RE: 2025 Grant Funds Request from the Marian J. Weatherwax Charitable Trust

Dear Traci,

Enclosed is a check in the amount of \$21,448.26, representing the 2025 grant funds from the Marian J. Weatherwax Charitable Trust to the Aberdeen School District No. 5. The funds are to be designated, as outlined in your 2025 request letter as follows:

\$2,500 for the school district's STAMP program.
\$18,948.26 to support the district's adoption of an updated reading curriculum*

The committee would like these funds to be used according to your priority list, starting with kindergarten and first grade, in that order. The funds are not to be deposited into a general funding account and must be used as designated above.

When applying for next year's grant, the Committee will require an accounting of how previous year's grant funds were used. This will give the Committee confidence that funds were applied appropriately based upon the stated grant request.

We kindly request acknowledgement of this gift by signing and returning this letter (including page 2). A return envelope is provided for your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jennifer Lucero', is written over the word 'Sincerely,'.

Aberdeen, WA 98520

Dear Aaron:

In accordance with the established requirements and procedures of the Association of Educational Service Districts of the State of Washington, it is a pleasure to inform you that Aberdeen High School has been officially approved for accreditation for a six-year period, contingent upon a satisfactory third-year progress report, expiring in spring 2031.

In reviewing your application for accreditation, the AESD Accreditation Panel Sub-Committee carefully considered the documentation provided by the AESD Accreditation Process Team and its recommendation for action. These accounts, in combination with the additional information provided at the site review meeting on February 25, 2025, offered detail about the work at Aberdeen High School. As a result, the AESD Accreditation Panel Sub-Committee made the following commendations and recommendations, to be added to those provided by the Accreditation coach at the review meeting. You will give a third-year progress report during the 2028 academic year at your local ESD.

Aberdeen High School is to be **commended** as follows:

- You are to be commended for your attendance goal and in improving and moving students forward in continuing different strategies and the focus on 9th grade attendance.

The AESD Accreditation Sub-Committee made the following **recommendation**, to be reported at the 2028 third-year review:

- Use an equity filter to look at consequences or unintended consequences of system change, such as changing school times and the impact on the other schools and attendance in those schools. This may also impact time for PD/instructional work with staff.

Your students, staff, community members and school team are to be commended for earning this accreditation status. Your local educational service district will be in contact to schedule presentation of a plaque suitable for display to acknowledge your accredited status. We look forward to hearing of your continued successes.

Sincerely,

Carolyn O'Keeffe

1.1.5 The Architect shall, at no cost to the School District, promptly and satisfactorily correct any Services found to be defective or not in conformity with the requirements of this Agreement or Exhibit I. If the Architect fails to initiate corrections within fifteen days of receipt of written notice from the School District, the School District may do so, by contract or otherwise, and recover (e.g., by offset against the compensation otherwise payable under this Agreement) from the Architect the reasonable costs it incurred. The obligations of the Architect to correct defective or nonconforming Services shall not in any way limit any other obligations of the Architect and is in addition to any and all other rights and remedies available to the School District under this Agreement or otherwise by law and shall in no event be construed or interpreted as obligating the School District to make any correction of defective or nonconforming Services.

1.1.6 The Architect shall comply, and shall contractually require that the Services of all the Architect's consultants of

any tier comply, with all applicable federal, state and local laws, regulations, codes and orders in existence at the times when services are rendered.

1.1.7 The Architect shall be and operate as an independent contractor in the performance of the Services and shall have control over and responsibility for all personnel performing the Services. The Architect shall perform the Services in accordance with its own methods in an orderly and professional manner. Without prior written approval of the School District, in no event shall the Architect be authorized to perform any of the following on the School District's behalf: enter into any agreements or undertakings; waive any provisions of the Contract Documents; receive or accept notice under the Contract for Construction; execute any Certificate for Payment, Change Order or other document; authorize any payments or accept or approve any documents, work, services, goods or materials that result in a change in the Contract Sum or Contract Time; or act as or be an agent or employee of the School District. Any such actions by the Architect are on its own behalf, and not on the behalf of the School District.

ARTICLE 2 **SCOPE OF ARCHITECT'S BASIC SERVICES**

2.1 DEFINITION

2.1.1 The Architect's Basic Services consist of those described in the Project Work Scope attached as Exhibit I and made a part of this Agreement and include architectural, engineering, consulting, and design services necessary to produce a reasonably complete and accurate set of Construction Documents.

2.2 DESIGN PHASE

2.2.1 The Architect shall review the program furnished by the School District to ascertain the requirements of the Project and shall arrive at a mutual understanding of such requirements with the School District. The Architect shall review with the School District alternative approaches to design and construction of the Project. The Architect shall provide a preliminary evaluation of the School District's program, schedule and budget requirements.

2.2.2 Based on the mutually agreed-upon program, schedule and construction budget requirements, the Architect shall prepare, for approval by the School District, Design Documents consisting of drawings and other documents appropriate to the Project. The Architect shall also submit to the School District a preliminary estimate of Construction Cost.

2.3 CONSTRUCTION DOCUMENTS PHASE

2.3.1 Based on the Site investigation and design meetings, the Architect shall prepare, for approval by the School District, Construction Documents consisting of Drawings and Specifications setting forth in detail the requirements for the construction of the Project. The Construction Documents shall comply with all applicable federal, state and local laws and regulations. The Architect must certify to the best of its knowledge that the Construction Documents are in compliance with the state building code (RCW 19.27) and all pertinent state and local statutes relating to school building construction. The School District's review of the Construction Documents will not relieve the Architect of its responsibilities under this Agreement.

2.3.2 The Architect shall assist the School District in the preparation of the Bid form, and Bid Add/invitation to bid. The School District is responsible for preparing all other bidding information, including the Conditions of the Contract and the form of Agreement between the School District and Contractor.

2.3.3 The Architect shall provide the School District with any adjustments to previous estimates of Construction Cost indicated by changes in requirements, general market conditions or other changes.

2.3.4 The Architect shall be responsible, with the assistance of the School District, for coordinating and filing documents required for the approval of governmental authorities having jurisdiction over the Project. The Architect shall be responsible for making the changes in the Construction Documents required by the governmental authorities at its expense, unless the authorities' comments are substantially different from previous interpretations. To the extent applicable to this Project, the Architect shall assist the School District by supplying information, advice and communication in connection with the School District's responsibility for filing documents required by the Superintendent of Public Instruction, and the Architect shall respond to governmental authorities within ten days of receipt of review comments.

2.3.5 All of the Architect's plans shall be submitted in electronic format acceptable to the School District and shall be provided to the School District electronically in a format approved by the School District. Site plans should show the locations, size, and labeling of all utilities. Any Site utility that interfaces with a structure should be shown to stop at the exterior wall line of that structure. All electronic documentation should use a common coordinate system.

2.3.6 The School District reserves the option to retain constructability-review and/or value engineering services in order to review the documents prepared by the Architect. If the School District does so, changes may be proposed to the Drawings and Specifications as a result of this process. The Architect and its consultants, as an Additional Service, shall participate in these processes by briefing the constructability

and/or value engineering consultants, answering their questions, and meeting with the School District and these consultants to determine the advisability of such changes in the Architect's design documents. The Architect shall make such changes as the School District directs after such consultation. Except for the correction of errors, omissions or conflicts in the Contract Documents prepared by the Architect, the Architect will be paid for such School District-directed changes as a Change in Service.

2.4 BIDDING PHASE

2.4.1 The Architect, following the School District's approval of the Construction Documents and of the latest preliminary estimate of Construction Cost, shall assist the School District in obtaining bids and assist in awarding and preparing contracts for construction.

2.4.2 The Architect, in collaboration with the School District, shall prepare responses to questions from prospective bidders and provide clarifications and interpretations of the Bidding Documents to all prospective bidders in the form of addenda.

2.4.3 The Architect shall assist with the opening of the bids. The Architect shall subsequently document and distribute the bidding results, as directed by the School District.

2.4.4 The Architect shall check references and undertake a reasonable investigation of the "responsibility" of the apparent lowest bidder regarding:

- .1** Its ability, capacity, and skill to perform the contract;
- .2** Its character, integrity, reputation, judgment, efficiency and experience;
- .3** Whether the bidder can perform the contract within the time specified;
- .4** The quality of performance of previous contracts;
- .5** Its previous and existing compliance with laws relating to the contract; and
- .6** Such other information as may be secured having a bearing on the decision to award the contract.

2.5 CONSTRUCTION PHASE

2.5.1 The Architect's responsibility to provide Basic Services for the Construction Phase under this Agreement commences with the execution of the Contract for Construction and, except for services during the Correction Period, terminates upon the later of the completion of the Architect's scope of work as described in the Fee Proposal, Exhibit 1, or the School District's Final Acceptance of the Project.

2.5.2 The Architect shall provide administration of the Contract for Construction as set forth below and in the Construction Contract used by the School District and drafted with the Architect's participation.

2.5.3 Duties, responsibilities and limitations of authority of the Architect shall not be restricted, modified or extended without written agreement of the School District and the Architect.

2.5.4 The Architect shall be a representative but not an agent of and shall advise and consult with the School District during the Construction Phase and from time to time during the one-year correction period for Work related to the Contract for Construction. The Architect shall have authority to act on behalf of the School District only to the extent provided in this Agreement. Notice by third parties to the Architect shall not be deemed notice to the School District.

2.5.5 The Architect shall visit the site at intervals noted in Exhibit A (1) to observe the site and Work; (2) to become generally familiar with the progress and quality of the Work completed; and (3) to determine for the School District's benefit and protection if the Work is proceeding in accordance with intent of the Contract Documents and with the Contractor's Schedule. The Architect shall require its subconsultants to visit the site at intervals appropriate to the stage of construction to determine if the Work is proceeding in accordance with the Contract Documents. The Architect shall issue a field report of each site observation. The Architect shall conduct meetings at a frequency noted in Exhibit A with the Owner and with the Contractor and shall issue minutes if not provided by the Contractor. On the basis of on-site observations as an Architect, the Architect shall keep the School District informed about the progress and quality of the Work, and shall endeavor to guard the School District against, and promptly notify the School District in writing of, defects and deficiencies in the Work and against the Contractor's failure to carry out the Work in accordance with the intent of the Contract Documents and the Contractor's Schedule. The Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect shall not, without written approval from the School District:

.1 Authorize significant or material deviations from the Contract Documents,

.2 Approve substitute materials or equipment,

.3 Assume any of the responsibilities of the Contractor's superintendent or of Subcontractors,

.4 Approve expediting the Work for the Contractor,

.5 Advise on, or issue directions concerning, aspects of construction means, methods, techniques, sequences or procedures, or safety precautions and programs in connection with the Work,

.6 Authorize or suggest that the School District occupy the Project in whole or in part,

.7 Prepare or certify to the preparation of the Contractor's Record Drawings,

.8 Order the Contractor to stop the Work or any portion thereof,

.9 Communicate directly with Subcontractors unless authorized by the Contractor or Contract Documents, or

.10 Bind the School District in any way to a change in the Contract Sum or Contract Time.

2.5.6 The Architect shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility under the Contract for Construction. The Architect shall not be responsible for the Contractor's schedules or failure to carry out the Work in accordance with the Contract Documents. The Architect shall be responsible for its negligent acts, errors, or omissions, but shall not have control over or charge of and shall not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or of any other persons performing portions of the Work except for the Architect and its employees, agents, and consultants. Neither the professional activities of the Architect, nor the presence of the Architect or its employees and subconsultants at a construction/project site, shall relieve the Contractor of its obligations, duties and responsibilities including, but not limited to, construction means, methods, sequence, techniques or procedures necessary for performing, superintending and coordinating the Work in accordance with the Contract Documents and any health or safety precautions required by any regulatory agencies. The Architect and its personnel have no authority to exercise any control over any construction contractor or its employees in connection with their work or any health or safety programs or procedures.

2.5.7 The Architect shall at all times have access to the Work wherever it is in preparation or progress.

2.5.8 Based on the Architect's observations of the Work and upon evaluations of the Contractor's Progress Schedule and updates and Applications for Payment, the Architect shall review and approve, subject to the School District's approval and within seven days of the Architect's receipt of an Application, the amounts to be paid to the Contractor.

2.5.9 The Architect's certification for payment shall constitute a representation to the School District, based on the Architect's observations at the site as provided in Section 2.5.5 and on the data comprising the Contractor's Application for Payment, that the Work has progressed to the point indicated and that, to the best of the Architect's knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract Documents correctable

prior to completion and to specific qualifications expressed by the Architect. The issuance of a Certificate for Payment shall further constitute a representation that the Contractor is entitled to payment in the amount certified. However, the issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, or (3) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

2.5.10 The Architect shall consult with the School District concerning the advisability of rejecting Work that does not conform to the Contract Documents and additional inspection or testing of the Work whenever, in the Architect's reasonable opinion, it is necessary or advisable for the implementation of the intent of the Contract Documents.

2.5.11 The Architect shall review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall not change the Contract Documents through review comments on a submittal or an RFI, but only through a Change Order or Construction Change Directive signed by the School District. The Architect's action shall be taken as soon as possible and with such reasonable promptness as to cause no delay. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities or for substantiating instructions for installation or performance of equipment or systems designed by the Contractor, all of which remain the responsibility of the Contractor to the extent required by the Contract Documents. The Architect's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Architect, of construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component. When professional certification of performance characteristics of materials, systems or equipment is required by the Contract Documents, the Architect shall be entitled to rely upon such certification to establish that the materials, systems or equipment will meet the performance criteria required by the Contract Documents.

2.5.12 The Architect shall prepare Change Orders and Construction Change Directives, with supporting documentation and data, for the School District's approval and execution in accordance with the Contract Documents. The Architect may authorize minor changes in the Work, upon the School District's knowledge and agreement, not involving an adjustment in the Contract Sum or an extension of the Contract Time which are consistent with the intent of the Contract Documents. Basic Services shall include all aspects of the preparation and processing of Change Orders

and Construction Change Directives resulting from errors, omissions or deficiencies in the Contract Documents prepared by the Architect.

