Title I Parent Involvement Policy

Easton Area School District recognizes that parent involvement contributes to the achievement of academic standards by students participating in Title I programs. The High School views the education of students as a cooperative effort among the school staff, parents/families and community.

The Easton Area School District viewpoint on parent involvement includes the following:

- To provide the coordination, technical assistance, and other supports necessary to assist teachers in planning and implementing effective parental involvement activities to improve student academic achievement and school performance.
- To develop activities that promotes the parents/families capacity to be involved in their child's education.
- To coordinate and integrate parent involvement strategies and opportunities in accordance with district procedures.
- To identify barriers to participation by parents/families who are economically disadvantaged, disabled, have limited English proficiency and/or have limited literacy skills.
- To involve parents/families in activities held through the school year.
- To provide parents/families objective information regarding the High School Title I school wide program.
- To provide parents/families a description of the services children will receive.
- To provide parents/families a set of objectives to be addressed in instructional sessions.
- To provide parents/families an explanation of the curriculum, forms of academic assessment, as well as the proficiency levels students are to achieve.
- To provide parents/families opportunities to make suggestions and to participate, as appropriate, in the decisions relating to the education of their children.
