SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Mount Pleasant Central School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

Behavioral Assessment Teams*) at each building to evaluate threats and implement the appropriate mitigation strategies. The District will provide support and record keeping for the activities of each team.
2. The District has established a building-level multidisciplinary Behavioral Assessment Team which assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Assessment Team convenes annually to conduct staff training sessions on the safety and emergency procedures of such team¹⁷
3. The District utilizes a multidisciplinary Behavioral Threat Assessment Team provided by the building School Psychologist(s), Social Worker and a consulting psychiatrist that assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Threat Assessment Team is available to the district whenever a threat is identified and requires evaluation.
4. Both the District Safety Team and the Building Safety Teams utilize table top exercises to discuss their roles during an emergency and their responses to a sample emergency situation.¹⁸
5. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
 - Emergency Responders
 - Regional BOCES
 - District Consultants

¹⁶155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited; (b) where applicable, the establishment and/or participation of, school or district staff in a multi-disciplinary behavioral assessment team to assess whether certain exhibited behaviors or actions need intervention or other support, including a school or district-level behavioral assessment team or, if available, a county or regional threat assessment team. Where such teams are utilized, the district-wide school safety plan shall describe the school, district, or county team and its purpose, and annual staff training on safety and emergency procedures shall include information regarding the purpose and procedures of such team. Where such teams are utilized, the district-wide school safety plan shall describe the school, district, or county team and its purpose, and annual staff training on safety and emergency procedures shall include information regarding the purpose and procedures of such team.

¹⁸155.15(4)(1)(xiv)(2) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

6. Training for school staff working in an incident control capacity may include:
 - a. Individual and group de-escalation techniques
 - b. Non-violent conflict resolution skills and
 - c. Peer mediation
7. The District may provide de-escalation techniques and nonviolent conflict resolution training to other staff annually. Each building has some staff trained in nonviolent conflict resolution.

These guidelines outline protocols for visitor management, crowd control, emergency preparedness, and coordination with law enforcement as needed. This detailed annex can be found in each confidential building-level safety plan.
 11. In compliance with recent legislation that established a plan to address extreme heat conditions, the district has developed a **Maximum Temperature in Schools Annex**. These plans include monitoring room temperatures, implementing heat mitigation strategies, and relocating students and staff when practicable. In the event of a heat emergency, the district will activate the protocols outlined in the Building-level Emergency Response Plans. The district will also address medical needs, transportation, and the emergency notification of parents and guardians as outlined in the Building-level Emergency Response Plans.

The school district's Code of Conduct is accessible to parents and students and reviewed with all students in the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed. All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

Trauma-Informed Approach: All drills conducted during the school day with students present will be conducted in a trauma-informed, developmentally, and age-appropriate manner. Props, actors, simulations, or tactics mimicking a school shooting, incident of violence, or other emergencies are strictly prohibited.²⁵ (Effective 7/31/24) The New York State Fire Code requires that the fire alarm be used in an evacuation (evacuate) drill, and it is not considered a prop.

Annual Training: Drills will be conducted only after annual training in emergency procedures has been provided to students and staff.

Varied Scheduling: Drills will be scheduled on different dates, days of the week, and during different times of the school day.²⁶

Exclusions for Unplanned Events: Unplanned evacuations or false alarms do not count as a required drill. Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation (evacuate) drill.²⁷

Student/Staff Notification: At the time that drills are conducted, students and staff shall be informed that the activities being conducted are a drill. Provided, however, that students and staff shall not be informed in advance of evacuation (evacuate) drills. (Effective 7/31/24)²⁸

Parental Notification: Parents or persons in parental relation will be given advance notice of each drill being conducted within one week prior to the drill.²⁹ (Effective 7/31/24) Procedures for notifying parents or persons in parental relation will include:

²⁴155.17(c)(1)(xiv) procedures for review and the conduct of drills, tabletop exercises, and information about emergency procedures and drills, including information about procedures and timeframes for notification of parents or persons in parental relation regarding drills and other emergency response training(s) that include students. At their discretion, schools and districts may participate in full-scale exercises in coordination with local and county emergency responders and preparedness officials.