2.5.13 The Architect shall make observations regarding the dates of Substantial Completion and Final Completion. At Substantial Completion, the Architect shall prepare a "punch list" of observed items requiring correction, completion or replacement by the Contractor. The Architect shall receive, review for compliance with the Contract Documents, and forward to the School District written warranties and related documents required by the Contract Documents and assembled by the Contractor, and shall issue a final Certificate for Payment upon compliance with the requirements of the Contract Documents. The Architect shall perform services from time to time during the one-year Correction Period, including a review of the Project for potential corrective action by the Contractor approximately 30 days prior to the one-year anniversary of Substantial Completion, and shall prepare a list of items needing correction by the Contractor.

2.5.14 The Architect shall interpret and initially decide matters concerning the Contractor's performance under the requirements of the Drawings and Specifications and shall assist the School District in the interpretation of all other Contract Documents and the Contractor's performance thereunder on written request of either the School District or Contractor. The Architect's response to such requests shall be made with reasonable promptness and within any time limits agreed upon. When making such interpretations and initial decisions, the Architect shall endeavor to secure faithful performance by both the School District and Contractor and shall not show partiality to either.

2.5.15 Interpretations and decisions of the Architect shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in the form of drawings. Upon the School District's request, the Architect shall advise the School District concerning claims, disputes or other matters in question between the School District and Contractor.

2.5.16 The Architect shall assist in supplying information, advice and communication with respect to usual and customary requirements of the Superintendent of Public Instruction.

2.5.17 The Architect shall contemporaneously provide the School District with copies of all written communications between the Architect and the Contractor concerning any matter material to the cost, time, sequence, scope, or requirements of the Project. Except as otherwise provided in this Agreement or when direct communications have been specifically authorized, the School District shall endeavor to communicate with the Contractor through the Architect about matters arising out of or relating to the Contract Documents. Communications by and with the Architect's consultants shall be through the Architect.

2.5.18 The Architect shall assist the School District in project closeout, including but not limited review of final payment application, closeout submittals, O&M manuals, and as-built drawings; recommendation of Final Acceptance; recommendations regarding any warranty work during the one-year correction period; and state closeout assistance.

ARTICLE 3 **ADDITIONAL SERVICES**

3.1 Additional Services, and any other services involving payment beyond Basic Compensation shall be provided if authorized in writing by the School District or if included in Article 13, and they shall be paid for by the School District as provided in this Agreement only to the extent not caused by the errors, omissions, malfeasance or negligence of the Architect. Additional Services include budget analysis, financial feasibility studies, planning surveys, environmental studies, coordination of contractors, quantity surveys, or any other services not otherwise included in this Agreement or Exhibit 1 or not customarily furnished in accordance with generally accepted architectural and engineering practice.

3.2 In the absence of mutual agreement in writing, the Architect shall notify the School District in writing prior to providing any Services requiring an adjustment in the Architect's compensation and shall specify the proposed adjustment. Failure to provide such timely written notice before providing such Services shall be a waiver of any right to payment for Additional Service. The Architect shall not move forward in rendering such Services without the written permission of the School District. If requested by the School District in writing, the Architect shall proceed with such Additional Services even if the parties have not yet agreed to the change in compensation. If the School District then deems that all or a part of such Additional Services is not required, the School District shall give prompt written notice to the Architect, pay the Architect for Services already provided, and the Architect shall have no obligation to provide, and the School District shall have no obligation to compensate the Architect for, those incomplete services.

ARTICLE 4 **SCHOOL DISTRICT'S RESPONSIBILITIES**

4.1 The School District has already provided full information regarding requirements for and limitations on the Project, including a program which sets forth the School District's objectives, schedule, constraints and criteria, and will respond to any questions from the Architect regarding such information.

4.2 To the extent not already established, the School District shall establish and update an overall budget for the Project, including the Construction Cost, the School District's other costs and reasonable contingencies related to all of these costs.

4.3 If required by the Project and requested by the Architect, the School District shall furnish the services of consultants for traffic, energy reports, material testing, or specialized inspection services when the School District agrees that such services are reasonably required by the scope of the Project.

4.4 The School District shall furnish structural, mechanical, chemical, air and water pollution tests, tests for hazardous materials, and other laboratory and environmental tests, inspections and reports required by law or the Contract Documents.

4.5 The School District shall, at its discretion, furnish legal, accounting and insurance counseling services that may be necessary at any time for the Project to meet the School District's needs and interests, including auditing services the School District may require to verify the Contractor's Applications for Payment or to ascertain how or for what purposes the Contractor has used the money paid by or on behalf of the School District. The School District is not, however, required to furnish these services for the Architect's benefit.

4.6 Unless identified as the Contractor's responsibility under the Construction Contract, the School District shall pay for:

- .1** the fees for application for building permits, plan reviews and site mitigation,
- .2** fees to any other agency for environmental matters and development or impact fees, and
- .3** the publication and reproduction costs for the advertisement for bids and bid documents.

ARTICLE 5 **CONSTRUCTION COST**

5.1 MAXIMUM ALLOWABLE CONSTRUCTION COST

5.1.1 The Maximum Allowable Construction Cost ("MACC") is the sum that the School District establishes (in writing) as the fixed limit for constructing the Project. It includes the cost of labor, materials, and equipment necessary to complete the construction contract, using current market rates, including a reasonable allowance for overhead and profit, and an estimate of inflation and other possible price increases through the mid-point of construction. It does not include Washington State or local sales tax, professional fees, compensation to the Architect and the Architect's consultants, construction contingencies, the cost of the land, rights-of-way or other construction-related costs that are the responsibility of the School District.

5.1.2 The MACC for the project has been communicated to the Architect. The Architect shall promptly notify the School District in writing if for any reason and at any time the Architect believes that the Construction Cost of the Project will exceed the MACC.

5.1.3 The School District may change the MACC at any time prior to bid opening and give notice of the change to the Architect, whose compensation will not be changed for services performed prior to the notice or if the MACC is increased to account for market conditions.

5.2 CONSTRUCTION COST

5.2.1 The Construction Cost shall be the total cost or estimated cost to the School District of all elements of the Project designed or specified by the Architect. The Construction Cost shall be determined by the Architect's most recent estimate (not to exceed the MACC) through the Construction Document Phase, and by the Contract Sum after the Bidding Phase ends.

5.2.2 The Construction Cost shall include the cost at current market rates of labor, materials and equipment furnished by the School District (either through the construction contract, through a separate contract, or directly) and designed, specified, selected or specially provided for by the Architect, plus a reasonable allowance for the overhead and profit of the Contractor or separate contractor. In addition, a reasonable allowance for contingencies shall be included for market conditions at the time of bidding.

5.3 RESPONSIBILITY FOR CONSTRUCTION COST

5.3.1 Preliminary estimates of Construction Cost and detailed estimates of Construction Cost, prepared by the Architect, represent the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that neither the Architect nor the School District has control over the cost of labor, materials or equipment, over the Contractor's methods of determining bid prices, or over competitive bidding, market or negotiating conditions. Accordingly, the Architect does not warrant or represent that bids will not reasonably vary from the MACC or from any estimate of Construction Cost or evaluation prepared or agreed to by the Architect. As part of its Basic Services, the Architect shall design the Project to 100% of the MACC, with 5% of the MACC to be additive and deductive alternates, unless mutually agreed otherwise.

5.3.2 If the Invitation to Bid has not been issued within 90 days after the Architect submits the Construction Documents to the School District, the MACC and the Construction Cost shall be adjusted to reflect changes in the general level of prices in the construction industry between the date of submission of the complete Construction Documents to the School District and the date on which the solicitation commences.

5.3.3 If the lowest bona fide bid exceeds the Architect's last Construction Cost estimate for corresponding Work by more than five percent, the School District may, at its sole option:

- .1** accept the bid;

- .2** authorize re-bidding or renegotiating of the Project within a reasonable time;
- .3** terminate this Agreement in accordance with Section 8.1; and/or
- .4** cooperate with the Architect in revising the Project scope and/or quality, to the extent consistent with the Project's requirements, to reduce the Project cost, and the Architect shall prepare revised drawings and specifications for re-bidding at no additional fee to the School District.

The Owner and Architect shall negotiate together to determine if the Architect's compensation should be increased under any of these four options even if the MACC or Construction Cost increases.

5.3.4 If the School District chooses to proceed under Subsection 5.3.3.4, the Architect shall bear its associated costs, including modification of the Contract Documents and repetition of the required Construction Cost estimate, bidding, and construction schedule activities.

ARTICLE 6 USE OF ARCHITECT'S INSTRUMENTS OF SERVICE

6.1 The Drawings, Specifications and other documents, including those in electronic form, prepared by the Architect and its consultants for this Project are Instruments of Service. The Instruments of Service shall become the joint property of the School District and Architect and, unless otherwise provided, the Architect shall be deemed the author of these Instruments of Service and shall retain all common law, statutory and other reserved rights, including the copyright, to the extent not modified herein. The Architect grants to the School District a non-exclusive license to use and reproduce the Instruments of Service for purposes of constructing, using, maintaining and adding to the Project. Reproducible copies, including disks, may be retained by the School District, whether the Project for which they were made is executed or not, and both are entitled to make and retain copies and reproduce them for their own use. The School District agrees to indemnify and hold harmless the Architect, its agents and employees, from any claims arising from the School District's use of the Instruments of Service on projects for which the Architect is not employed.

6.2 Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of either parties' reserved rights.

6.3 Upon request by the School District, the Architect shall provide electronic copies, including CADD, Word, and similar files to the School District and the Contractor as a part of Basic Services. The School District agrees to indemnify and hold the Architect harmless from any subsequent modification by the School District to the Architect's

Instruments of Service on projects for which the Architect is not employed.

ARTICLE 7 **DISPUTE RESOLUTION**

7.1 Any claim, dispute or other matter in question arising out of or related to this Agreement and between the School District and the Architect, including its consultants (“Disputes”), shall be exclusively subject to the following alternative dispute resolution procedure in an effort to reduce the incidence and costs of extended Disputes and as a condition precedent to the institution of legal or equitable proceedings by either party. This requirement cannot be waived except by an explicit written waiver signed by the School District and the Architect. If such matter relates to or is the subject of a lien arising out of the Architect’s services, the Architect may proceed in accordance with applicable law to comply with the lien notice or filing deadlines prior to resolution of the matter by mediation.

7.2 The School District and the Architect shall endeavor to resolve Disputes through negotiation during the Project. If negotiations are not successful, each party shall continue to perform its obligations under this Agreement and the School District and the Architect shall endeavor to resolve such Disputes by mediation. Request for mediation shall be filed in writing with the other party to this Agreement. If the parties are unable to select a mutually acceptable mediator within sixty days of the request for mediation, the request may then be filed with the American Arbitration Association. Mediation shall proceed in advance of legal or equitable proceedings. A principal of the Architect, and the Superintendent or designee of the School District, both having full authority to settle the Dispute (subject only to approval through standard School District procedures), must attend the mediation session. To the extent there are other parties in interest, such as the Contractor, Subcontractors, suppliers, and/or consultants, their representatives, with full authority to settle all pending disputes or claims, shall also be encouraged to attend the mediation session.

7.3 Unless the School District and the Architect mutually agree in writing otherwise, all unresolved Disputes shall be considered at a single mediation session which shall occur after Substantial Completion and prior to Final Acceptance of the Project by the School District. The Architect may bring no litigation on a Dispute unless the Dispute has been raised as required by this Agreement and considered in the above mediation procedure, except that either party may assert a claim in litigation if such a claim must be asserted under scheduling deadlines of the applicable Rules of Civil Procedure or statutes of limitation or repose.

7.4 The parties shall share the mediator’s fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon or if the dispute involves the Contractor and the Contractor’s contract with the School District requires a different location. Agreements reached in

mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

7.5 The Architect will continue to perform its obligations under this Agreement so as not to delay the Project pending resolution of any dispute. The School District shall continue to make payment of all amounts due under this Agreement that are not in good faith dispute.

7.6 The Architect and the School District waive incidental, indirect, punitive, special and consequential damages for Disputes, including attorneys’ fees of third parties (unless claimed on the basis of an indemnification), and including, without limitation, all such damages due to either party’s termination. This waiver does not, however, limit a party’s ability to recover third party damages arising out of claims against the other party.

ARTICLE 8 **TERMINATION OR SUSPENSION**

8.1 TERMINATION OF AGREEMENT BY SCHOOL DISTRICT FOR CAUSE

8.1.1 If, through any cause, either the Architect fails to fulfill in a timely and proper manner its material obligations under this Agreement, or the Architect violates any of the material covenants, agreements or stipulations of this Agreement, or the Architect becomes insolvent or the subject of any proceeding under bankruptcy, insolvency or receivership law or makes an assignment for the benefit of creditors, or if the Architect’s designated representative ceases to be personally involved with the Project, the School District shall have the right (but not the obligation) to terminate this Agreement by giving written notice of such termination and specifying the effective date thereof as a date certain at least seven calendar days after the notice, during which period the Architect shall have the right to cure the default. If the default is not cured by the termination date, the School District shall have the right (but not the obligation) to take over performance of the Architect’s services and prosecute the same to completion, by contract or otherwise, and all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports prepared by or for the benefit of the Architect shall, at the option of the School District, become the School District’s property. These rights and remedies of the School District are cumulative with and in addition to any other rights and remedies provided by law or this Agreement.

8.1.2 In the event that the School District terminates for cause, the School District shall be liable to the Architect only for the Architect’s just and equitable compensation for any satisfactorily completed services, but in no event shall this compensation exceed the percentage of total Services satisfactorily completed at the time of termination times the total compensation payable under this Agreement. The School District may withhold any payments to the Architect for the purpose of setoff until such time as the exact amount of damages due the School District from the Architect is

determined. In no event shall the School District be liable for any consequential or incidental damages, including, but not limited to, loss of profit on other projects or of reputation incurred by the Architect as a result of such termination. If the School District purports to terminate all or a part of this Agreement for cause, and it is later determined that insufficient cause existed, such termination shall be deemed to have been a termination for convenience by the School District pursuant to Section 8.2, and the rights of the parties shall be determined accordingly.

