Tomball ISD Voters Approve Four Propositions in Bond 2025 Election

Preliminary election results show that voters in Tomball ISD approved all four propositions in the district's \$429 million bond referendum.

Preliminary results will become official once canvassed.

"We are grateful for the support of our Tomball community in continuing the legacy of excellence that has been established in our Destination District," said Dr. Martha Salazar-Zamora, superintendent.

"These projects will positively impact every child in Tomball ISD as we strive to ensure that our aging facilities and student support programs continue to serve the needs of our learners. We are committed to fiscal responsibility and this vote of confidence from our taxpayers is a testament to their trust in us."

The approved projects will not increase the District's total tax rate.

**Tomball ISD Earns "A" Rating as TEA Releases Delayed 2023  
Accountability Ratings**

Tomball ISD earns an “A” rating following the release of the [2023 delayed accountability ratings](#) by the Texas Education Agency (TEA). The District remains focused on its mission of providing a high-quality education and preparing students for future success.

TEA’s A-F accountability system assigns overall ratings to districts and campuses based on various factors, including student achievement, student progress, closing performance gaps, and college, career, and military readiness. These domains are used to calculate an overall rating of A, B, C, or F.

The TEA has cited ongoing litigation as the reason for the delayed release of the 2023 accountability ratings. While the specific details of the review process are still unfolding, Tomball ISD understands the importance of ensuring accuracy and validity in the accountability system.

Furthermore, 76% of TISD campuses received one or more designations. Designations are distinctions awarded to campuses for outstanding achievement in specific areas, such as:

- Academic Achievement in English Language Arts/Reading
- Academic Achievement in Mathematics
- Academic Achievement in Science
- Academic Achievement in Social Studies
- Top 25 Percent Student Progress
- Top 25 Percent Closing Performance Gaps
- Postsecondary Readiness

## 250 Students Participate in TISD Chess Tournament

Tomball ISD welcomed in over 250 students on a Saturday to compete in the District's annual full-day Chess Tournament.

“Launching a district chess tournament was about more than competition; it was a strategic investment in cognitive rigor,” said Dr. Ashley Schlafly, Director of Advanced Academics. “Chess empowers students to think critically, reason strategically and build intellectual resilience. It cultivates habits of mind essential for advanced learning, giving all students the chance to lead with logic and thrive through thoughtful challenges.”

# TOMBALL ISD

ENGAGED IN EXCELLENCE

Parent University is designed to empower parents with knowledge and tools to become effective advocates for their children. There are a variety of sessions from Pre-K through High School Senior content delivered through cross-district collaboration.

---

# ATTENDANCE MATTERS

Tomball ISD wants to partner with you to make sure your child is at school, learning and growing. Regular school attendance is essential for a student to make the most of his or her education.

"Students who missed 2 to 4 days in September were 5 times more likely than those who missed fewer than 2 days to be chronically absent for the year."  
*Source: Attendanceworks.org*

## HOW YOU CAN HELP

 <b>BE MINDFUL</b> Be mindful when scheduling family trips or doctor's appointments	 <b>PROACTIVE</b> Make sure to be proactive and get a doctor's note when applicable	 <b>ENCOURAGE</b> Share why school is important and encourage your child's attendance	 <b>PRIORITIZE</b> Prioritize school
--	--	--	---

### It's the Law.

State law requires students to attend at least 90 percent of the time a class is scheduled to meet. If student attendance is less than 90 percent, the student will lose credit unless school days are made up in accordance with a plan put in place by the principal.

- ✔ That means a student can only miss 18 days of school or 18 days of a specific class.
- ✔ At the high school level, students may lose credit on the 10th absence of the semester.

[tomballisd.net/attendance](http://tomballisd.net/attendance)

**EVERY DAY MATTERS. YOU MATTER. ATTENDANCE MATTERS.**

*Spotlight*

## **Gerry Neal, Tomball High School, 1972**

**Gerry Neal, Tomball High School, 1972**  
**Tomball ISD Master Electrician**

Every school district runs on energy – not just the kind that powers lights and computers, but the dedication of people like Gerry Neal. As Tomball ISD’s electrician and proud Tomball High School alumnus, Neal is a quiet force keeping us all connected.

A 1972 graduate of Tomball High School, Neal attended Tomball Elementary, Tomball Junior High (at the current Central Office location), and Tomball High School (at the current Tomball Intermediate on Main Street).

A true Tomball native, his grandparents settled here in 1927 and established a homebase where Neal still lives on part of it.

"Times were simple," Neal recalls.

Neal was active in sports, and says playing football with his friends was one of his favorite memories. Attending Tomball ISD looked a little bit different but the education he received was extremely meaningful.

"The whole teaching staff was supportive in every way," he said. "The board consisted of ranchers, farmers, and business owners from the community and we all knew each other."

After graduating from Tomball High School, Neal began working at Todd Shipyards on the ship channel in Houston for four years, then to a Hydraulic shop in Galena Park for six years. Following those experiences, he decided to pursue the electrical trade. After six years working for a contractor, Neal returned home to Tomball.

A job came available with Tomball ISD in 1989 as an electrician in the Maintenance Department.

"I was working in Houston and had spent a lot of time away from my kids while they were growing up," he said. "I applied and got the job, so I was close to home and my kids."

Now in 2025, Neal is in his 37th year with Tomball ISD as an electrician and now serves the District as the Master Electrician and Supervisor over the Electrical Department.

"I just like what I'm doing and the crew that supports me," Neal said. "Maintenance is a department that is able to support the District as a whole."

Having served over 35 years as an electrician in Tomball ISD, Neal plays a critical role behind the scenes. He is a steady hand repairing, upgrading, and maintaining the electrical systems that keep the schools and facilities up and running and ready for learning each day.

"I think people get used to coming to work and class every day and having everything on and working, so a lot of our work is done out of sight and out of mind you might say," Neal said. "Our day starts at 6 AM where we begin the day's work orders."

However, his connection to the schools runs deeper than cables and conduits.

"Being a former student here, I see things differently," he said. "I remember what it was like attending school here and growing up in this community. That makes work personal for me."

That perspective allows him to approach each job with extra care and purpose. His behind-the-scenes contributions support the everyday learning experience for students and staff alike.

"Tomball has always been special because it is my home."

For Neal, coming full circle from student to trusted electrician, he's proof that giving back to your roots can make a real difference.
