## **About these Coverage Examples:**

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

## This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

#### Coverage Period: 7/1/2024 – 6/30/2025

Coverage for: Single&Family | Plan Type: HRA

#### Questions and answers about the Coverage Examples:

# What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S.
   Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from innetwork <u>providers</u>. If the patient had received care from out-of-network <u>providers</u>, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how <u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u> can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

### Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

### Does the Coverage Example predict my future expenses?

No. Coverage Examples are <u>not</u> cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your <u>providers</u> charge, and the reimbursement your health plan allows.

## Can I use Coverage Examples in this HRA Summary to compare plans?

No. HRAs are designed to supplement other health insurance. Thus the coverage examples in this HRA summary can only help you understand how your costs under other plans may be impacted.
