School Accountability Report Card

Reported Using Data from the 2016-17 School Year

Published During 2017-18

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2017-18)

Summit View is a 10th through 12th grade independent study format school. It is housed at the Educational Options Center (EOC).

Summit View provides a flexible standards-based alternative for a wide variety of secondary students and serves students from all attendance areas within the RUSD. In addition, it accepts inter-district transfers from contiguous counties. In order to attend Summit View, students must obtain a referral from one of the comprehensive high schools, an alternative school, or the RUSD Pupil Services Office. Students attend Summit View for reasons including the benefits of one-to-one instruction, safety issues, medical conditions, success of other siblings in the school, vocational programs, the desire to graduate early or to concurrently enroll in a community college, parents' desires for children to be in a home school type of program, and credit recovery.

School-wide Learner Outcomes (SLOs) were adopted in 2010 by the staff and School Site Council. They describe the basic qualities that each student should possess when leaving high school. The SLOs listed below, along with the school's mission statement, help guide the creation of curriculum and instruction. All schools in the Educational Options division now share the same SLOs. In addition to achieving mastery of grade-level and/or content area standards, every student will become:

1. An effective communicator who...

- Responds to the topic
- Develops ideas with support
- Attends to the needs of the audience
- Demonstrates proficiency with multiple communication strategies

2. A skilled problem solver who...

- Restates a given situation
- Explains possible choices and consequences
- Develops the ability to think logically and abstractly with language, numbers, and symbols
- Builds imaginative, creative and innovative responses that incorporate efficient feedback cycles

3. A proficient technology user who...

- Manages data efficiently
- Interacts with various print and digital resources
- Manipulates print and digital media to communicate ideas
- Effectively and appropriately integrates text, graphics, and information sources

4. An informed career planner who...

- Researches various career fields
- Identifies a career and/or college pathway
- Applies study time to building pathways for attaining a career or college entrance
- Understands the importance of networking

5. An engaged community member who...

- Understands the importance of being an active member of a larger community
- Volunteers time and energy to causes in the community
- Seeks appropriate mentors
- Makes relevant connections to continued learning opportunities

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

* Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Year and month in which data were collected: 10/16/2017

The table displays information collected in 10/16/17 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

It was determined that each RUSD school had sufficient and good quality textbooks, instructional materials, or science lab equipment, where appropriate, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a 6-year cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption

Riverside Unified School District adopts instructional materials on a regular schedule based on State adoptions. All students receive appropriate, up-to-date instructional materials for use in the classroom and at home. All materials currently in use have been selected by the staff with parent input, and approved by the Board of Education according to state adoption requirements. Teachers are provided training in the use of new materials.

Riverside Unified School District maintains both 5 and 15 year major maintenance plans for all schools. These plans are located at the District's Maintenance and Operations Office and are available for review.

Riverside Unified School District has instituted a formal school facility inspection system based on State of California School Facility Condition Criteria. The State criteria consist of 13 building components typically found in school facilities.

Riverside Unified School District has allocated funds for the sole purpose of school maintenance pursuant to Education Code sections 17002(d), 17014, 17032.5, 17070.75(a), and 17089(b). The information below displays the number of individual maintenance work orders completed in the last 12 months and the assessed value of the work completed.

SV at EOC campus has one full time and one part time custodial staff who, along with other district personnel, maintains the grounds and facilities.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Mathematics (grades 3-8 and 11)	3	4	35	34	36	37

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2016-17)

Students with Disabilities	--	--	--	--
Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

Career Technical Education Programs (School Year 2016-17)

Riverside Unified School District (RUSD) prepares students to succeed in real-world contexts through the development of conceptual thinking, effective communication, and the ability to apply knowledge and skills learned in the classroom. The district has several State-funded California Partnership Academies, numerous grant-funded career technical pathways, as well as a number ROP programs. Each program has a sequence of courses that provides individuals with academic and technical knowledge and skills through integrated academic and technical instruction. RUSD works closely with the Riverside County Office of Education (RCOE) who offers advance career technical options through their Regional Occupation Program (ROP).

The CTE Participation table below indicates participation level and completion graduation rate for the district's CTE programs.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2017-18)

Numerous points of contact exist between the school and parents. In addition to the administrators, the counselor and campus manager are readily available to parents by phone or at a conference. Teachers and/or their assistants call home when students are absent.

