INTRODUCTION

The Cleveland Heights-University Heights City School District (the "District") believes that it is important to maintain respectful, responsible, safe, and orderly learning and working environments for all students and employees. The 2019-20 edition of *Student Guide: Student Code of Conduct* (the "Student Guide") is intended to support our continued efforts toward achieving this outcome.

As a learning community, it is our responsibility to teach students skills that will allow them to be successful not only as young people, but also as adults. Because we believe that all students will choose to demonstrate positive behavioral choices if they are prepared to make them respectfully and with dignity, the Student Guide was established as a systematic resource for describing:

- What appropriate actions and behaviors "look like" (these are contained in the Student Code, or "the Code");
- What student personnel do to help students choose them;
- What inappropriate actions and behaviors "look like"; and
- What student personnel do to help students avoid them.

To this end, the Cleveland Heights-University Heights City School District Board of Education (the "Board") is committed to the District-wide use of Positive Behavior Interventions and Supportss ("PBIS") with students, a school-wide systematic behavior management approach that embeds evidence-based practice and data-driven decision making to:

- Improve school climate and culture;
- Achieve improved academic and social outcomes, and
- Increase learning for all students.

The PBIS approach encompasses a range of systemic and individualized positive strategies intended by student personnel to:

- Teach appropriate behaviors to students;
- Reinforce desired behaviors: and
- Diminish reoccurrences of challenging behaviors.

To find out more about the District's PBIS program, visit our website or contact the Cleveland Heights High School office, school Principal, or school counselor.

The Student Guide also outlines the types of sanctions that may be used by student personnel, when necessary, if students have violated the Code. Any of these actions shall:

- Relate in kind and degree to the infraction;
- Help students learn skills to take responsibility for their actions; and
- Be directed, where possible, to reduce the effects of any harm which may have been caused by the misconduct of the students involved.

The Board believes that students should learn to assume responsibility for their own behavior and the consequences of their actions, but also recognizes that exclusion from the educational program, whether by Suspension, Expulsion, or Permanent Exclusion, is the most severe sanction that can be imposed on students. Whenever such a need arises, appropriate due process will be provided to those students involved in accordance with federal law, state statute, and/or Board Policy.

The Board also seeks to maintain a balance between maintaining a proper educational environment and a compassion for students, and recognizes that students may experience difficulties that educational programs and sound discipline may not prevent, and that other forms of assistance need to be available through the schools. To that end, the District may utilize a variety of student assistance programs to address violations of the Code whenever reasonable and appropriate.

Table of Contents

It is important to note that the Student Guide is not an all-encompassing document, and occasionally may not address every imaginable conduct or behavior issue involving students. Student personnel will use their best judgement and discretion in managing such cases.

Further, nothing in the Student Guide creates new rights for students that do not already exist as a matter of federal law, state statute, and/or Board Policy. In the event of any conflict between the Student Guide and Board Policy, Board Policy will govern.

The Principal or his/her designee will provide a yearly orientation to the Student Guide for all students, and copies of the Student Guide will be made available to all students in print, online, or in the central offices of all schools. Issues, concerns, or questions relating to the Student Guide may be directed to the school Principal.

Finally, it should be noted that key terms in the Student Guide are defined within their respective contexts. Where applicable, one or more examples of terms are also provided.

From the first day of the school year to the last, it will take the collective efforts of students, parents or legal guardians, teachers, and administrators to promote a respectful, responsible, safe, and orderly learning environment where all students can succeed. Working together, we can realize this outcome!

Sincerely,

Elizated a Kysty

STUDENT CODE OF CONDUCT

DISTRICT LEVEL EXPECTATIONS

The Board has both the authority and the responsibility to maintain behavioral expectations that apply for <u>all</u> students within the District, which are intended to assist students in selecting actions and behaviors that not only contribute to safe, positive, and orderly learning environments, but support high levels of student achievement as well. These behavioral expectations (also called the" Tiger Expectations", the "Student Code of Conduct", the "Student Code", or the "Code") are as follows:

TIGER EXPECTATIONS:

BE SAFE

BE RESPECTFUL

BE RESPONSIBLE

Our expectations support the following central themes for the behavior of students in the District:

- <u>All</u> students have the right to learn in a safe, positive, and orderly environment; and
- <u>All</u> student personnel have the right to perform their assigned duties.

Tiger Expectations shall apply on school grounds, and may apply off school grounds in some cases. <u>All</u> students will be held accountable for meeting them in a reasonable, fair, and consistent manner.

SCHOOL LEVEL EXPECTATIONS

Each school within the District implements the Tiger Expectations in a way that applies to <u>all</u> students within the particular school. The Tiger Expectations at our school are as follows:

BE SAFE

- Know and follow all school rules and classroom rules for keeping you and others safe.
- Be on the alert for any condition that might put you or others in danger.
- Provide an appropriate amount of personal space to others.
- Inform a staff member immediately if you feel you are being mistreated by another student.
- Inform a staff member immediately about any safety threat you become aware of.

BE RESPECTFUL

- Know and follow all school rules and classroom rules for respecting the rights of others.
- Use your inside voice when entering and exiting classrooms, cafeterias, and other places.
- Use school-appropriate language at all times.
- Cooperate with teachers, other staff, and students, and follow directions when they are given.
- Care for the school property and that of others as if it were your own.

