MEMORANDUM July 14, 2017

TO: Board Members

FROM: Richard A. Carranza
Superintendent of Schools

SUBJECT: **DISTRICT AND SCHOOL RESULTS FROM THE SPRING 2017 STAAR ASSESSMENTS FOR GRADES 3 THROUGH 8**

CONTACT: Carla Stevens, (713) 556-6700

In spring 2017, over 90,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science and social studies. At grades 3-8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

This report provides the results for the spring 2017 assessments of STAAR, STAAR Spanish, and STAAR Alternate 2 for Students with Disabilities.

STAAR Exam Versions

In 2017, there are two versions of the STAAR exams offered to students in grades 3–8:

- **STAAR** is available to all students in grades 3–8 who do not qualify for the STAAR Alternate 2 assessment. A Spanish version is available for grades 3–5.
    - The STAAR test now includes accessibility features and designated supports for students. Subsequently, the STAAR L (Linguistically Accommodated) and A (Accommodated) test versions are no longer administered.
    - To comply with HB 743, TEA shortened each STAAR test in grades 3–8 by 5 to 14 questions. The reductions did not change the tested curriculum, scale scores, or performance standards.
- **STAAR Alternate 2 (STAAR Alt. 2)** is an assessment for students in grades 3–8 with significant cognitive disabilities receiving special education services.

To provide more accurate year-to-year comparisons, previous STAAR administration results have been updated to include STAAR L and A test versions.

Key Findings:

- The percentage of HISD students scoring at or above the Approaches Grade Level Standard increased from 2016 to 2017 in Mathematics and Science; decreased in Reading, and stayed the same in Writing and Social Studies (STAAR English only).
- HISD performance at or above the Approaches Grade Level Standard is lower than that of the state across all subjects and grade levels. (STAAR English only).
- HISD showed increases in ten of seventeen grade/subject assessments while the state showed improvements in nine grade/subject assessments at or above the Approaches Grade Level Standard (STAAR English only).

- The percentage of HISD students scoring at or above the Meets and Masters Grade Level Standards increased from 2016 to 2017 in Reading, Mathematics, Science, and Social Studies but decreased in Writing (STAAR English and Spanish combined).
- The district had higher percentages of Asian and White students scoring at or above the Approaches Grade Level Standard than African-American or Hispanic students across all grade levels and subjects. The gaps have closed slightly in Mathematics and Science but remained mostly the same in Reading and Writing while increasing slightly in Social Studies (STAAR English and Spanish combined).
- The percentage of economically disadvantaged students in grades 3–8 combined scoring at or above the Approaches Grade Level Standard decreased in Reading and Writing, stayed the same in Social Studies, and increased in Mathematics and Science between 2016 and 2017. Over the same period the percentage of economically disadvantaged students in grades 3–8 combined scoring at or above the Meets and Masters Grade Level Standards increased in Reading, Mathematics, Science, and Social Studies (STAAR English and Spanish combined).

Administrative Response to the 2017 STAAR results for grades 3–8:

Elementary Curriculum and Development
While the Elementary Curriculum and Development team celebrates gains in grades 3-5 mathematics and grade 5 science scores, it is acknowledged that more work needs to be done around reading and writing. In response to the grades 3-5 STAAR Reading and Writing results, Elementary Curriculum and Development will implement the following actions to support campuses and increase student achievement:

- Plan and provide ongoing Literacy By 3 training for campus principals and instructional leaders. This work will center around Literacy By 3 best practices, increasing teacher capacity, and providing effective coaching and feedback.
- Continue to provide Writer's Workshop, particularly in Grades K-2, in an effort to build teacher capacity in the area of writing instruction.
- Actively participate in weekly literacy observation walks to provide prescriptive feedback and determine next steps.
- Strategically address and support campuses who have recently been removed from Improvement Required (IR) status.
- Develop and implement a plan of support for campuses who, based on STAAR 2017 results, are in danger of becoming IR.
- Teach, model, and practice complex thinking and vocabulary development through the use of authentic literature and open-ended questions.

