Accordingly, Contractor shall ensure that none of its employees, agents or independent contractors are child sex offenders. Child sex offenders found to be present on school property without permission will be considered trespassers and will be prosecuted in accordance with Illinois law.
18. Bids will be considered only if made without any connection with any other person or firm submitting a bid, if in all respects fair and without collusion and if neither member of the Board nor other officer of the School District is directly or indirectly interested in the bid or in any portion of the profits thereof.
19. A bidder may withdraw or change a bid if written notice of the withdrawal or change is received by Board before the latest time specified for submission of bids. Any change may be made only by substitution of another bid.

Risk of loss prior to such actual receipt by Board or its consignee shall be borne by Contractor. Nothing herein contained, however, shall be construed to deprive Board of its interest, or limiting such interest, in goods herein described prior to such actual receipt.
22. All material and workmanship shall be subject to inspection and test by Board or its designee. The Board reserves the right to reject any goods which contain defects in material or workmanship, which fail to meet the specifications contained herein or any warranties (express or implied). 25. Signature Constitutes Acceptance - The signing of these bid forms shall be construed as acceptance of all provisions contained herein and that the Contractor had read the Contract Documents and is fully aware of the terms hereof.
26. Exceptions – Any exceptions to these terms and conditions of deviations from the written specifications must be shown in writing and attached to the bid form.
27. The Board reserves its rights to reject any goods and to cancel all or any part of this sale if Contractor fails to deliver all or any part of the goods described in the invitation to bid in accordance with the terms, conditions, and specifications contained herein. Acceptance of any part of the goods covered by the invitation to bid shall not obligate Board to accept future shipments nor deprive it of its rights to revoke any acceptance theretofore given. If Contractor ceases to conduct its operations in the ordinary course of business (including inability to meet its obligations as they mature), or if any proceeding under bankruptcy or insolvency laws is brought by or against Contractor, or if a receiver for Contractor is appointed or applied for, or if an assignment for the benefit of creditors is made by Contractor, Board may cancel this order without liability except for deliveries previously made or for goods covered by the invitation to bid then completed and subsequently delivered in accordance with the terms, conditions, and specifications contained herein.
28. Contractor makes the following warranties to Board and users of the goods herein described: (a) It will, at the date of delivery, have good title to any and all goods supplied hereunder, and said goods will be free and clear of any and all liens and encumbrances; (b) Any and all goods supplied hereunder will be of merchantable quality; (c) Any and all goods supplied hereunder will be fit for the particular use intended, will be free from defects, whether patent or latent in material or workmanship, and will be in full conformity with the specifications contained herein. Contractor agrees that the foregoing warranties shall survive acceptance of the goods, and that said warranties shall be in addition to any warranties for additional scope given to Board by Contractor.
29. Contractor agrees to indemnify, defend, and hold harmless the Board, its successors, assigns, customer, agents, and users of the goods herein described against any and all loss, damage, or injury arising out of or resulting from a claim or suit for alleged infringement or any letters patent granted by the United States or any foreign government relating to the goods herein described. Contractor agrees that it will assume the defense of any and all such suits and pay all costs, judgments, and expenses incidental thereto.
30. Bidder must make delivery upon receipt of order unless otherwise specified in the invitation to bid. Bidder must indicate time required for delivery on bid.
31. The bidder shall at all times observe and comply with all laws, ordinances, regulations and codes for the Federal, State, County and other local government agencies, which may in any manner affect the preparation of proposals or the performance of the contract.