BE RESPONSIBLE

- Know and follow all school rules and classroom rules for doing your best in each class or activity.
- Attend school regularly, and arrive at classes or other school destinations on time.
- Do your best to participate in all classes, and earn grades or credits fairly.
- Accept responsibility for your actions.
- Protect your personal belongings at all times.

Personal belongings are the responsibility of the student or parent/guardian, and are not covered by the District's insurance in case of loss or theft.

Table of Contents

Transportation in Board-approved vehicles (such as buses or vans) is a privilege, not a right, and the driver is the sole authority on the vehicle while students are being transported. For students who ride the bus, the following additional bus rules apply:

AT THE BUS STOP

- Enter and leave the bus only at the assigned bus stop.
- Arrive at the assigned bus stop five (5) minutes prior to scheduled pick-up time.
- Conduct yourself properly at the bus stop, and avoid disturbing nearby residents.
- Take care to avoid damaging public property or the personal property of others.
- Remain clear of traffic, and keep all articles off the roadway.

GETTING ON OR OFF THE BUS

- Cross all streets at least ten (10) feet in front of the bus, and after the driver has signaled you.
- Wait until the bus stops and then walk to the bus door in orderly fashion.

ON THE BUS

- Follow the directions of the driver or monitor at all times.
- Remain in your seat, and share seats as directed by the driver.
- Speak and behave respectfully toward adults and other students at all times.
- Keep noise on the bus to a minimum, and speak in a reasonable conversation voice.
- Keep quiet at railroad crossings and any other danger zones as designated by the driver.
- Keep the parts of your body, and all other items, inside the bus.
- Avoid creating any unsafe condition which could cause injury to you or others, or damage property.
- Take care to avoid damaging the bus or the personal property of others.
- Keep food or drink enclosed inside bags, backpacks, or containers (eating or drinking is a safety risk).
- Do not bring forbidden cargo onto the bus, such as pets, alcoholic beverages, drugs, ammunition, explosives, firearms, knives, or any other dangerous materials or objects.

BUS EVACUATION DRILLS

- Participate in each drill as directed by the driver.
- Leave all personal items on the bus.
- Use the exit indicated by the driver.
- Refrain from using windows to exit the bus.
- Assemble in the location indicated by the driver, and stay there until given further directions.

Evacuation drills will be conducted during the school year. Each drill will consist of an orderly use of the available exits on the bus and is designed to familiarize students with the proper safety procedures to be followed in case of emergency.

SETTING LEVEL EXPECTATIONS

Finally, <u>all</u> students are also expected to follow the classroom rules established by teachers, coaches, activity advisors, and other personnel. These will be provided to students at the beginning of the school year or when they are enrolled, and may be posted in each classroom or other participation setting.

BEHAVIOR MANAGEMENT OVERVIEW

The District is committed to limiting the use of exclusionary discipline practices wherever possible. With that objective in mind, we believe as a school District community, students, parents/guardians, and employees all share responsibility for ensuring that learning and working environments remain as respectful, responsible, safe, and orderly as possible.

As a part of the District's PBIS initiative, students can expect to be supported in their learning of the skills necessary to avoid negative behaviors by student personnel, who:

- · Teach positive school rules and social skills;
- · Reinforce desirable behaviors in positive ways; and
- Use early interventions and more intensive support strategies when undesirable behaviors arise.

When these measures fail, or when serious misconduct affecting the school order has occurred, students may face disciplinary action involving logical, meaningful consequences. During any disciplinary action, a student and his or her parent(s)/guardian(s) can expect:

- To be treated reasonably, fairly, and consistently by student personnel; and
- To receive appropriate due process consistent with state statute and/or Board Policy.

The remainder of this part of the Student Guide further details these responsibilities and expectations.

GENERAL RESPONSIBILITIES

Principals are responsible for:

- Supervising <u>all</u> phases of the school program, including, but not limited to, the instructional program, quidance services, health services, and school-sponsored events or activities.

- Considering potential alternatives to disciplinary consequences, if possible.
- Suspending for Code violations when necessary.

- Giving proper concern for, and attention to, their responsibilities for the safety and welfare of students, including the need to ensure that students are supervised at all times.

- Communicating with student personnel in a civil manner.
- Cooperating with the school if disciplinary action becomes necessary.

If a parent/guardian is awarded custody of a child by the courts, he or she must provide the school with a copy of the custody order, and inform the school in writing of any rights limitations for the non-custodial parent/guardian. Without such notice, school personnel will presume that the rights of the non-custodial parent/guardian remain intact (e.g., the student may be released into the care of either parent/guardian, and either parent/guardian will be able to act in the educational interests of the child).

Students are responsible for:

- Taking advantage of the opportunity for an education to which they are entitled.
- Demonstrating respect for the law and for those persons in authority.
- Complying with school rules and general provisions of law affecting students.
- Respecting the rights of others, considering their privileges, and demonstrating cooperative citizenship.

