

MEMORANDUM

November 17, 2008

TO: Board Members

FROM: Abelardo Saavedra
Superintendent of Schools

SUBJECT: **2008 Texas English Language Proficiency Assessment System (TELPAS) Results**

CONTACT: Carla Stevens, 713-556-6700

With the introduction of the No Child Left Behind Act in 2001, states are required to assess all students annually, including English Language Learners (ELLs), using statewide assessments. The performance of ELL students must be reported at the state, district, and school levels. In response to this requirement, the Texas Education Agency developed the Texas English Language Proficiency Assessment System (TELPAS). This system assesses English proficiency in four domains: listening, speaking, writing, and reading. The weight given to the four domains varies, with reading contributing the most (75%) to the overall proficiency rating.

All ELL students enrolled in the Houston Independent School District in grades K–12 are assessed with the TELPAS in the spring of each year. This assessment measures English-language proficiency along a continuum that is divided into four proficiency levels: Beginning, Intermediate, Advanced, and Advanced High. Performance of ELL students on the TELPAS is used to determine whether districts receiving Title III funds meet federally mandated Annual Measurable Achievement Objectives (AMAOs) that indicate where ELL students are on a continuum of English-language development.

A total of 48,910 ELL students participated in TELPAS testing in 2007–08. The attached report provides an analysis of TELPAS results at the campus, region, and districtwide levels. Districtwide, ELL student performance on the TELPAS met the federally mandated AMAO standards dealing with English-language proficiency.

TEXAS ENGLISH LANGUAGE PROFICIENCY ASSESSMENT SYSTEM (TELPAS) 2007–2008

Introduction

Ever since the movement towards standards-based education reform began to take hold, issues relating to the testing of English language learner (ELL) students have been debated. At issue are concerns about how to determine ELL students' knowledge of academic content when they have difficulty understanding the language of the test. Traditional standardized assessments written in English do not separate the measurement of academic content from that of the ability to comprehend English. Consequently, when ELL students take traditional standardized tests, it is not possible to know how much the inability to understand English is interfering with the measurement of their specific content knowledge. In the past, states have often responded to this dilemma by exempting ELL students from state testing requirements until they have had a certain amount of time to learn English. In Texas and other states with large ELL student populations, such policies are undesirable because they can lead to the omission of significant numbers of students from assessments that are used to rate schools and drive educational reform.

With the introduction of the No Child Left Behind (NCLB) Act in 2001, states are required to assess the academic performance of all students annually, including ELL students, using statewide assessments. The performance of ELL students must be reported at the state, district, and school levels. Furthermore, states must report data concerning the progress of ELL students in acquiring English language proficiency. In response to this requirement, the Texas Education Agency (TEA) developed the Texas English Language Proficiency Assessment System (TELPAS), which provides a comprehensive measure of English language proficiency. This system had two components: the Reading Proficiency Tests in English (RPTE) and the Texas Observation Protocols (TOP). Texas first began using the RPTE in 1999 and the TOP in 2004; and combined these into the single TELPAS system in 2005. Beginning with the 2007-2008 school year, a number of revisions were then made to this system (see below for details).

Under TELPAS, ELL students in kindergarten through twelfth grade are assessed in four language domains: listening, speaking, reading, and writing. The proficiency scores in each domain are used to calculate a composite score that is used to determine whether districts receiving Title III funds meet federally mandated Annual Measurable Achievement Objectives (AMAO) that indicate where ELL students are on a continuum of English language development. This continuum, based on the stages of language development for second language learners, is divided into four proficiency levels: Beginning, Intermediate, Advanced, and Advanced High. The progress of students along this continuum is a primary component of the federally mandated AMAO and key to helping districts monitor whether their ELL students are making steady annual growth toward English language proficiency.

All ELL students in grades K–12, including those with parental waivers, are required to be assessed through TELPAS until they have been reclassified as non-ELL. There are, however, two instances in which a student may be exempt from TELPAS participation. First, as with most other assessments, the Admission Review Dismissal (ARD) committee can grant an exemption for ELL students with disabilities from one or more TELPAS domains on the basis of their disability. Any exemption must be properly documented in a student's file by the ARD committee. Secondly, there may be instances in which an ELL student is unable to be rated due to extenuating circumstances such as a teacher having insufficient time to observe and rate a newly enrolled ELL student, when a student was not enrolled at the time of testing, or when a testing irregularity occurred. Again, any such exemption must be properly documented in the student's file.

Student performance on the TELPAS Reading assessment is one of the criteria (among many) that determine whether a student can be granted an exemption from the statewide TAKS testing. Current

State law prohibits exemptions for any LEP student once they have scored at the “Advanced High” level on the TELPAS Reading in year one (for year 2 exemptions) or “Advanced” level in year two (for year 3 exemptions). LEP students reaching these performance levels will take the TAKS in subsequent years. For specific information regarding exemption rules, refer to the Texas Administrative Code (TAC), Chapter 101, Subchapter AA.

