542 STUDENT COUNCIL

In order to encourage student participation in the various activities of school life and to provide opportunity for training in democratic processes, the high school of the district may maintain and operate student councils.

Such councils will assist in improving the general welfare of all students and will give students the opportunity to participate in the orderly workings of the democratic process.

Such councils will not have the authority to make policies for the district or regulations for the school. Nor will they have any disciplinary authority, except for recommending removal from the council of one of their members. However, a council may make recommendations to the administration on any topic of student concern.

The administration and student council of any school will keep channels of communication open, not only between themselves, but between all students and the council.
