

# WELCOME TO 5<sup>TH</sup> GRADE!

**August 2025**

**Dear Future Fabulous Fifth Grader,**

Welcome to 5th grade! I am so excited to meet you this August. We're going to have a fantastic year filled with learning, new experiences, and plenty of fun. I hope you're ready — because I am!

To help us get to know each other, be prepared to share some of the fun things you did over the summer. I can't wait to hear about your adventures!

This year, we'll explore a lot of exciting topics. In math, we'll dive into Numbers & Operations, Fractions, Geometry, and Measurement. You'll also get to work on fun projects that use technology. In Social Studies, we'll learn about Explorers, the Early American Colonies, and the Revolutionary War. In Science, we'll investigate Magnetism, Electricity, Chemical Reactions, and how Earth's surface changes over time. Plus, we'll read some fantastic novels together!

We'll also go on field trips, enjoy special presentations, and create memories along the way. While we'll work hard, we'll make sure to have plenty of fun, too.

I'm looking forward to an exciting, fun-filled year of learning with you!

Warm regards,

Ms. Tarmina