Assessment Design

TELPAS Reading¹

The TELPAS Reading assessment (multiple-choice version) is designed specifically for students whose primary language is not English and who are in the process of learning the English language. Because ELL students might begin to learn English at any age, English literacy expectations are not tied to any particular grade level. ELL students who enter U.S. schools knowing no English, regardless of their grade level at the time of entry, move from one proficiency level to the next as they become more proficient in English. Rather than linking performance to grade-level expectations, the TELPAS reading assessment measures performance in terms of language proficiency levels that describe what a second language learner can read at various stages of English language development. There is a different version of the TELPAS-Reading for each of the following grade clusters: Grade 2, Grade 3, Grades 4–5, Grades 6–7, Grades 8–9, Grades 10–12. However, it should be understood that these various test versions only reflect age-appropriate test development, not grade-level expectations.

Like the Texas Assessment of Knowledge and Skills (TAKS), the TELPAS Reading is a criterion-referenced test, meaning that student performance is measured by comparison to a predetermined standard. The test is linked to the TAKS in that reading skills on both instruments are aligned with reading objectives as established in the state’s curriculum, the Texas Essential Knowledge and Skills (TEKS). However, the TELPAS Reading is unique in that students’ reading skills are assessed according to four distinct proficiency levels. Based on the fact that the stages of language development for second language learners are sequential, test questions become progressively more difficult as a student’s proficiency increases. It uses a standardized, multiple-choice format to determine a student’s proficiency level by locating the highest level of proficiency at which the student successfully functions. Because successful performance on the TELPAS Reading is determined by annual progress rather than a pass/fail score, ELL students are expected to make gains in English reading proficiency each school year.

TELPAS Holistic Assessments

These were previously referred to as the Texas Observation Protocols, and were developed by TEA in collaboration with bilingual education and test development experts from across the state. The TELPAS holistic assessments are observational checklists drawing upon language acquisition research, research-based standards, the experience of education practitioners and observational assessment processes used in other states. These checklists are designed to holistically rate each ELL student’s English language proficiency based on classroom observations and daily interactions. The holistic assessments are designed to capture an overall level of English language proficiency, and do not assess isolated skills.

While the TELPAS Reading (multiple-choice version) assesses ELL students in the reading domain in grades 2–12, the holistic assessments are used to assess ELL students in the other grades and domains.

- TELPAS Reading (K–1)
- TELPAS Writing, Listening & Speaking (K–12)

Teachers who are designated by the district as official raters of ELL students’ English language proficiency receive annual training in each language domain assessed, as well as in the holistic assessment administrative procedures. Training for all raters must be specific to the grade or grade clusters for

which they will be responsible. Raters must be teachers who hold valid education credentials such as teacher certificates or permits, and they have the student in class and be knowledgeable about that student's ability to use English in instructional settings.

The holistic assessments are aligned with the TAKS to the extent that the checklist is completed based on classroom observations of ELL student performance on TEKS-based objectives. While there is no explicit alignment between the TELPAS holistic assessments and the TAKS, they both reference TEKS criterion and, in this way, are related.

Proficiency Level Definitions

The English proficiency of ELL students' is characterized as falling into one of four levels: Beginning, Intermediate, Advanced, or Advanced High. Each proficiency level marks a stage of second language development. Students proceed from one level to the next regardless of the age at which they began to learn English.

These proficiency levels are identified in both the national standards for teaching English as a second language and in the TEKS. The levels have been further defined through consultation with national language acquisition experts and local practitioners. TELPAS proficiency level descriptions, as provided by TEA in the TELPAS information booklet, are summarized below. Proficiency levels for both the written and holistic components of TELPAS are based on the same English language continuum.

Beginning Level of English Language Proficiency: Students at this level are typically new to the English language. They have minimal ability to derive meaning from English in either oral or written form. They generally understand very little English and struggle to understand simple conversations/texts even with visual supports, cues, and gestures. These students tend not to seek clarification when failing to comprehend the English they encounter and frequently remain silent, watching others for cues.

Intermediate Level of English Language Proficiency: Students at this level are able to use and understand simple, high-frequency English used in routine settings. However, they tend to interpret oral and written English very literally and have difficulty with comprehension of English presented in a non-standard format. These students are likely to seek clarification when failing to comprehend the English they encounter by asking for slower speech, visual supports, verbal cues, or gestures.

Advanced Level of English Language Proficiency: Students at this level are becoming fairly proficient with the English language. They have the ability to understand, with support, grade appropriate oral/written English. Students at this level may still have difficulty with certain English language structures as compared to their native English-speaking peers, but with assistance they can usually understand material at their grade level. They can move beyond literal comprehension to apply more abstract and critical thinking skills as they learn. They understand the majority of the English they encounter and only occasionally request repetition, slowed speech, or clarification.

