

WHERE IT'S HAPPENING

DEA has directly connected social media drug sales to overdose deaths.

DEA has found drug trafficking on internet apps nationwide — across urban, suburban, and rural communities. In 2021, DEA has investigated more than 80 cases involving drug trafficking on internet apps.

Social media drug trafficking impacts all age groups, but adolescents and young adults are particularly susceptible given their high-rates of social media usage.

WHAT YOU CAN DO

- 1 Stay vigilant and aware of the drug trafficking threats on smartphone apps.
- 2 Know the dangers of counterfeit pills: their accessibility, availability and increasing lethality.
- 3 Share message the message that One Pill Can Kill.
- 4 Visit [DEA.Gov/onepill](https://deagov.gov/onepill) to learn more.