ESTABLISHING CODE VIOLATIONS

Depending on the nature of the Code violation involved, a student may be subject to any the following procedures when a Code violation is first alleged:

REMOVAL FROM THE CLASSROOM

Teachers have the authority to remove students from their classrooms, whether to the office for

Table of Contents

disciplinary referrals or in a manner consistent with the Student Guide. Teachers will not remove students from their classrooms directly to In-School Suspension for disciplinary purposes.

Exclusionary discipline will be used as little as possible.

OFFICE REFERRALS

Disciplinary referrals will be made to the Principal or his/her designee by teachers and other student personnel whenever:

- Prior actions taken by student personnel to resolve a Code violation failed to correct the inappropriate or unacceptable behavior(s) involved; or
- The Code violation is serious enough to require immediate action.

If a teacher finds it necessary to send a student from a classroom to the office for a disciplinary referral:

- The referring teacher will complete and submit a referral form;
- The student is to report to the school office immediately; and
- The Principal or his/her designee will take appropriate action to resolve the disciplinary referral.

ELECTRONIC RECORDKEEPING SYSTEM

The District uses an electronic recordkeeping system ("Infinite Campus" or "IC") to enter and maintain discipline referrals and issued sanctions. All discipline referrals must be entered into Infinite Campus and must include the following:

- First name, last name, identification number, race and Hispanic/non-Hispanic, sex, disability status (including special education status), Limited English Proficiency status, grade level, school.
- Time and date of the referral, detailed narrative description of the incident, staff ID of referrer, location of incident (e.g. classroom, bus, hallway, lunch, after-school activity, sporting event), staff-recommended resolution, staff member who assigned the penalty/sanction (by staff ID), misconduct for which discipline was imposed, resolution (e.g., conference with student/family, conflict mediation, use of restorative practices, or other alternative techniques, teacher Detention, administrator Detention, In-School Suspension, Out-of-School Suspension, Expulsion, referral and/or notification to law enforcement, Alternative Education Program), resolution start date, and number of days of resolution.
- The number of total referrals, including the current referral, for the student during that school year.
- A list of any actions taken in the classroom prior to making a referral.
- The name and identification number of any student or staff witness.
- The names and identification numbers of any other students involved in the incident.
- Whether the student was arrested or otherwise sanctioned by law enforcement.

Records of a student's misconduct as well as disciplinary actions, suspensions, and expulsions, will be made a part of his or her permanent record until the student leaves the school. Such record(s) are to be released only in accordance with Board Policy 8330.

REASONABLE FORCE

Under state law, designated student personnel may, within the scope of their employment, use and apply such amount of force as is reasonable and necessary to quell disturbances threatening physical injury to others, to obtain possession of weapons or other dangerous objects upon students or within their control: 1) For the purpose of self-defense; or 2) For the protection of persons or property.

RESTRAINT AND SECLUSION

Under state law, trained school personnel determined by the Superintendent are permitted to use restraint and/or seclusion with a student:

Table of Contents

- When there is immediate risk of physical harm to the student and/or others;
- When there is no other safe and effective intervention possible; and
- When the restraint and/or seclusion is used in a manner that is age and developmentally appropriate and protects the safety of all children and adults at school.

Whenever possible, student personnel shall work to prevent the need for the use of restraint and/or seclusion. PBIS emphasizes prevention of student behavior problems through the use of non-aversive techniques, which should greatly reduce, if not eliminate, the need to use these practices.

When these actions are necessary, they will be performed, documented, and reported to parents/guardians in accordance with the standards of the state board as outlined in Board Policy 5630.01. For additional information, please visit the District website.

EMERGENCY REMOVAL

If a student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process taking place either in a classroom or elsewhere on school premises, the Superintendent, Principal, or assistant principal may remove the student from the school premises. A teacher may remove the student from curricular activities under the teacher's supervision, but not from the premises [ORC §3313.66(C); Board Policy 5610.03 and related administrative guidelines]. A student whose conduct warrants Emergency Removal shall be dealt with in accordance with the rights and procedures outlined in Board Policy 5610.03.

VERIFYING CODE VIOLATIONS

Depending on the nature of the Code violation involved, school personnel may use any the following procedures to determine whether or not a student has violated the Code:

ELECTRONIC SURVEILLANCE

In order to promote security, to protect the health, welfare, and safety of students, staff, and visitors, and to protect Board property, the Board authorizes the use of video surveillance and/or electronic monitoring equipment on school property, and in school buildings, and school buses.

Information obtained through video surveillance and/or electronic monitoring may be used to identify intruders, persons breaking the law, and/or persons violating Board Policy and/or Code, and may be used as evidence in disciplinary actions and/or criminal proceedings. Any such recordings involving students may become a part of their education records, and will be treated as confidential materials under federal and state privacy laws.

The parent(s)/guardians(s) of a student charged with disciplinary violations (or a student so charged who is eighteen (18) years of age or older) may view relevant portions of any such recordings related to any charges, provided that such viewing does not violate the privacy rights of any other students whose images may appear on the recordings. For the related viewing procedure, see Board Policy 7440.01.

SEARCHES OF SCHOOL PROPERTY

The Board acknowledges the need for in-school storage of the possessions of students, and provides storage places, including desks and lockers, for that purpose. Such spaces remain the property of the Board, and, in accordance with state law, may be the subject of random search.

Where locks are provided for such places, students may lock them against incursion by other students. However, students and parent(s)/guardians(s) have no expectation of privacy that would prevent the examination of these places by a school official, and the Principal will conduct a routine inspection of all such storage places on at least an annual basis.

Table of Contents

SEARCHES OF STUDENTS OR THEIR PERSONAL PROPERTY

The Board recognizes that the privacy of students or their belongings (including, but not limited to, automobiles, backpacks, handbags, outer clothing, pockets, mobile devices, digital media, and the like) may not be violated by unreasonable search and seizure. A student will not be searched without reasonable suspicion, nor will a student be searched in an unreasonable manner; however, such a search may be conducted with or without the consent of the student, either on school grounds or off school grounds, if a school official reasonably suspects that a search is required to discover evidence of a law violation or a violation of school rules.

The school official responsible for the search must be able to articulate the nature of the reasonable suspicion.

SEARCHES FACILITATED BY K-9 UNITS

K-9 units may be used by law enforcement to locate contraband (illegal items) on property owned, leased, or controlled by the Board upon reasonable suspicion by the Superintendent that illegal drugs or devices may be present in a school. Such searches may not to be used to search an individual student, unless a warrant is obtained prior to the search.

SEARCHES FACILITATED BY SCREENING DEVICES

Students may also be subject to screening using either fixed or handheld electronic detection devices. If and when such equipment is in use, students will place their personal property on the tables set up nearby for screening.

An affirmative signal from such a device will serve as reasonable suspicion for a more intrusive search, and law enforcement will be notified if prohibited items (e.g., weapons or drugs) are found.

RESOLVING CODE VIOLATIONS

Factors that school personnel will consider the following when selecting or recommending action to address a Code violation include, but are not limited to, the following:

PROGRESSION-BASED RESOLUTIONS FOR CODE VIOLATIONS

The Student Code of Conduct is progression-based. The District has placed an emphasis on PBIS, as indicated in the introduction to this Student Guide and the District Behavior Management Plan (see Appendix 1).

Administrators will address student misconduct with disciplinary actions commensurate with the level and number of the offenses. It will begin with positive responses, communication, conflict-resolution, and getting the families involved early on.

Exclusionary discipline will be used as little as possible.

STUDENTS WITH DISABILITIES OR DISABLING CONDITIONS

Frequently, students with disabilities or disabling conditions have conduct issues that may be related to those disabilities or disabling conditions. Special consideration may be required when a student with a disability or disabling condition is subject to any disciplinary action that may constitute a change of placement.

The Board shall abide by federal law and state statute when disciplining students with disabilities or disabling conditions through removal by Suspension, Expulsion, or Permanent Exclusion.

Table of Contents

Additional guidance for students and parents/guardians in avoiding the Code violations above includes, but is not limited to, the following:

SCHOOL DRESS CODE

The Board recognizes that each student's dress and grooming is a manifestation of personal style and individual preference. The Board will not interfere with the right of students or parents/guardians to make decisions regarding the appearance of students, except when their choices interfere with the educational program of the schools.

PERSONAL COMMUNICATION DEVICES (PCDs)

Possession of Personal Communication Devices ("PCDs") such as computers, laptops, tablets (e.g., iPad® or similar devices), electronic readers (e.g., "e-readers", Kindles®, or similar devices), cellular or mobile phones, "smartphones" (e.g., BlackBerries®, iPhones®, Android devices, or MS Windows® mobile devices), or other web--enabled devices of any type by students at school during school hours and/or during extra-curricular activities is a privilege. As long as these items do not create a distraction, disruption, or otherwise interfere with the educational environment, students may use PCDs to make and/or receive calls, or for any other purpose (such as to send e-mail, text message, or instant messages, take pictures, or make recordings or videos):

- Before and after school;
- While riding to and from school or school-sponsored activities on a school bus or other Board-provided vehicle (at the discretion of the bus driver, teacher, sponsor, advisor, or coach); and
- During lunch breaks.

At all other times between the start of the school day to the end of the school day, PCDs must be "off" (powered down completely and not just placed into vibrate or silent mode), unless approved by the supervising teacher, an administrator, or IEP team. Also, during after-school activities, PCDs shall be "off" and stored out of sight when directed by an administrator or the activity sponsor.

A student may keep his or her PCD "on" with prior approval of the Principal under the following circumstances:

- When the student has a special health or medical circumstance (such as an ill family member or his
 or her own special health or medical condition);
- When the student is using the PCD for an educational or instructional purpose (such as taking notes, recording a class lecture, or writing papers) with the teacher's permission and supervision; or
- When the student is involved in an extra-curricular activity after school hours and needs to communicate with a parent/guardian when the activity is ending so the student can be picked up.

If a teacher or administrator observes a violation of Board Policy 5136, he or she is required to confiscate the device, bring it to the Principal's office, and provide the name of the student from whom the PCD was taken. Any confiscated device will be held in a secure location in the building's central office until the item is either retrieved by the parent/guardian (after the student complies with any other disciplinary action imposed) or turned-over to law enforcement (if potential illegal activity is involved).

