

**Student Scholarship Application Package
for the Genesee Valley Chapter
of the
New York Water Environment Association, Inc.**

The Genesee Valley Chapter of the New York Water Environment Association will be offering up to two (2) scholarships for a total amount of \$2,500:

- Students enrolled at a college or university who are or will be enrolled in an environmentally-related program;
- High school students who will be enrolled in an environmentally related program in a two-year or four-year college or university.

Please submit your completed application no later than June 15th, 2023.

Scholarship Instructions & Criteria for Applicants

Instructions for Applicants

To apply for a scholarship:

1. Fill out all of the pages of the Application. Be sure to type or print neatly. It is very important that you do not leave any blanks.
2. Letter verifying enrollment or acceptance in a college environmental program on college stationary.
3. Attach Letters of Recommendation (two); one must be from a teacher.
4. Attach an official transcript or report card.
5. Attach requested essays (two).
6. Submit your completed application no later than June 15th, 2023. Awards will be announced on or around August 15th.
7. Additional details are provided on the facing page titled "Scholarship Policy & Procedure".
8. All applicants must be New York State residents.

The Genesee Valley Chapter of the New York Water Environment Association will be offering up to two scholarships.

- Students enrolled at a college or university who are or will be enrolled in an environmentally-related program;
- High School students who will be enrolled in an environmentally related program in a two-year or four-year college or university.

Scholarship – College Students (Undergraduate and Graduate Levels)

Eligibility Requirements:

- The applicant must be enrolled as a student in an environmentally-related program that allows them to pursue a professional career in the environmental field.
- The applicant must be a registered student in good standing at a college or university and will begin their Sophomore, Junior, Senior, or Graduate Level year by September of the application year.

Scholarship – High School Students Pursuing Environmental Studies

Eligibility Requirements:

- The applicant must be a High School Senior in good standing, who has applied to a college or university with the interest of pursuing a course of study in the environmental field.
- Student winner must show proof of enrollment in the environmentally-related program at the college or university in September of the application year to receive a scholarship check.

Essay Questions

Please complete responses to each of the following questions. Your response to each question should be 500 to 600 words. Please type your responses.

Career Objective Essay: What career choice have you chosen to pursue and how would you positively impact the environment with this career?

Environmental Objective Essay: It has been said that water is the most precious commodity we have. Describe what personal efforts and initiatives you might take, or have taken, to help ensure the protection of this resource for future generations.

Scholarship – NYWEA Chapters

Additional scholarships are available through other NYWEA chapters as well. Call the local chapter chair or the NYWEA Executive Office for additional information. (See also the NYWEA website, www.nywea.org).

Scholarship Policy and Procedures

1. Applications must be accompanied by:
 - a. A Letter of Recommendation on school letterhead from one of the student's teachers or professors.
 - b. A Letter of Recommendation from a personal or professional reference.
 - c. Latest Transcript or Report Card.
 - d. Required essays.
2. Applicants shall submit their scholarship application to the Scholarship Committee of the Genesee Valley Chapter for review.
3. To be eligible for a scholarship, the student must meet the criteria outlined in the Instructions for Applicants, listed on the previous pages.
4. Selection Criteria to be considered and evaluated by the Scholarship Committee may include the following:
 - a. Career Objective (Essay): Relevance of career objective to the Environmental field.
 - b. Academic potential: Grade Point Average and discipline of courses taken.
 - c. Other Activities: Activities in programs and organizations demonstrating leadership qualities and good environmental stewardship.
 - d. Environmental Interest (Essay): Demonstrates a commitment to pursue an education in the Environmental field of study.
5. The Genesee Valley Chapter Scholarship Committee consists of no less than 3 individuals, as appointed by the Board of Directors. The Scholarship Committee shall nominate students for scholarships to the Board of Directors.
6. Once the nominees are accepted by the Scholarship Committee, a minimum of three qualified nominees will be selected by the Scholarship Committee and sent to the Genesee Valley Board of Directors. The Board of Directors will then select the winning application based on the Selection Criteria listed above. The President will notify the winning applicant by letter by no later than June 1 of that year.
7. To receive payment, the applicant must maintain a GPA of 2.5 out of 4.0 for the current year of study. Failure to achieve the minimum GPA will result in forfeiture of the scholarship award.
8. The recipient will be eligible to receive awards in subsequent years.
9. Winning applicants will be awarded their scholarship by a NYWEA representative at an appropriate school function and/or a Local Chapter event.
10. Funds will be released during the fall of each year directly to the recipient as soon as an acceptable copy of a Bursar's receipt for attendance of an accredited institution is received.
11. A complimentary one-year student membership in the New York Water Environment Association will be awarded to the first 10 scholarship applicants of each year.

About the Association

The New York Water Environment Association, Inc. (NYWEA) was founded in 1929, by professionals in the field of water quality as a non-profit, educational organization. Association members helped lead the way toward existing state and national clean water programs. Today, the Association has over 2,200 members representing many diverse backgrounds and specialties, but all are concerned and involved with protecting and enhancing our precious water resources.

Members

Members include civil, design and environmental engineers; biologists, chemists, local and state government officials, treatment plant managers and operators, laboratory technicians, students, professors, lawyers, environmental scientists, equipment manufacturers and distributors.

Mission Statement

To provide a forum for educational opportunities, professional development, and dissemination of information to our members, and to increase the public understanding of and promotion of sound public laws and programs in the water environment field.
