

SPANISH AS A SECOND LANGUAGE PROGRAM (SSL)

COLEGIO SAN IGNACIO

Helping non-native speakers thrive in a Spanish-speaking academic environment.

The Spanish as a Second Language (SSL) program at Colegio San Ignacio aims to provide students who are native English language speakers with the Spanish language skills necessary to communicate effectively and achieve a smooth integration to CSI. Our goal is to help them develop the language skills and cultural fluency they need to succeed academically and socially in our fully Spanish-speaking school setting.

Who is this program for?

Students admitted to 7th or 8th grade in Colegio San Ignacio who need additional support in learning Spanish to integrate effectively into the school community.

Program benefits

- Full academic and social integration into the school environment.
- Language confidence and participation in classroom discussions and activities.
- CSI graduates are fluent in English and Spanish.

What does the program include?

- Specialized instruction in Spanish as a Second Language, in the summer prior to starting in CSI.
- After school tutoring and language lab component throughout the year.
- A supportive and personalized approach tailored to each student's needs.
- Focus on oral and written communication.
