BUILDING THE FUTURE OF TROY SCHOOL DISTRICT

Playgrounds: We are excited to complete the final touches on the playgrounds that were updated last summer! As we move into this summer, we are eager to begin Phase Two of our playground improvements. Schools receiving updates in this phase include Costello, Hamilton, Leonard, Schroeder, Wass, and Wattles. Hamilton and Schroeder Elementary Schools are scheduled to receive the first playground improvements.

Furniture: Phase Two of our furniture upgrades will also begin this summer at Barnard, Bemis, Hill, Martell, Morse, and Troy Union. Additionally, Troy High and the new Smith Middle School will receive new furniture. By the conclusion of Summer 2025, every elementary school in our district will have an updated playground and brand-new furniture—an exciting milestone for our students and school communities!

Smith Middle School: Construction on the new Smith Middle School remains on schedule, thanks to the hard work of our crews who continued progress throughout the winter months, even wrapping parts of the building to allow for work in severe temperatures. Over the next few months, several houses along Livernois will be razed to make way for the school's new entrance. We aim to open the new building in the 2026-2027 school year.

Troy/Athens High School Fields: This spring, we were thrilled to unveil the new athletic fields, including new baseball and softball fields at Troy High School, which have been a hit for students and staff. In addition, construction of the new concessions area and tennis courts at Troy High has already begun and is expected to be completed in the fall. At Athens, upon completion of the spring sports construction will begin baseball, softball and the stadium fields.

#onetroy #world class

As we wrap up the 2024–2025 school year, I want to take a moment to thank you—our families, our staff, our students, and our community—for your unwavering support and partnership. The success we've seen this year is a reflection of what we can accomplish when we come together with a shared purpose: to create an exceptional educational experience for every student in the Troy School District.

This year, we saw students rise to incredible heights - excelling in academics, the arts, athletics, and extracurriculars.

From Model UN to HOSA, from Robotics to the Spelling Bee, and so much more, our students continue to impress us not just with what they achieve, but with how they get there - with grit, curiosity, and a true passion for learning.

These accomplishments are only possible because of the incredible work happening in our classrooms every day. Our teachers and staff go above and beyond to create learning environments that challenge and support all students. They're helping students think critically, communicate clearly, and grow into confident, compassionate individuals ready to take on the world.

This was also a year of collaboration and forward momentum. Together, we are tackling important conversations around our attendance areas and laying the foundation for future improvements through our bond projects. These efforts ensure that we will continue to meet the needs of our students and community not just today, but well into the future.

We've continued to build on what it means to be truly world-class. Our partnership with New Solutions K12 is helping us refine our practices and keep students at the center of every decision we make. We're constantly learning, evolving, and growing - not because we have to, but because we believe our students deserve the very best.

It has been a privilege to partner with our students and families this year. The connection between school and home is an essential component of each student's success. This has been a remarkable year, and I am incredibly proud of the work we've done as a district.

Have a relaxing and enjoyable summer - we can't wait to welcome you back next fall, ready for another great year!

Dr. Rich Machesky
Troy School District Superintendent

ATHENS WOMEN'S POWERLIFTING

WINS
THIRD
STATE TITLE

The Athens Women's Powerlifting Team captured their third consecutive state title this year! Several athletes also competed at Nationals, where freshman **Talia Atkinson** was crowned **National Champion** in the JV division for her weight class. Senior **Mikayla Twum** made history by setting a **national record** in the women's deadlift with an impressive lift of **424 POUNDS!**

ATTENDANCE AREA REVIEW

TROY SCHOOL DISTRICT

The Troy School District Nears Decision in Attendance Area Review Process. The Troy School District is approaching an important milestone in its Attendance Area Review Process, with the Board of Education set to determine next steps in May 2025. Depending on the timing of this publication's arrival in your home, a final decision may have already been made.

The AARC was launched to evaluate current enrollment patterns, building capacities, and shifts in student population throughout the district. Over the past several months, the AAR committee (composed of parents, community members, and district staff) carefully gathered data and developed several options to address the district's evolving needs.

The review process was guided by several core principles, including balancing the student enrollment across middle school buildings, resolving double splits, and ensuring that high school boundaries remain unchanged. A focus that emerged through the process was to minimize the number of families impacted.

After reviewing the options developed by the AARC, the Board of Education

AARC TIMELINE

FALL 2024

Data collection and initial committee review.

WINTER 24-25

Options presented to the Board of Education; Board selected Option C to present for community feedback.

MAR / APR 2025

Community engagement and feedback gathering (five listening sessions and two surveys).

