Foley Public Schools Adopted by the Board: 12-12-2022

812.0 BUILDINGS AND GROUNDS SECURITY

Buildings of the school district constitute one of the greatest investments of the school district. It is deemed in the best interest of the district to protect the investment.

Security should mean not only maintenance of a secure (locked) building, but protection from fire hazards and faulty equipment and safe practices in the use of electrical, plumbing, and heating equipment. The Board requires and encourages close cooperation with local police, fire, and sheriff departments and with insurance company inspectors.

Access to school buildings outside of regular school hours shall be limited to those authorized personnel whose work requires it. Key control systems shall be established which will limit access to buildings to authorized personnel. Authorized persons who possess keys are not to pass these keys to students or other unauthorized individuals.

Records and funds shall be kept in a safe place and under lock and key when required.

Protective devices designed to be used as safeguards against illegal entry and vandalism shall be installed when appropriate to the individual situation. Employment of security personnel may be approved in situations where special risks are involved.