A school official will not search or otherwise tamper with a PCD in District custody, unless he or she

Table of Contents

reasonably suspects that a search is required to discover evidence of a law violation or a violation of school rules. Any such search will be conducted in accordance with Board Policy 5771.

Violation of Board Policy 5136 may also result in disciplinary action ranging from the loss of the student's school PCD privilege (either temporarily or permanently) up to and including Expulsion.

Students have no expectation of confidentiality with respect to their use of PCDs on school premises or school property. Additionally, the Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property. Students and parents/guardians are strongly encouraged to take appropriate precautions with PCDs brought to school to make sure that devices are not left unattended or unsecured.

Consequently, the Board will supply any electronic devices or authorized assistive technology devices necessary for participation in the educational program, and students shall not use any personal electronic devices on school property or at any school-sponsored activity without the permission of the Principal.

Exceptions to this prohibition include the following:

- Use of laptops, personal digital assistants, portable CD/MP3 players (with headphones), and electronic games or toys while riding to and from school or school-sponsored activities on a school bus or other Board-provided vehicle (at the discretion of the bus driver, teacher, sponsor, advisor, coach, or Principal).

Unauthorized electronic devices will be confiscated by student personnel, and disciplinary action will be taken. Any confiscated device will be held in a secure location in the building's central office until:

- The item is retrieved by the parent/guardian (after the student complies with any other disciplinary action imposed); or
- Turned-over to law enforcement, if potential illegal activity is involved.

A school official will not search or otherwise tamper with an electronic device in District custody, unless he or she reasonably suspects that a search is required to discover evidence of a law violation or school Rule violation. Any such search will be conducted in accordance with Board Policy 5771.

Violation of Board Policy 5136.01 may also result in disciplinary action, up to and including Expulsion.

Students are personally and solely responsible for the care and security of any electronic devices they bring to school. The Board assumes no responsibility for theft, loss, damage, or vandalism to electronic devices brought onto its property, or the unauthorized use of such devices.

Users who disregard the Student Education Technology Acceptable Use and Safety Agreement: 1) May have their use privilege suspended or revoked; 2) May have disciplinary action taken against them in accordance with any applicable due process; and 3) May be held personally responsible and liable, both civilly and criminally, for unauthorized and/or inappropriate uses of education technology.

UNEXCUSED ABSENCES

In accordance with the laws of the state, the Board requires all students enrolled in the schools of this District to attend school regularly during the days and hours that the schools are in session, or during the attendance sessions to which they have been assigned.

The Superintendent shall require, from the parent(s)/guardian(s) of each student of compulsory school age or from an adult student who has been absent from school or from class for any reason, a statement of the cause for such absence. The Board reserves the right to verify such statements and to investigate the cause of each single absence or prolonged absence.

Repeated violations of Board Policy regarding attendance may result in disciplinary action.

FIRST DAY OF SCHOOL

All students must come to school beginning on August 19, 2019.

SCHOOL DAY

At Cleveland Heights High School, the school day runs from 8:15 AM to 2:56 PM (M,W,Th,F) and 2:16 PM (T). For their safety and well-being, students should not arrive earlier than 7:30 AM or remain on campus later than 2:56 PM (M,W,Th,F) or 2:16 PM (T) unless they are participating in supervised school activities.

PROCEDURE FOR ABSENCES FROM SCHOOL

The parent/guardian must notify the school by **9:00 AM** on the day a student is to be absent, unless previous notification was given using the school's procedure for reporting absences.

The District only accepts certain excuses as being reasonable for time missed at school. Each absence shall be explained in writing and signed by the parent/guardian, submitted to the Principal, and filed as part of the student's record.

Written excuses for absences from school may be approved for the following reasons:

	EXCUSED ABSENCES
DEFINITION	PROCEDURE
College visit	These absences do not accumulate against Board Policy 5200, but may not exceed four (4) days in number.
Death in the family	Such an absence is limited to a period of three (3) days, unless a reasonable cause may be shown for a longer absence.
Emergency or other circumstance	In such cases, the Superintendent shall determine whether the reason for the absence constitutes good and sufficient cause.
Field trip	These absences do not accumulate against Board Policy 5200.
Illness (personal)	The Principal may require a doctor's confirmation, if he or she deems advisable.
Illness (family)	Such an absence may be permitted when the illness necessitates the presence of the student.
Quarantine of the home	Such an absence is limited to the length of the quarantine, as fixed by the proper health officials.
Necessary work at home due to absence or incapacity of parent(s)/guardian(s)	Any such absence shall only apply to a student over fourteen (14) years of age, and shall not extend for a period longer than five (5) days, but may be renewed for an additional five (5) days. At no time shall such excuse permit a student to be absent from school for more than ten (10) days consecutively. At the discretion of the Superintendent or his/her designee, a student may be excused for a longer period of time than ten ten (10) days if the student's parent/guardian has recently died or become totally or partially incapacitated and there is no older sibling living in the home who is out of school. In such cases, the Superintendent or his/her designee may request a physician's certificate attesting to the condition of the parent/guardian.
Out-of-state travel	Such an absence is limited to a maximum of twenty-four (24) hours per school year that the school is open for instruction, to participate in a District-approved enrichment or extracurricular activity. Any classroom assignment missed due to the absence shall be completed by the student. If the student will be absent for twenty-four (24) hours or more consecutively that the school is open for instruction, a teacher shall accompany the student during the travel period to provide the student with instructional assistance.
Pregnancy	Medically necessary leave for a student who is pregnant may be taken in accordance with Board Policy 5751. Absence due to pregnancy will be considered as excused for so long a period as is deemed medically necessary by the student's physician. Written confirmation by the physician may be required.
Professional appointment	Parents/guardians are encouraged to schedule medical, dental, legal, and other necessary appointments outside of the school day. Since this is not always possible, when a student is to be absent for part of the day, he or she shall report back to school immediately after the appointment if school is still in session.
Religious holiday	Any student shall be excused for the purpose of observing or celebrating a bona-fide religious holiday consistent with his or her creed or belief.