Advanced High Level of English Language Proficiency: Students at this level are nearly as proficient with the English language as native English speakers. They are able to understand, with minimal support, grade-appropriate written/oral English. Students at this level consistently understand longer, elaborated discussions/texts on both familiar and unfamiliar topics with little dependence on visuals, verbal cues, or gestures. They rarely request repetition, slowed speech, or clarification.

TELPAS Composite Ratings

As mentioned earlier, TELPAS composite ratings, not individual language domain ratings, are used to determine whether Title III-funded districts meet the federally required AMAO standards for progress and attainment related to English language proficiency. TELPAS composite ratings indicate ELL students' overall level of English language proficiency. The composite score is based on weighted proficiency ratings from the listening, speaking, reading, and writing domains. For the past three years these weights have been as follows: listening and speaking 5% each, writing 15%, and reading 75%.

Table 1: Translation of TELPAS Composite Scores into TELPAS Composite Ratings

TELPAS Composite Score	TELPAS Composite Rating
1.0–1.5	Beginning
1.6–2.5	Intermediate
2.6–3.5	Advanced
3.6–4.0	Advanced High

To be included in composite calculations, a student must have a proficiency score in each of the four language domains. Composite scores range from 1.0 to 4.0 and are converted to composite ratings according to the values shown in **Table 1**.

Changes to TELPAS for 2008

The following changes were made to TELPAS in the 2007–2008 school year: (1) The acronyms RPTE and TOP are no longer used and have been replaced with the terms TELPAS Reading, Writing, Listening, and Speaking; (2) A multiple-choice reading assessment is now used for grade two, replacing the holistically rated observational reading assessment previously used; (3) A new set of grade clusters is used for the multiple-choice reading assessment, i.e. grades 2, 3, 4–5, 6–7, 8–9, and 10–12; (4) There is a new emphasis on assessment of academic English proficiency in grades 2–12 reading, specifically in the areas of mathematics and science; (5) Grades 2 through 12 reading also includes more questions aimed at measuring the Advanced High level of reading proficiency; (6) Because of these latter two changes, the TELPAS reading assessment for grades 2–12 was renormed during the summer of 2008, during which new cut-points were established; and (7) The revised multiple-choice reading assessment will be administered exclusively online beginning in spring 2009.

Annual Measurable Achievement Objectives (AMAO)

TELPAS results are used for ELL student accountability measures as required by NCLB through annual measurable achievement objectives (section 3122a). These objectives prescribe a minimum percentage of ELL students that must demonstrate progress and attainment in English proficiency, as well as adequate yearly progress (AYP). Satisfactory performance on AMAOs related to progress and attainment are determined based on TELPAS composite ratings, whereas the AMAO related to adequate yearly progress is determined based on a combination of TAKS, TAKS-Accommodated, TAKS-Alt, TAKS-M, and LAT results. Separate accountability standards are set for ELL students in grades K–1 and 2–12. The approach used with all of the AMAOs has been to set lower starting targets and increase the rigor of the targets over time. What follows is a brief discussion of the two TELPAS-based AMAO and the minimum criteria required to meet federal accountability standards.

AMAO 1: Progress

The objective of the progress AMAO is to increase the percent of ELL students who improve by at least one proficiency level a year on the TELPAS. Results for yearly progress are normally included

Table 2: AMAO Standards for Progress and Attainment, 2005 to 2008 (by Grade Level)

	Year			
	2005	2006	2007	2008
AMAO 1:Progress				
K-2	-	15%	17.0%	n/a
3-12	40.0%	42.0%	44.0%	n/a
AMAO 2:Attainment				
K-2	1.5%	2.0%	2.5%	2.5%
3-12 (Standard Method)	25.0%	25.5%	26.0%	25.0%
3-12 (Alternate Method)	40.0%	42.0%	44.0%	40.0%

with the district and campus summary reports, which were made available in mid-September of this year. However, for this year only, yearly progress data were neither calculated nor reported. This is because the re-norming of the new TELPAS Reading assessment makes it psychometrically inappropriate to directly compare student proficiency levels obtained under the new and old versions of the TELPAS. Yearly progress data will be reported with test results from the spring 2009 TELPAS administration. Accordingly, the present report does not include yearly progress data, but the methodology surrounding AMAO #1 is included here for archival purposes.

The 2006–2007 progress target for K–2 students was that 17% of current ELL students should show gains of at least one proficiency level on the TELPAS between 2006 and 2007. The standards for the period 2005 through 2007 are shown in **Table 2**. Standards for 2009 are not yet available. ELL students in grades 3–12 had a different progress target. For these students, the progress AMAO required that 44% of current ELL students show progress of at least one proficiency level.

