1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Prop 28 funds were utilized to launch a new band elective aimed at expanding music education and building a foundation for a long-term instrumental music program. We partnered with West Valley High School, which receives our students, to share a band teacher. This collaboration supports our vision of preparing students with prior musical experience that they can carry into high school band programs. Program Highlights: -4th and 5th graders received weekly band instruction for instrumental music exposure. -Middle school students (grades 6–8) participated in a rotational elective, experiencing band for one trimester during the school year. -Students showcased their skills in one performance during the year, celebrating their growth and efforts. -The band teacher also launched an optional before-school marching band club, which saw enthusiastic participation. Feedback from both students and parents has been overwhelmingly positive, highlighting excitement, increased student engagement, and appreciation for the new music opportunities. The district is proud to have introduced this program and looks forward to its continued development and impact in future years.