Vacation

Except for the last week of each semester, students are permitted to go on vacation during the school year without penalty. The purpose of this provision is to accommodate parents/guardians who must take their vacations during the school year and desire to enjoy that time as a family.

Whenever a vacation is proposed, the parent(s)/guardian(s) must discuss it with the Principal. The length of the absence should be made clear, and those involved should have an opportunity to express views on its potential effects.

The District will only approve a vacation absence when the student will be in the company of the parent(s)/guardian(s) or other family relatives, unless there are extenuating circumstances deemed appropriate by the Principal. The time missed will be counted as an authorized, unexcused absence, but shall not be a factor in determining grades, unless make-up work is not completed.

Absence for any other type of vacation will be considered to be unexcused, and the Student will be subject to Truancy regulations.

All other types of excuses are considered to be unreasonable and/or unauthorized, and may subject students and parents/guardians to state truancy regulations. Truancy demonstrates a deliberate disregard for the educational program and is considered a serious matter for which action will be taken in accordance with Board Policy 5200.

MAKE-UP WORK

A student will be given the opportunity for making up work missed due to approved absences, and the length of time for completion of such make-up work will be proportional to the length of the absence involved. Also, a student may make-up units of study with properly licensed teachers with prior approval of the Principal.

No credit will be recorded for work missed as result of truancy.

LATE ARRIVALS AND EARLY DISMISSALS

The Board recognizes that on occasion, compelling circumstances require that a student be either late to school or dismissed before the end of the school day, and requires that the school be notified in advance of such absences by personal request of the parent/guardian, either in writing or in person. The notice:

- Must state the reason(s) for the tardiness or early dismissal; and
- Should be submitted to the Principal as early in the school day as possible.

Only the Principal may release a student from school before the end of the school day, and he or she may do so only upon presentation of the request from the parent/guardian or for emergency reasons.

The student may be released only to: 1) The parent/guardian; or 2) A properly-identified person authorized in writing by the parent/guardian to act on their behalf. No student shall be released to anyone who is not authorized such custody by the parent/guardian, and no student who has a medical disability which may be incapacitating may be released without a person to accompany the student.

HAZING

Hazing activities of any type are inconsistent with and disruptive to the educational process, and are prohibited at any time in school facilities, on school property, and/or off school property (if the misconduct is connected to activities or incidents that have occurred on school property). No administrator, faculty member, or other employee shall encourage, permit, authorize, condone, or tolerate any hazing activities, and no student shall plan, encourage, or engage in any hazing.

Table of Contents

Administrators, faculty members, and other employees shall be alerted to possible situations, circumstances, or events that might include hazing. If hazing (or planned hazing) is discovered, the students involved shall be informed by the discoverer of the prohibitions contained in Board Policy 5516, and shall be ordered to end all activities (or planned activities) immediately.

All alleged hazing incidents shall be reported immediately to the Superintendent. Students, administrators, faculty members, and other employees who fail to abide by Board Policy 5516 may be subject to disciplinary action, and may be held personally liable for civil and criminal penalties in accordance with state law.

UNLAWFUL HARASSMENT

It is the policy of the Board to maintain education and work environments within all District operations, programs, and activities that are free from all forms of unlawful harassment, including, but not limited to, sexual harassment. The Board will vigorously enforce its prohibition against discriminatory harassment based on race, color, national origin, sex (including sexual orientation and transgender identity), disability, age (except as authorized by law), religion, ancestry, or genetic information on school grounds and off school grounds, and encourages students, others within the school District community, and third parties who feel aggrieved to seek assistance to rectify such problems.

All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting <u>any</u> form of unlawful harassment occurring on school grounds and off school grounds.

REPORTING

Any employee who directly observes unlawful harassment of a student:

- Is obligated to report such to a District compliance officer within two (2) business days; and
- Is expected to intervene to stop the harassment, unless circumstances make such an intervention dangerous (in which case the staff member should immediately notify other employees and/or law enforcement, as necessary, to stop the harassment).

In cases that are not directly observed by employees, students are encouraged to promptly report incidents of harassing conduct to a teacher, administrator, or other school official so that the Board may address the alleged conduct before it becomes severe, pervasive, or persistent.

Students, other members of the school District community, and third parties who believe they have been subject to unlawful harassment are also entitled to directly utilize the Board's informal complaint process and/or formal complaint process set forth in Board Policy 5517.

