

AP Statistics

Summer Assignment

Name: _____ Period: __

The purpose of this packet is to both convey to students the foundational skills needed to be successful in this course and to provide them an opportunity to self-assess and develop these skills prior to entering the class. In order to be successful in this and all subsequent math courses at Servite, students must master and retain the content and skills from all previous math courses. As such, we ask that you please work on this assignment with integrity and diligence always striving to meet the intended purpose and goal of this assignment.

Directions: Go to the [Khan Academy AP Statistics](#) site. Login using your Servite email address (Login with Google) and complete [Unit 1: Get ready for exploring categorical data](#). Once this is complete, print the Unit 1 page to display your completion all the way through the Unit 1 Test.

This packet will be **collected** on the **second day** of school. You will be given a homework grade for completing this packet. Per Servite School policy, if this packet is not turned in on the second day of school, you will receive half credit if it is turned in the following day. After that, you will receive a zero for this packet. An assessment will be given at the beginning of the school year to make sure you have mastered all prerequisites. This assessment will count as a quiz grade.

Have a great summer and we are looking forward to seeing you in August!
