

## **Policy on Grade Monitoring for Student Athletes**

### **Grade Monitoring:**

- The expectation for TMS is that grades will be updated every 2 weeks.

### **Frequency:**

- The monitoring will occur at the 3-week mark during an 8-week season.

### **Reporting:**

- The Athletic Director will generate a report for any student athletes who have one or more "N" grades in any of their classes.

### **Support Plan:**

- The Athletic Director will meet with each student athlete who has one or more "N" grades to develop a support plan.

### **Supports:**

- Available support includes Flex sign-up and the Athlete Grade Tracker sheet.

### **Check-in Procedure:**

- One week after establishing the grade monitoring and support plan, the student athlete must check in with the Athletic Director to demonstrate progress using the Flex sign-ups and the Athlete Tracker sheet.

### **Athletic Participation:**

- Allow students to continue in athletics as long as they are actively engaging in support structures and showing effort to improve grades.
- Students may participate in practices and team-building sessions.
- Students may not participate in games until all "N" grades have been increased to a "D" or higher from their grade report.

### **Eligibility:**

- **Submission of Athlete Tracker Sheet**  
Students are required to return the Athlete Tracker sheet fully completed and signed by each teacher for any subject in which the student has received an "N" grade.
- **Grade Verification by Athletic Director**  
The Athletic Director will conduct a secondary grade check to verify that the student's grades are above an "N."
- **Reinstatement of Competition/Game Eligibility**  
The eligibility status for competition or games will be reinstated only upon the completion of both the submission of the Athlete Tracker sheet and the verification of grades by the Athletic Director.