A student who believes that he or she has been subject to unlawful harassment (a "Complainant"):

- May make an informal complaint, either verbally or in writing, to: 1) A teacher, administrator, or other employee in the school that he or she attends; 2) To the Superintendent or another District level employee; and/or 3) Directly to a District compliance officer; or
- May file a formal complaint, either verbally or in writing, with a teacher, Principal, an employee who
 works at another school, or a District level employee.

Neither procedure is intended to interfere with the rights of a student to pursue a complaint of unlawful harassment or related retaliation with the U.S. Department of Education's Office for Civil Rights. Filing a malicious or knowingly false report or complaint of unlawful harassment may result in a referral to law enforcement.

Any employee or official who receives such a complaint shall file it with a designated District compliance officer within two (2) school days.

Table of Contents

Due to the sensitivity surrounding complaints of unlawful harassment, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a complaint as soon as possible (for an informal complaint) or within thirty (30) calendar days (for a formal complaint) after the alleged conduct occurs while the facts are known and potential witnesses are available.

INVESTIGATION

The compliance officer or his/her designee will investigate all allegations of unlawful harassment, either informally or formally, using the procedures in Board Policy 5517 and related administrative guidelines. The District will use all reasonable efforts to protect the rights of the Complainant, the individual against whom the complaint is filed (the "Respondent"), and any witness(s), consistent with the Board's legal obligations to investigate, take appropriate action, and fulfill any discovery or disclosure obligations.

Confidentiality, however, cannot be guaranteed, and a Complainant proceeding through the formal complaint process will be advised that his or her identity may be disclosed to the Respondent. All records generated under the terms of Board Policy 5517 and related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Once the formal complaint process has begun, the investigation will be completed in a timely manner-ordinarily, within fifteen (15) business days of receipt of the complaint. Absent extenuating circumstances, within ten (10) school days of receiving the report of the District compliance officer, the Superintendent must either issue a final decision regarding whether the complaint of unlawful harassment has been substantiated or request further investigation.

A copy of the Superintendent's final decision will be delivered to the Complainant and the Respondent.

RESOLUTION

In those cases where unlawful harassment is substantiated, the Board will take immediate steps to end the unlawful harassment, prevent its reoccurrence, and remedy its effects. While observing the principles of due process, a student who is found to have engaged in unlawful harassment will be subject to appropriate disciplinary action, up to and including Suspension or Expulsion.

RETALIATION PROHIBITED

Initiating a complaint, whether formally or informally, will not adversely affect the complaining individual's participation in educational programs, extra-curricular activities, or employment. Any act of retaliation against a person who has either made a report or filed a complaint alleging unlawful harassment, or who has participated as a witness in a related investigation, is prohibited.

DRUG-FREE SCHOOLS

In accordance with federal law, the Board prohibits the use, possession, concealment, or distribution of drugs by students on school grounds, in school or school-approved vehicles, or at any school-related event. Compliance is mandatory for all students.

For the purposes of Board Policy, the term "drug" includes any alcoholic beverage, anabolic steroid, dangerous controlled substance (as defined by state statute), or substance that could be considered a "look-a-like" controlled substance.

Any student who violates this Board Policy in this area will be subject to disciplinary action, in accordance with due process and as specified in the Student Guide, up to and including Expulsion, and when required by state law, the District will also notify law enforcement officials.

The District is concerned about any student who is a victim of alcohol or drug abuse and will facilitate the process by which he or she gets help through available community programs and services. students and parent(s)/guardian(s) should contact the Principal or counseling office whenever such help is needed.

SEXUAL VIOLENCE

Sexual violence not only interferes with the right of students to receive an education free from discrimination, it is also a crime. Pursuant to its federal Title IX obligations, the Board is committed to eliminating sexual violence in all forms against students, other members of the School District Community, and third parties on school grounds or off school grounds, and will take appropriate action against any individual found responsible for violating Board Policy 5517.02.

All students, administrators, teachers, and other school personnel share responsibility for avoiding, discouraging, and reporting any sexual violence occurring on school grounds or off school grounds.

REPORTING

Students and employees are required, and parents/guardians, community members, and third parties are encouraged, to report sexual violence promptly to a teacher, administrator, Supervisor, or other school official. Reports can be made verbally or in writing, and should be as specific as possible.

A student has the right to file simultaneous criminal and/or Title IX complaints (he or she does not need to wait until the Title IX investigation is completed before filing a criminal complaint); likewise, questions or complaints relating to sexual violence or any other Title IX concerns may also be filed with the U.S. Department of Education's Office for Civil Rights. Filing a malicious or knowingly false report or complaint of sexual violence may result in a referral to law enforcement.

The employee receiving a complaint alleging sexual violence from a student (the "Complainant"):

- Shall file it with the designated District compliance officer within two (2) school days; and
- Shall comply with his or her mandatory reporting responsibilities under state law.

INVESTIGATION

The compliance officer or his/her designee will investigate all allegations of sexual violence in coordination with any ongoing criminal investigation in accordance with the procedures in Board Policy 5517.02 and related administrative guidelines as well as any related Title IX-related complaint. The District will respect the student's privacy, and will only disclose information regarding alleged sexual violence to those individuals responsible for handling the school's response, a minor student's parent(s)/guardian(s), or as otherwise required by law.