²⁵ 155.17(c)(1)(xiv)(1) Drills conducted during the school day with students present shall be conducted in a trauma-informed, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.

Required Drills

Evacuation (Evacuate) Drills: Eight (8) evacuation (evacuate) drills will be conducted each year, with six (6) completed between September 1 and December 31. Four (4) of these drills must involve the use of fire escapes on buildings where fire escapes are provided or other secondary means of egress such as different corridors, hallways, stairways, and exit doors.^{30 31} Students will be instructed in the procedure to be followed in the event that a fire occurs during the lunch period or assembly. This instruction may be waived if a drill is held during the regular school lunch period or assembly³²

Lockdown Drills: Four (4) lockdown drills will be conducted annually, with two (2) completed between September 1 and December 31.

³⁰ 155.17(h)(i) Four drills shall be through the use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress, such as through different corridors, hallways, stairways, and exit doors. Drills shall be conducted at different times of the school day

³¹EL §807.1 four of the required drills must be through use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress

³²155.17(h)(ii) Pupils shall be instructed in the procedure to be followed if an emergency occurs during a lunch period or assembly, provided however, that such additional instruction may be waived where a drill is held during the regular school lunch period or assembly.

Emergency Dismissal Drill: One (1) emergency dismissal drill will be conducted to test early dismissal procedures, occurring no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting an evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.³³

Additional Evacuation (Evacuate) Drill Requirements

After-School Programs, Events, and Performances: For after-school programs, events or performances conducted within a school building that include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.³⁴

Optional Drills

Shelter-in-Place/Shelter and/or Secure Lockout Drills: While not required, each school in the District may conduct Shelter-in-Place/Shelter and/or Secure Lockout drills in addition to those drills required by New York State regulation. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

Full Scale Exercises: The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Exercises that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency may not be conducted on a regular school day and when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.³⁵

The district does NOT plan to conduct functional exercises with emergency response agencies that involve staff, students, and parents in drills using props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency. If this policy were to change in the future, any such exercises would NOT be conducted on a regular school day or when school activities such as athletics are occurring on school grounds. Additionally, NO students would participate in these exercises without written consent from parents or persons in parental relation.

³³ 155.17(h)(3) Emergency Dismissal drills shall test the usefulness of the communications and transportation system during emergencies.

³⁴ 807.1-a for after-school programs, events or performances conducted within a school building and include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.

³⁵ 155.17(c)(1)(xiv)(4) Schools and districts that opt to participate in full-scale exercises in conjunction with local and county emergency responders and preparedness officials that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency shall not conduct such exercises on a regular school day or when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.

Training and Review Processes

Training for Students: Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time, providing an opportunity for students to ask questions about any unclear procedures.

Building-level Emergency Response Planning Team and District Administration Team Training: Each Building-level Emergency Response Planning Team and representatives of the District administration engage in tabletop exercises facilitated by the district's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises.³⁶

Drill Review and Protocol Updates: In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.³⁷

Local Emergency Responder Involvement: The appropriate Fire and Police Departments may, upon mutual agreement with the District, participate in some or all evacuation (evacuate) and lockdown drills, offering feedback on the effectiveness of building evacuation during a fire and the overall effectiveness of lockdown procedures.

Special Provisions

Building Occupants with Special Needs: Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

Communication

Staff Information: Information about drills will be included in the teacher's manual or handbook as mandated by Education Law §807.2.

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

Effective July 1, 2025, the training will include a description of the roles and responsibilities of the Building-level Emergency Response Planning Team, the building-level Incident Command System including the roles and responsibilities of designated staff, and the building level-emergency response plan procedures for implementing the following required emergency response terms: shelter, hold, evacuate, secure lockdown, and lockdown. The required training shall also include the procedures for conducting drills, including whether classrooms will be released from lockdown by law enforcement or school or district administrators during drills, and the district and building policies, procedures, and programs related to safety including those which include components on violence prevention and mental health.³⁹

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use a single point of entry. All doors are locked. Main doors are controlled by remote entry during normal school hours.
2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to show identification, sign in and wear visitor identification. All visitors are screened by a Visitor Management Program.
5. Visitor access is limited to specific areas of the school building.