32. Any interpretation of the proposed Contract Documents will be made only by an addendum duly issued by the Purchasing Agent. A copy of such addendum will be mailed to each person receiving a set of such Contract Documents and to such other prospective bidders as shall have requested that they be furnished with a copy of each addendum. Failure on the part of the prospective bidder to receive a written interpretation prior to the time of the opening of bids will not be grounds for withdrawal of his proposal. Oral explanations will not be binding.
33. The award of the Contract will be made by official Board documents. Bidder's order form is not acceptable and cannot be used.
34. The Board is exempt from paying Illinois Use Tax (35 ILCS 105/3-5.4) and sales to the Board are exempt from Illinois Retailer's Occupation Tax (35 ILCS 120/2-5.11). As such, Contractor shall not include such taxes in its bid.
35. The Board is exempt from paying Federal Excise Taxes (26 U.S.C.A. § 4221). As such, Contractor shall not include such taxes in its bid.
36. In computing transportation costs, bidders should not include any federal transportation tax, because Board is exempt.
37. The Contractor shall pay sales, consumer, use and similar taxes for the work or portions thereof provided by the Contractor. Contractor shall collect and remit Illinois Use Tax on all sales of tangible personal property in accordance with the Illinois *School Code* (105 ILCS 5/10-20.21) and the Illinois *Use Tax Act* (35 ILCS 105/1 *et seq.*). The payment of this tax will take place regardless of whether the Contractor is a retailer maintaining a place of business within this State. The cost of such tax shall be borne solely by the Contractor as part of the Contract price. Contractor shall not be reimbursed or paid any taxes unnecessarily paid by Contractor when not required due to the Board's tax exempt status.
38. Where the term Sub-contractor is used throughout the bid it refers to those specialized people who are not on the Contractor's payroll. Such Sub-contractors are to be brought to the attention of the Board, which reserves the right to approve or disapprove any such related Sub-contractors.
39. **ERRORS AND OMISSIONS** All proposals shall be submitted with each space properly completed. Special attention of bidders is directed to the policy that no claim for relief because of errors or omissions in the bidding will be considered and bidders will be held strictly to the proposals as submitted. Should a bidder find any discrepancies in, or omissions from any of the documents, or be in doubt as to their meanings, it shall advise the Director for Business Services who will issue the necessary clarifications to all prospective bidders by means of addenda. Failure on the part of the prospective bidder to receive a written interpretation prior to the time of the opening of bids will not be grounds for withdrawal of its proposal. Oral explanations will not be binding.
40. Signature Constitutes Acceptance; the signing of these bid forms shall be construed as acceptance of all provisions contained herein.
41. Any exception to these terms and conditions or deviation from the written specifications must be shown in writing and attached to the bid form.

42. To the extent applicable, it shall be mandatory upon the Contractor to whom the Contract is awarded and upon any Sub-contractor(s) thereof to pay to all laborers, workmen, and mechanics employed by them not less than the prevailing rate of wages in the locality for each craft of type of workmen or mechanic needed to perform such work and the general prevailing rate for legal holidays and overtime work as ascertained by the Department of Labor and pursuant to Illinois law and statutes in such case made and provided.

The Contractor and Sub-contractor(s) shall comply with the Illinois *Prevailing Wage Act* and shall include in bids the cost for the current prevailing wage. A copy of the current Illinois Department of Labor Prevailing Wages for Cook County is included at the end of this Section. As changes are made in these prevailing wages, the Contractor and Sub-contractor(s) performing work on the project will be responsible for conforming to the changes and shall have the responsibility for determining when changes are made. No additional costs are to be incurred by the Board as a result of changes in prevailing wage. All record keeping requirements are the obligation of the Contractor and Sub-contractor(s).

To the extent that there are any violations of the *Prevailing Wage Act* and any demands are made upon the Board by the Illinois Department of Labor or by any employee of the Contractor or a Sub-contractor performing work on the project, the Contractor or the particular Sub-contractor and Contractor shall be responsible for indemnifying and holding the Board free and harmless from all costs incurred, directly or indirectly, by the Board in responding to and complying with demands made by the Department of Labor, or an aggrieved employee and such amounts may be withheld from the payments to be made on the project.

Palatine Community Consolidated School District 15 is bound by the requirements of **Prevailing Wage Act, 820 ILCS 130/.01 et seq.** The Prevailing Wage Act requires contractors and subcontractors to pay laborers, workers, and mechanics performing services on public works projects no less than the *prevailing rate of wages* (hourly cash wages plus fringe benefits) in the county where the work is performed. BID #23-011  
PEST MANAGEMENT SERVICE  
MARCH 10, 2023  
COMMUNITY CONSOLIDATED SCHOOL DISTRICT 15

**SCOPE OF WORK**

With an enrollment of approximately 12,300 students and a staff of 2,000 employees, Community Consolidated School District 15 (CCSD15) is one of the largest elementary school district in Illinois. CCSD15 has twenty (20) school buildings and three (3) administrative support buildings. CCSD #15 is soliciting bids for integrated pest management service at twenty-two (22) District buildings for the 2023-2024, 2024-2025, and 2025-2026 school years.

**SPECIFICATIONS**

1. **Description of Service:** This contract is part of a comprehensive Integrated Pest Management Program (IPM) for the buildings and other areas specified herein. IPM is a process for achieving long term, environmentally sound pest suppression by using a wide variety of technological and management practices. Control techniques in an IPM program extend beyond the application of pesticides to include structural and procedural modifications that reduce the food, water, harborage, and access used by pests.
2. **Pests Included and Excluded:** The Contractor shall adequately suppress indoor populations of rats, mice, cockroaches, ants, flies, and any other arthropod pests not specifically excluded from the contract. Populations of these pests that are located outside of the specified buildings but within the property boundaries of the buildings, are included.