AMAO 2: Attainment

The objective of the attainment AMAO is to increase the percent of ELL students who achieve an annual TELPAS composite rating of Advanced High². For grades K–2, the 2007–08 target specifies that 2.5% of current ELL students must achieve a TELPAS composite rating of Advanced High. The target in the previous reporting period was also 2.5% (see Table 2).

For grades 3–12, there are two methods for meeting the attainment AMAO. The first, default method evaluates the percent of current ELL students who reach a composite TELPAS score of Advanced High, and the 2007–08 target is set at 25%. This method does not take into consideration how long a student has been enrolled in U.S. schools. The second method, which is employed only if Method 1 fails to meet the AMAO criterion, does take time in U.S. schools into account. The population included for accountability purposes under the second method includes current ELL students who have been in U.S. schools three or more years by grade 3, or four or more years for students in grades 4–12. It also includes monitored³ ELL students, and there are different performance standards for the current and monitored LEP groups. Attainment for *current ELL students* is defined as achieving a TELPAS composite rating of Advanced High, the same standard used for Method 1. Attainment for *monitored ELL students*, however, is defined as passing the TAKS reading/English language arts subtest. The target under the second method is set at 40% for the combination of current and monitored ELL students demonstrating attainment. Again, the second method is only calculated for districts that fail to meet the 25% target established under the Method 1. Note also that while Method 2 considers only students who have more experience learning English (i.e., either Monitored or current ELLs with three or more years in U.S. schools) it includes a more stringent criterion for gauging success.

TELPAS Administration

All components of TELPAS, both written and holistic, are administered in the same testing window during the spring of each school year. For 2008 this window was March 17 to April 11, 2008. While the two assessments are administered separately, they are reported on a single TELPAS answer document.

TELPAS Reading, Multiple-Choice Version (gr. 2–12)

Students taking the multiple-choice TELPAS Reading answer test questions for all proficiency levels. Each test starts with beginning level items and gradually the proficiency levels are mixed, with more difficult reading selections interspersed with easier ones.

The administration directions include information to help test administrators and students understand the structure of the test and the purpose for the wide range of proficiency levels. Students are told they will encounter questions that are easy and some that are difficult, depending on how much English they know, and that the wide range of difficulty will help measure their progress toward English reading

Table 3: Demographic Information for TELPAS Participants, 2008

Gender	N	%	Language Program	N	%
Female	23,291	48	Bilingual	31,604	65
Male	25,568	52	ESL	13,344	27
Ethnicity			Waivers	3,120	6
American Indian	5	<1	No information provided	842	2

Hispanic	46,452	95	1st Sem Immigrants	8,045	20
White	368	<1	2	8,279	20
Economically Disadvantaged			3	7,365	18
Yes	45,522	93	4	5,711	14
No	3,304	7	5+	10,786	26

Source: TELPAS answer documents, Chancery

* Applicable for grades 1-12 only

proficiency from year to year. They are encouraged to do their best on the parts of the test they can understand and are advised that they may leave questions blank if they do not understand or choose the answers they think might be correct. Since more difficult reading selections are interspersed with easier ones, students new to the English language are encouraged to continue testing when they encounter a selection that is difficult to understand as easier selections will likely follow. Additional information regarding test administration procedures is provided in the testing manuals schools receive prior to each test administration.

Holistic Assessments

The holistic rating process calls for teachers to consider both the social and academic language proficiency of their students. As students are observed over time during formal and informal academic tasks and interactions, teachers evaluate their command of the English language and the types of linguistic accommodations and adaptations they need to interact in class and learn the TEKS. In addition to routine daily observations, teachers are encouraged to draw from anecdotal notes, input from other teachers, or any informal/formal assessments that help designate students' English language proficiency level. The proficiency level designated is meant to represent the level at which students perform most consistently.

Participants

All ELL students in grades K–12 who the district reports as Limited English Proficient (LEP) are required to participate in TELPAS. A total of 48,910 ELL students in HISD took the TELPAS during the 2007–2008 school year, an increase of 2,767 from 2006–07. **Table 3** provides basic demographic information for these students (only cases for whom information was available are included, thus counts may total less than 48,910).

- Male TELPAS participants outnumbered females, 52% to 48%.
- 95% of TELPAS participants were Hispanic, and 93% were coded as economically disadvantaged.
- 92% of the students tested were served through either a bilingual or ESL program, while only 6% had a parental waiver for exclusion from any specialized linguistic services.
- Of the students tested in grades 1–12, the largest group consisted of those in U.S. schools for at least five years (26%). First or second semester immigrants made up a combined 22%.

