

Addendum #1

Contract services for high quality curricular resources for Mathematic Products, Resources and/or Manipulatives to Support Mathematics Instruction Aligned to CCSS K-12 (SY22)

Issue Date: Friday, December 4, 2020

Bids Due: Friday, December 18, 2020

- Will products be considered that have not been submitted to EdReports?
 - For mathematics, the resources must have been reviewed by EdReports for consideration.
- Is the bid requesting materials for K-12 or just 9-12? The title of the bid suggests K-12 but page 7, item 1 requests information for just 9-12 materials.
 - We will review supplementary materials (Tier 3) for grades K-8, but for grades 9-12, we are reviewing core instructional materials for mathematics (as well as supplementary).
- Due to the fact that delivery companies are not guaranteeing delivery, is there an option for electronic delivery? Will you accept electronic signatures for this submission?
 - I was informed by our procurement office that all responses to RFPs must be delivered in hard copy.
- Our Company was awarded under PVD19-45 in 2019, which appears to have renewal terms remaining. Will contracts awarded under the previous RFP be renewed or do we need to submit a response to the current solicitation in order for our products to remain available to the District?
 - I encourage you, even though you have an existing contract with PPSD, to apply to the newest round of solicitations as we look to potentially standardize both curriculum and the timeline of contracts across schools and subject areas.
 - The most up-to-date information about what your company has to offer in its resource should be submitted. If there are any updates to your resource – particularly with the distance learning aspect – then you should submit to this new solicitation.
- Will responses that do not include PreCalculus be considered?
 - Yes, responses that do not include PreCalculus will be considered.
- Is the district interested in an Integrated approach, or only the traditional Algebra I-Geometry-Algebra II?
 - If possible, please submit both proposals for an Integrated approach and traditional.

- For pricing, should we include digital only, or would you like to see bundles with print + digital?
 - For pricing, please include both options.
- Do you want to see pricing options that include ALEKS, or would the district rather purchase a site license for ALEKS?
 - For ALEKS, please include pricing options for both options.
- Lastly, we would like to submit 2 programs for consideration. Would you prefer that they be submitted separately, or may we put them together in one response, so long as they are clearly separated?
 - Please submit the program proposals separately.
- Physical manipulatives to be used with our curriculum are sold through a separate partner vendor. Should that partner vendor submit a separate bid?
 - Yes, the vendor should submit a separate bid.
- Should the vendor submit a completed and signed Educational Technology Company Agreement with the proposal, or will this be completed and signed upon award?
 - It will be completed upon award.
- Is this bid only for Grades 9-12 mathematics? The bid title says K-12, but Section II #1 only mentions 9-12.
 - We will review supplementary materials (Tier 3) for grades K-8, but for grades 9-12, we are reviewing core instructional materials for mathematics (as well as supplementary).
- Would the lack of a three green light EdReports review be grounds for immediate dismissal of the proposal?
 - Yes, for core curriculum we would require green in all areas.
- The RFP is a k-12 RFP but we noticed the first requirement mentions only grades 9-12. Is this a 9-12 only RFP or should we include Grades 6-8 course programs as well?
 - We will review supplementary materials (Tier 3) for grades K-8, but for grades 9-12, we are reviewing core instructional materials for mathematics (as well as supplementary).
- Is the RFP only for at grade level programs, not intervention programs?
 - The RFP can be for intervention programs as well.
- Given the public health situation, are electronic signatures acceptable for the RFP submissions?
 - Electronic signatures on a hard copy RFP submission are acceptable.