Populations of the Following pests are excluded from this contract:

- Birds, bats, snakes, and all other vertebrates other than commensal rodents.
  - Termites and wood-destroying organisms.
  - Mosquitoes.
  - Pests that primarily feed on outdoor vegetation.
  - Individual and incidental pests from the aforementioned exclusion list, including winged termite swarmers, will be controlled under the terms of the contract should they be discovered indoors.
3. Site inspections for all prospective vendors can take place from 7:00-10:00 A.M., Monday through Friday by appointment only. **Access to the building(s) shall be coordinated with the District's Facilities Specialist by calling (847) 963-3951. The District will inform the Contractor of any restrictions or areas requiring special scheduling.**

**ON-SITE VISITS**

1. Pest control contractor shall visit each facility on a regularly scheduled monthly basis at a time when students and staff are not present. Visits normally shall take place in morning prior to start of school day.
2. Areas to be inspected shall include classrooms, cafeteria/lunchroom, teachers' lounge/workroom, restrooms, storage areas/closets, boiler rooms and mechanical areas, janitorial areas, tunnels, crawl spaces, and pipe chases, other areas, including exterior, as appropriate.
3. Treatments at time of inspection are limited to use of baits or nonchemical methods.
4. Proposed methods for control, including labels and Material Safety Data Sheets (MSDS sheets) for all pesticides to be used. As well as a list of brand names or rodent bait boxes, insect and rodent trapping devices, pest monitoring devices, and any other control devices or equipment.
5. A service schedule for each building or site will be provided to the District.

6. The vendor will provided documentation highlighting the following:
  - a. Areas inspected
  - b. Conditions found in each area which may contribute to pest problems
  - c. Any pest activity or evidence found in each inspected area
  - d. The name and quantity, if any, of the pest control material applied in each area
  - e. Necessary upgrades in equipment and service
7. A copy of the Commercial Pesticide Applicator Certificate or License for every Contractor's representative who will be performing on-site service under this contract. At the minimum, Contractor shall submit the certificates of two individuals, one acting as a regular service representative and the other acting as an alternate. Uncertified individuals working under the supervision of a Certified Applicator will not be permitted to provide service under the terms of this contract. The two individuals must take a background check and fingerprinting provided at the District office before they can work at the schools.

It shall be the Contractor's responsibility to carry out work according to the approved Pest Control Plan for each building or site. The Contractor shall receive the concurrence of the District prior to implementing any subsequent changes to the approved Pest Control Plan, including additions or replacements to the pesticide list and to on-site service personnel.

8. Pesticide Application: The Contractor shall not apply any pesticide product that has not been included in the Pest Control Plan or approved in writing by the District. As a general rule, application of pesticides in any area inside or outside the premises shall not occur unless visual inspections or monitoring devices indicate the presence or pests in that specific area.

Preventive pesticide treatments or areas where inspections indicate a potential insect or rodent infestation are acceptable on a case-by-case basis. Written approval must be granted by the District prior to any preventive pesticide application. The Contractor shall not store any pesticide product on District property.

9. Structural/Procedural Recommendations: Structural modifications for pest control, including the application of caulk and other sealing materials, will not be the responsibility of the Contractor. However, through the life of this contract, the Contract shall be responsible for notifying the District, in writing, about any structural, sanitary, or procedural modifications deemed necessary to eliminate pest food, water, harborage, or access.

The Contractor shall observe all safety precautions throughout the performance of this contract. Certain areas within some buildings may require special instructions for persons entering the building. The District will explain any restrictions associated with these special areas to the Contractor. The Contractor shall adhere to these restrictions and incorporate them into the Pest Control Plan for the specific building or site.

10. Special Requests and Emergency Service: On occasion, the District may request that the Contractor perform corrective, special or emergency service(s) that is beyond routine service requests. The Contractor shall respond to these exceptional circumstances and complete the necessary work within one (1) working day after receipt of the request. In the event that such service cannot be completed with one (1) working day, the Contractor shall immediately notify the District and indicate an anticipated completion date. This work will be considered included in the Contractor's monthly cost submitted on their bid response, and as such, the District will not be assessed any additional charges.

### **INSECT CONTROL**

1. Non-pesticide Products and Use: The Contractor shall use non-pesticide methods of control wherever possible. For example, trapping devices rather than pesticide sprays shall be used for indoor fly control wherever appropriate. Sticky traps shall be used to guide and evaluate indoor pest control efforts wherever necessary.
2. Pesticide Products and Use: When it is determined that a pesticide must be used in order to obtain adequate control, the Contractor shall employ the least hazardous material, most precise application technique and minimum quantity of pesticide necessary to achieve control.

The Contractor shall be responsible for application of pesticides according to the label. All pesticides used by the Contractor must be registered with the Environmental Protection Agency (EPA), state and/or local jurisdiction. Transport, handling, and use of all pesticides shall be in strict accordance with the manufacturer's labeled instructions and all applicable Federal, State and local laws and regulations.