Table 4: HISD TELPAS Results: Number and Percent at Each Proficiency Level, 2008

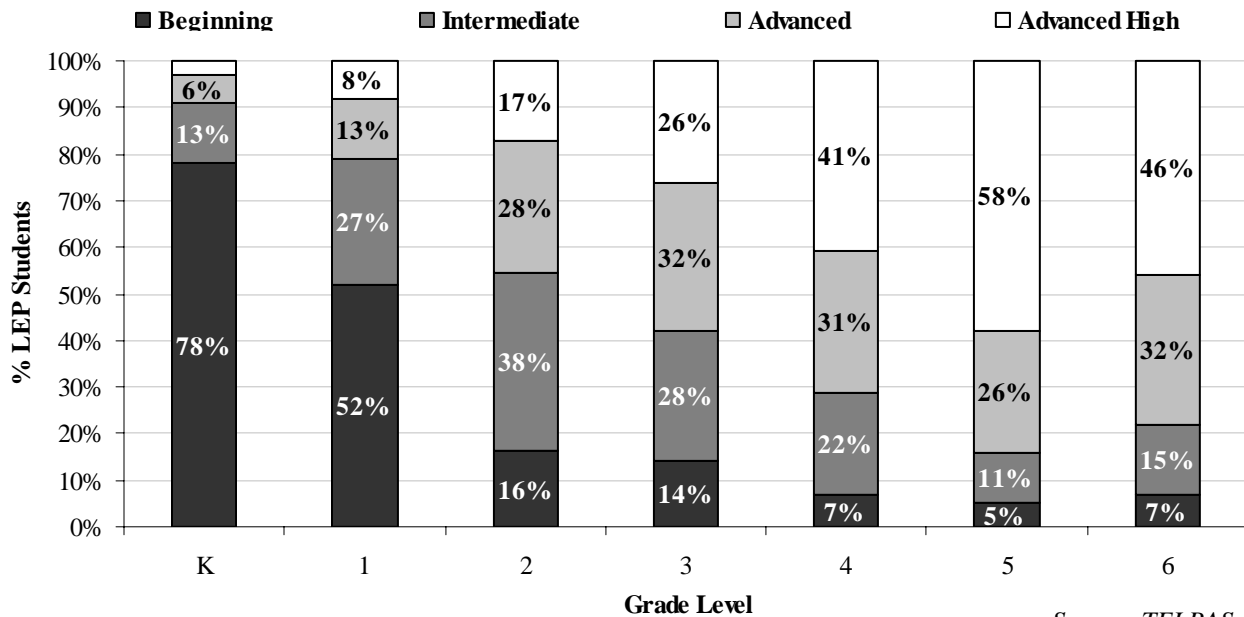

Grade	Number Tested N	Beginning		Intermediate		Advanced		Advanced High		Composite Score
		N	%	N	%	N	%	N	%	
K	7,516	5,844	78	1,011	13	424	6	237	3	1.4

Source: TELPAS

Results

Attainment

The second AMAO requires that ELL students achieve a specified overall level of English proficiency. A cross-sectional examination of TELPAS performance data is presented in **Table 4**. The number of ELL students tested and the number and percent at each composite proficiency rating is presented by grade level. There are different target levels for grades K–2 and 3–12 (2.5% and 26%, respectively). **Figure 1** presents the attainment data for grades one through six in visual format, which nicely illustrates the gain in English language proficiency typically observed as ELL students progress grade levels.

Source: TELPAS

Figure 1: Distribution of proficiency ratings for LEP students in 2008, grades K through 6.

- Among ELL students in grades K–2, 9% achieved a TELPAS composite rating of Advanced High. This exceeds the target of 2.5% as established for the attainment AMAO.
- Among ELL students in grades 3–12, 39% achieved a TELPAS composite rating of Advanced High. This also exceeds the AMAO standard for this student group (25%).

Additional Information

Among ELL students in grades K–2 who were enrolled in a bilingual program, 6% achieved a proficiency level of Advanced High. Bilingual students in grades 3–12 had an Advanced High rate of 40%. Both these values meet the AMAO standards. For K–2 students enrolled in an ESL program, 24% achieved a proficiency level of Advanced High. In addition, 39% of ESL students in grades 3–12 reached the Advanced High level. ELL students in both programs thus surpassed the AMAO attainment standards for 2008 (note that the standards apply to ELLs as a group, not to individual programs)⁴.

