

Browning Elementary Bond Updates

BROWNING ELEMENTARY PLAYGROUND

SUMMER 2024

- Create additional layers of security, such as impact and shatter resistant glass.
- Install new playground equipment.
- Replace playground soft surface areas.

Thanks to the support of the UCS community, Browning Elementary will undergo a series of improvements funded by the 2023 Safety and Success bond issue.

Safety remains the priority for the bond projects, and projects for this summer includes upgrades to shatter and impact resistant glass.

In addition, we are excited to introduce new playground equipment to ignite our children's imagination! The new equipment is focused on providing different ways to get our students moving and working together as they exercise to make physical activity fun!

The improvements will begin as soon as school is out for the summer. The improvements are scheduled to be completed when we welcome students back for the 2024-25 school year.

Thank you to our voters for making these improvements possible for our students. For more information and photo updates, visit:
