EXAMINATION/GRADING/RATING

The Governing Board believes that grades serve a valuable instructional purpose by helping students and parents/guardians understand performance expectations and identifying the student's areas of strength and those areas needing improvement. Parents/guardians and students have the right to receive course grades that represent an accurate evaluation of the student's academic performance. (cf. 5020 - Parent Rights and Responsibilities) (cf. 5125.2 - Withholding Grades, Diploma or Transcripts)

The Superintendent or designee shall establish a uniform grading system that shall be applied to all students in that course and grade level. Teachers shall inform students and parents/guardians how academic performance will be evaluated in the classroom. (cf. 0410 - Nondiscrimination in District Programs and Activities)

A teacher shall base a student's grades solely on the quality of the student's academic work and his/her mastery of course content based on state and district standards. Students shall have the opportunity to demonstrate this mastery through a variety of methods, including, but not limited to, tests, projects, portfolios, and/or class discussion as appropriate. Other elements that are not a direct measure of knowledge and understanding of course content, such as attendance, effort, student conduct, and work habits, shall not be factored into the academic grade but may be reported separately. (cf. 6011 - Academic Standards) (cf. 6162.5 - Student Assessment)

Whenever a student misses an assignment or assessment due to either an excused or unexcused absence, he/she shall be given full credit for subsequent satisfactory completion of the assignment or assessment. (cf. 6154 - Homework/Makeup Work)

A teacher may assign a failing grade to a student who has excessive unexcused absences, missing assignments, resulting in an inability to evaluate student learning during the grading period. (Education Code 49067) (cf. 5113 - Absences and Excuses) (cf. 5113.1 - Chronic Absence and Truancy)

At all grade levels, report cards may include reports of student progress on specific academic standards applicable to the course and grade level.

When reporting student performance to parents/guardians, teachers may add narrative descriptions, observational notes, and/or samples of classroom work in order to better describe student progress in specific skills and subcategories of achievement.

A report card for a student with a disability may contain information about his/her disability, including whether that student received special education or related services, provided that the report card informs parents/guardians about their child's progress or level of achievement in specific classes, course content, or curriculum.
