

## **PARENTAL CONSENT FORM**

### Participation in PLUS Pride Forum Activities

Murrieta Mesa High School will be sponsoring “PLUS Forums” throughout the year. PLUS (Peer Leaders Uniting Students) Forums are designed to inspire awareness and appreciation of similarities and differences among students.

The forums are a chance to bring students with different personalities, interests and backgrounds together to discuss issues with the goal of breaking down some of the walls students put up unconsciously.

PLUS Forums are lead by specially trained students from Murrieta Mesa High School that make up our PLUS Pride Team.

The forums are conducted under the supervision of a Murrieta Mesa staff member. Students will engage in a variety of activities in an effort to develop understanding and respect for the diversity that we have on campus and in the community.

The overall purpose of the forum is to have students engage in activities that stimulate conversation and interaction with other students. Through these conversations, students will develop an understanding of who each person is, rather than what type of person they assume the other student to be. These forums will essentially be a tool that creates communication, understanding, and tolerance for a diverse student body.

PLUS Forums are open to all Murrieta Mesa High School students unless parents/guardians do not want their child to participate. Please sign the permission slip on the signature page in the registration packet if you wish your student to participate in a forum. If you do not wish your student to participate in these forums, do not sign the signature page for PLUS.
