

To the Future Second Grade Class and Families,

While summer is a time for relaxation, cookouts, beach days, and ice cream treats, we also want to ensure that each child feels confident and prepared as they enter second grade. To help with this, we've prepared a summer packet of math and reading activities. These will be due the first week we return to school. We encourage your child to complete two pages weekly and read for 15 minutes twice weekly. Additionally, if your child enjoys writing, we suggest keeping a journal to record their summer adventures. We encourage them to write one entry per week. During the school year, journaling was an activity we did almost every day. It's crucial to keep our brain muscles active during the summer months!

We encourage families to designate a special 'workspace' at home for their children to work on their summer packets. Remember, the sky's the limit! We are so proud of each and every student! We understand that summer is a time for fun and relaxation, so we hope you find a balance for your family. We hope you have a wonderful and relaxing summer break.

Enjoy your summer, and we look forward to seeing you in second grade!

Best Regards,

Mrs. Herman and Miss Young

Para la futura clase y familias de segundo grado,

Si bien el verano es una época para la relajación, las comidas al aire libre, los días de playa y los helados, también queremos asegurarnos de que cada niño se sienta seguro y preparado al ingresar al segundo grado. Para ayudar con esto, hemos preparado un paquete de verano con actividades de matemáticas y lectura. Estos deberán entregarse la primera semana que regresemos a la escuela. Alentamos a su hijo a completar dos páginas por semana y leer durante 15 minutos dos veces por semana. Además, si a su hijo le gusta escribir, le sugerimos que lleve un diario para registrar sus aventuras de verano. Los animamos a escribir una entrada por semana. Durante el año escolar, llevar un diario era una actividad que hacíamos casi todos los días. ¡Es crucial mantener activos los músculos de nuestro cerebro durante los meses de verano!

Alentamos a las familias a designar un "espacio de trabajo" especial en casa para que sus hijos trabajen en sus paquetes de verano. Recuerde, ¡el cielo es el límite! ¡Estamos muy orgullosos de todos y cada uno de los estudiantes! Entendemos que el verano es una época de diversión y relajación, por eso esperamos que encuentres un equilibrio para tu familia. Esperamos que tengas unas maravillosas y relajantes vacaciones de verano.

¡Disfruta tu verano y esperamos verte en segundo grado!

Atentamente,

La señora Herman y la señorita Young

SUPER SUN

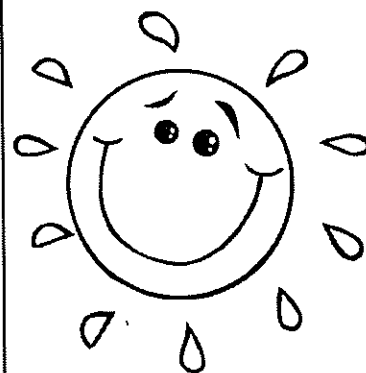

Read

The Sun is essential to life on earth. The Earth would have no life at all without the heat and light of the Sun. Without the Sun, we would have no plants to eat, no energy to live, no trees to give us oxygen.

The Sun warms up our seas and is responsible for Earth's climate and weather. The Sun provides energy to the growing green plants that provide food and oxygen for human and other life forms on Earth.

The Sun's infrared rays give us warmth we require to live and sunlight helps us to see things clearly.

Sunlight also helps our bodies to form vitamin D, which helps us build strong bones and teeth.

MAGICAL ICE CREAM

Imagine you could create your own magical ice cream flavor for the summer. What would it taste like? What special powers would it give to anyone who ate it?

This image shows a full page of handwriting practice paper. It features ten identical rows of horizontal dashed lines, each row consisting of three parallel lines. The lines are evenly spaced across the entire page, providing a guide for letter height and placement. There is no text or other markings on the page.

BEACH ADVENTURE

You've discovered a secret door
in a sandcastle at the beach.
Where does it lead? Write a
story about your adventure.

A photograph of a beach scene. In the foreground, there is a sandcastle with a blue bucket and a red shovel. A green bucket is also visible. The background shows the ocean and a blue sky. The text is overlaid on the top half of the image.[illegible]

THE DAY IT RAINED ICE CREAM

What would happen if it rained ice cream one summer day? How would people react? What would you do?

A photograph of four hands holding ice cream cones against a bright yellow background. From left to right, the cones are: vanilla with a green speck, chocolate, pink, and blue with green specks. The hands are positioned at the bottom, holding the wafer cones.[illegible]

A DAY AT THE POOL

Write about a day at the swimming pool where everything goes hilariously wrong.

[illegible]

A group of six children are running along a dirt path in a lush, green forest. The sunlight filters through the trees, creating a warm, golden glow. The children are dressed in casual summer clothing, and some are wearing backpacks. They are all smiling and appear to be enjoying their run. The text 'MYSTERIOUS SUMMER CAMP' is prominently displayed at the top in large, bold, black letters. Below it, a paragraph of text asks the reader to imagine a mysterious summer camp where they can learn any skill they want, and prompts them to think about what skill they would choose and why, and what a day in the camp might look like.

MYSTERIOUS SUMMER CAMP

You've been sent to a mysterious summer camp where you can learn any skill you want. What skill would you choose and why? What would a day in the camp look like?

Blank lined paper with horizontal ruling lines.

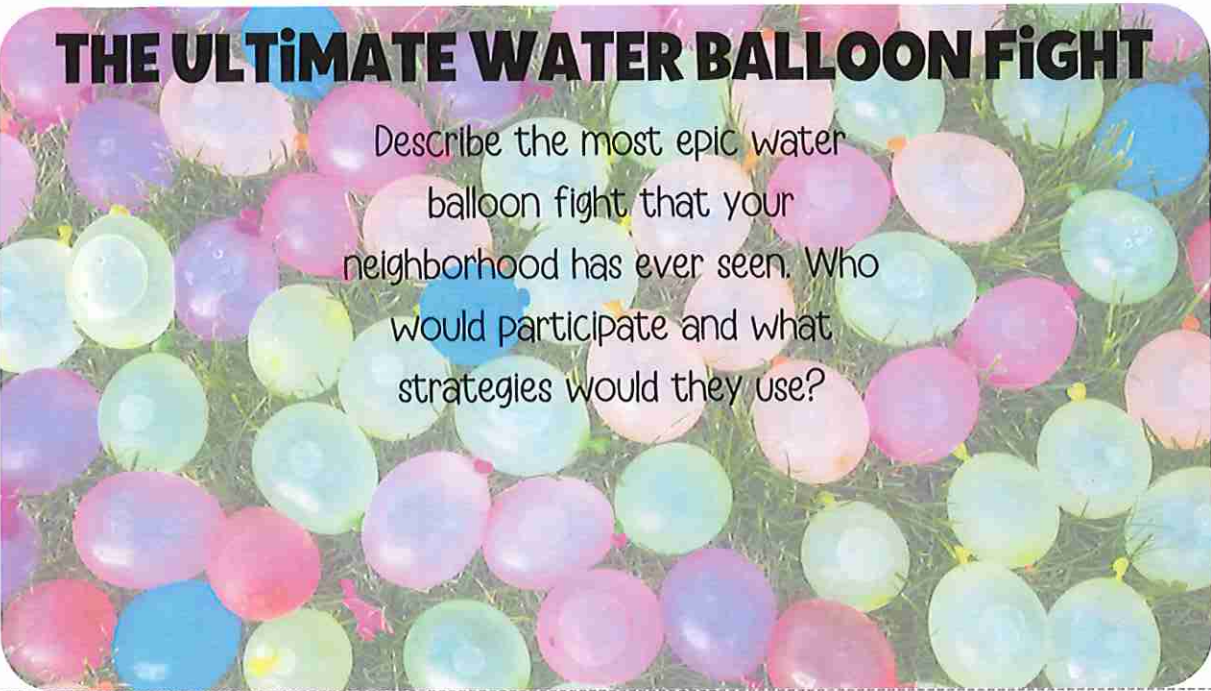

A painting of a stone archway leading to a garden path. The archway is made of rough, textured stone blocks. A path of light-colored gravel or dirt leads from the center of the archway into a lush green garden. The garden is filled with various plants, flowers, and trees, creating a vibrant and inviting scene. The overall style is painterly, with visible brushstrokes and a soft, atmospheric quality.

SECRET GARDEN

While playing in your backyard, you find a hidden garden. What does it look like? What kind of plants and creatures live there?

This image shows a full page of white paper with horizontal dashed lines, typical of primary school handwriting practice paper. The lines are evenly spaced and run across the width of the page. There is no text or other markings on the page.