8.2 TERMINATION FOR CONVENIENCE BY SCHOOL DISTRICT

8.2.1 The School District may, at its option and under such terms as it may set, terminate all or a portion of the Services not then performed under this Agreement at any time by so notifying the Architect in writing. In that event, all finished or unfinished documents and other materials as described above shall, at the option of the School District, become its property, and the School District shall indemnify and hold harmless the Architect, its agents and employees, from any claims arising from the School District's subsequent use of such documents and other materials, except to the extent the Architect is solely or concurrently negligent. If all or a portion of the Services are terminated by the School District as provided herein, the Architect's compensation for the terminated Services shall be that portion of the Basic Compensation for terminated Services satisfactorily performed prior to termination, reasonable and necessary expenses incurred by the Architect to terminate any consultant contracts, and proper Compensation for Reimbursable Expenses and Additional Services. The School District shall not be liable for any consequential or incidental damages, including, but not limited to, loss of profits on other projects or of reputation incurred by the Architect as a result of such termination.

8.3 SUSPENSION OF THE AGREEMENT

8.3.1 The School District may, at its option and under such terms as it may set, suspend all or a portion of the Services not then performed under this Agreement at any time by so notifying the Architect in writing. If the School District suspends the Project, the Architect shall be compensated for services performed prior to notice of such suspension. When the Project is resumed, the Architect shall be compensated for expenses incurred as a result of the interruption and resumption of the Architect's services and only if the School District suspends the Project for more than sixty consecutive days.

8.4 TERMINATION OF AGREEMENT BY ARCHITECT FOR CAUSE

8.4.1 Should the School District fail to make payment to the Architect in accordance with the terms of this Agreement through no fault of the Architect, and if the payment is not subject to any dispute by the School District, the Architect may terminate this Agreement by giving written notice of

such termination and specifying the effective date thereof as a date certain at least seven calendar days after the notice, during which period the School District shall have the right to cure the default. In the event of such termination, the Architect shall be compensated in accordance with Section 8.2.

ARTICLE 9 **MISCELLANEOUS PROVISIONS**

9.1 This Agreement shall be governed by the internal law of the State of Washington, without regard to its choice-of-law provisions. Exclusive venue for any litigation shall be in the Superior Court of Grays Harbor County, Washington.

9.2 The School District and Architect waive all rights against each other and against the contractors, consultants, agents and employees of the other for damages, but only to the extent covered by property insurance during construction, except such rights as they may have to the proceeds of such insurance as set forth in the Construction Contract used by the School District. The School District and Architect each shall require similar waivers from their contractors, consultants and agents.

9.3 The School District and Architect, respectively, bind themselves, their partners, successors, assigns and legal representatives to the other party to this Agreement and to the partners, successors, assigns and legal representatives of such other party with respect to all covenants of this Agreement. Neither the School District nor the Architect shall assign this Agreement without the written consent of the other.

This Agreement may be amended only by written instrument signed by both School District and Architect.

9.5 Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the School District or Architect.

9.6 Unless otherwise provided in this Agreement, the Architect and Architect's consultants shall have no responsibility for the discovery, presence, handling, removal or disposal of or exposure of persons to hazardous materials in any form at the Project site, including but not limited to asbestos, asbestos products, polychlorinated biphenyl (PCB) or other toxic substances.

9.7 The Architect's services shall be performed in accordance with generally accepted standards of professional practice, with any applicable statutory or regulatory standards, and the terms and conditions of the Agreement. The Architect shall be solely responsible for the safety of its own personnel, equipment, agents, independent contractors, and consultants, and shall be solely responsible for general public health, safety, and welfare related to or arising from the Architect's or its consultants' acts or omissions at the site.

The Architect understands and agrees that it shall abide by all applicable federal, state, and local laws and requirements, including without limitation those related to worker and site safety laws and regulations.

Failure to comply with these requirements is grounds for immediate termination of the Agreement for cause.

9.10 The Architect shall comply with all applicable provisions of RCW 49.60, the Law Against Discrimination.

9.11 The Architect shall enforce strict discipline and good order among the Architect's employees, consultants, and other persons carrying out the Agreement, including observance of drug testing and all smoking, tobacco, alcohol, parking, safety, weapons, background checks, sexual harassment, and other rules governing the conduct of personnel on the School District's property. The Architect shall not permit employment of unfit persons or persons not skilled in tasks assigned to them. The Architect shall ensure that all persons performing the Services under this Agreement comply with the School District's tobacco-free use policy and will not and do not engage in inappropriate conduct or inappropriate contact with students or staff.

9.12 Any employees of the Architect and its consultants of any tier performing Services on the School District's property on the site shall be free from drug and alcohol impairments. If the School District reasonably believes that a person may be under the influence of any such drugs or alcohol, the School District may require that testing take place immediately and failure to do so may be grounds for the immediate termination of the offending consultant/Architect for cause.

ARTICLE 10

INSURANCE AND INDEMNIFICATION

10.1 INSURANCE

10.1.1 The Architect shall, at its sole cost and expense, secure and maintain at a minimum the following insurance, on an occurrence basis, to protect the School District, its successors and assigns, and the respective directors, employees and agents of each of the foregoing (such as naming them as additional insureds), from and against any and all claims, losses, harm, costs, liabilities, damages and expenses arising out of (1) general liability including (a) bodily injury (including death) in the amount of no less than \$2,000,000 combined single limit, (b) Employer's Liability (Washington Stop-Gap) in the amount of no less than \$1,000,000 per occurrence, and (c) property damage in the amount of no less than \$1,000,000 per occurrence and \$2,000,000 aggregate (deductible of up to \$5,000 permitted) and (2) Auto Bodily Injury for autos owned or hired by the Architect in Washington in the amount of no less than \$1,000,000 combined single limit. The Architect shall also maintain state workers' compensation coverage as required by law.

10.1.2 The Architect shall also maintain during the Project and for six years after Substantial Completion (subject to RCW 4.16.310) professional errors and omissions insurance in an amount no less than \$1,000,000 (deductible of up to \$75,000 permitted) for claims that may result in any way from negligent performance of the Architect's obligations under this Agreement. The Architect shall promptly notify the School District of any material changes to, interruption of, or termination of this insurance. The Architect shall contractually require its consultants of any tier to maintain professional errors and omissions insurance in an amount of at least 50% of the above amount. If professional errors and omissions insurance becomes unavailable to the Architect or any of its consultants, the Architect must so notify the School District.

10.1.3 All such insurance shall be placed with such insurers and under such forms and limits of policies as may be reasonably acceptable to the School District. Within ten days of execution of this Agreement and annually thereafter, the Architect shall deliver to the School District certificates of insurance (including renewal or replacement certificates) acceptable to the School District and signed by the insurer or its authorized representative, certifying that the policies providing insurance of this kind and coverage are in full force and effect. The policies shall not be canceled by the Architect without giving notice of such cancellation per ACORD 25 (2010/05), and the certificates shall indicate that the School District is an Additional Insured, except on workers' compensation and professional errors and omissions policies. The foregoing requirements as to insurance and acceptability to the School District of insurers and insurance to be maintained by the Architect shall not in any manner limit or

qualify the liabilities or obligations assumed by the Architect under this Agreement.

10.2 INDEMNIFICATION

10.2.1 The Architect hereby releases and agrees to indemnify and hold harmless the School District, its successors and assigns, and the officers, directors, employees and agents of each of the foregoing ("Indemnified Parties"), from and against any and all claims of third parties and losses, harm, costs, liabilities, damages and expenses (including, but not limited to, reasonable attorneys' fees incurred on such claims and in proving the right to indemnification) arising out of or resulting from or connected to such claims of third parties to the extent arising out of or in connection with any willful misfeasance, bad faith or negligence in, or reckless disregard of, (1) the performance of the services or obligations of, or (2) the acts, errors or omissions of, the Architect or any of its consultants of any tier, the respective successors and assigns of the Architect or any such consultants, the directors, officers, employees and agents of each of the foregoing, or anyone acting on the Architect's behalf in connection with this Agreement or its performance; PROVIDED, however, that the Architect shall not be required to so indemnify and hold harmless any of such Indemnified Parties against liability for damages caused by or resulting from the sole negligence of the Indemnified Parties; PROVIDED FURTHER that if such damages are caused by or result from the concurrent negligence of Indemnified Parties and of the Architect or its agents, consultants or employees, then the Architect's indemnity and hold harmless obligations hereunder shall be limited to the extent of the negligence of the Architect or its agents, consultants or employees. The Architect will reimburse the School District for defense costs incurred by the School District that were caused by the Architect's negligence.

ARTICLE 11 **PAYMENTS TO THE ARCHITECT**

11.1 REIMBURSABLE EXPENSES

11.1.1 Reimbursable Expenses are allowable expenses incurred by the Architect in the interest of the Project for: authorized out-of-town travel; fees paid for securing approval of authorities having jurisdiction over the Project; reproductions, except reproductions for the office use of the Architect and its consultants; postage and delivery of Drawings and Specifications; and expense of overtime work requiring higher than regular rates if pre-approved in writing by the School District.

11.2 PAYMENTS ON ACCOUNT OF BASIC SERVICES

11.2.1 Payments for Basic Services shall be made monthly and, where applicable, shall be in proportion to services performed within each phase of service, on the basis set forth in Section 12.1.2. Applications for payment shall be submitted in a form acceptable to the School District, and

shall include the description and scheduled value and cost code, value of work completed to date and for the present month, percent complete to date, and balance to finish. Requests for payment of Reimbursable Expenses shall be accompanied by receipts or records documenting those expenses. Request for payment of Additional Services based on hourly rates shall be accompanied by copies of personal time sheets or billing summaries describing the daily hours and services performed.

11.2.2 If and to the extent that the time initially established in Section 12.4.1 of this Agreement is exceeded or extended through no fault of the Architect, compensation for any services rendered during the additional period of time shall be adjusted to the extent that the Architect can demonstrate that such delay causes an increase in the Architect's costs of performing its Services and computed in the manner set forth in Section 12.2.2.

11.2.3 When compensation is based on a percentage of Construction Cost and any portions of the Project are deleted or otherwise not constructed, compensation for those portions of the Project shall be payable to the extent services are performed on those portions, in accordance with the schedule set forth in Section 12.1.2, based on the lower of (1) the lowest bona fide bid or negotiated proposal, or (2) if no such bid or proposal is received, the most recent preliminary estimate of Construction Cost or detailed estimate of Construction Cost for such portions of the Project.

11.3 PAYMENTS ON ACCOUNT OF ADDITIONAL SERVICES

11.3.1 Payments on account of the Architect's Additional Services and for Reimbursable Expenses shall be made monthly upon presentation of the Architect's statement of services rendered or expenses incurred.

11.4 PAYMENTS WITHHELD

11.4.1 No deductions shall be made from the Architect's compensation on account of sums withheld from payments to contractors.

11.5 ARCHITECT'S ACCOUNT RECORDS

11.5.1 Upon request, the Architect shall provide the School District with access to its records for inspection, audit, and reproduction (including electronic reproduction) and with an accounting of any services of the Architect or of any of its consultants of any tier. The accounting of services shall detail the services performed, the amounts paid to a consultant (supported by copies of all paid invoices) and such other information as the School District may reasonably request. The School District shall in no event be obligated to make any payment to any consultant, and the School District is not obligated to reimburse the Architect for such payments if the amount thereof has been taken into account in determining the basic compensation payable to the Architect under this Agreement. If the School District makes any such payment which the Architect was obligated to make, the

Architect shall reimburse the School District upon demand for the same, together with all related costs and expenses incurred by the School District.

11.6 WAIVER OF CLAIMS

11.6.1 If the Architect believes that it is entitled to any additional compensation in addition to the specific amounts stated in Article 12, such as payments for what the Architect considers to be Additional Services, the Architect shall timely notify the School District in writing of such claims for compensation as provided in Section 3.2 or elsewhere in this

Agreement. Failure of the Architect to timely provide such written notification to the School District shall constitute a waiver of the Architect's rights to seek such additional compensation. To the extent that this Agreement does not otherwise provide a time limit in which the Architect may assert such claims, in no event shall the Architect have the right to seek such additional compensation from the School District unless such claims are attached to the Architect's invoice which seeks payment for the final amounts of compensation listed in Article 12.1.2. Such invoice shall also include any final requests for reimbursable expenses.

ARTICLE 12 BASIS OF COMPENSATION

The School District shall compensate the Architect as follows:

12.1 BASIC COMPENSATION

12.1.1 FOR BASIC SERVICES, as described in Article 2 and for the Architect's responsibilities as otherwise described in this Agreement, Basic Compensation shall be computed as follows:

Compensation for Basic Services of the Architect and its consultants shall be a fixed Fee of \$47,077 per Exhibit 1 and shall not change if the Construction Contract is awarded below or above the approved MACC. Any payments above the amount listed in Exhibit 1 must be as an Additional Service authorized in writing by the School District.

Additional compensation for Change Orders shall be paid at the hourly rates typically charged to Washington school districts. The Architect will not, however, be entitled to additional compensation for change order costs incurred because of the fault of the Architect or its consultants.

12.1.2 Progress payments for Basic Services in each phase shall total the following percentages of the total Basic Compensation payable:

Per Exhibit 1.

12.2 COMPENSATION FOR ADDITIONAL SERVICES

12.2.1 FOR PROJECT REPRESENTATION BEYOND BASIC SERVICES, as described in Section 3.1, compensation shall be computed as follows:

Per hourly rates to be agreed upon and per Exhibit 1.

12.2.2 FOR ADDITIONAL SERVICES OF THE ARCHITECT, as described in Articles 3 and 13, other than (1) Additional Project Representation, as described in Section 3.2, and (2) services included in Article 13 as part of Additional Services, but excluding services of consultants, compensation shall be computed according to the following hourly rates:

Per an agreed-upon hourly not-to-exceed amount.

