

Note: Due to various factors, including the volume of participation from districts, contract negotiations for products and services being purchased and delivered within this contract, possible funding changes for districts or ESC Region 11, and other factors, this contract is offered in good faith but does not become binding until September 1, 2025, on either the district or ESC Region 11. If this contract pricing is based on enrollment, the previous year's PEIMS enrollment snapshot submission number from October will be used to determine pricing. This contract is contingent upon the continued availability of appropriations and is subject to cancellation by either party upon thirty (30) days written notice to the other party. Payment for valid fees or charges rendered by the ESC Region 11 prior to written notice of termination shall be due to ESC Region 11. Early acceptance of this contract is necessary so that ESC Region 11 can plan and prepare to deliver these services. An alternative contract may be offered if this contract cannot be delivered as stated.

Technology Services - Cloud Storage

The Information Technology Department offers the following services to school districts/charter schools that sign the Cloud Storage Contract:

Services Included

- Provide secure, off-site, Cloud Storage based on the school's or entity's purchased services.
- Provide encrypted data transport.
- Provide access to the school's or entity's data online 24/7 (except for scheduled and unscheduled maintenance and outages).
- Provide access and credentials to the necessary agents to allow schools and entities to manage their own Cloud Storage environment.
- Provide configuration assistance for the agents installed on district hardware.
- Provide training on system usage and reporting.
- Provide technical assistance and support as needed.
- Provide quarterly billings to districts based on usage.

District Responsibilities

- Designate a contact person.
- Pay ESC Region 11 the appropriate fee(s) based on quarterly billings provided to the district.
- Provide the appropriate telecommunications access via the Internet or direct connection to ESC Region 11.
- Provide at least one person to be trained to manage the district's Cloud Storage environment.
- Comply with all guidelines established by ESC Region 11.
