Texas Instruments TI-30XIIS calculator is highly recommended for all 8th grade math students. This calculator will get students through most of high school and is about \$12.00 to \$15.00.

Algebra 1 students will be using the TI-83 plus graphing calculator, which is optional, not needed. This would be useful in high school as well.

Phys/Ed - Students will be required to wear sneakers for gym class. They will not be required to change clothes. They will have the choice, though.