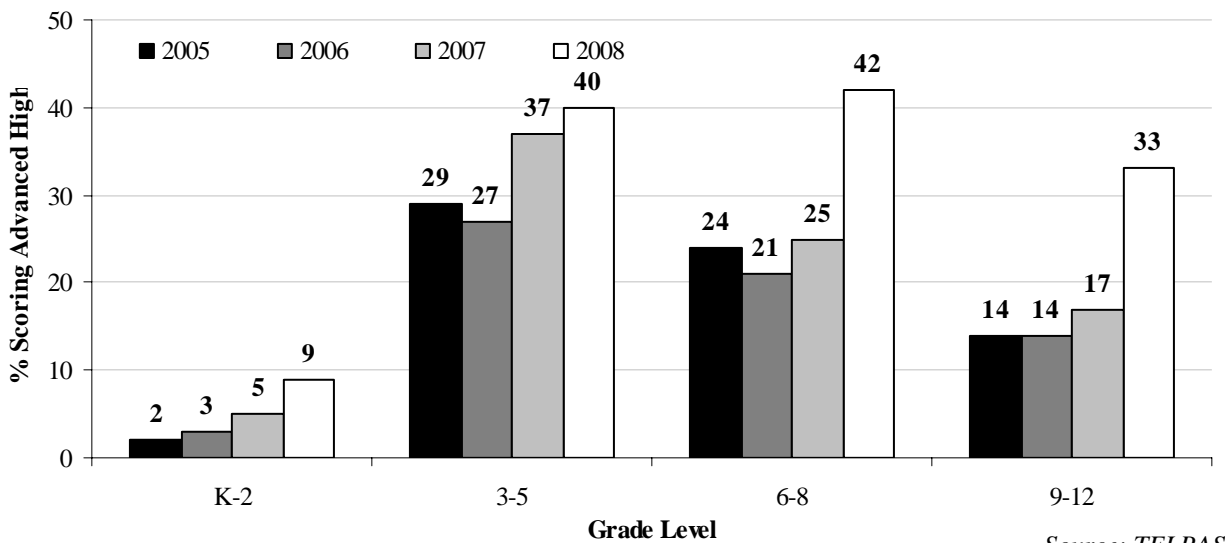

For comparison purposes, **Figure 2** (see below) summarizes district results on TELPAS attainment from the past four years. As noted earlier, care is warranted when comparing data from 2008 to that obtained under the previous version of the TELPAS. It is clear, however, that more of the district’s ELLs achieve ratings of Advanced High under the new version of the TELPAS than was the case in previous years.

Students Enrolled 5 or More Years

As mentioned previously, successful performance on the TELPAS is determined in part by annual increases in the level of English language proficiency. In order to identify ELL students whose English language development has stagnated, **Table 5** (see next page) shows TELPAS attainment performance of students who have attended a U.S. school for at least five years.

Attainment

- As Table 5 shows, most ELL students enrolled in U.S. schools five years or longer obtained a proficiency level of Advanced or better on the TELPAS (83%).
- The average composite score for fourth through twelfth grade ELL students enrolled in a U.S.

Source: TELPAS

Figure 2: Percentage of LEP students with composite score of Advanced High, 2005 through 2008.

Table 5: ELL Students Attending U.S. Schools Five Years or Longer: Number and Percent at Each Proficiency Level, 2008

Grade	Total # Tested	Enrolled in U.S. School 5 yrs or More		Beginning		Intermediate		Advanced		Advanced High		Composite Rating
		N	%	N	%	N	%	N	%	N	%	Avg.
4	5,587	1,090	20	74	7	309	28	353	32	354	32	2.9
5	4,461	3,588	80	70	2	289	8	937	26	2,292	64	3.5

Source: TELPAS

school for five years or longer was 3.3. This indicates that on average, these students achieved an Advanced level of English language proficiency. In fact, each individual grade level for this group achieved an average composite score of “Advanced”.

- 51% of ELL students in U.S. schools five years or longer had a proficiency rating of “Advanced High”.
- The proportion of “Advanced High” ratings was highest in fifth grade, 64%.

TELPAS & Academic Achievement

The goal of multilingual programs offered by HISD is to facilitate the entry of LEP students into the regular school curriculum and provide them equal access to educational opportunities. Implicit in this approach is the belief that students who do not achieve acceptable levels of English language proficiency will not be as successful as their peers when they are assessed for skills and knowledge in a variety of academic areas. Included in this section are the results of a set of analyses examining the relationship

