful. Seconded by Mr. Englande, the motion passed unanimously by a voice vote of the members present. The resolution is shown below.

ST. BERNARD PARISH SCHOOL BOARD

ATTEST:

SECRETARY-TREASURER

Mrs. Dysart presented the next agenda item concerning the Update on the Opening of School. She began by recognizing an audience member who requested to speak on this topic, a teacher from Chalmette High School, Mr. Henry Leal.

Mr. Leal said he has been a teacher at CHS for 6 years and has been very involved in the school. He then expressed his concern for the opening of school before the COVID-19 pandemic has been curtailed. His concerns centered around the possibility that students, teachers and administrators could become ill.

Mrs. Dysart thanked Mr. Leal for his opinion and comments.

Ms. Voitier then addressed the update on the opening of schools. She began by noting that the state has assembled a state-wide plan for opening schools called "Strong Start." She stated that this re-opening plan was put together by medical professionals, educators and educational administrators. While the plan is good, Ms. Voitier stated that it is not fool proof, virus spread will be expected, but it will be mitigated by protocols that are outlined by the Strong Start plan.

Ms. Voitier also noted that school systems in the area are taking different avenues to begin school, by going completely virtual and/or delaying the start of school and eliminating days off. Based on the information that she has gathered, she feels that the offering of virtual learning for anyone who is interested for the first nine weeks and staggering the beginning of K-8 students in conjunction with a hybrid schedule for high school students should meet the needs and concerns of most students and parents. With almost 25% of the students that are registered in our district choosing to attend virtually, the ability to socially distance the remaining students who are attending school in their school building becomes a little easier. All students will be monitored for continuous progress. Ms. Voitier assured all that she is in constant contact with the specialists in monitoring the status of the COVID-19 pandemic in the community. In our schools the students and staff will be monitored and attended to by partnering with local entities like Ochsner and the Methodist Foundation. Ms. Voitier next invited Mr. Jason Dewey, Maintenance Supervisor, to talk about interventions in the schools that should help reduce virus spread.

Mr. Dewey stated that hand sanitizers and handwashing materials are the first line of defense and will be available within the schools and in school buses. Teachers have also been provided hand sanitizers for the classroom. Disinfectants will also be used in sprayers and wipes along with electrostatic disinfectants for use in all areas of the schools, especially classrooms. As far as PPE stocks, masks, sanitizers and disinfectants are plentiful along with thermometers for every classroom and front offices throughout the district. These interventions combined with the regular cleaning that takes place in schools should provide for adequate cleaning during this time of COVID-19. Additional interventions such as social distancing, staying in static groups and having lunch in classrooms increase the safety aspect within the schools.

After many questions and much discussion, Mrs. Dysart thanked Ms. Voitier and Mr. Dewey for their update on the opening of schools.

There were no items to place on the agenda of the next meeting.

There were no Superintendent's Recommendations.

There being no further business to discuss, and on motion of Mr. Englande, seconded by Mrs. Asevedo, and passed by a unanimous voice vote, the meeting was adjourned.