Secondary Curriculum and Development
While the Secondary Curriculum and Development team celebrates gains in mathematics, grade 7 reading and writing, and grade 8 science, it is acknowledged that more work needs to be done around literacy interventions for students reading below grade level in middle schools. Literacy in the Middle work will continue in grades 6, 7, and 8 to support teachers as they differentiate instruction for learners at all levels. While students scoring at the Meets Grade Level and Masters Grade Level standards are showing growth, students who need interventions will need sustained, consistent strategies to address gaps, and this will take time. Curriculum for middle school students will be updated to increase resources for intervention, continue to

promote best mathematics practices with calculators, and provide teachers with guides to set up differentiated learning environments in all core content areas.

Schools Office

- The increases in reading, math, social studies, and science scores in all grade levels (with the exception of 6th grade reading and math) at the Meets Grade Level and Masters Grade Level standards indicates that teachers are responding to the rigor of STAAR and more students are mastering at the increased levels.
- There were still significant gaps in the proportion of students who met standard across racial/ethnic groups. Therefore, continued professional development is needed for campus leaders and teachers to ensure Hispanic and African American student needs are met as compared to their White and Asian counterparts.
- In math, African American students in all grade levels showed improvement at the Approaches Grade Level Standard.
- In math, ELL students in all grade levels showed improvement at the Approaches Grade Level, Meets Grade Level, and Masters Grade Level standards.
- In math, teachers need to continue teaching the lesson at the appropriate level of rigor and support new learning for those that are struggling, while deepening learning for those that have already demonstrated mastery.
- In reading, teachers need to improve their abilities to choose texts that align so that all students will be able to exhibit concept mastery with a “just right book”.
- The Schools Office is dissecting data to identify campuses that excel with closing the achievement gap for various demographic groups. Best practices at these campuses will be noted and shared.
- The Schools Office will facilitate feeder pattern conversations between elementary and middle schools to mitigate the academic performance declines in scores at the 6th grade level.
- During Professional Learning Series (PLS), teachers and leaders were given in-depth training on Intervention Assistance Team (IAT) processes and best practices. These processes will better address student academic and social skill deficits throughout the school year and accelerate learning rather than remediate failure. Professional development to deepen learning and further refine IAT practices and processes will be ongoing. Monitoring for implementation fidelity is already scheduled and will be done in collaboration between Schools Offices and the IAT Curriculum Managers.
- The monitoring of quality ESL instruction and the application of instructional accommodations will be continued foci.
- The elimination of STAAR versions for English Language Learners (ELL) and Special Education students creates a need to provide increased online instructional opportunities. Schools Office will ensure that accommodations are provided routinely in both instruction and assessment.
- The Schools Office and the Curriculum departments will collaborate to continue implementation and support of Literacy By 3 and Literacy in the Middle for 2017-2018.

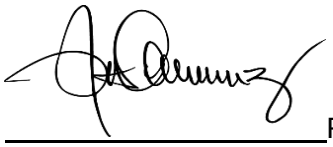

Office of Special Education Services

The Office of Special Education Services will continue to meet the needs of schools and students by:

- Providing targeted instructional support to campus-based special education personnel specific to implementing special education services for students with disabilities;

- Providing targeted support to special education teachers with the development of Individualized Education Programs that are aligned with grade level curriculum (Texas Essential Knowledge and Skills);
- Creating a Full and Individualized Evaluation (FIE) summary page to inform teachers of students' cognitive strengths and instructional strategies to support those strengths;
- Supporting teachers with providing accommodations with fidelity; and
- Implementing restorative discipline practices for students with and without disabilities to increase student engagement and participation in academic opportunities.

Should you have further questions, please contact Carla Stevens in the Department of Research and Accountability at (713) 556-6700.

District and School Results from the State of Texas Assessments of Academic Readiness (STAAR) Grades 3–8, Spring 2017

In spring 2017, over 90,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science and social studies. STAAR is the state testing program that was implemented in the 2011–2012 school year. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed the STAAR program in response to requirements set forth by the 80th and 81st Texas legislatures. STAAR is an assessment program designed to measure the extent to which students have learned and are able to apply the knowledge and skills defined in the state-mandated curriculum standards, the Texas Essential Knowledge and Skills (TEKS).