MAY 2025

Board determination regarding next steps.

selected Option C and variations of Option C to present to the community for feedback. Option C proposes two primary changes: all Troy Union Elementary students would attend Smith Middle School, and students living in Somerset Apartments (approximately 319 students) would continue to follow their currently assigned elementary school to that school's designated middle school. Variations of Option C can be seen on our website at:

www.troy.k12.mi.us/about-us/attendance-area-review

Any changes made to district boundaries would not occur until the 2026/2027 school year. The district extends its sincere gratitude to the community for its active participation and thoughtful feedback throughout this process. More information about the AARC and updates on the Board's decision will continue to be shared with the community as they become available. ♦

Bond Status Update continued from page 1...

construction of the new concessions area and tennis courts at Troy High has already begun and is expected to be completed in the fall. At Athens, upon completion of spring sports, construction will begin on new baseball, softball, and stadium fields.

Athens High School: Our Bond Team, in collaboration with school administrators, has been working diligently on the design of the new academic wing at Athens High School. The new wing will be constructed as an extension of the current building, allowing learning to continue uninterrupted during construction. Construction for the new academic wing is scheduled to begin in 2026. ♦

Board of Education SPOTLIGHT

Three new board members were voted onto the Troy School Board by the Troy community. Let's introduce them to you.

Dr. Audra MELTON, BOE Trustee

A 40+ year Troy resident and TSD graduate, Audra Melton has devoted 32 years to education. She holds a BA in Biology and Secondary Education from Capital University, a MAT from Marygrove College, and a PhD in K-12 Educational Admin. from Michigan State University. A founding teacher of the International Academy (Bloomfield Hills) in 1996, she helped open IA East in 2008, serving as its first administrator, and later led Baker Middle School as principal until her retirement in 2018. Today, she supports Oakland County schools in interim leadership roles and offers free Orton-Gillingham reading tutoring to Troy School District students. ◇

Ayesha POTTS, BOE Trustee

Ayesha Potts is a dedicated TSD parent and longtime volunteer, with two graduates and two current students in the district. She served as PTO president at Wass Elementary and continues to support teachers, students, and families throughout the community. Ayesha earned her Bachelor of Science in Nursing from the University of Windsor and works as a Registered Nurse at Corewell Health Troy Beaumont. Born in Manila and raised in Canada, she moved to Troy nearly 20 years ago. She is the proud wife of Dr. Kevin Potts, a pulmonary and critical care specialist. ◇

Stephanie ZENDLER, BOE Trustee

Stephanie Zendler is a passionate public educator with 25 years of experience as a teacher, principal, and district administrator. She served the Troy community for 12 years as principal of Morse Elementary and MTSS supervisor for TSD. Stephanie holds a BS from Western Michigan University, an MPA from the Univ. of Michigan, and an (Ed.S.) in Educational Leadership from Eastern Michigan Univ. She now operates a small business focused on special education advocacy and personal coaching for teens and adults. ◇

HOSA STUDENT AWARDS

This year has been remarkable for TSD students participating in **Health Occupations Students of America (HOSA)** clubs! In April, more than 380 middle and high school students from Boulan Park MS, Larson MS, Athens HS, IA East, and Troy High traveled to Traverse City to attend the HOSA Michigan State Leadership Conference, where TSD students truly shined. Competing in areas such as Math for Health Careers, Foundations of Medical Terminology, and Life-Threatening Situations, 149 TSD students earned medals, and at least 95 students qualified to participate in the HOSA International Competition, taking place this June in Nashville, TN.

2024-25 FUN

Raising Traditions

This winter, students at both Athens and Troy High continued a cherished annual tradition: Charity Week at Athens and Activist Week at Troy High.

Activist Week @ THS: Troy High Students named this year's Activist Week "Love for the Lichykakis", raising funds to support the family of Troy High alumnus Dima Lichykaki after the tragic loss of his father. Through popular events such as Coin Stall, a talent show, and Stuck for a Buck, a record-breaking \$78,500 was raised.

Charity Week @ AHS: Athens students selected the Next Steps for Seniors Foundation as the beneficiary of their annual charity week. This year, students were able to raise an impressive \$100,500 to support the charity's mission of supporting seniors through the challenges that can accompany aging. ♦

In February, **Hamilton Elementary School, Smith Middle School, Troy High School, and Wass Elementary School** were named **2025 Michigan State Schools of Character** by **Character.org**, a national advocate and leader in character education. These schools were among seven recognized in Michigan and 98 recognized nationwide. To earn this honor, they demonstrated a commitment to fostering a positive school culture by establishing and upholding a shared set of core values. Each of the buildings is now being considered for National School of Character designations, which will be announced in late May. These schools join a total of 14 TSD buildings that have been honored by **Character.org** for their focus on character education since 2020.