Upon completing its investigation, the District will notify both parties in writing about the outcome of the complaint and any appeal.

RESOLUTION

In those cases where sexual violence is substantiated, the Board will take immediate steps to end the sexual violence, prevent its reoccurrence, and remedy its effects. While observing the principles of due process, a student who is found to have engaged in sexual violence will be subject to appropriate disciplinary action, up to and including Suspension or Expulsion.

RETALIATION PROHIBITED

Retaliation against a Complainant or witness is strictly prohibited. The District will inform the Complainant of this prohibition, and direct him or her to report any retaliation by a student or school official to the District compliance officer. Upon learning of retaliation, school officials will take strong responsive action, as appropriate.

WEAPONS

The Board prohibits students from possessing, storing, making, or using weapons, as defined in Board

Policy and the Student Guide, within the locations referenced in Board Policy and the Student Guide. Policy exceptions include theatrical props used in appropriate settings.

Students shall immediately report any information concerning weapons and/or threats of violence by students, staff members, or visitors to any staff member, and staff members should report issues to administrators. Failure to report such information may subject a student to disciplinary action.

Board Policy 5772 shall be implemented through the Code, Board policies 5610, 5610.01, and related administrative guidelines. The Superintendent will refer any student who violates Board Policy 5772 to the student's parent(s)/guardian(s) and to either the criminal justice or the juvenile delinquency system.

The student may also be subject to disciplinary action, up to and including Expulsion.

IN-SCHOOL DISCIPLINE RULES

In-School Discipline (Detention, Saturday School, and In-School Suspension) is a progressive discipline option that the Principal may use to improve attendance, to modify student behavior, or to monitor the student's behavior during the disciplinary process. The following school rules apply when a student is assigned to In-School Discipline:

Table of Contents

- Follow adult directions and remain on task.
- Raise hand and get permission to speak or leave seat or area.
- Keep hands and feet to yourself; and sit up straight at all times.
- District-issued items only at your desk or area.
- Your head is to remain uncovered.
- Have your class assignments with you if you are attending Saturday School.

NOTE: In addition to the above, all other school rules apply during In-School Discipline.

LOSS OF BOARD TRANSPORTATION PRIVILEGE

Students on a school bus or other authorized Board transportation vehicles are under the authority of, and directly responsible to, the bus or vehicle driver, and the bus or vehicle driver has the authority to enforce the established regulations for bus or vehicle conduct (see Section 2.0). Disorderly conduct or refusal to submit to the authority of the driver will be sufficient reason for refusing transportation service to any student, to the extent permitted by law.

A student may be suspended from school bus or vehicle riding privileges for all or part of a school year for any violation of established regulations for bus conduct and/or conduct occurring on a bus or vehicle in violation of the Code. Bus Suspension periods for Code violations will be proportional to the infraction(s) involved, as determined by the Superintendent or designated District personnel.

LOSS OF EXTRACURRICULAR ACTIVITY PARTICIPATION PRIVILEGE

Participation in extra-curricular activities, including interscholastic sports, is a privilege and not a right; therefore, the Board authorizes the superintendent, the athletic director, and principals to prohibit a student from participating in any particular or all District extra-curricular activities for offenses or Code violations. Further, students who are athletes are also subject to the Athletic Code of Conduct, and may be prohibited from participating in all or part of any interscholastic sport for violations therein.

Any such loss of participation privilege may be for a period not to exceed the remainder of the school year in which the offense or Code violation took place.

Accordingly, the Board has established due process procedures consistent with state statute for students facing Suspension or Expulsion, and the Superintendent shall ensure that they are used when dealing with students facing these actions.

- 1. The student will be informed in writing of the potential Suspension and the reason(s) for it.
- 2. The student will be provided an opportunity for an informal hearing to challenge the reason(s) for the intended Suspension and to explain his or her actions.
- 3. An attempt will be made to notify the parent/guardian by telephone if a Suspension is issued.
- 4. Within one (1) school day of a Suspension, the Principal, Superintendent, or another administrator will notify the student and/or parent/guardian and the treasurer.

The notice will include the reasons for the Suspension and the right of the student and/or parent/guardian to appeal to the Board or its designee; the right to be represented at the appeal (at personal expense); and the right to request the hearing be held in executive session (if before the Board). The notice shall also specify that if the student and/or parent/guardian intend to appeal the Suspension to the Board or its designee, such notice of appeal shall be filed, in writing, with the treasurer or the Superintendent within fourteen (14) calendar days after the date of the Suspension notice.

If the offense is one for which the Board may seek the student's Permanent Exclusion, then the notice will also contain that information.

5. Notice of this Suspension will also be sent to: 1) The Superintendent; 2) The Treasurer; and 3) The student's school record.

If a student leaves school property without permission immediately after an alleged Code violation or prior to an administrator conducting an informal hearing as specified above, and the student fails to return to school on the following school day, the Principal, Superintendent, or another administrator may send the student and/or parent/guardian notice of the Suspension, and offer to provide them an informal hearing upon request to discuss the reason(s) for the Suspension, allow the student to challenge the reason(s) for the Suspension and to explain his or her actions, any time prior to the end of the Suspension period.
