

Central Middle School Campus Connections – June 2025

About the Central Middle School Campus Project

The new Central Middle School (CMS) project is a multi-phase 21-acre campus project with construction of the new school building in the first phase. This is the second construction project bulletin. It serves as a high-level update on the exciting developments happening at the CMS site this month.

This following was completed last month:

- The truck route is Stanwich Road to Orchard Road, avoiding school drop-off and dismissal times (Monday – Friday) and continues to perform well
- Continuation of footing and foundation systems for the building
- Start backfill and waterproofing operations within the building footprint
- Begin footing drain installation
- Ongoing processing operations of soils

Work anticipated this month:

- Continue installing footing and foundations systems for building structure
- Situate the underground utilities
- Continuing backfill operations
- Start erecting the steel structure of the school building
- Begin masonry for gym walls
- Construction work will also take place on Saturdays this month

If you have a safety concern, please contact the Turner Construction personnel Joseph Phelan, Project Manager (203) 410-0874 <jphelan@tcco.com> or Chris Chila, Project Superintendent (860) 634-7216 <cchila@tcco.com>