Four schools were awarded state schools of character designations for 2025.

14 HONORED

Fourteen schools honored for character education programs since 2020.

TSD ALUMNI PROFILE

When Anthony “Tony” DiMambro graduated from Athens High School in 2002, he had no idea his path would lead him to an extraordinary, specialized career - hand-crafting violin, viola, and cello bows for professional musicians around the world. As Tony reflects on his journey, one thing is clear: the foundation of his success as a renowned bowmaker has a prominent source - the Troy School District.

Tony is now a master bowmaker, transforming raw materials like planks of wood and sheets of silver into precisely calculated tools for some of the finest musicians, including members of the DSO.

It's a very difficult job and Tony attributes much of his ability to thrive to the education he received in Troy.

“IF I WASN'T PROPERLY PREPARED, I PROBABLY WOULDN'T BE IN THIS FIELD.”

“It's very hard to be successful in, and I share some of that success with the way I was brought up in the Troy schools.”

Tony's story highlights what makes the Troy School District world class: a commitment

Tony DiMambro

to growing and nurturing excellence across a broad spectrum.

Tony says, TSD's emphasis on writing, research, and self-direction gave him a crucial head start. As a business owner, he's built his own website, written a comprehensive guide for others in his trade, and crafted compelling content. All these are skills he ties back to the instruction he received in middle and high school.

Perhaps most importantly, the Troy School District taught Tony grit. “Learning how to push through and persevere — that came from school,” he says. “That mindset made all the difference.”

His story is a testimony to what's possible when passion intersects with a school district that goes above and beyond to shape the future. ♦

Written by Josh Petrisor, CAP Pre-Intern

Turtle Woods

Oakland County Parks' First Nature Preserve

Oakland County Parks purchased the property known as Turtle Woods from the Troy School District (TSD) to establish its first nature preserve.

The 70-acre site, located on the north side of Square Lake Road between John R and Dequindre roads in Troy, features wetlands and a lake plain prairie ecosystem along with being home to several threatened plant species.

Originally acquired by the district in 1967 for a future high school site, the property remained undeveloped and has been used for student educational visits. Plans for the new preserve include updating trails to protect sensitive habitats, constructing boardwalks, and adding restroom facilities near a new parking lot. Troy School District will continue using the site for environmental education.

The acquisition was made possible through a partnership between TSD, Oakland County Parks, and Six Rivers Land Conservancy. After an initial funding application was denied in 2023, the TSD Board of Education approved a 50% discount on the land's sale price to strengthen a new application to the Michigan Natural Resources Trust Fund, leading to a successful grant award. The district will receive \$1.8 million from the sale. ♦

FAST FACTS

43.73 

The land contains 43.73 acres of wetlands and also includes a lakeplain prairie ecosystem.

1% 

The lakeplain prairie is an extremely rare habitat unique to the Great Lakes - less than 1% remains.

50 

The Troy School District acquired the property more than 50 years ago, as a site for possible expansion.

This partnership ensures Turtle Woods will be preserved for education, recreation, and conservation for future generations.

OK2SAY is a confidential, prevention-based reporting system that empowers Michigan students to help prevent violence and create safer schools. Anyone can submit tips about criminal activities or potential harm directed at students, school employees, or schools via text, email, phone, app, or at <https://ok2say.state.mi.us>.

How OK2SAY Works

An individual notices or learns of a safety concern and submits a tip to **OK2SAY**.

A trained **OK2SAY** technician receives and analyzes the tip.

The technician may establish a dialogue with the tipster to gather crucial details.

Once all relevant information is obtained, **OK2SAY** forwards it to the appropriate responding agency, such as a school or law enforcement. The responding agency investigates the tip and provides necessary interventions. After the investigation, the responding agency submits an outcome report to **OK2SAY**. Tipster information is protected by law and can only be released by the tipster, the tipster's parents (if the tipster is a minor), or a court order. ♦

TROY HIGH SCHOOL TENNIS COACH Receives National Honors

Troy High School Boys Tennis Coach Brian Miska has been recognized with two distinguished honors in the world of high school athletics, highlighting his contributions to the sport, Troy High School, and the community.

