BACKGROUND: Bid #23-011 Pest Management Service was published in the Daily Herald and on the District's website on March 10, 2023. Bid specifications were sent to nine (9) vendors. IPM is a process for achieving long term, environmentally sound pest suppression by using a wide variety of technological and management practices. Control techniques in an IPM program extend beyond the application of pesticides to include structural and procedural modifications that reduce the food, water, harborage, and access used by pests.

The monthly cost to manage twenty-two (22) locations totals \$770.00, with an annual cost of \$9,240.00 for each respective year. Year 1 of the 3-year contract will be 2023-2024, Year 2 will be 2024-2025, and Year 3 will be 2025-2026. This bid award is based on the lowest responsible bidder meeting bid specifications.
