

June 5, 2025 Electronic Submission of Public Comments

Name	Items Not on the Agenda within the Subject-Matter Jurisdiction of the Board	Recognitions
former staff	<p>Ms. Perry you and your supporters have complained and whined for years that you did not get to be president of the board---a role in Laguna for a number of years that has been focused on running efficient, informative business meetings. It should not be your bully pulpit and if you can't follow the script it proves that all board members are not up to the task of running meetings. It is embarrassing all the mistakes you make and after 10 years you are not clear on the basics. It is becoming apparent that you and Howard and Sheri want to use the meetings to further any of your specific wants---that is not leadership or good governance. It should not be about you. Please, please stop with the lectures at the start of each meeting on how public comment will go. Ironically you are now not only doing what you have criticized (cutting people off and limiting time) but at the last meeting when you realized how many teachers were there to speak no way should you have reduced the time from 3 minutes. In fact that should have been decided by a brief board discussion and I am sure if you had raised the idea both Jim and Joan would have objected. To announce that the total time for public comment would be only 20 minutes was rude and dictatorial. After all these years you know that the board can vote to continue for another 20 by motion, second and vote. And it was a big gaffe to announce the hiring of Dr. Glass when that was to be done on the 9th. You are one of 5.</p>	<p>The three retiring staff members have given dedicated service to LBUSD. Alex and Diego are examples of ones who are always there and helpful. They are welcoming and make staff and parents feel comfortable and cared for. Kellee is the heart of what College and Career education and preparedness is all about. She is support the program and has worked diligently to expand in bell schedule and after school offerings at the high school. CCA has grown and she deserves a huge thank you.</p>
Riva	<p>To Dee, Sheri and Howard---once again the meanest comments made by a member of the public with a sneer in her voice as always was Ms. Monda. At city council and now at school board she puts a negative on everything. It would be in your own interest to ask her to step back from bringing such a rude tone to every meeting. She may be one of Morgan's community members that has no students but really who could support her level of insults. Howard you need to drop harassing Carter about what you think you said and what the students hear you say. Live with the fact that the students have expressed they do not want to be contacted by board members. The same with staff. It makes them wonder if what the board member wants has to be done---it is intimidating and needs to stop.</p>	<p>So many great things are students participate in---good job to recognize so many.</p>
Dawn Hunnicutt	<p>As if the 90 second maximum allotted time to speak at the last meeting wasn't bad enough (and unilaterally decided by Dee Perry/Leadership Associates, no doubt, at the last minute), now you've placed public comments at the end of the meeting to dissuade students, teachers, and community members from possibly saying anything negative in front of a roomful of parents. Well played, board majority. Your tactics are clear as day, and Leadership Associates is advising you strategically, and hypocritically, I might add. Very different from your desired intention on December 16th (and historically), President Perry, when you advocated for no time limits so everyone could speak freely. I didn't think that was wise at the time since what was established by the previous board worked effectively; however, you, ultimately through failure, went back to the same rules after much drama and time. Now a group of students who wanted to speak on the SRO issue during a busy finals season are forced to re-group and possibly miss out on having their voices heard on an issue they find very important. Nicely done. You silenced teachers last time, and now you are silencing students. Full censorship by the board majority. I would advise these students to write online public comments, but we know Howard Hills doesn't read them. Sad.</p>