Miska has been named one of ten finalists from Michigan for the National High School Athletic Coaches Association Coach of the Year. The winner of this prestigious award will be announced in June. In addition, Miska has also been selected as the National Federation of High School Association State and Section #4 Coach of the Year for Tennis. He is one of only three Michigan coaches to receive this recognition during the current school year. ♦

LETTER FROM THE ATHLETIC DIRECTOR

Bringing the OneTroy Spirit to All Athletics

As Athletic Director, I am incredibly proud of the energy and sportsmanship our community brings to athletic events, and there is no better example than how we rally behind our Unified Sports Basketball teams. These games are filled with joy, respect, and a shared sense of pride as students of all abilities compete together.

deserves the same level of support. Our cheers should be about celebrating effort and teamwork, not booing, taunting, or disrespecting the opponent. Positive energy doesn't just make the experience better for our players, it strengthens our entire school culture.

Athletics are about more than wins and losses - they're about teaching lifelong lessons, building relationships, and creating memories. In Troy, we're lucky to have a community that shows up. Now, let's challenge ourselves to show up the right way for all sports, all teams, and all athletes.

Fans cheer for every athlete on the court, regardless of team, and no one is cheered against. This is what sportsmanship should look like and it's the perfect example of what it means to be OneTroy.

The OneTroy spirit is about unity, respect, and shared success. We see it clearly at Unified Basketball games, and it's time we bring that same energy to every athletic event across the Troy School District. No matter the sport, every student-athlete

Unified Basketball shows us the very best of what school sports can be: joyful, inclusive, and full of mutual support. Let's take that same energy into every gym, every stadium, and every field across our district. Let's make every event a celebration, not just of athletic achievement, but of community. ♦

THAT'S THE **HEART** OF ONETROY | LET'S LIVE IT, EVERY GAME

MASTA TEACHER OF THE YEAR

In February, Troy High School Orchestra Director Wendy Stuart was named the 2025 Teacher of the Year by the Michigan Chapter of the American String Teachers Association. Ms. Stuart was honored for her exceptional contributions to string education in Michigan.

When asked about the award, Ms. Stuart said, "I'm so honored to have been named MASTA Teacher of the Year. I learned only in the morning when the award was presented that it was a former student - now an orchestra teacher - who nominated me. That alone was incredibly meaningful to me. I am grateful to all of the students I've worked with over the years. They truly inspire me daily to be more creative in my teaching, and I love being able to share my love of music with them."

*Wendy Stuart*

I AM GRATEFUL TO ALL THE STUDENTS I'VE WORKED WITH OVER THE YEARS.

Ms. Stuart has been the director of the Troy High School Orchestras since 2021. In her spare time, she serves as the principal cellist for the Oakland Symphony Orchestra, the assistant principal cellist for the Saginaw Bay Symphony Orchestra, and a director with the Oakland Youth Orchestras.

The **MASTA Teacher of the Year** award recognizes educators who have dedicated at least a decade to teaching in Michigan, demonstrated excellence in music performance and education, and provided outstanding service to string education in the state. Ms. Stuart exemplifies these qualities, inspiring countless students and setting the standard for music education through her leadership at Troy High School. ♦

STACI VOUGHT

Named TSD Teacher of the Year 2024-2025

District administrators gathered in the Athens Media Center to surprise Media Specialist Staci Vought with the news that she had been named the 2025 Overall Teacher of the Year for the Troy School District. With treats in hand, her family, coworkers, students and Superintendent Dr. Rich Machesky surprised her with this honor. One of the reasons she was selected was due to her ability to make the media center a place where every student feels a sense of belonging. As colleague Erich Beregszaszy shared in his nomination, "If the media center is our heart, Staci Vought is very much its soul."

T&I Credit Union surprised Mrs. Vought with a check for \$2,000.

Three other Troy School District teachers were honored as Teachers of the Year at their respective levels. The Troy Foundation for Educational Excellence presented each of these teachers with a check for \$500.

Stephanie Everett - TSD Preschool
Preschool Teacher of the Year

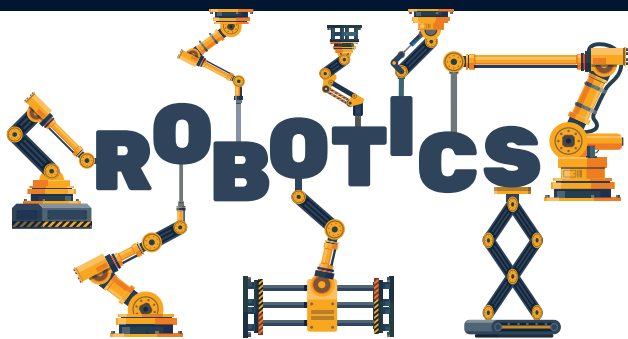

Nancy Haboush - Leonard Elementary
Elementary Teacher of the Year

Jamie Glab - Smith Middle School
Middle School Teacher of the Year

Each of these educators goes above and beyond for their students, and the Troy School District is honored to recognize their passion, dedication, and lasting impact on our school community.

