What we are looking for

Technical ability and fluency which will enable you to perform with musicality and expression. We are looking for your potential as much as what you are currently able to do.

Prepared study

During your warmup you will be given a short excerpt of orchestral or ensemble music (of approximately 24 bars) to prepare which you will perform to us (unaccompanied) during the audition. The piece will be of approximately grade 6 standard, and you will be able to play it through and write any notes you need on the copy we give you.

What we are looking for

A confident, fluent and musical performance. We want to see what you can do with an unfamiliar piece with some preparation time. Playing musically and expressively is as important as getting the notes right!

Aural

We will give you some short aural tests, similar in style to the ABRSM aural for your corresponding grade.

What we are looking for

We want you to be able to show us what you can hear and how you understand the music you hear.

Interview

We will talk to you about your current music making, your musical ambitions, your wider interests and hobbies. We want to find out more about you - there will be no trick questions!

What we are looking for

Our music scholars are passionate and serious about their music making, they enjoy the challenge of the music we work on together and they work closely as a team with each other and with the staff. We are looking for musicians who share that drive, who will fit into our team and who will be role models.