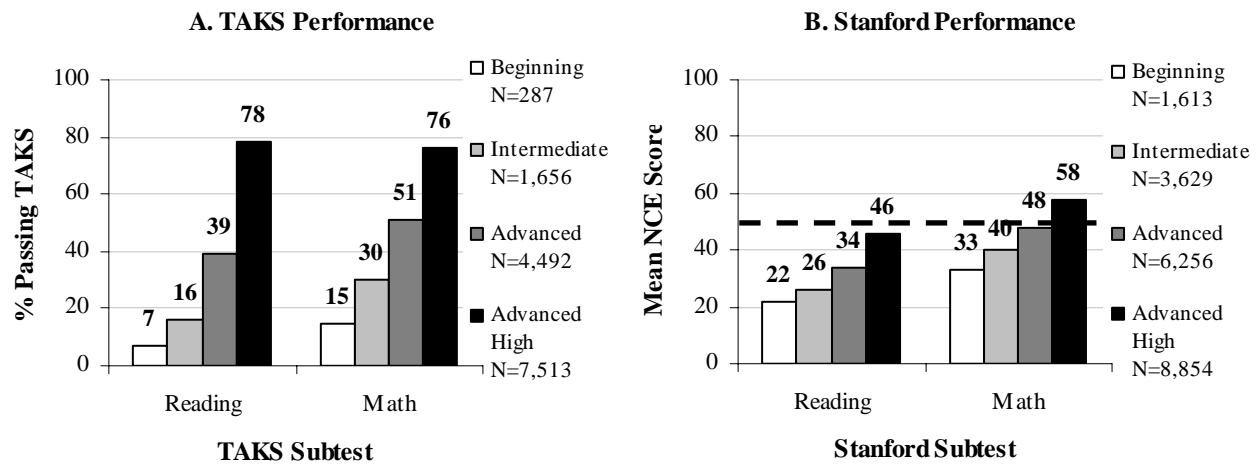

Figure 3: TAKS and Stanford performance of LEP students as a function of TELPAS proficiency rating.

between English language proficiency, as measured by the TELPAS, and academic achievement, as measured by the English TAKS and Stanford 10. All data shown are from the 2007–2008 school year.

Figure 3 (see p. 9) shows LEP student TAKS and Stanford performance as a function of their overall proficiency rating on the TELPAS. Results are shown separately for TAKS (Figure 3a) and Stanford (Figure 3b). All LEP students enrolled in HISD in 2007–2008 who took both the TAKS (or Stanford) and the TELPAS are included. **Figure 3a** shows that the percentage of LEP students passing the reading and mathematics portions of the English TAKS increased dramatically as overall TELPAS proficiency level increased. Indeed, passing rates on the TAKS do not begin to approach the overall HISD performance levels unless a student is rated as Advanced High on the TELPAS (passing rate of 78% for reading and 76% for mathematics). Even those students rated as Advanced on the TELPAS have average TAKS passing rates of only 39% in reading and 51% in mathematics. **Figure 3b** shows comparable results for LEP students who took the Stanford. On both the reading and mathematics portions, there is a clear relationship between TELPAS proficiency level and mean NCE score (the dotted line in Figure 3b represents the expected mean score, i.e., an NCE of 50). These results replicate findings from previous years,

Table 6: State and District Composite TELPAS Ratings, Spring 2008

		Number Tested	Beginning	Intermediate	Advanced	Advanced High	Average Composite Score

Source: TELPAS

and serve to illustrate the link between English language proficiency and academic achievement for ELL students.

Comparison of HISD to Statewide Performance

Attainment

District versus statewide TELPAS overall composite rating results are presented in **Table 6** (see p. 10). Specifically, the number of students tested and the percent who achieved each proficiency level are included (HISD figures are those previously reported in Table 4).

- Although HISD exceeded the attainment AMAO target for ELL students in grades K–2, the state far exceeded the 2.5% target and outperformed the district by seven percentage points (see the shaded area in Table 6).
- The district exceeded the standard for the attainment AMAO for ELL students in grades 3–12; however performance was six percentage points below the State’s level (see the shaded area in Table 6).

Additional Information

HISD districtwide attainment figures were lower than those for the state for every grade except grades five and six⁵. Among ELL students in grades K–2 enrolled in an ESL program, 28% at the state level achieved a proficiency level of Advanced High, compared to 24% for the district. Among K–2 students in a bilingual program, a higher percentage of students statewide (10%) achieved a proficiency rating of Advanced High as compared to HISD (6%). Among ELL students in grades 3–12 who were enrolled in an ESL program, 46% of students in the state achieved a proficiency rating of Advanced High, compared to 39% for the district. For grade 3–12 students enrolled in a bilingual program, the advantage for the State was only 2 percentage points (42% versus 40%). The State had a higher percentage of both second (12% versus 6%) and first semester immigrants (19% versus 11%) rated as Advanced High. Finally, among ELL students in grades 4–12 who were enrolled in U.S. schools five years or longer, 51% in the state as well as 51% in the district achieved a proficiency rating of Advanced High.

Summary of Campus-level Results

While progress and achievement are calculated at the district level for accountability purposes, it is useful to know where campuses rank in relation to AMAO performance targets. This information can be used to observe best practices among the highest ranked campuses and to focus intervention efforts at campuses demonstrating the greatest need. **Table 7** (see p. 12) provides a rank order of the highest and lowest performing campuses based on the attainment AMAO, i.e., the percentage of students who received a composite proficiency rating of Advanced High. Data are shown separately for the four major programs offered by the district; traditional, developmental, and two-way bilingual, and ESL.

Note that Table 7 excludes campuses where 10 or fewer students were tested. Note also that some campuses may offer more than one type of program, and that a campus’s ranking can vary from program to program. It is possible, for example, for a campus to be among the more highly ranked in one type of program but also to be among the lowest ranked in a different program.