12.2.3 FOR ADDITIONAL SERVICES OF CONSULTANTS RETAINED BY THE ARCHITECT, a mark-up of ten percent (10.0%) times the reasonable amounts incurred by the Architect for such services.

12.3 REIMBURSABLE EXPENSES

12.3.1 FOR REIMBURSABLE EXPENSES, as described in Section 11.1.1, a mark-up of ten percent (10.0%) times the expenses incurred by the Architect, the Architect's employees and consultants in the interest of the Project.

12.4 ADDITIONAL PROVISIONS

12.4.1 Invoices received by the first working day of a month are due and payable thirty days from the date of the Architect's acceptable invoice. Amounts unpaid sixty days after the invoice date shall bear interest at the Bank of America Prime Rate plus 2%, pursuant to RCW 39.76.

Re: Aberdeen School District
Central Park & Robert Gray Elementary Schools Intercom Replacement
Consulting Services Fee Proposal

Attn: Mr. Andrew Twyman, Associate Director

Dear Andy,

On behalf of TCF Architecture and our design team, we sincerely appreciate the opportunity to submit this professional design services proposal to the Aberdeen School District. This proposal outlines our scope of services for completing the design and construction phase services for the replacement of the intercom systems at Central Park and Robert Gray Elementary Schools.

Based on our understanding of the project scope, budget, and schedule, we have prepared the enclosed fee proposal for your consideration. Our goal is to provide the services you need while ensuring that our fees support a high-quality outcome. This proposal is based on the understandings and assumptions outlined below.

Project Understanding: The Aberdeen School District has asked us to design and document a replacement intercom system for the two above-noted existing elementary schools. Central Park Elementary School was last modernized in 1994, and Robert Gray Elementary School was constructed in 2001. Drawings from the most recent work on these buildings have been forwarded under separate cover for your reference.

The systems at both schools have failed, and we have been asked to design, document, and prepare the project for bidding and construction to be completed prior to the end of the 2025 summer break (school begins on August 27, 2025). The system selected will match the one being chosen for the separate Harbor Learning Center project.

Budget: Our understanding is that the School District is still in the process of setting a final budget for this scope of work. We estimate for the replacement cost of the intercom systems at approximately \$220,000 total for both sites.

Schedule: Below is a summary of the preliminary schedule proposed to complete the project.

• Contracts:	May, 2025
• Owner Engagement:	Late May, 2025
• Site investigation:	Early June, 2025
• Design, Drawings & Specifications	June 1 - 21, 2025
• Bid documents to ASD	June 24, 2025
• Bidding Phase	June 25-July 7
• Construction	July 11 – August 22, 2025

Architectural Services: Our architectural services will include the following:

- **General Administration, Project Management, & Correspondence:** TCF will develop a project schedule and maintain communication with CSG | ESD 112 and Aberdeen School District throughout the duration of the project.
- **Site Visit & Existing Condition Documentation:** TCF will visit the schools to take photos and record existing conditions as required for documenting the patch and repair work associated with the intercom replacement.
- **Initial Drawing Setup and Modeling of Existing Conditions:** TCF will create a drawing background from the existing drawing provided by ASD for consultants to use in their drawing documentation.
- **Design Meetings:** TCF will attend three virtual meetings with ASD during the design phase of the project to review the progress of the project documentation.
- **Architectural Drawing Documentation:** TCF will provide architectural drawings documenting patching and repairing required for the project as well as any required general sheets. We will collate and combine drawings provided by the electrical engineer into a combined bid set document.
- **Specifications:** TCF will prepare a three-part specification to allow the project to be publicly bid. We assume that the district's attorney will provide Division 00 and portions of Division 01 of the specifications.
- **Cost Estimating:** TCF will work with our cost estimator to price the construction documents.
- **Permitting:** The contractor will be required to submit for any permit associated with the improvements.
- **Consultant Coordination:** TCF will coordinate with our designers and engineers throughout the course of the project.
- **Bid Phase Project Management:** TCF will answer bidder questions and substitution requests. We will issue one project addendum if required. We will not be present at the bid opening or any pre-bid walkthroughs.
- **Construction Administration:** TCF will attend up to three virtual meetings with the contractor throughout construction. We will review all submittals, RFIs, and cost change proposals. We will attend two site walks during construction and review applicable closeout documentation.

TCF Consultants: The following is our proposed consultant team for the project:

- Electrical Engineer: Metrix Engineers
- Cost Estimating: RC Cost Group

Project Fees: We propose using a fixed fee contract for our architectural scope of services. As you review the proposal, if you see any services that you do not feel are needed, we will be happy to adjust.

Fee Summary: See attached spreadsheet for detailed breakdown of fees by phase and team member.

Fees Do Not Include: Plan review or permit fees for building, electrical or other agency processes.

Warranty Phase Services: Services are limited to supply of information, advice and communications throughout the warranty and correction periods. If significant involvement is required to resolve issues unrelated to design errors or omissions, the Architect will be compensated as an additional service for unusual issues that arise.

Insurance: We carry \$2M/\$2M professional liability insurance. Some of our consultants carry lower limits and we can provide a breakdown of each upon request.

Redacted

If you find any items that need to be adjusted, we will be happy to make modifications. We are here to support you in whatever manner makes the most sense for the School District. Please give me a call if you have any questions.

Respectfully,
TCF Architecture PLLC

To the extent that the requirements of this Agreement conflict with or expand upon the terms of Exhibit A, and unless specifically excluded by Exhibit A, the terms of this Agreement shall apply. Except for the hourly rates, to the extent that the Consultant’s Proposal attaches or includes the Consultant’s or any of its subconsultants’ standard terms and conditions that are not specific to this Project, such standard terms and conditions are not a part of this Agreement and are not binding upon the School District.

TERMS AND CONDITIONS OF AGREEMENT

ARTICLE 1 **CONSULTANT'S RESPONSIBILITIES AND SERVICES**

1.1 The Services consist of those performed by the Consultant, Consultant's employees, and Consultants subconsultants, if any, as enumerated in this Agreement and Exhibit 'A.'

1.2 The Consultant represents that it is qualified and capable in all respects to perform the Services and has an established record of providing the type of services covered by this Agreement. Each person who performs the Services on behalf of the Consultant shall be experienced and qualified to perform the Services he or she performs, and the School District shall be entitled to rely on any assistance, guidance, direction, and advice provided by any such person. If requested by the School District, the Consultant shall remove from the Services, without cost to the School District or delay to the Services, any person whose removal the School District reasonably requests.

1.3 The Services shall be performed in a good, professional, and workmanlike manner, and with skill and diligence, all in accordance with the applicable standard of care. The Consultant shall complete its Services by the Date of Completion specified on the cover page.

1.4 The Consultant's Representative specified on the cover page shall be responsible for and in charge of the Services. The Consultant's Representative shall not be changed for the duration of the Services without prior written approval from the School District, which will not be unreasonably withheld.

1.5 At the time of performance, the Consultant shall be properly licensed, as required by applicable law, and properly equipped, organized, and financed to perform the Services. The Consultant shall also acquire and pay for (as part of Consultant's Fee) any and all permits required by applicable law for the Consultant to properly perform its Services. The Consultant is responsible for ensuring that its Services are performed in accordance with any applicable School District policy or procedure, and all applicable federal, state, county, city, and other jurisdictional laws, requirements, standards, and regulations in effect at the time that the Services are rendered.

1.6 The Consultant shall, at no cost to the School District, promptly and satisfactorily correct any Services that are defective or not in conformity with the requirements of this Agreement. The obligation of the Consultant to correct defective or nonconforming Services shall not in any way limit any other obligations of the Consultant and is in addition to any and all other rights and

remedies available to the School District under this Agreement or by law and shall in no event be construed or interpreted as obligating the School District to make any correction of defective or nonconforming Services.

1.7 The Consultant accepts the relationship of trust and confidence between the Consultant and the School District established in this Agreement. The Consultant shall cooperate with the School District and its employees, and the School District's other consultants, contractors, subcontractors, suppliers, and others involved with or impacted by the Services, and shall use its best efforts to maintain a positive working relationship with each.

1.8 The Consultant shall be and operate as an independent contractor in the performance of the Services and shall have control over and responsibility for all personnel performing the Services. The Consultant shall perform the Services in accordance with its own methods in an orderly and professional manner. In no event shall the Consultant be authorized on behalf of the School District to: (1) enter into any agreements or undertakings; (2) waive any provisions of any agreements or receive or accept notice on behalf of the School District; (3) authorize any payments or accept or approve any documents, work, services, goods, or materials on behalf of the School District, or (4) act as or be an agent or employee of the School District.

1.9 The Consultant may designate and subcontract with subconsultants, but only with the School District's prior written consent. The Consultant shall not subcontract with a subconsultant to which the School District has a reasonable objection. The Consultant shall incorporate the provisions of this Agreement and a scope of services consistent with its Services into its subcontracts, if any. Any subcontracting of any of the Services shall not relieve the Consultant from its responsibilities under this Agreement.

ARTICLE 2 **ADDITIONAL SERVICES**

2.1 Additional Services, and any other services involving compensation beyond the Consultant's Fee, shall be provided if authorized in writing by the School District by amendment to this Agreement. The School District shall pay for Additional Services only to the extent authorized and not caused by the errors, omissions, malfeasance, or negligence of the Consultant.

2.2 The Consultant shall not move forward in rendering Additional Services without the written permission of the School District. The Consultant shall notify the School District prior to providing any Services requiring an adjustment in the Consultant's Fee and shall specify the proposed adjustment. Failure to provide such timely written

notice before providing such Services shall be a waiver of any right to payment for Additional Services. If requested by the School District in writing, the Consultant shall proceed with such Additional Services even if the parties have not yet agreed to a change in compensation. If the School District deems that all or a part of such Additional Services are not required, the School District shall give prompt written notice to the Consultant and shall pay the Consultant for Services already completed. The Consultant shall have no obligation to provide, and the School District shall have no obligation to compensate the Consultant for, any future Additional Services not yet performed.

ARTICLE 3

SCHOOL DISTRICT'S RESPONSIBILITIES

3.1 To the extent not already provided, the School District shall provide full information regarding requirements for and limitations on the Services, including the School District's objectives, schedule, constraints, and criteria, and will respond to any questions from the Consultant regarding such information.

3.2 The School District shall pay the Consultant the Consultant's Fee specified on the cover page, in accordance with Article 9, for the Consultant's proper performance of the Services.

ARTICLE 4

USE OF CONSULTANT'S INSTRUMENTS OF SERVICE

4.1 Any documents, reports, information, data, drawings, specifications, maps, models, photographs, studies, and/or other work product, including those in electronic form, prepared (whether completed or partial) by the Consultant and its subconsultants, if any, as a part of the Services are the Instruments of Service. The Instruments of Service shall become the joint property of the School District and Consultant and, unless otherwise provided, the Consultant shall be deemed the author of these Instruments of Service and shall retain all common law, statutory, and other reserved rights, including the copyright, to the extent not modified herein. The Consultant grants to the School District a non-exclusive license to use and reproduce at no additional cost the Instruments of Service for purposes of constructing, completing, using, maintaining, renovating, and/or adding to the Project and the Services. Reproducible copies of the Instruments of Service may be retained by the School District and the School District is entitled to make and retain copies and reproduce them for its own use.

4.2 Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project are not to be construed as publication in derogation of the either parties' reserved rights.

4.3 Upon request by the School District, the Consultant shall provide electronic copies of its Instruments of Service, including AutoCAD, Revit, Word, Excel and similar files to the School District as part of Services.

ARTICLE 5

DISPUTE RESOLUTION

5.1 Any claim, dispute, or other matter in question between the School District and the Consultant, including Consultant's subconsultants, arising out of or related to this Agreement ("Disputes"), shall be exclusively subject to the following alternative dispute resolution procedure in an effort to reduce the incidence and costs of extended Disputes and as a condition precedent to the institution of legal or equitable proceedings by either party. This requirement cannot be waived except by an explicit written waiver signed by the School District and the Consultant.

5.2 The School District and Consultant shall endeavor to resolve Disputes through good-faith negotiation. If negotiations are not successful, each party shall continue to perform its obligations under this Agreement and the School District and Consultant shall endeavor to resolve such Disputes by mediation, which, unless the parties mutually agree otherwise, shall be in accordance with the Washington Uniform Mediation Act and the Construction Industry Mediation Rules of the American Arbitration Association currently in effect. A request for mediation shall be filed in writing with the other party to this Agreement. If the parties are unable to select a mutually acceptable mediator within thirty days of the request for mediation, the request may then be filed with the American Arbitration Association. Mediation shall proceed in advance of legal or equitable proceedings.

5.3 A principal of the Consultant and the Superintendent or designee of the School District, both having full authority to settle the Dispute (subject only to ratification by the School District's Board of Directors), must attend the mediation session. To the extent there are other parties in interest, such as subconsultants, contractors, subcontractors, and suppliers, their representatives, each with full authority to settle all pending disputes or claims, shall also be encouraged to attend the mediation session.

5.4 The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in Owner's location, unless another location is mutually agreed upon or if the dispute involves a third party that has a contract which requires a different location. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

5.5 The School District and Consultant waive incidental, indirect, punitive, special and consequential

damages for Disputes, including attorneys' fees of third parties (unless such damages and costs are claimed on the basis of an indemnification), and including, without limitation, all such damages due to either party's termination. This waiver does not, however, limit a party's ability to recover third party damages arising out of claims against the other party.

5.6 Disputes that are not resolved pursuant to this Article 5 shall be subject to litigation and not arbitration.

ARTICLE 6

TERMINATION AND SUSPENSION

6.1 Suspension: If any undisputed amount remains due and owing after a period of sixty days from the date the Consultant submits an invoice, the Consultant may cease performing Services until all undisputed monies due are paid in full. The Consultant will not incur any liability for damages due to delay as a result of stopping performance of Services due to the School District's failure to pay undisputed amounts for Services rendered.

6.2 Termination by the School District: The School District may, at its sole discretion, terminate all or a portion of the Services not then properly performed under this Agreement at any time with or without cause upon written notice to Consultant. All Instruments of Service shall thereupon become the property of the School District, and the School District shall indemnify and hold harmless the Consultant, its agents, subconsultants, and employees, from any claims arising from the School District's subsequent use of the Instruments of Service after any termination for convenience.

6.3 Compensation: In the event of a termination without cause, the School District shall be liable to the Consultant only for Services properly completed prior to termination; this compensation shall not exceed the percentage of total Services properly completed at the time of termination multiplied by the Consultant's Fee.

ARTICLE 7

MISCELLANEOUS PROVISIONS

7.1 This Agreement shall be governed by the internal law of the State of Washington, without regard to its choice-of-law provisions. Exclusive venue for any litigation shall be in Superior Court in the County in which the Project is located.

7.2 The School District and Consultant waive all rights against each other and against the contractors, subconsultants, agents, and employees of the other for damages, to the extent covered by property insurance during construction, except such rights as they may have to the proceeds of such insurance as set forth in the Contract for Construction. The School District and Consultant each shall

require similar waivers from their contractors, subconsultants, agents, and employees.

7.3 The School District and Consultant bind themselves, and their partners, successors, assigns, and legal representatives, to the other party to this Agreement and to the partners, successors, assigns, and legal representatives of such other party with respect to all covenants of this Agreement. Neither the School District nor the Consultant shall assign this Agreement without the written consent of the other.

7.4 This Agreement represents the entire and integrated agreement between the School District and Consultant and supersedes all prior negotiations, representations, and agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the School District and the Consultant.

7.5 Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the School District or the Consultant.

7.6 The Consultant's Services shall be performed in accordance with generally accepted standards of professional practice, any applicable statutory or regulatory standards, and the terms and conditions of the Agreement. The Consultant shall be solely responsible for the safety of its own personnel, equipment, agents, independent contractors, and subconsultants, and shall be solely responsible for public health, safety, and welfare related to or arising from its acts or omissions at the site. The Consultant understands and agrees that it shall abide by all federal, state, and local laws and requirements, including without limitation those related to worker and site safety laws and regulations.

7.7 The School District reserves the right to contract with other consultants, contractors, subcontractors, and suppliers for services.

7.8 The Consultant certifies that it, and its employees and subconsultants, as applicable, are not prohibited from working at a public school site or from having unsupervised contact with children during the course of their employment, are not registered sex offenders, and have not pled guilty to nor been convicted of any of the crimes listed in RCW 28A.400.322. Pursuant to RCW 28A.400.303, the Consultant and its employees and subconsultants providing Services who will have unsupervised access to children are required to have successfully completed a background record check through the Washington State Patrol Criminal Identification System and through the Federal Bureau of Investigation in accordance with RCW 43.43.830 through .834, RCW 10.97.30 and RCW 10.97.50. The Consultant shall

provide the School District with the background check results prior to such individuals performing Services on site. Failure to comply with this Section shall be grounds for the immediate termination of this Agreement for cause.

7.9 To the extent required by applicable law and as requested by the School District, the Consultant shall comply, and shall assist the School District in complying, with the Washington Public Records Act, Chapter 42.56 RCW.

7.10 The Consultant shall comply with all state and federal laws, guidelines, and regulations, including all applicable provisions of Chapter 49.60 RCW, the Law Against Discrimination, and shall not discriminate on the basis of race, creed, color, national origin, sex, sexual orientation, marital status, age, veteran status, or disability. This is in accordance with Title VI of the 1964 Civil Rights Act; Section 504 of the Rehabilitation Act, 1973, as amended; the Americans with Disabilities Act, July 26, 1990, P.L. 101-336; and Title IX of the Education Amendments of 1972, as amended.

7.11 To the extent that there is any dispute over the amount payable by the School District to the Consultant, or if this Agreement is on a cost-reimbursable basis, then the owner shall have the right to an accounting of Services, which shall detail the Services performed, the amounts paid to any subconsultants (supported by copies of all paid invoices) and such other information as the School District may reasonably request. Upon request, the Consultant shall provide the School District with access to the books and records related to the Services of Consultant and its subconsultants for inspection, audit, and reproduction.

7.12 The Consultant shall comply with the School District's policy that no tobacco products, including vaping, may be used on School District property. The Consultant shall fully comply with all applicable federal, state, and local laws and regulations regarding drug-free workplaces. Any person not fit for duty for any reason, including the use of alcohol, controlled substances, or drugs, shall immediately be removed from the Project.

ARTICLE 8

INSURANCE AND INDEMNIFICATION

8.1 INSURANCE: The Consultant shall, at its sole cost and expense, secure and maintain at least the insurance types and limits identified on the cover page, on an occurrence basis, to protect the School District, its successors, assigns, and the respective directors, employees, and agents of each of the foregoing (such as by naming them as additional insureds), from and against any and all claims, losses, harm, costs, liabilities, damages, and expenses arising from the Consultant's Services.

8.1.1 The Consultant shall maintain professional liability insurance (errors and omissions) from the Effective Date through six years after the Date of Completion, with limits of at least those identified on the cover page, for claims that may result in any way from Consultant's negligent acts or omissions in performing its obligations under this Agreement.

8.1.2 All such insurance shall be placed with insurers and under such forms and limits of policies as may be reasonably acceptable to the School District. Within ten days of execution of this Agreement and annually thereafter, the Consultant shall deliver to the School District certificates of insurance (including renewal or replacement certificates), bearing all required endorsements, acceptable to the School District and signed by the insurer or its authorized representative, certifying that the policies are in full force and effect. The policies shall not be canceled or materially changed without the Consultant providing the School District with at least thirty days' prior notice of such cancellation or change. The School District, its Project Architect, and Project Manager shall be named as additional insureds on all applicable policies (except for the professional liability policy). The foregoing requirements as to insurance and acceptability to the School District of insurers and insurance to be maintained by the Consultant shall not in any manner limit or qualify the liabilities or obligations assumed by the Consultant under this Agreement.

8.2 INDEMNIFICATION: The Consultant hereby releases and agrees to indemnify and hold harmless the School District, its successors and assigns and the officers, directors and employees of each of the foregoing ("Indemnified Parties"), from and against any and all claims of third parties and losses, harm, costs, liabilities, damages and expenses (including, but not limited to, reasonable attorneys' fees incurred on such claims and in proving the right to indemnification) arising or resulting from such claims of third parties to the extent arising out of or in connection with any willful misfeasance, bad faith or negligence in, or reckless disregard of (1) the performance of the services or obligations of, or (2) the acts, errors or omissions of, the Consultant or any of its consultants of any tier, the respective successors and assigns of the Consultant or any such consultants, the directors, officers, employees and agents of each of the foregoing, or anyone acting on the Consultant's behalf in connection with this Agreement or its performance; PROVIDED, however, that the Consultant shall not be required to so indemnify and hold harmless any of such Indemnified Parties against liability for damages caused by or resulting from the sole negligence of the Indemnified Parties; PROVIDED FURTHER that if such damages are caused by or result from the concurrent negligence of Indemnified Parties and of the Consultant or its agents, consultants or employees, then the Consultant's indemnity and hold harmless obligations hereunder shall be limited to

the extent of the negligence of the Consultant or its agents, consultants or employees.

8.2.1 In claims against any person or entity indemnified under this Section 8.2 by an employee of the Consultant, any of its subconsultants of any tier, anyone directly or indirectly employed by them or anyone for whose acts they are liable, the obligations under this Section 8.2 shall not be limited by the amount or type of damages, compensation or benefits payable by or for the Consultant or a subconsultant under workers' compensation acts, disability benefit acts, or other employee benefit acts. After mutual negotiation of the parties, the Consultant expressly waives immunity as to the School District only under Title 51 RCW, "Industrial Insurance."

ARTICLE 9 **PAYMENTS TO CONSULTANT**

9.1 PROGRESS PAYMENTS ON ACCOUNT OF SERVICES: Progress payments are due and payable to the Consultant within thirty days of receipt of the Consultant's invoice, provided that Consultant's invoice is received by the School District by the tenth of the month and provided that the Consultant is entitled to payment as provided in this Agreement. Amounts unpaid sixty days after

the invoice receipt date shall bear interest at the Bank of America Prime Rate plus 2%.

9.1.1 Consultant's invoices shall include the description and value of Services completed during the previous month, the percent of Services completed through the previous month, and the balance of Services remaining. Invoices, including Reimbursable Expenses, shall be accompanied by receipts or records documenting those expenses. Invoices for Additional Services, as authorized under Article 2, shall be accompanied by supporting information, such as time sheets or invoices, as necessary to substantiate the Additional Services.

9.2 CLAIMS: If the Consultant believes that it is entitled to any additional compensation, such as payment for which the Consultant considers to be Additional Services, the Consultant shall timely notify the School District in writing of such claims for compensation as provided in Section 2.2. Failure of the Consultant to timely provide such written notification to the School District shall constitute a waiver of the Consultant's rights to seek additional compensation. In no event shall the Consultant have the right to seek such additional compensation from the School District after acceptance of final payment by Consultant for Services.

Re: Aberdeen School District
Aberdeen High School – Modernization Project Study
Consulting Services Fee Proposal

Attn: Mr. Andrew Twyman, Associate Director

Dear Andy,

On behalf of TCF Architecture and our design team, we sincerely appreciate the opportunity to submit this professional design services proposal to the Aberdeen School District. This proposal outlines our scope for completing a feasibility study for several improvement projects at the high school, including enhancements to the culinary classroom, guardrail safety improvements, dust collection system replacement, and the addition of a new canopy outside the wood shop.

Based on our understanding of the project scope, budget, and schedule, we have prepared the enclosed fee proposal for your consideration. Our goal is to provide the services you need while ensuring that our fees support a high-quality outcome. This proposal is based on the understandings and assumptions outlined below.

Project Understanding:

Guardrail Safety Improvements

- The study will include reviewing options for extending all interior guardrails in the building commons and other open-to-below spaces to a greater height using a glass guardrail extension.

Culinary Classroom

- The study will include the addition of approximately twelve linear feet of accessible, freestanding stainless steel countertop with legs and a sink in the existing culinary classroom.
- The study will also include the installation of a new gas range and exhaust hood adjacent to the existing gas range, with exhaust vented to the building exterior.

Dust Collection System Replacement

- The study will include evaluating options to replace the existing wood shop dust collection system with a new centralized system, as well as an alternative point-source collection system using individual dust collection units.

New Wood Shop Canopy

- The study will address the addition of a new canopy outside the existing wood shop, based on conceptual drawings provided by ASD.
- The new canopy will be required to meet all applicable code requirements, including fire sprinkler coverage, lighting, and receptacles as shown in the concept drawings.

Budget: Our understanding is that the School District is still in the process of setting a budget for this scope of work. TCF will work with our cost estimator to put together a cost estimate for the 4 primary projects outlined in this proposal.

Schedule: Below is a summary of the preliminary schedule proposed to complete the feasibility study.

- | | |
|---|-----------------|
| • Contracts: | May, 2025 |
| • Site investigation: | June, 2025 |
| • Draft findings and cost estimate issuance | June 30, 2025 |
| • Final report narrative Issuance | July 15th, 2025 |

Architectural Services: Our architectural services will include the following:

- **General Administration, Project Management, & Correspondence:** TCF will develop a project schedule and maintain communication with CSG | ESD 112 and Aberdeen School District throughout the duration of the project.
- **Site Visit & Existing Condition Documentation:** TCF will visit the existing high school to take photos, and record as-built measurements for use in creating the construction documents of all spaces that are part of this study.
- **Initial Drawing Setup and Modeling of Existing Conditions:** TCF will create a drawing background for consultants to use in their drawing documentation. TCF will help locate existing drawings and documentation of the high school, currently missing from the school's records, by searching for and, when possible, contacting previous architects and engineers.
- **Design Meetings:** TCF will lead three virtual meetings with ASD during the design phase of the project.
 - The first meeting will review the design criteria with the District and staff.
 - The second meeting will discuss potential design solutions.
 - The third meeting will be to review the cost estimate and results of the study.
- **Architectural Report and Drawing Documentation:** TCF will collaborate with our consultants and engineers to develop a design narrative, and diagrammatic drawings required to both price out the study scope as well as help the district visualize the extent of the improvements included in the study.
- **Consultant Coordination:** TCF will coordinate with our designers and engineers throughout the course of the study.
- **Cost Estimating:** TCF will work with our cost estimator to price the study documents.
- **Code Review:** TCF will do a preliminary code review to help determine the required construction type for the new canopy as well as outline other code requirements associated with the proposed improvements. TCF will meet with the City to review our assumptions included in the code review and review the project scope with them.
- **Report:** TCF will create draft and final reports outlining the findings of the study. The report will include a conceptual sketch of the new range, hood configuration, dust collection equipment as well as the basis of design narratives from the Design Team. The final report will be provided as a bookmarked PDF and/or as a printed hard copy.

TCF Consultants: The following is our proposed consultant team for the project:

- | | |
|----------------------------|----------------------|
| • Structural Engineer: | Degenkolb Engineers |
| • Mechanical Engineer: | Metrix Engineers |
| • Electrical Engineer: | Metrix Engineers |
| • Food Service Consultant: | Clevenger Associates |
| • Cost: | RC Cost Group |

Project Fees: We propose using a fixed fee contract for our architectural scope of services. As you review the proposal, if you see any services that you do not feel are needed, we will be happy to adjust.

Fee Summary: See attached spreadsheet for detailed breakdown of fees by phase and team member.

Fees Do Not Include: Fees for any agency meetings or other processes.

Contract Type: TCF will issue a short-form Prime Agreement for this project.

If you find any items that need to be adjusted, we will be happy to make modifications. We are here to support you in whatever manner makes the most sense for the School District. Please give me a call if you have any questions.

THEREFORE, BE IT RESOLVED, that the Aberdeen School District Board of Directors requests that the 180-Day requirement be waived for Miller Junior High School, Aberdeen High School and the Harbor Learning Center to allow for four (4) days of parent-teacher-student conferences (two days in October and two days in March) during the 2025-2026, 2026-2027 and 2027-2028 school years.