In total, more than 60 TSD educators were nominated for this prestigious honor this year, and all will be celebrated at a reception in the spring. ♦

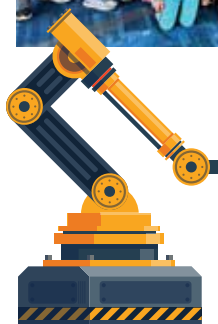

While many of our FIRST Robotics teams had successful seasons this year, three stood out from the pack!

The Hammerheads (FRC 226) from Troy High ranked 16th in the state this year. They earned the league's highest honor - the Impact Award - were finalists in their division at the State Championship, and qualified for the World Championship, where they finished as semi-finalists.

Just Add Logic (FTC 20332) from Boulan Park also had an impressive season, winning the Control Award three times and the Impact Award. At the State Championship, they placed third for the Inspire Award, which qualified them for the World Championship. At Worlds, they ranked in the 87th percentile of all teams.

At the elementary level, the Electro Eels (FLL 66746) from Wass Elementary won the Michigan State Championship and were one of only two teams to represent Michigan in their division at the World Championship! The Electro Eels placed 21st out of 160 teams at Worlds.

PODCASTING

The world-wide podcast industry continues to see exponential growth with billions of dollars in annual revenue. To acknowledge the relevancy of this medium, the **Creative Guild** has made audio equipment available for many students to utilize in producing their own podcasts!

From dream jobs to athletics updates, there's always something exciting to talk about in the Troy School District. **One series, Life Unfiltered with Athens seniors Vanessa Luu and Gabrielle Robinson**, focuses on personal growth, advice, and reflection with topics including motivation, balance, practicing gratitude, friendship, and more. Their guests have ranged from fellow high school students to their building principal. With 15 episodes produced and more on the way, this series has been a great opportunity to have and share discussions of many important topics within the school community.

Within just a few years, student podcast work from the TSD now regularly receives recognition from large student competitions including the Michigan Association of Broadcasters and the Michigan Interscholastic Press Association. This is very exciting for our students, but even more exciting is the future potential for our younger students as the program continues to grow. Some of our elementary schools have even repurposed space in the media centers for their very own podcast studio.

Audio storytelling is an incredibly versatile educational tool for both high school and elementary students to participate in. The passion for these projects is amazing to see, and it's only the beginning in the TSD.

Student podcasts can be found on TSD World Class Podcasts through both Spotify and Apple Podcasts. Students interested in starting a podcast can reach out to Thomas Butcher at tbutcher@troy.k12.mi.us.

CAP | The Career Accelerator Program Doubles in Size

The Troy School District is proud to announce the significant growth of its Career Accelerator Program (CAP), which has more than doubled in size this year. CAP is a dynamic pre-internship program designed to bridge the gap between classroom learning and real-world professional experience. This initiative provides students with valuable mentorship and firsthand exposure to a wide range of career pathways right here in our vibrant community.

Launched as a pilot in 2024, CAP placed 28 students with 17 local businesses. This year, the program has expanded to place 72 students across 36 businesses—demonstrating both the strong interest from students and the incredible support from local partners.

As part of the program, students participate in four CAP classes and complete 20 hours of real-world, pre-internship experience. The feedback from both students and families has been overwhelmingly positive.

"We've learned so much about aspects of business we didn't even know existed. Understanding how to conduct ourselves professionally is crucial, and this experience helped us recognize our strengths."

TSD is excited to continue expanding CAP in the years ahead. We invite local businesses to join us in shaping the future workforce. If you're interested in partnering with the program, please contact Kendra Montante at kmontante@troy.k12.mi.us. ♦

FAST FACTS

28 / 17

The CAP Program started Year 1 (2024) with 28 students and 17 businesses.

72 / 36

The CAP Program continues to grow Year 2 (2025) with 72 students and 36 businesses.

SENIORS WELCOMED BACK TO SCHOOL

On April 15, about 40 Troy senior citizens went back to school, visiting Troy High and Athens! The seniors spent the day touring the buildings, learning about upgrades funded by the 2022 bond, and hearing from students, teachers, and administrators about the world class learning taking place in our schools. We can't wait to welcome everyone back again next year!

CONGRATULATIONS TO THE TROY SCHOOL DISTRICT GRADUATING CLASS OF 2025

To the Class of 2025, you've reached a significant milestone, and your journey to this point has been filled with both challenges and triumphs. As you embark on the next chapter, remember to embrace the unknown, stay true to your values, and make a positive impact on the world around you. Your potential is limitless, and the future is yours to shape.

We're proud of you!