Parents are encouraged to become involved by joining the School Site Council (SSC) and/or English Learner Advisory Council (ELAC) or by attending their meetings. SSC meets seven times per year. ELAC meets four times yearly. Both councils exist as a means for parents to advise the school on issues involving school improvement and for the school to provide information to the community.

Parents are also informed about students and school events through auto-dialer, social media, web site, and the marquee at the front of the campus. Yearly Back-to-School events allow parents to discover ways to become involved.

For more information on parent opportunities to become involved, please contact the school site at 276-7670.

School Safety Plan (School Year 2017-18)

The School Site Council or its delegate is responsible for the development and updating of the school's Comprehensive Safety Plan. A Site Comprehensive Safety Plan Checklist is provided by the Assistant Superintendent of Operations to give guidance on what should be included in the School's Safety Plan. The Safety Plan is discussed with staff, evaluated, amended/reviewed/updated by March 1 of each year. The school's safety committee makes monthly safety inspections. A school Disaster Preparedness Plan that deals with a wide variety of emergency situations is incorporated into the School Safety Plan. Earthquakes, fire, and lockdown drills are conducted as required. The key elements of the Comprehensive School Safety Plan include an assessment of current status of school crime; provisions of any schoolwide dress code including the definition of "gang related apparel"; safe movement of pupils, parents and school employees to and from school; strategies in maintaining a safe and orderly school environment; child abuse reporting procedures; disaster procedures, routine and emergency; policies related to suspensions, expulsion or mandatory expulsion and other school designated serious acts which would lead to suspension or expulsion, notification to teachers, anti-bullying policy and school discipline rules and procedures pursuant to EC 35291 and EC 35291.5. The school also has an assigned School Resource Officer (SRO).

Professional Development (Most Recent Three Years)

2015-16

Teachers completed PD in the areas of California Common Core State Standards curriculum development and the use of instructional technology. Other topics included:

- Technology
- Digital Citizenship
- Mandated Reporting
- Bullying Prevention
- Human-trafficking
- Active Shooter
- Gallup Engagement and Strengths-Based Learning

Support Staff have received training/professional development on the following topics:

- Technology/Google
- Mandated Reporting
- Bullying Prevention
- Human-trafficking

2016-17

This year, teachers developed personalized professional development plans based upon their own unique and individual needs. Each teacher assessed their own needs and developed a plan that included a goal, an activity and how they would assess or evaluate what they learned. Some teachers had similar professional development needs; therefore, they planned and implemented their professional development in pairs or teams. Teachers chose a range of professional development activities, including but not limited to: presenting at conferences, attending district professional development offerings, visiting other school sites/districts, attending workshops/conferences offered through outside organizations, and/or having small group professional development delivered to them from District Instructional Specialists.

In addition to teacher professional development, the school ensures that all classified staff receive training and have monthly business meetings. This year, classified staff are receiving specialized training in the following topics:

- Google Beginner, Intermediate and Advanced, including developing their own work product.
- Gallup Strengths Based Learning
- Active Shooter

Depending on the grade level, subject or school focus, teachers participated in 3 – 10 days of professional development.

2017-18

Staff participate in Professional Development based upon their needs and newly adopted curriculum. Teachers chose a range of professional development activities, including but not limited to: presenting at conferences, attending district professional development offerings, visiting other school sites/districts, attending workshops/conferences offered through outside organizations, and/or having small group professional development delivered to them from District Instructional Specialists.

In 2016-17, the District developed a Guide for Instructional Direction. This guide includes district vision, goals, shared leadership, and other components that are organized in a manner to assist staff in seeing how the parts make up the whole. This year, the school site staff, including the Classified Staff, have been working through the guide during faculty meetings, Leadership Team meetings and collaboration time.

In addition to teacher professional development, the school continues to ensure that all classified staff receive training and have monthly business meetings. The Classified Office Staff have monthly meetings to discuss the smooth running of the front office which includes attendance, registration, the health office and other essential components. Google forms are used to survey staff and provide professional development in the area of need/desire. The monthly business meetings are used to share updates about what's happening in the district or the school, provide team building opportunities, and addressing areas of concern or questions.

Depending on the grade level, subject or school focus, teachers participated in 3 – 10 days of professional development.
