

*****PLEASE READ*****

There are certain health conditions for which CCSD will not accept a waiver. For example, if a student requires daily or frequent assistance, or is entirely dependent on medically trained CCSD staff to manage their condition, a waiver is not permitted.

Waivers are only valid IF your student:

- Has outgrown their condition
- No longer requires any medication at school for their condition
 - No longer requires any medical interventions at school

If your student self-carries and self-administers medication, Utah State Statute requires that the appropriate documentation be completed—this includes an Allergy Action Plan, Asthma Action Plan, or a Medication Authorization form for any other medications. These forms are required to legally authorize the student to carry and administer their own medication.