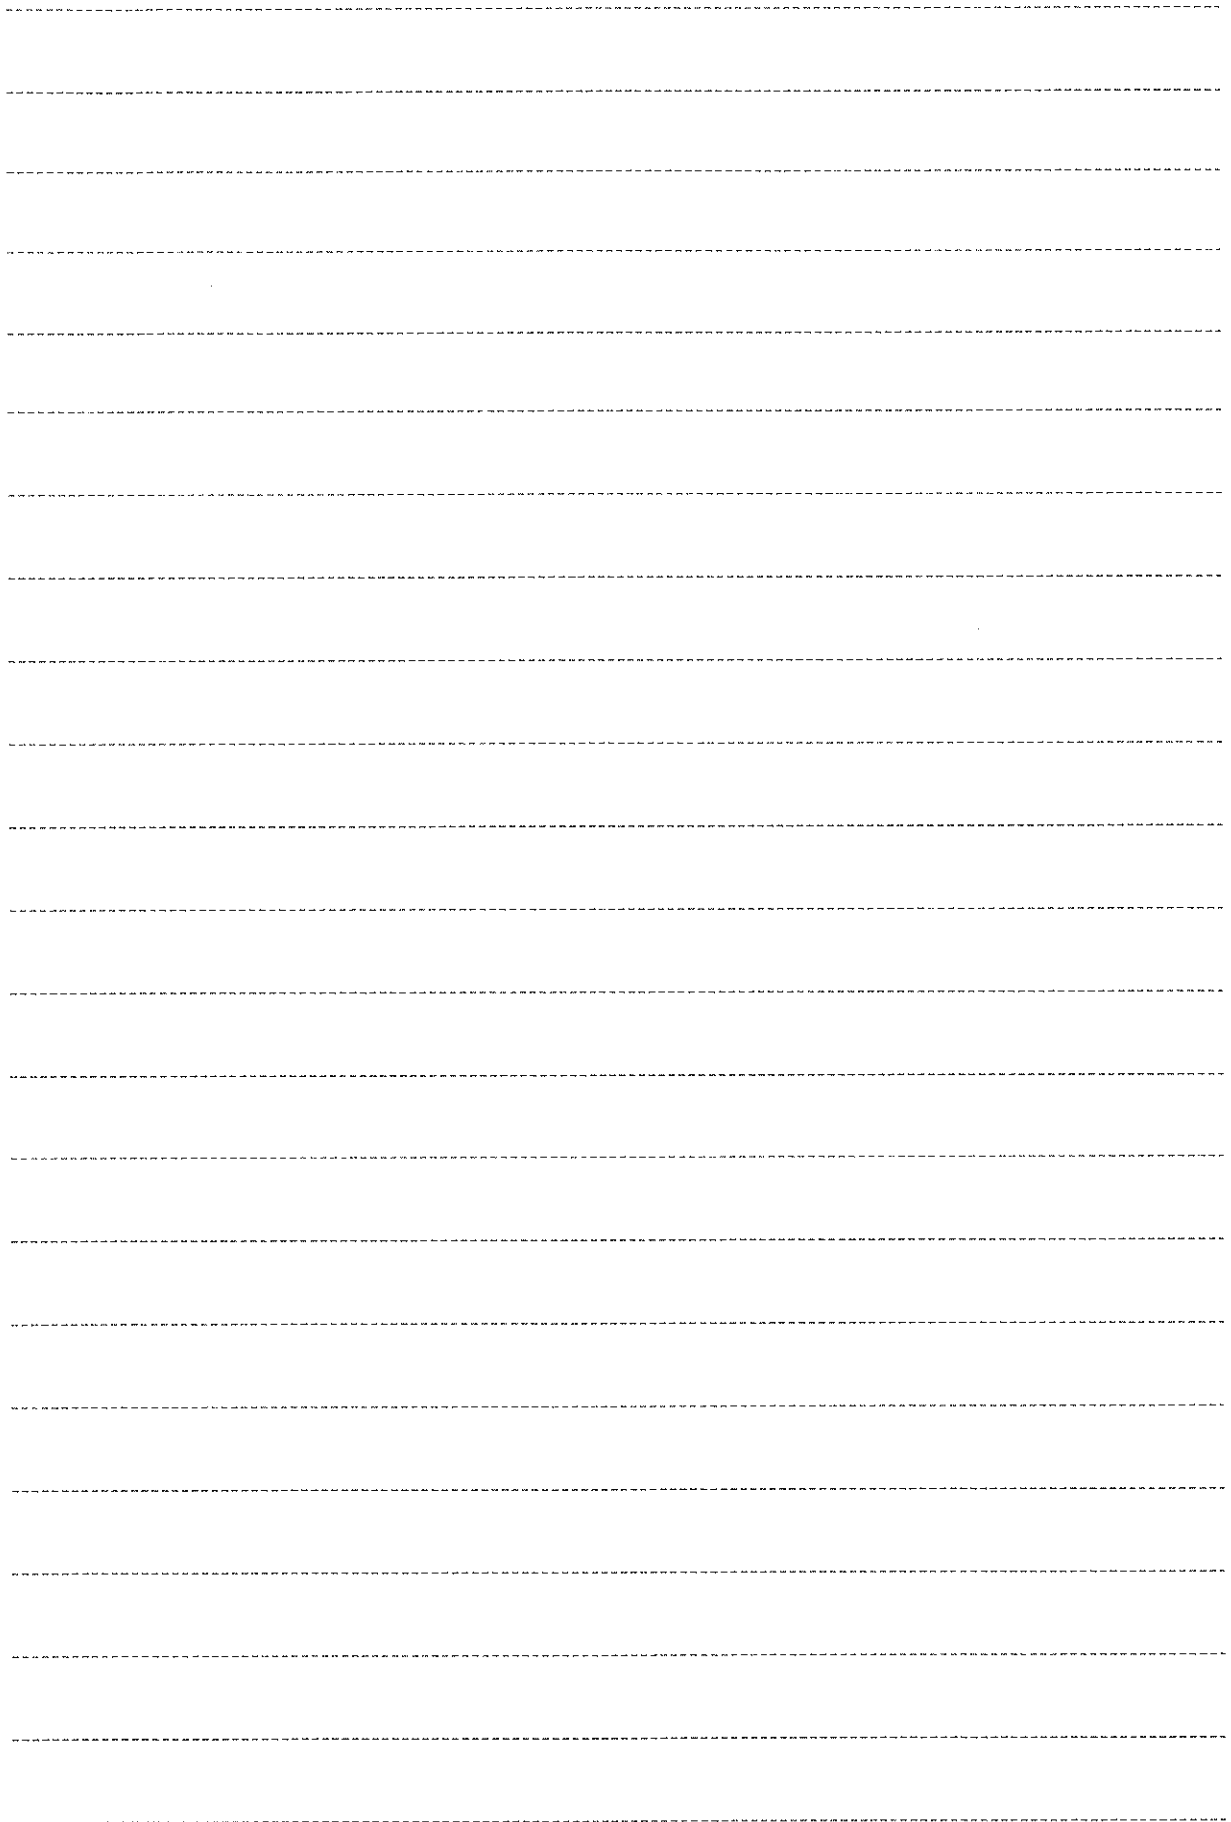

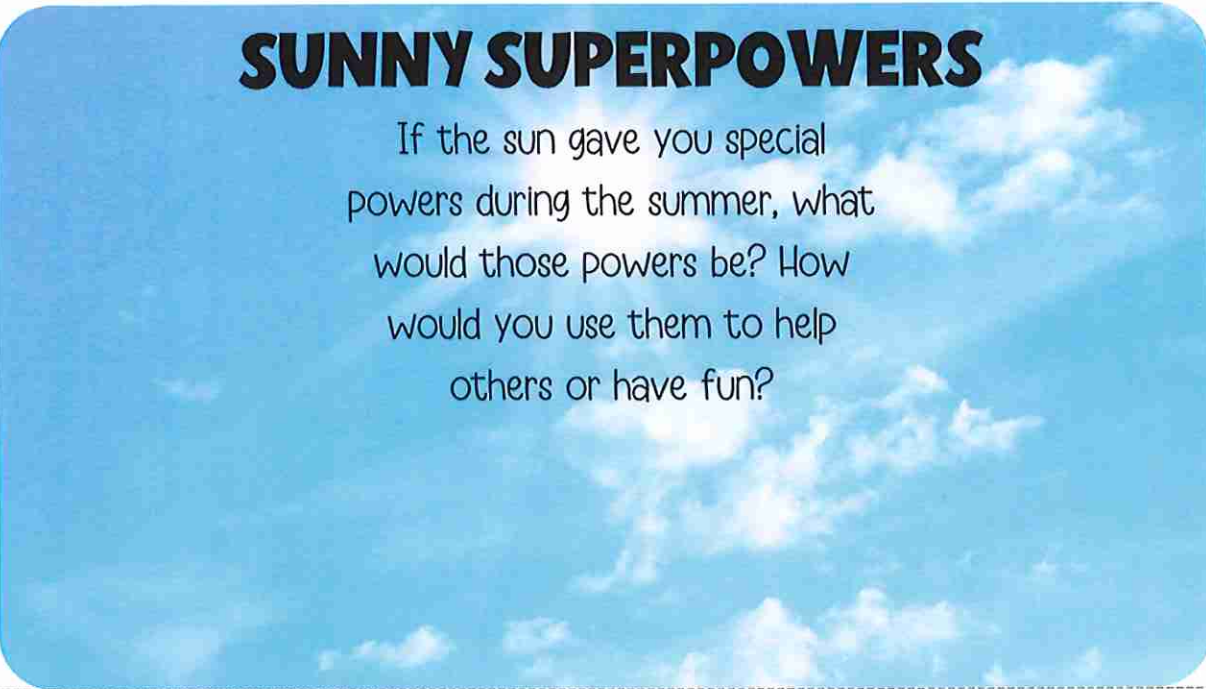

THE ULTIMATE WATER BALLOON FIGHT

Describe the most epic water balloon fight that your neighborhood has ever seen. Who would participate and what strategies would they use?

SUNNY SUPERPOWERS

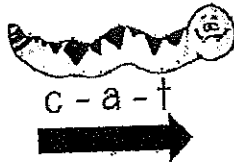

If the sun gave you special powers during the summer, what would those powers be? How would you use them to help others or have fun?