At grades 3–8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

STAAR Exam Versions

In 2017, there are two versions of the STAAR exams offered to students in grades 3–8:

- **STAAR** is available to all students in grades 3–8 who do not qualify for the STAAR Alternate 2 assessment. A Spanish version is available for grades 3–5.
    - The STAAR test now includes accessibility features and designated supports for students. Subsequently, the STAAR L (Linguistically Accommodated) and A (Accommodated) test versions are no longer administered.
    - To comply with HB 743, TEA shortened each STAAR test in grades 3–8 by 5 to 14 questions. The reductions did not change the tested curriculum, scale scores, or performance standards.
- **STAAR Alternate 2 (STAAR Alt. 2)** is an assessment for students in grades 3–8 with significant cognitive disabilities receiving special education services.

To provide more accurate year-to-year comparisons, previous STAAR administration results have been updated to include STAAR L and A test versions.

STAAR Testing Incidents

During the STAAR 5 and 8 Reading administration on March 29, 2017, a tornado warning was issued for Harris county. Twenty-one campuses suspended testing until the inclement weather passed. Three campuses could not continue testing due to the weather: Bonham, Herrod, and Sutton Elementary Schools. This disruption of the testing environment may have adversely impacted student performance, therefore any comparisons to prior performance on the STAAR 5 and 8 Reading tests should be made with caution.

STAAR Standards

An amendment to TAC 19 §101.3041 halted the planned standard phase-in process and established the 2016 progression, final recommended, and advanced standards as the final set of performance standards for all STAAR 3–8 exams. In addition, the proficiency level descriptors were updated as shown below:

Proficiency Level Descriptor	2012–2016 Public Label	New Proficiency Level Descriptor and Public Label
Level I	Unsatisfactory	Does Not Meet Grade Level
Phase-in Level II/2016 Student Standard	Satisfactory	Approaches Grade Level
Final Level II	Postsecondary Ready	Meets Grade Level
Level III	Advanced	Masters Grade Level

Performance at the Approaches Grade Level standard or above meets the minimum Student Success Initiative (SSI) promotion criteria for grades 5 and 8.

STAAR Administrations

The STAAR assessment calendar is shown below and it displays the various districtwide tests administered during the spring of 2017 for students enrolled in grades 3–8. All STAAR tests have a four-hour time limit; however, students who meet eligibility criteria may have accommodations for extra time or an extra day.

2016-2017 STAAR ASSESSMENT CALENDAR Grades 3-8, Spring 2017		
Test Date(s)	**STAAR Subject**	**Grade Levels**
March 28, 2017	Writing Mathematics	Grades 4 and 7 Grades 5 and 8
March 29, 2017	Reading	Grades 5 and 8
May 8, 2017	Mathematics	Grades 3, 4, 6, and 7
May 9, 2017	Reading	Grades 3, 4, 6 and 7
May 10, 2017	Science	Grades 5 and 8
May 11, 2017	Social Studies	Grade 8

Source: TEA Student Assessment Calendar

Figures and Tables:

- **Tables 1–3** provide two-year comparisons between HISD and state results for STAAR English and two-year comparisons for HISD for STAAR English and Spanish combined.
- **Tables 4a and 4b** present two-year gap analyses between student groups by economic status.
- A detailed look at the number of special education students by test version is presented in **Table 5**.
- **Figures 1–18** provide STAAR performance comparisons by grade, subject, race/ethnicity, student group (students with disabilities, English language learners, gifted and talented, economically disadvantaged), and test version (STAAR English, Spanish, and Alternate 2).
- **Figures 19–21** present STAAR progress measure performance of students in reading and mathematics on the English and Spanish assessments.
- **Figures 22–24** present STAAR progress measure performance of students whose prior year performance on the same subject and previous grade level did not meet the Approaches Grade Level Standard.
- **Figure 25** provides percentile performance based on the performance of all Texas students who took the test last year.
- **Appendices A-F** provide campus listings of results with multiple comparisons based on test versions and student groups.
- Back pages of the report provide two years of available data by campus.