Parent-Teacher Conference Days Waiver

School districts can waive up to five (5) school days during the regular 180-day school year for the purpose of conducting parent-teacher conferences. The waiver can be effective for up to three years and is renewable. The district must continue to meet the annual instructional hour requirement described in [RCW 28A.150.220](#). A district seeking a waiver solely for the purpose of parent-teacher conference days may do so by providing notification to the Office of Superintendent of Public Instruction (OSPI) at least 30 days prior to implementation.

A district seeking a waiver for more than five conference days or for reasons other than parent-teacher conference days, must request a waiver through a different [180-day School Year Waiver process](#). For questions, please email at waivers@k12.wa.us.

The parent-teacher conference days waiver notification must include all of these items:

1. **Waiver Form:** 180-day Waiver Form for Parent-Teacher Conference Days (*see next page*).
2. **Adopted resolution**, approved and signed by the school district board of directors, including:
 - a. The number of school days designated for parent-teacher conferences (no more than five school days).
 - b. The school years for which the waiver will be implemented (up to three school years).
 - c. An attestation stating that the district will meet the minimum instructional hours requirement of RCW 28A.150.220(2) under the waiver plan.
3. **Proposed school year calendar(s)** indicating which days are planned for conferences.

School District Name: Aberdeen School District

Resolution # (optional): Type # Here

Date: Type Date Here

By action of the 1976 Legislature, each School District Board of Directors may delegate control, supervision, and regulation of any extracurricular activity to the WIAA and compensate such entity for services provided. The local **SCHOOL BOARD PRESIDENT** and **SUPERINTENDENT** must sign this resolution form to indicate that the School Board has approved the Public School District's or Private School's membership with the Washington Interscholastic Activities Association (WIAA) and as members, these schools will follow the WIAA Rules and Regulations.

DELEGATING AUTHORITY TO WIAA

WHEREAS Chapter 32, Laws of 1975-76, 2nd Ex. Sess. grants authority to each school district board of directors to control, supervise and regulate the conduct of interschool athletic activities and other interschool extracurricular activities of an athletic, cultural, social, or recreational nature for students in the district.

WHEREAS Chapter 32, Laws of 1975-76, 2nd Ex. Sess. authorizes school district boards of directors to delegate control, supervision and regulation of any of the aforesaid activities to any voluntary, nonprofit entity and to compensate any such entity for services provided subject to the satisfaction of certain conditions and approval by the State Board of Education.

WHEREAS the Washington Interscholastic Activities Association is a voluntary, nonprofit entity which has satisfied the conditions, expressly set forth in Chapter 32, Laws of 1975-76, 2nd Ex. Sess. and has further been approved by the State Board of Education in action taken on August 17, 1977.

WHEREAS the board of directors of directors of the following School District or School being otherwise fully informed of the rules and regulations of the Washington Interscholastic Activities Association as approved by the State Board of Education and recognizing that said rules and regulations provide for private sponsorship of post-season tournaments for extracurricular activities by WIAA, consent to abide by such rules and regulations.

NOW THEREFORE, the board of directors of the following School District or School hereby delegates to the Washington Interscholastic Activities Association the authority to control, supervise and regulate interschool activities consistent with the rules and regulations of WIAA. The Board of Directors retains the right to establish eligibility standards that meet or exceed the rules and regulations of WIAA.

INTERSCHOLASTIC OFFICIALS L&I COVERAGE STATEWIDE & MEMBERSHIP BILLING

Beginning July 1, 1988, interscholastic sports officials were covered by Washington State Labor and Industries via a common rate and payment system that eliminated game-by-game calculations and record keeping by school and/or district business offices. WIAA will guarantee payment of L&I premiums for WOA registered officials for all interscholastic activities under WIAA's jurisdiction and will assess WIAA member schools based on tiered billing rates at the same time service fees are billed. Officials L&I coverage is only in effect for activities in which registered WOA officials officiate, and which are authorized and offered by School Board approval and listed on the school's WIAA membership form.

Member schools will be billed in August according to the Membership Fee Structure outlined in the handbook of the upcoming school year. Labor and Industries (L&I) fees will be included on the bills sent out to each member school at that time. Per Rule 3.6.4: Member school service and Labor and Industries fees are due November 1. Schools that fail to submit service and L & I fees by December 1 will be excluded from participation in regular season contests and culminating events until fees are remitted and be assessed a \$100.00 late fee.

By signing below the School District Superintendent/Head of School, School Board President (for Public School Districts), and school board members agree to the information above for the public school district or private school listed above, on or before the date listed above.

**Central Washington University
College in the High School**

**Interlocal Agreement
2025-2026 Academic Year**

Parties

This Interlocal Agreement (hereinafter “Agreement”) has been developed between Central Washington University (“CWU”) and Aberdeen School District (“School District”) to govern their relationship in administering the College in the High School Program for the 2025-2026 academic year. It is intended to define the conditions under which the School District’s students (hereinafter “student”) may enroll in CWU courses, and to establish operational rules for enrollment in courses offered at high school sites.

Purpose

The College in the High School Program operated by CWU is intended to provide access for advanced study for qualified high school students in a manner that minimizes enrollment barriers. This Agreement refers to the College in the High School Program at high school locations where students enroll in CWU courses at high school locations. In accordance with [RCW 28A.600.287](#), students will receive college credit from CWU upon successful completion of a College in the High School course.

A. Funding and Fees

This Section A applies to College in the High School student enrollments funding and fees.

1. RCW 28A.600.287, as currently enacted or hereafter amended, defines the College in the High School program for the School District, CWU, and the student.
2. The parties to this Agreement shall maintain documentation supporting College in the High School student enrollment.
3. The State of Washington passed Senate Bill 5048 which eliminates the course fee for College in the High School. CWU will provide the Office of Financial Management the required data to collect state appropriations for the College in the High School program.

4. If School District uses CWU Testing Services, the testing fee of \$15 per exam taken by each student is automatically billed to the School District on a monthly basis. See Section F for more information about testing.

5. In the space below, the School District is to indicate who is to receive all testing invoice correspondences. It is important that this person or persons review and verify all invoice correspondences sent from CWU and remit payment to CWU in a timely manner. Payment is due within 60 days of School District's receipt of each CWU invoice. CWU reserves the right to assess interest on past-due amounts, at the rate of 1% per month, in accordance with applicable law.

6. The College in the High School Program is available during fall, winter, and spring terms.

B. Eligibility

1. High school freshman, sophomores, juniors and seniors are eligible to participate in the College in the High School program as defined by RCW 28A.600.287 and as provided by WAC 392-725.

2. Attachment A hereto lists all the School District teachers approved to offer the CWU approved courses in the College in the High School program. All participating School District teachers must follow and be in compliance with all applicable CWU requirements and policies, including but not limited to those listed in section H2 and H3 of this Agreement and the Instructor and Partner Handbooks, available at <https://www.cwu.edu/academics/specialized-programs/college-high-school/>

C. Credits

1. In accordance with RCW 28A.600.287(6), School District must grant high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the School District, the district superintendent shall determine how many credits to award for the course. The determination shall be made in writing before the student enrolls in the course. The credits shall be applied toward graduation requirements. Evidence of successful completion of each program course shall be included in the student's secondary school credits and transcript.

2. In accordance with RCW 28A.600.287(7), CWU must grant college credit to a student enrolled in a program course if the student successfully completes the course. The college credit shall be applied toward general education or major requirements. Evidence of successful completion of each program course must be included in the student's college transcript.

3. The School District shall establish on a course-by-course basis the amount of high school required or elective credit, or combination thereof, that shall be awarded for each CWU course successfully completed by the student based upon the conversion rate set forth in WAC 180-51-050; one high school credit (Carnegie Unit) is the equivalent of five university quarter credits of course work that is generally designated 101 level or above by CWU.
4. Pursuant to WAC 392-725-200(3), within five School District business days of a student's request for confirmation of credit, the School District superintendent or other designated School District representative shall confirm in writing the amount of high school required or elective credit, or combination thereof, which shall be awarded upon successful completion of the courses.
5. Upon confirmation by CWU of a student's successful completion of College in the High School Program courses, the School District shall record on the student's secondary school records and transcript the high school credit previously confirmed under WAC 392-725-200 together with a notation that the courses were taken at an institution of higher education.

D. Equity/Accommodations

1. Any ADA accommodations made for disabled students will be the obligation of the School District.
2. For students under an Individualized Education Program (IEP) that provides for participation in College in the High School program, the School District which establishes the IEP will be responsible for ensuring compliance with the IEP.

E. Student Behavior

1. The School District and CWU shall independently have and exercise jurisdiction over academic and disciplinary matters involving a student's enrollment and participation in courses, and the receipt of services and benefits from the School District or CWU.
2. Student conduct will be governed by the high school's policies and expectations as it pertains to the student's physical actions and presence in the classroom and in the school during the College in the High School course offered at the high school class period. The CWU academic integrity policy and course syllabus will govern the student's academic performance, expectations, and standards. Please refer to: <https://www.cwu.edu/student-life/student-support/student-rights/>

F. Testing

1. School District has the option of utilizing CWU Testing Services to satisfy placement requirements into College in the High School program courses.
2. CWU will waive all Accuplacer Next-Generation testing fees for School District except for the English exam. The English exam is not included in this waiver because CWU has a free self-directed placement that is used to meet the course prerequisite for English 101. CWU will invoice School District monthly for testing services at the rate of \$15 per English exam taken.

G. CWU Responsibilities for College in the High School Program

CWU will:

1. Offer authorized and approved CWU courses at high school locations, taught by School District teachers who have gone through the CWU application process and been approved by the appropriate CWU faculty liaison, CWU department chair, and CWU college dean or associate dean.
2. Determine final teacher appointment and eligibility for each course. Approved School District's teachers and courses are identified in Attachment A.
3. Provide access to the online registration system according to the established deadlines for participating students to enroll in university credit options. Appropriate placement testing scores may be required. (Please see registrar catalog (<https://www.cwu.edu/academics/academic-resources/course-catalog.php>) for official requirements for all courses) Students will be admitted as non-degree seeking, non-matriculated students.
4. Provide clear documentation of academic expectations for students enrolled in each approved course offered at the high school location. The documentation will provide guidelines, as delineated by the course syllabus, for College in the High School students taking college courses.
5. Send enrollment reports via email to each school district personnel listed in section J.5. to be regularly reviewed for accuracy. If there are issues with the report(s), the school is responsible for contacting and working with CWU to resolve any purported issues.
6. Coordinate team/individual meetings with School District teacher to ensure adherence to syllabi and expected rate of student progress. Meetings will be coordinated, at CWU or the high school campus, as necessary.
7. Depending on program/accreditation requirements, conduct observation of each School District teacher at least once per year and provide feedback on the effectiveness of the classroom experience to the School District teacher and the designated high school official.
8. Provide recommendations to remedy any inadequate performance issues to the designated School District official within 60 days of classroom observation.
9. Remove from the program any instructors who have failed to comply with College in the High School policies or procedures. Noncompliance issues will be handled in consultation with the School District.
10. Arrange to have each CWU approved instructor evaluated using the CWU Student Evaluation of Instruction (SEOI).
11. Solicit input from CWU approved instructors as appropriate, for development of course final exam.
12. Provide each student the opportunity to visit the CWU campus upon mutual agreement between the School District and CWU.

13. Provide each eligible student with a CWU student ID card if requested.
14. Conduct ongoing research in accordance with WAC 392-725-160 for the benefit of the program and its participants.
15. Provide access to an advisor who can talk about the benefits and implications of taking college courses.
16. In conjunction with the high school, provide students enrolled in CWU classes with suitable access to learning resources and student support services.
17. Inform School Districts of required materials including, but not limited to, textbooks for each college in the high school course. School District will be responsible for purchasing and replacing any required textbooks. See attachment for list of required textbooks if applicable.
18. Pay \$200.00 to each School District's attendee if they attended for the entirety of the required Summer Institute training. An attendee is eligible to receive \$200.00 for attending more than one Summer Institute only if they are approved for more than one discipline within the College in the High School program. Attendees must follow the direction provided to them by CWU in order to receive payment.
19. Send a one-time administrative reimbursement to the School District at the end of the academic year, based on the following:
 - a) CWU recognizes that some of the duties connected to this program can require more or less work depending on the number of students (i.e. the registration process, grading, etc.). The administrative reimbursement is broken down by class size to reflect that additional work. Because additional periods of the same course do not require any extra team meetings or training time the additional reimbursement is meant to reflect further work done by teachers, administrators, support staff, etc. (i.e. the registration process, grading, etc.).
 - b) The administrative reimbursement will be paid in the amount of \$35 per student, up to a maximum of 20 students per class period. CWU will collect the class period data provided by the high schools from the online registration system, Canusia, to determine the reimbursement.
 - c) School District must be current with all invoice payments to CWU and, when prompted by CWU, provide the Washington State Invoice Voucher form A-19. The administrative reimbursement cannot be processed if this item is not provided to CWU and/or the School District is not current with payment(s). In the space below, the School District is to indicate who is to receive all administrative reimbursement correspondence from CWU:

H. School District Responsibilities for College in the High School Program

School District will:

1. Supervise and evaluate School District teachers per the School District collective bargaining agreement.
- 2*. Ensure each CWU approved School District teacher completes or provides the following for each approved course:
 - a) Provide a professional and prepared classroom environment.
 - b) Submit course syllabus to CWU for approval.
 - c) Provide each enrolled CWU student with the approved CWU syllabus at the start of the term.
 - d) Attend individual/team meetings as designated or requested by CWU.
 - e) Attend yearly summer institute training session in accordance with CWU policy.
 - a. New teachers, both brand new to teaching and new to a discipline, who have gone through the CWU application process and have been approved by CWU must attend a Summer Institute training prior to their first time offering a CWU course.
 - b. CWU approved returning teachers who successfully complete the initial training are subsequently required to attend a summer institute training at least every three years (i.e.. if a teacher attends in 2025, at minimum, they will have to attend in summer 2028 to remain eligible to teach CWU classes).Approved CWU teachers are encouraged to attend the summer institute annually.

