

Map Skills Choice Board

Create a map of your community. Include a scale, symbols, and a key or legend.	Write a song, poem or short story that helps you to remember the names of the continents and oceans.	Write a map skills quiz to give your friends or family. Make sure you include an answer key and least ten questions.
Find three places in our state. For example, Yakima, Vancouver and Bellingham. Use a tool like google to find the following: • Distance from Bellevue • Name at least 1 highway/free • Record the cardinal direction (north, south, west or east) from Bellevue	Research the geography of a place you don't know. Select any city, town, or state and learn about the physical features, including mountains, rivers, lakes, and more.	Draw and illustrate a map of a favorite place. This can be your living room, your neighborhood, local library, a park or any place you know well.
Make a list of all the physical features you see on a five-minute walk. Include everything you see about our earth. Try to find 15 different items.	Research the physical geography of our state. List the five best features and where they are located in our state. Share why you think they are the best.	Write down directions to help someone find a place you like to visit. This can be a park, ice cream store, library or anything you like. Be sure to include details to help someone find how to get there.