Key Findings for STAAR English:

- The percentage of HISD students scoring at or above the Approaches Grade Level Standard increased from 2016 to 2017 in Mathematics and Science; decreased in Reading, and stayed the same in Writing and Social Studies. **(Tables 1–3)**
- HISD performance at or above the Approaches Grade Level Standard is lower than that of the state across all subjects and grade levels.
- HISD showed increases in ten of seventeen grade/subject assessments while the state showed improvements in nine grade/subject assessments at or above the Approaches Grade Level Standard. (Tables 1–3)
- The 2017 district STAAR first administration Reading results at or above the Approaches Grade Level Standard decreased (65% to 63%) when compared to 2016. Grades 3, 4, 6, and 8 results declined for the same period (one, seven, two, and three percentage points, respectively). Grades 5 and 7 results increased for the same period (one and three percentage points, respectively). (Table 1)
- The 2017 district STAAR first administration Mathematics results at or above the Approaches Grade Level Standard increased (66% to 69%) when compared to 2016. All grade levels increased at least two percentage points. The largest increase was in fifth grade which increased six percentage points (70% to 76%). (Table 2)
- There was no change in district writing performance at or above the Approaches Grade Level Standard between 2016 and 2017 (61%). Grade 4 decreased three percentage points (61% to 58%), while Grade 7 increased three percentage points (61% to 64%) over the same period. (Table 3)
- District science performance at or above the Approaches Grade Level Standard increased two percentage points (65% to 67%). (Table 3)
- Grade 8 social studies performance at or above the Approaches Grade Level Standard remained the same between 2016 and 2017 (53%). (Table 3)

Key Findings for STAAR English and Spanish Combined:

- The percentage of HISD students scoring at or above the Meets and Masters Grade Level Standards increased from 2016 to 2017 in Reading, Mathematics, Science, and Social Studies but decreased in Writing. **(Figure 1)**
- The district had higher percentages of Asian and White students scoring at or above the Approaches Grade Level Standard than African-American or Hispanic students across all grade levels and subjects. The gaps have closed slightly in Mathematics and Science, remained mostly the same in Reading and Writing, and increased in Social Studies. **(Tables 4a and 4b and Figures 6 and 7)**
- The percentage of English Language Learners (ELLs) in grades 3–8 combined scoring at or above the Approaches Grade Level Standard increased in Mathematics, Writing, Science, and Social Studies but remained the same in Reading between 2016 and 2017. **(Figure 10)**
- The percentage of economically disadvantaged students in grades 3–8 combined scoring at or above the Approaches Grade Level Standard decreased in Reading and Writing, stayed the same in Social Studies, and increased in Mathematics and Science between 2016 and 2017. Over the same period the percentage of economically disadvantaged students in grades 3–8 combined scoring at or above the Meets and Masters Grade Level Standards increased in Reading, Mathematics, Science, and Social Studies. **(Figure 15)**
- The percentage of students in grades 4–8 combined achieving Expected or Accelerated Progress decreased in Reading (61% to 57%) but increased in Mathematics (61% to 62%). **(Figure 19)**
- TEA began reporting percentile ranks for STAAR results in 2017. Figure 25 displays the percentage of HISD students scoring at or above the 50th percentile in each grade level and subject. Because the 50th percentile represents average performance for all students in the state (based on 2016 results), this figure shows that HISD students scored at or slightly above the state average in Mathematics (50

percent) and less than half of the students scored at or above the state average in Reading (43%), Writing (43%), Science (44%), and Social Studies (40%).

** if fewer than 5 students tested.*
Excludes STAAR Alt. 2 test version.
Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.

Source: TEA-ETS STAAR Summary Reports; 1st Administration Only
** if fewer than 5 students tested.*
Excludes STAAR Alt. 2 test version.
Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.

** if fewer than 5 students tested.*
Excludes STAAR Alt. 2 test version.
Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.

Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.

Source: TEA-Pearson-ETS STAAR Student Data File

Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.

Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.
Excludes STAAR Alt 2 Test.

Source: TEA-ETS STAAR Student Data Files

Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions.
All data reflect the most current data available and may differ slightly from data previously reported.
Due to only students with STAAR Progress Measures being included the number tested is lower than for performance results.
Excludes STAAR Alt 2 Test.

Headings in individual subjects: % at or above Approaches (%Ap), Meets (%Me), and Masters (%Ma) Grade Level. % at or above Expected (%Exp+) and Accelerated (%Acc) Growth. % Met and Exceeded (%Exc.) Growth.
For grades and subjects with multiple test administrations, the first administration results are used. ***Fewer than 5 students tested** **Green-shaded area reflects state passing standard for that year.**