Complete summaries of campus-level program performance are provided starting on page 15, and detailed campus level results are included at the end of this report. Among the highlights from the summary rankings shown in Table 7 are the following:

- Rodriguez ES was the only campus to be among the highest ranked in two different programs, traditional (79% Advanced High) and two-way bilingual (33%).

Table 11. Campus Rank Order, TELPAS Attainment Results Spring 2008*

Ranking Level	Bilingual Programs						ESL Programs

Source: TELPAS, Chancery * attainment defined as % of students with composite rating of Advanced High

- Frost ES was the only campus among the lowest ranked in multiple programs (traditional bilingual and ESL).
- Three campuses were among the most highly ranked in one program, but were also among the lowest ranked in a different program; Scarborough ES, Briscoe ES, and Kennedy ES.
- Eight campuses were among the most highly ranked in at least one program for the second consecutive year; Rice School ES, Bellfort ES, J.P. Henderson ES, Oates ES, Herrera, ES, Emerson ES, Pugh ES, and Burbank MS.
- Ten campuses were among the lowest ranked campuses in at least one program for the second consecutive year; Osborne ES, Mading ES, Law ES, Lewis ES, Sugar Grove ES, Briscoe ES, Herod ES, Northline ES, Kelso ES, and Energized for Excellence ES.
- Traditional Bilingual: Rice School ES was among the top ranked campuses in attainment for the second consecutive year, while Osborne ES and Mading ES were among the lowest ranked for the second consecutive year.
- Developmental Bilingual: Henderson ES and Oates ES were among the top ranked campuses in attainment for the third consecutive year, while Lewis ES and Sugar Grove ES were among the lowest in attainment for the second year in a row.
- Two-Way Bilingual: Herrera ES was among the top ranked campuses in attainment for the third consecutive year. Briscoe ES, Herod ES, and Northline ES were among the lowest in attainment for the second consecutive year.

- ESL: Pugh ES, Robinson ES, and Lyons ES were among the top ranked in attainment for the second consecutive year. Kelso ES was among the lowest ranked for the second year in a row.
- Two campuses (Halpin ECC and Energized for Excellence PK) had attainment percentages of 0%, but they tested only ELL students at the Kindergarten level.

For more information on the TELPAS system or the AMAO related to this assessment, please refer to the Research Brief entitled, *2008 Texas Education Agency Texas English Language Proficiency Assessment System (TELPAS)* available through the Research and Accountability Department.

ENDNOTES

- ¹ The TELPAS Reading assessment discussed in this section refers only to the multiple-choice, written version which is administered to ELL students in grades 2 through 12. ELL students in grades K and 1 also have an assessment that is referred to as “TELPAS Reading”, but it is based on teacher’s holistic ratings. For ease of explication, the holistically rated sections of the TELPAS are all discussed in a separate section below.
- ² It is important to note that reaching Advanced High on the TELPAS composite score is a not a criterion for exit from LEP status. The program exit criteria are delineated in Chapter 89 of the Texas Administrative Code and specify that TELPAS performance can only be considered as a criterion for program exit under very limited circumstances. Specifically, the TELPAS Writing score can be used to fulfill the writing portion of the exit criteria, but only at those grade levels where TAKS Writing scores are not available (i.e., grades 4 and 7). LEP students must achieve a TELPAS-W rating of Advanced High, in addition to meeting all other criteria in the areas of reading and oral language proficiency.
- ³ Monitored students are defined in TAC § 89.1220(L) as a student in their first or second year of reclassification as non-LEP in PEIMS.
- ⁴ Monitored AMAO standards apply to the district as a whole, and not to subgroups of ELL students. Nevertheless, they can provide useful benchmarks to explore the relative performance of different special language programs.
- ⁵ While it is useful to know how the district ELL students perform on the TELPAS compared to the State overall, there are two caveats that should be considered before drawing conclusion as to the relative effectiveness of district special language programs. First, TELPAS performance reveals only the English proficiency of current ELL students. True success of any program needs to consider the long-term academic performance of ELLs, i.e., it needs to consider how they do after they have exited ELL status. The evaluation reports for the district’s special language programs provide ample evidence that exited ELLs do at least as well as, and usually better than, average district performance. This cannot be seen by focusing only on TELPAS performance of current ELLs. Secondly, HISD has more ELL students enrolled in bilingual programs than in ESL programs. At the state level, the opposite is true; the majority of ELLs in Texas are in ESL programs. There is a sizeable body of research illustrating that ESL programs may lead to larger initial gains in English proficiency than do bilingual programs, and the present summary data at both the state and district level support this. However, in the long run, bilingual programs lead to more success for former ELLs. Each of these points is discussed in detail in the district’s *2008 Bilingual And English as a Second Language Program Evaluation Report*, which is available from the Research and Accountability Department as well as on the Department’s website.