³⁸155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district's existing new hire training program, whichever is sooner;

³⁹Please note, the terminology in this paragraph has been pulled directly from the law language, and therefore the terminology remains shelter, hold, evacuate, secure lockdown, and lockdown.

VITAL EDUCATIONAL INFORMATION⁴⁰

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR⁴¹

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A "plain language" summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A "plain language" summary of the District's Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students may be involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.

⁴⁰155.17(2)(ix) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

⁴¹ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

7. Each of the District's school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SCHOOL SAFETY PERSONNEL ALLOCATIONS, HIRING, DUTIES, AND TRAINING

PRIVATE SECURITY AND SCHOOL RESOURCE OFFICERS

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

SECURITY ALLOCATIONS

Each school building within the district utilizes a single point of entry for visitors. Each single point of entry is staffed during normal school hours by a school greeter, one of several staff members or safety personnel assigned to the respective school building. Visitors to the school must be remotely granted access into the building, sign in through the district's electronic Visitor Management System and receive an identification badge issued by a greeter. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

Hiring

The interviewing and hiring of safety personnel follows the district's practices for hiring of new staff. All new staff employed by the District must be fingerprinted in order to be employed.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.mtplcsd.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

RESPONSE PROTOCOLS

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

SCHOOL CANCELLATION

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.
- The Public Information Officer will activate use of the District's mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

- Principal(s) will move all staff and students to pre-arranged shelter-in-place/shelter sites as outlined in building plans. They will report any missing staff or students.
- The Logistics Chief will make appropriate arrangements for human needs in the event of a long-term situation.

PROTOCOLS FOR RESPONDING TO BOMB THREATS, HOSTAGE-TAKINGS, INTRUDERS, ABDUCTION, AND OTHER EMERGENCY SITUATIONS

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the

discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.

5. Each building will have the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.

RESPONSES TO ACTS OF VIOLENCE⁴²

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Planning Team consisting of trained staff and school personnel may assist with an Evacuation (Evacuate), Secure Lockout, Shelter-in-Place/Shelter, Hold-in-Place/Hold, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal or emergency closure are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.⁴³
6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers and monitors, or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.

⁴² 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including consideration of zero-tolerance policies for school violence;

⁴³ 155.17(1)(ix) policies and procedures for contacting parents, guardians or persons in parental relation to the students of the district in the event of a violent incident or an early dismissal or emergency school closure

7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Planning Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁴⁴
10. The district has a zero-tolerance policy for acts of school violence.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

 - Visitors will not be permitted on campus.
4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:
 - Facilities will maintain inventory of PPE as recommended by the NYS Education Department guidelines, and continually restock same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer's storage recommendations for each item.
 - The equipment will be stored and readily available to any person in need of it.
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District's **Building Level Emergency**

Plan contains an **Infectious Disease Annex** which details:

- The disinfecting of any area known or suspected to be infected with the communicable disease as well as any common area surface and shared equipment such employee may have touched
- Available leave options, for the affected employee(s), in the event of an employee's need to receive testing, treatment, isolation, or quarantine

Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:
 - All entrances will be locked with guard staff posted.
 - All employees will use their access cards for entrance which documents their arrival on the premises.
 - Payroll, attendance, and time cards will further document an employee's presence on campus.
 - No other visitors will be allowed on site.

Such protocol shall be designed only to aid in the tracking of the disease and to identify the population of exposed employees in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the Mount Pleasant Central School District will lodge an essential employee at a local hotel bearing the full cost of the stay.

If there is a declared state disaster emergency involving a communicable disease that involves the Mount Pleasant Central School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. **OTHER:** Any other requirements determined by the Department of Health such as contact tracing, testing, physical distancing, hygiene, disinfecting, drill modifications, or mask-wearing.

Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Planning Teams members shall complete the incident command training level one.
2. All District Emergency Response Team members shall complete incident command training level one and level two.

EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.

1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction. No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner. The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote

instruction experience.