The Contractor shall minimize the use of liquid pesticide applications wherever possible. For example, containerized and other types of bait formulations, rather than sprays, shall be used for cockroach and any control wherever appropriate. The District will consider bait formulations to be the standard for the typical office space.

As a general rule, liquid, aerosol, or dust formulations shall be applied only as a crack and crevice treatment with application devices specifically designed or modified for this purpose. In this contract, "Crack and Crevice Treatment" is defined as an application in which the stream of pesticide is never visible. Application of pesticide liquid, aerosol, or dust formulations to exposed surfaces and pesticide space sprays (including fogs, mists, and ultra-low volume applications), shall be restricted to unique situations where no alternative measure are practical.

The Contractor shall obtain the approval of the District prior to any application of pesticide liquid, aerosol, or dust formulations to exposed surfaces or any space spray treatments. The Contractor shall take all necessary precautions to ensure tenant and employee safety and all necessary steps to ensure the containment of the pesticide to the site of application. Other than crack and crevice treatments, NO liquid, aerosol, or dust applications shall be sprayed while tenant personnel are present.

### **RODENT CONTROL**

1. Non-pesticide Products and Use: As a general rule, rodent control inside occupied buildings shall be accomplished with trapping devices only. All such devices shall be concealed out of the general view and in protected areas so as not to be affected by routine cleaning and other operations. Trapping devices shall be checked on a schedule approved by the District. Trapping shall not be performed during periods when maintenance will be delayed by holidays, weekends, etc. The Contractor shall be responsible for disposing of all trapped rodents and all rodent carcasses in an appropriate manner.
2. Pesticide Products and Use: In exceptional circumstances, when rodenticides are deemed essential for adequate rodent control inside occupied buildings, the Contractor shall obtain the approval of the District prior to making any interior rodenticide treatment. All rodenticides, regardless of packaging, shall be placed either in locations not accessible to children, pets, wildlife, and domestic animals, or in EPA-approved tamper-resistant bait boxes. Frequency of bait box servicing shall depend upon the level of rodent infestation. All bait boxes shall be maintained in accordance with EPA regulations, with an emphasis on the safety of non-target organisms.

The Contractor shall adhere to the following points:

- All bait boxes shall be placed out of the general view, in locations where they will not be disturbed by routine operations.
- The lids of all bait boxes shall be securely locked or fastened shut.
- All bait boxes shall be securely attached or anchored to the floor, ground, wall, or other surface so that the box cannot be picked up or moved.
- Bait shall always be placed in the baffle-protected feeding chamber of the box and never in the runway of the box.
- All bait boxes shall be labeled with the Contractor's business name and address. As well as dated at the time of installation and each servicing.

#### **SAFETY AND HEALTH**

1. All service technicians shall have certification from Illinois Department of Health. All Contractor personnel working in or around buildings designated under this contract shall wear distinctive uniform clothing. The Contractor shall determine and provide additional personal protective equipment required for the safe performance of work. Protective clothing, equipment, and devices shall, as a minimum, conform to Occupational Safety and Health District (OSHA) standards for the products being used. Vehicles used by the Contractor shall be identified in accordance with state and local regulations.
2. All procedures shall meet or exceed the requirement of all governmental agencies, i.e. IL Dept. of Public Health and the IL Dept. of Education. All work shall comply with the applicable requirements of 29CFR 1910/1926 and 40CFR 761 and the GSA Supplement to Master spec, Safety and Health. All work shall comply with applicable state and municipal safety and health requirements. Where there is a conflict between applicable regulations, the most stringent will apply.
3. All pest control materials shall be used and applied in full compliance with EPA registered product labeling.
4. All pesticides use shall be registered by the EPA and used or placed strictly according to product labeling, applicable government regulations and good pest control practice.
5. School officials must be notified, in writing, at least one week prior to any application of spray, dusts, or aerosols.
6. All service orders shall contain the following information:
  - Materials used, if any
  - Time spent on site
  - Name of the person performing the service
  - Date of service
  - Target pest or purpose of visit
7. The Contractor shall assume full responsibility and liability for compliance with all applicable regulations pertaining to the health and safety of personnel during the execution of work, and shall hold the District harmless for any action on its part, or that of its employees or subcontractors, that results in illness or death.

#### **PROGRAM EVALUATION**

The District reserves the right to evaluate the progress of this contract in terms of effectiveness and safety and to require such changes as are necessary. The Contractor shall take prompt action to correct all identified deficiencies.

Questions regarding this bid will be addressed **by email only** and should be submitted to Tari Farina at [farinat@ccsd15.net](mailto:farinat@ccsd15.net). No questions will be addressed after 12:00 p.m. local time on Wednesday, March 22, 2023.