- c. Teachers approved in multiple disciplines must be in compliance with the required training for each specific discipline in order to offer CWU courses in the respective disciplines.
- f) Allow CWU to conduct classroom observation, either in person or online/remote, at least once per year for each approved course.
- g) Coordinate completion of Student Evaluation of Instruction (SEOI) in accordance with the CWU student evaluation process and within CWU's established deadlines.
- h) Provide input to CWU faculty on the development of the course final.
- i) Ensure students complete course requirements and learning outcomes as indicated in the course syllabi.
- j) Assign grades for CWU students who are enrolled in approved courses in accordance with the university established deadlines.
- k) Check their class rosters in both their MyCWU and CIHS web portals to verify enrollment and notify CWU of any discrepancies.
- l) Notify parents of required parent consent via school's internal notification system

*Instructors found to be in non-compliance with section H.2. will be removed from the program.

3. In the event an approved instructor is unable to continue teaching their CWU course for a period of 10 consecutive instructional days (an instructional day is defined as a day in which classes are officially being held at the school and count toward the state mandated 180 days of instruction as prescribed in RCW 28A.150.220), the School District must notify CWU. If the instructor is unable to continue, only an approved instructor, who has gone through the CWU application process, attended the required training, and been approved by CWU, may continue teaching the course. If the original approved instructor is unable to continue teaching their CWU course, after missing 10 consecutive instructional days, and no other School District teacher has been approved to offer that CWU course, the course will be cancelled, all students will be dropped from their CWU class, and any charges assessed will be reversed.

4. Respond to recommendations regarding inadequate performance as identified by CWU in accordance with the School District collective bargaining agreement.

5. For mixed enrollment classes, maintain documentation that differentiates instruction and class requirements between high school class and approved CWU course.

6. Ensure that any course materials required by CWU including, but not limited to, textbooks for each College in the High School course, are purchased, maintained, and replaced as necessary, either by the students or the School District.

7. Remit payment within 60 days of receipt of invoice or invoice date, whichever is later, to:

Central Washington University
Cashiers Office
400 E University Way
Ellensburg, WA 98926-7490

8. In conjunction with CWU, provide students enrolled in CWU classes with suitable access to learning resources and student support services.

9. Student teachers can be involved with a CWU course under the direct supervision of an approved and trained CWU College in the High School teacher. Student teachers may co-teach, act in a support role and teach under the direct supervision of the CWU approved teacher. Here, direct supervision means the CWU teacher is always in the room when the student teacher is teaching or supporting the class. In courses involving a student teacher, the CWU teacher remains the primary instructor for the course and is responsible for teaching the CWU curriculum, evaluating students, and assigning all CWU grades. If/when a student teacher is teaching, the CWU teacher must ensure they are teaching the CWU curriculum in the correct manner and following the CWU syllabus. The student teacher will not administer or grade any CWU assessments. Student teachers will not be able to establish a MyCWU or access MyCWU-protected information or resources. Teachers with a student teacher assisting in their CWU course should notify their faculty liaison. Additionally, when scheduling the class observation, teachers should schedule the visit for when they are teaching as opposed to the student teacher as the class observation needs to be of the course's primary and CWU approved instructor. Student teachers are not permitted to teach without the CWU approved instructor present in the classroom.

10. Please indicate what term system is/are your high school(s) using (when do you put official grades on a student's high school transcripts)?

High School Name(s)	Term Type (Semester, Trimester)

11. Assist with student registration online in accordance with due dates and deadlines

- a) This includes but is not limited to identifying reviewers for the high school(s). A reviewer reviews each registration and approves or denies a student registration based on several factors including meeting the prerequisite, signed up for the correct class, etc. The reviewer also provides data necessary to process enrollments including class period, test scores, test score sheets, high school GPA range, grade level, and, if needed, a high school transcript or a different colleges transcript. The work conducted by a reviewer is acknowledged in section G5 of this agreement.

- b) It is recommended to have at least one reviewer for every 250 students participating in the College in the High School program. Please plan accordingly at the high school level.

12. Ensure the school district personnel listed in section J.5. regularly review the enrollment report provided by CWU for accuracy. If there are issues with the report(s), the school is responsible for contacting and working with CWU to resolve any purported issues.

13. Provide any data required by [RCW 28A.600.287](#) (as amended by [Senate Bill 5048](#) in 2023) to CWU, such as but not limited to: free and reduced lunch recipients and award of high school credit.

14. According to [RCW 28A.600.287](#) (as amended by [Senate Bill 5048](#) in 2023) , a high school that offers a college in the high school program must include the following information about program courses in a notification to parents and guardians of students in grades eight through twelve, including by email and in beginning of the year packets, and in the high school catalogue or equivalent:

- a) There is no fee for students to enroll in a program course for high school credit or for students to enroll in a program course for both high school and college credit.
- b) A notification that enrolling in a program course for college credit automatically starts an official college transcript with the institution of higher education offering the program course regardless of student performance in the program course, and that college credit earned upon successful completion of a program course may count only as elective credit if transferred to another institution of higher education.

15. Coordinate with internal information technology or similar department that works with emails to ensure CWU emails for registration and other important communications are not blocked at the student, teacher, and administration levels. This can be done by [adding @cwu.edu](#), [@cihs.cwu.edu](#) and [@docusign.net](#) to the School Districts approved domains.

- 4) Maintain all responsibilities as the resident district, including providing a free appropriate public education (FAPE). Extended school year services and assistive technology devices, as defined by the student's IEP, will be the responsibility of the District. Maintain transcripts of high school students and award diplomas when appropriate.
- 5) Ensure Olympic Academy receives all pertinent documents (e.g. IEP, evaluation, vaccination record, testing scores, transcripts, etc.).
- 6) Provide transportation of students to and from Olympic Academy and assume full responsibility for all costs associated with such transportation.
- 7) Pay ESD 113 in accordance with Section VII, the service cost required to support the District's student(s) for annual placement and services within Olympic Academy. If a student requires more intensive support or staffing beyond the basic Olympic Academy staffing (e.g. 2:1 assistant support, nursing services, specialty teacher services, etc.), the additional cost will be negotiated between Olympic Academy and the District. The additional cost will be described on Appendix A.

IV. GENERAL RESPONSIBILITIES OF THE PARTIES

ESD 113 and the District shall:

- 1) Conduct background checks on any officials, employees, volunteers or agents who may perform obligations under this Agreement and who may have contact with children in a public school or ESD 113 facility. No party/person who has plead guilty to, or been convicted of, a crime specified in RCW 28A.400.322 or WAC 170-06-0120 will be allowed to do work under this Agreement if they may have contact with children in a public school or ESD 113 facility. Failure to comply with this provision is grounds for immediate termination.
- 2) Comply with federal, state, and local laws in performing obligations under this Agreement, and any policies or regulations adopted by the Parties' boards of directors. ESD 113 or Olympic Academy operating policies will override home district policies when appropriate. If ESD 113 or Olympic Academy does not have a policy guiding action in a situation, administration will default to home district policy if it is available.
- 3) Obtain and maintain general liability coverage, including contractual liability coverage, and automobile coverage in an amount not less than \$1,000,000 per occurrence. The Parties shall, upon request, provide each other suitable evidence of coverage required.
- 4) Obtain any licenses or permits that are required to perform their respective obligations under the Agreement.
- 5) Maintain books, records, documents, data and other materials compiled and related to the performance of obligations under this Agreement for the time period required under law or any applicable grant agreement. Both Parties agree to provide access to and copies of any such books, records, documents, data or other materials to the other party upon request.
- 6) Take all necessary steps to protect the confidentiality of educational records and shall not disclose such records or the information obtained from having access to such records without obtaining the consent of the other party and the parent of the student whom the record pertains to.

V. TERM OF THE CONTRACT

The term of the Agreement is one school year, from **SEPTEMBER 1, 2025**, through **JUNE 30, 2026**. Nonrenewal notification is due to ESD 113 by May 1, 2026.

- 1) **Renewal Term.** This Agreement shall automatically be renewed for an additional one-year term (the Renewal Term) unless either party to the Agreement notifies the other party in writing prior to May 1st that it is not renewing the Agreement. The party that fails to provide written notice before May 1st shall be required to pay damages in accordance with Section VI. Changes to services ESD 113 is obligated to provide or fees the District is obligated to pay shall be addressed as Amendments to this Agreement.
- 2) **Agreement Termination.** This Agreement may be terminated by mutual agreement by the Parties.

Pursuant to Section II (4) of this Agreement, this Agreement may be terminated by ESD 113 with 30 calendar days written notice. When termination is initiated by the ESD 113, the ESD 113 shall work with the District to facilitate an orderly transition of the student back to the District or to another school district or non-public agency school, and will adjust any billing to the District to reflect prorated attendance by the student at issue.

- 3) **Damages Paid by the District for Services Provided by Certificated Employees.** If the District fails to notify ESD 113 that it is terminating this Agreement prior to the Renewal Term of May 1st and the Agreement is for services provided by ESD 113 employees who have a certificated contract with ESD 113, there will be material adverse financial consequences to ESD 113. The adverse financial consequences, or damages, will likely exceed the fee the District would have paid for the Renewal Term. If the District terminates the Agreement without giving notice prior to May 1st and ESD 113 has employed certificated staff to provide services under the Agreement, the District agrees to pay ESD 113 the amount owed for the Renewal Term as damages. The damages the District is agreeing to pay represent a reasonable reflection and estimate of the damages ESD 113 shall incur.
- 4) **Damages Paid by the District for Services Provided by Non-Certificated Employees.** If the District fails to notify ESD 113 that it is terminating this Agreement prior to the Renewal Term of May 1st and the Agreement is for services that are provided by ESD 113 employees who do not have a certificated contract with ESD 113, the damages ESD 113 shall incur may be less than the fee the District would have paid to receive the services for the Renewal Term. In that case, the District shall pay ESD 113 for damages ESD 113 incurs as a direct or indirect result of not being notified by May 1st that the District is terminating the Agreement.
- 5) **Damages Paid by ESD 113.** If ESD 113 fails to notify the District that it is terminating this Agreement prior to the Renewal Term of May 1st, ESD 113 shall pay the District the costs the District incurs up to 30 days to obtain the services ESD 113 was obligated to provide from a third party, but only to the extent the costs exceed what the District would have paid ESD 113 and the fees the District is paying the third party must be based on reasonable market rates.
- 6) **Payment.** The damages that are owed under this section shall be paid in full within thirty (30) days of receipt of an invoice. This requirement shall survive termination of the Agreement.

VI. PAYMENT PROVISIONS

- 1) For satisfactory performance of the work as set forth in the "RESPONSIBILITY OF ESD 113", District agrees to pay the ESD 113 the amount as indicated on Appendix A.
- 2) ESD 113 shall invoice the District monthly, September through June. Invoices shall be paid within thirty (30) days of receipt.

- 3) Monthly fees will be prorated for the start month only. The full rate for services through the end of the term will be paid without proration (**equal monthly invoice amounts September through June**). The prorated fees (for starting month) shall be calculated based on the number of days of student attendance divided by eighteen (18), the average attendance days in a month, multiplied by the appropriate services rate.
- 4) All personal property and assets acquired or received in connection with the obligations under this Agreement, including but not limited to equipment, materials, supplies and funds, shall be owned and retained by ESD 113, both during the term of this Agreement and after the Agreement is terminated, partially or completely. Real property shall not be acquired.

VII. SUSPENSION AND DEBARMENT

Per the requirements of Executive Order 12549, ESD 113 and the District certify that neither they, nor their officers, directors, general managers or persons having primary management or supervisory responsibilities, are on the Excluded Parties List Report (web address: <http://www.sam.gov>) and that they are not presently debarred, suspended, proposed for debarment, or declared ineligible or voluntarily excluded for the award of contracts by any Federal governmental agency or department. ESD 113 and the District shall provide immediate written notice to each other if, at any time during the term of this Agreement, including any renewals hereof, they learn that this certification has become erroneous by reason of changed circumstances.

IX. INDEMNIFICATION

Both Parties agree to protect, defend, indemnify and hold the other party, and its directors, officers, agents and employees harmless from any and all claims and losses that are caused by the indemnifying party, or the indemnifying party's directors', officers', agents' or employees' negligent or malicious acts or omissions.

X. DISPUTES

Notice of potential disputes between the District and ESD 113 on the interpretation of the content of this Agreement or any appendices must be served in writing to the other party to this Agreement. There shall be an attempt to resolve the dispute, but if resolution is not possible, each party shall submit their position and supporting documentation to the ESD 113 Board of Directors, whose decision shall be final.

XI. VERBAL AGREEMENTS

This written agreement constitutes the mutual agreement of District and ESD 113 in whole. No alteration or variation of the terms of this agreement and no oral understandings or agreements not incorporated herein, shall be binding unless such amendments have been mutually agreed to in writing.

XII. APPLICABLE LAW

This agreement shall be governed by the laws of the State of Washington. Venue for any legal action shall be proper only in Thurston County, Washington.

District shall comply, where applicable, with the District Work Hours and Safety Standards Act and any other applicable federal and state statutes, rules and regulations.

This Agreement is entered into in accordance with the authority granted in the Interlocal Cooperation Act, RCW 39.34.030 and provisions that authorize educational service districts and school districts to contract with each other for services, specifically 28A.310.010, 28A.310.180, 28A.310.200, 28A.320.080 and 28A.320.035.

A separate legal entity is not being created. ESD 113 shall administer the joint undertaking described in the terms of this Agreement.

SPECIAL SERVICES CONTRACT

In consideration of the promises and conditions contained herein, Aberdeen School District (the "District") and Pioneer Healthcare Services (the "Provider") mutually agree as follows:

1. **Services.** The District hereby contracts with the Provider to perform the services identified in paragraph 2 hereof.

2. **Description of Services:**

(a) Provide Occupational Therapy Services for the 2025-26 school year and/or extended school year as needed.