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

Services Provided by Agency/Vendor:

TOWN OF MOUNT PLEASANT AGREEMENT WITH THE MT. PLEASANT CENTRAL SCHOOL DISTRICT

The term of this agreement (the "Agreement") shall commence on the 1st day of September 2022 by and between the Mt. Pleasant Central School District (the "School District") and the Town of Mt. Pleasant (the "Town") as follows:

WITNESSETH:

WHEREAS, municipal corporations are authorized, pursuant to both Article 9, Section 1 of the State Constitution and Article 5-G of the General Municipal Law to enter into intergovernmental agreements;

WHEREAS, Article 5-G of the General Municipal Law specifically authorizes and encourages municipal corporations to enter into agreements with each other in order to provide cooperatively, jointly, or by contract any facility, service, activity, or undertaking which each participating municipal corporation has the power to provide separately; and

WHEREAS, the School District and the Town desire to set forth in this Agreement the terms by which the Mt. Pleasant Police Department (the "Police Department") shall patrol the schools operated by the School District as defined herein (the "Schools") during the school year.

NOW, THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

1. Scope of Services/Payment.

1.1. The Town through its Police Department agrees to employ one (1) police officer ("Police Officer") during the term of this Agreement who will be assigned to the schools made up of three (3) different properties – (1) Hawthorne Elementary School; (2) Columbus Elementary School; and (3) Westlake Middle/High School – the Schools. Such Police Officer shall be assigned to the Schools at the direction of the Police Department in coordination with the School District. It is understood and agreed that the Police Officer assigned to patrol the Schools shall be an employee of the Town. It is also understood that there will be one (1) Police Officer assigned to the Schools during the school year. The Town will identify one additional police officer ("Designated Substitute Officer") who will be assigned to the schools in the event that the Police Officer assigned to the Schools is absent (e.g., sick, training, emergency, vacation). The Police Department will use reasonable efforts to have the Designated Substitute Officer or any other police officer ("Substitute Officer") assigned to the Schools in place and stead of the assigned Police Officer when he/she is absent for any reason. It is understood and agreed, that in such a scenario, the Town, through its Police Department, does not guarantee that an officer will be available to specifically patrol the Schools on a given school day. Should the Town be unable to afford coverage by a Substitute Officer on any given school day, prompt notification will be provided by the Police Officer and/or the Town Supervisor to the Superintendent or the Superintendent's designee; and the quarterly amount owed by the School District to the Town pursuant to Section 1.2 below will be reduced accordingly pursuant to collaboration between the Superintendent and the Town Supervisor and/or their designees.

1.2. The assigned Police Officer and one Designated Substitute Officer will be trained at the Basic School Resource Officer Course recognized by the Division of Criminal Justice Service. Should the Town need to assign a Substitute Officer other than the Designated Substitute Officer to the schools on any given day, the Town will make a concerted effort to assign a Substitute Officer who has also completed the Basic School Resource Officer Course recognized by the DCJS. The Police Officer and Designated Substitute Officer, will meet all of the requirements for employment with the Police Department, and have been identified by the Police Chief as a prime candidate to meet the needs of the School District in promoting a safe environment for everyone in the school community; based upon his/her knowledge of applicable laws, capacity in police work, and demonstration of exemplary communication skills and temperament ideal to address the needs of the School District community.

1.3. The assigned Police Officer will familiarize himself/herself with the School District Code of Conduct, the School District Districtwide Safety Plan, and any policies or protocols of the School District identified by the Superintendent as being pertinent to the work of the Police Officer and the objective of this Agreement to afford all members of the School District community a safe place to work and learn.

1.4. The assigned Police Officer, as directed by the Police Chief, will perform all of the responsibilities of a Police Officer for the Town of Mt. Pleasant during his/her assignment to the Schools pursuant to this Agreement; and will keep in communication with the Superintendent or the Superintendent's designee as well as building leadership (Principal or designee) with respect to the following circumstances, if known, to the extent such acts are not inconsistent with his/her responsibilities as a law enforcement officer for the Town concerning:

- (i) any dangerous activity, accidents or other circumstances which may require action on the part of the School District and/or the Police Officer;
- (ii) the presence of any known unidentified guests at the Schools;
- (iii) information and material relevant to necessary School District investigation and documentation of incidents;
- (iv) matters of school and campus safety, on a schedule to be determined by the Police Officer and Superintendent or Superintendent's designee;
- (v) security personnel working at the School District and any concerns pertaining to any personnel member;
- (vi) access to community resources to members of the School District community;
- (vii) District initiatives consistent with the School District's Safety Plan;
- (viii) participation with the School District's Safety Plan Committee upon determination by the Supervisor and the Superintendent or their designees;
- (ix) identify any potential threat to the safety of any member of the School District community or to School District property, and collaborate with the Superintendent or the Superintendent's designee, and building leadership, to address the situation in a manner consistent with Police Department protocol, and in accordance with School District policy;

- (x) any need to transport any student or member of the School District community off campus for purposes of arrest or in furtherance of necessary law enforcement measures, and in accordance with Police Department protocols;
- (xi) any need to pursue a police investigation, interview, search or arrest procedures in connection with any member of the School District community; and,
- (xii) any need to call the Police Department for backup support in the course of law enforcement measures consistent with Police Department protocols, involving a member of the School District community.

1.5. In the course of fulfilling this Agreement, the Police Officer will comply with all laws and regulations governing maintenance of records and confidentiality of student education records, including but not limited to FERPA (Family Educational Rights and Privacy Act).

1.6. For and in consideration of the Town providing a Police Officer to the Schools as described herein, the Mt. Pleasant Central School District agrees to reimburse the Town as follows:

- (i) 
- (ii) The School District will pay a sum equal to Sixty (60) percent of the Town's costs, including but not limited to salary, overtime, holiday pay, shift differential, fringe benefits, equipment, and training. A cost breakdown will be presented to the District for the 2022-23 School Year prior to the time of Board of Education approval of this Agreement; and for each subsequent year for which the Parties decide to pursue extension of this Agreement.
- (iii) The cost of same and calculation regarding compensation to the Town was considered and determined based on multiple factors. The Chief of Police has consulted with the Town Supervisor and Town Comptroller and the School Superintendent had consulted with his staff and the Board of Education for the School District.
- (iv) 

2. Schedule/Facilities.

2.1 The maximum number of hours that the Police Officer shall be scheduled to patrol the Schools is forty (40) hours per week. Any amount of time wherein the Police Officer or Substitute Officer is assigned to patrol the Schools in excess of the forty (40) hours, shall be

deemed necessary and appropriate by mutual agreement of the Town Supervisor and the Superintendent and/or their designees; and any such additional hours shall be considered overtime, with said overtime to be paid solely and exclusively by the School District, in excess of the amount to be paid by the School District to the Town as per this Agreement.

2.2 The Police Officer shall be either dressed in police uniform or dressed in civilian attire with his/her police shield prominently displayed to the public, as determined by mutual agreement of the Town Supervisor and the Superintendent and/or their designees.

2.4 [REDACTED]

3. Term of Agreement.

The term of this Agreement is for one year commencing on September 1, 2022 and ending August 31, 2023. The Agreement may be renewed upon mutual consent of the parties for additional one (1) year periods upon the same terms and conditions set forth herein unless otherwise modified in writing by the parties.

4. Employment Status.

4.1 The Police Officer assigned to the School District shall be an employee of the Town for all purposes, including but not limited to, wage and hour, workers' compensation, and disability insurance purposes. The Workers' Compensation Law shall apply in the case of any injury to the Police Officer, and the Police Department shall pay all premiums and/or expenses related to such insurance. The Police Officer shall not be deemed an employee of the School District and the School District shall pay no monetary consideration of any kind directly to the Police Officers in connection with the services provided to the School District, but shall pay the Town as set forth above. In the absence of any affirmative assumption of duty on the part of the Police Officer in the scope of his employment with the Town, and/or where conduct involves criminal activity

requiring police response, the School District alone is responsible for student discipline during school hours and at school functions.

4.2 The Superintendent will communicate with the Supervisor or the Supervisor's designee with respect to any issues or concerns surrounding this Agreement, the Police Officer or the Substitute Officer(s); and the Superintendent and Supervisor or their designees will collaborate as to any necessary or appropriate means by which to address those concerns.

5. Insurance and Indemnification.