(b) Such other related services as the District may request. Said services shall be provided in a manner consistent with the accepted practices for other similar services, performed to the District's satisfaction, within the time period prescribed by the District.

3. **Insurance.** Contracting agency or individual will maintain (at its expense), a valid policy of insurance evidencing general and professional liability coverage of not less than \$1,000,000 per occurrence covering acts or omissions and general liability which may give rise to liability for services under this Agreement. Provider shall provide a certificate of insurance evidencing such coverage upon request by the District. Provider will provide the District with assurance of this insurance coverage in writing before commencement of services under this Contract. Provider will notify the District within three (3) days in the event of cancellation or modification of such insurance. Provider's failure to maintain such insurance policies shall be grounds for the District's immediate termination of this Contract. The provisions of this paragraph shall survive the expiration or termination of this Contract for cause with respect to any event occurring prior to such expiration or termination.

4. **Certification and Licensing Requirements.** Provider warrants that all individuals providing services under this Agreement ("Service Providers") meet applicable licensing and certification requirements. Provider must obtain and provide evidence to the District of current appropriate state certification and licensure at least 30 days prior to the beginning of each school year. Providers should have or be able to obtain an NPI number.

5. **Background Checks.** Pursuant to RCW 28A. 400. 303, any Service Providers under this Contract shall be required to have successfully completed a criminal history record check through the Washington State Patrol Criminal Identification System, under RCW 43.43.830-834 and RCW 10.97.030-050, and through the Federal Bureau of Investigation prior to providing any services under this Agreement. Provider will be responsible for securing these criminal history record checks and payment of all costs for obtaining such background checks. Results of the background checks must be made available to the District prior to a Service Provider providing services to the District.

6. **Prohibited Employment.** The nature of the work performed under this Contract involves services provided to children and disabled adults. Therefore, no assigned Service Provider shall have pled guilty or been convicted of any felony crime specified under RCW 28A.400.322. Any failure to comply with this paragraph shall be grounds for immediate termination of this Contract for cause.

7. **Failure to Report.** Service Providers will inform Provider and the District of any inability to provide services no later than one (1) hour prior to reporting time. The District will notify Provider as soon as possible should any Service Provider assigned to the District fail to report to work as scheduled. Provider shall be responsible for providing substitute coverage without a lapse in service to the District for Service Providers who are absent for more than 5 consecutive days.

8. **Contemporaneous Log of Service Time.** Each Service Provider shall complete a log of the names (or initials) of the students served and the amount of time for each student. Any deviation from the amount of service time shall be noted and explained. Such log shall be submitted weekly (or monthly as agreed upon) via email to the District's Special Education Director.

9. **Record Access.** Provider and Service Providers shall be responsible for maintaining and securing any records or logs necessary to justify, support, and document the services provided under this Contract. Provider shall retain such records for not less than the period prescribed by law. All duly authorized auditors of Provider and the District shall have access to examine said records.

10. **Confidentiality.** In providing services under this Contract, Provider and Service Providers may have access to personally identifiable education records and confidential information regarding District students, parents/guardians, or staff (collectively referred to as "Confidential Information"). Provider agrees that it and its Service Providers will maintain the confidentiality of Confidential Information. The use or disclosure of any Confidential Information for any purpose not directly connected to Provider's services under this Contract is strictly prohibited except where required or authorized by law.

Provider and Service Providers agree to maintain the confidentiality of student records and provide access to the parents/guardians and students of such records in accordance with the Family Education Rights and Privacy Act (FERPA) and the Health Information Privacy and Accountability Act (HIPAA).

11. **Independent Contractor.** The Provider shall perform all duties pursuant to this Contract as an independent contractor. The District shall not control or supervise the manner in which this Contract is performed, except as expressly provided herein. Nothing in this Contract shall be construed to create a partnership, agency relationship, or employer-employee relationship between the District and Provider or its personnel. Neither party may incur debts or make commitments for the other party. Provider and its personnel shall not represent himself, herself, or itself as an employee, representative, or spokesperson for the District.

12. **Provider and Service Providers Not Employees of District.** Employees of Provider shall not be entitled to any rights or privileges of District employment. Provider assumes exclusive responsibility for any and all acts or omissions of its agents, officers, or employees. Provider will maintain direct responsibility as the employer of Service Providers for payment of wages, benefits, and other compensation, and for any applicable mandatory withholdings and contributions such as federal, state, and local income taxes, social security taxes, workers' compensation, and unemployment insurance. Provider acknowledges that the District is not withholding federal income tax or FICA (Social Security) tax from Provider's payment or paying Washington State unemployment, industrial insurance, or any other taxes on behalf of Provider or Provider's personnel. Provider shall be solely responsible for the payment of any taxes imposed by any lawful jurisdiction as a result of the performance and payment of this Contract.

13. **Quality of or Need for Services.** If the District's Special Education Director determines that the services of Provider's personnel is unable to perform or has failed to perform the services required by the District in a manner satisfactory to the District within the first sixty (60) days of service, the Director will communicate any concerns with the Provider. The Provider will work with

the District's Special Education Director to facilitate improvement. If improvement is not made in the noted time period, the District will notify Provider and such assignment will end immediately. The District's obligation to compensate for such Service Provider's services will be limited to the number of hours actually worked.

14. Orientation. Provider will cooperate with the District to provide Service Providers with an adequate and timely orientation to the assigned school(s).

15. Billing, Payment, and Accounting. Provider will submit invoices to the District's Business Office. Each invoice must identify the District purchase order number. Provider will be paid based on the rate sheet attached as Addendum A. Payment shall be made on a monthly basis after the District's Business Office receives Provider's billing statement in the form specified by the District, which statement shall include the services performed, the dates such services were rendered, and the name(s) and location(s) of the Provider's personnel performing such services. Each such billing statement must be approved before submission to the District's Business Office by the District's Special Education Director.

Invoices must be submitted one (1) time per month by the 5th of each month and payments will be made after the second school board meeting of the following month. The District will send all payments to the address printed on acceptable invoices.

Upon request, Provider shall provide to the District with an accounting of services, which shall detail the services performed on each invoice and such other information as the District may reasonably request. Upon request, Provider shall provide the District with access to the books and records related to the services of Provider for inspection, audit, and reproduction.

16. Nondiscrimination. By entering into this Contract, Provider assures the District that Provider complies with all laws and regulations pertaining to nondiscrimination. No person shall, on the grounds of race, creed, religion, color, national origin, sex, sexual orientation including gender expression or identity, age, marital status, veterans' status, disability, or use of a trained guide dog or service animal by a person with a disability, be excluded from participation in, be denied the benefits of, or be otherwise subject to discrimination under any activity performed pursuant to this Contract.

17. Indemnification and Hold Harmless. Each party ("Indemnifying Party") shall defend, indemnify, and hold harmless the other party and such other parties officers, directors, employees, agents and contractors (the "Indemnified Parties") from and against any and all liabilities, claims, losses, costs, judgments, penalties, fines, damages and expenses arising from or connected with any act or omissions of the Indemnifying Party, its officers, directors, agents, employees or contractors. Additionally, and notwithstanding the previous sentence, the District shall indemnify the Provider for all costs incurred and associated with any suits or other causes or action brought by an HCP against the District.

18. Debarment and Suspension. Provider certifies that to the best of its knowledge and belief, its principals and assigned service providers are not presently debarred, suspended, proposed for debarment, declared ineligible, or involuntarily excluded for the award of contracts by a federal government agency or department. Further, Provider certifies that it is not presently indicted for and has not within three (3) year period preceding this Contract been convicted of or had a civil judgment rendered against it for commission of performing a public transaction or contract. If it is later determined that Provider knowingly rendered an erroneous certification, in addition to any other remedies available to the District, the District may terminate this Contract for cause.

19. Contract Default. Provider's failure to provide the services as indicated in this Contract in accordance with the terms and conditions of this Contract will constitute contract default, and, after due written notification, allows the District to terminate the Agreement for cause.

When Provider fails to furnish services in accordance with the terms and conditions of this Contract and the District must purchase replacement services at a price greater than the contract price, the difference may be charged to Provider. The District may exercise this charge as a credit against invoices due Provider.

20. Termination. In addition to the District's other rights under this Agreement, the District may terminate this Agreement for cause upon seven (7) days' written notice to Provider should Provider breach any of the terms of this Agreement, in which case the District shall pay Provider for all services performed through the effective date of the termination less any costs incurred by the District resulting from the breach(es). The District may terminate this Agreement for its convenience upon sixty (60) days' written notice to Provider, in which case the District shall pay Provider for all services performed through the effective date of the termination. In the event that earmarked funding is withdrawn, reduced, or limited after the effective date of this contract but prior to completion, the District may terminate the Agreement without the required notice.

21. Compliance with Rules and Laws. Provider agrees to comply with all applicable laws, orders, rules, regulations and ordinances of governmental bodies applicable to this Contract as well as applicable District policies and procedures. All services provided will be in accordance with local, state and federal laws and regulations.

22. Severability. Each numbered clause of this Contract stands independent of all other numbered clauses. If any clause of this Contract or the application thereof to any persons or circumstances is held invalid, such invalidity shall not affect other terms, conditions, or applications which can be given effect without the invalid term, condition, or application. Should any clause be adjudged invalid, that judgment shall not invalidate the total Contract; only clauses judged invalid shall not be enforced.

23. Term. Unless terminated earlier pursuant to provisions stated herein, this Contract shall commence on **August 1, 2025 and shall terminate on July 31, 2026** or the completion of the services identified in paragraph 2 hereof, whichever should first occur. This contract may be renewed annually by the District for up to three additional years.

24. Assignment. This Agreement may not be assigned without written authorization by the other party.

25. Licenses, Permits, and Warranty. Provider warrants that it and its personnel have the requisite training, skill, and experience necessary to provide the services under this Contract and are appropriately accredited and licensed by all applicable agencies and governmental entities. Provider shall be responsible for maintaining any and all licenses, permits, or other requirements for doing business or providing services under this Contract.

26. Entire Agreement and Modification. This written Contract constitutes the entire agreement between Provider and the District. No alterations or variations of the terms of this Contract shall be effective unless reduced to writing and signed by both parties.

27. Governing Law. The terms of this Contract shall be governed by the laws of the State of Washington. In the event that a dispute arises under the terms and conditions of this Contract, the parties agree to mediate the dispute prior to taking any formal legal action. In the event that legal

action is commenced to resolve a dispute arising out of this Contract, the prevailing party shall be entitled to its reasonable costs and attorneys' fees.

Payment shall be made on a monthly basis after the District's Business Office receives Provider's billing statement in the form specified by the District, which statement shall include the services performed, the dates such services were rendered, and the name(s) and location(s) of the Provider's personnel performing such services. Each such billing statement must be approved before submission to the District's Business Office by the District's Special Education Director.

Additionally, and notwithstanding the previous sentence, the District shall indemnify the Provider for all costs incurred and associated with any suits or other causes or action brought by an HCP against the District.

18. Debarment and Suspension. Provider certifies that to the best of its knowledge and belief, its principals and assigned service providers are not presently debarred, suspended, proposed for debarment, declared ineligible, or involuntarily excluded for the award of contracts by a federal government agency or department. Further, Provider certifies that it is not presently indicted for and has not within three (3) year period preceding this Contract been convicted of or had a civil judgment rendered against it for commission of performing a public transaction or contract. When Provider fails to furnish services in accordance with the terms and conditions of this Contract and the District must purchase replacement services at a price greater than the contract price, the difference may be charged to Provider. The District may exercise this charge as a credit against invoices due Provider.

Should any clause be adjudged invalid, that judgment shall not invalidate the total Contract; only clauses judged invalid shall not be enforced.

23. Term. Unless terminated earlier pursuant to provisions stated herein, this Contract shall commence on **August 1, 2025 and shall terminate on July 31, 2026** or the completion of the services identified in paragraph 2 hereof, whichever should first occur. 2. **Description of Services:**

(a) Provide School Psychology Services, Occupational Therapy Services, Physical Therapy Services, Speech Language Pathology Services and/or Nursing Services for the 2025-26 school year and/or extended school year as needed.

(b) Such other related services as the District may request. Said services shall be provided in a manner consistent with the accepted practices for other similar services, performed to the District's satisfaction, within the time period prescribed by the District.

3. **Insurance.** Contracting agency or individual will maintain (at its expense), a valid policy of insurance evidencing general and professional liability coverage of not less than \$1,000,000 per occurrence covering acts or omissions and general liability which may give rise to liability for services under this Agreement. Provider shall provide a certificate of insurance evidencing such coverage upon request by the District. Provider will provide the District with assurance of this insurance coverage in writing before commencement of services under this Contract. Provider will notify the District within three (3) days in the event of cancellation or modification of such insurance. Provider's failure to maintain such insurance policies shall be grounds for the District's immediate termination of this Contract. The provisions of this paragraph shall survive the expiration or termination of this Contract for cause with respect to any event occurring prior to such expiration or termination.

4. **Certification and Licensing Requirements.** Provider warrants that all individuals providing services under this Agreement ("Service Providers") meet applicable licensing and certification requirements. Provider must obtain and provide evidence to the District of current appropriate state certification and licensure at least 30 days prior to the beginning of each school year. Providers should have or be able to obtain an NPI number.

5. **Background Checks.** Pursuant to RCW 28A. 400. 303, any Service Providers under this Contract shall be required to have successfully completed a criminal history record check through the Washington State Patrol Criminal Identification System, under RCW 43.43.830-834 and RCW 10.97.030-050, and through the Federal Bureau of Investigation prior to providing any services under this Agreement. Provider will be responsible for securing these criminal history record checks and payment of all costs for obtaining such background checks. Results of the background checks must be made available to the District prior to a Service Provider providing services to the District.

6. **Prohibited Employment.** The nature of the work performed under this Contract involves services provided to children and disabled adults. Therefore, no assigned Service Provider shall have pled guilty or been convicted of any felony crime specified under RCW 28A.400.322. Any failure to comply with this paragraph shall be grounds for immediate termination of this Contract for cause.

7. **Failure to Report.** Service Providers will inform Provider and the District of any inability to provide services no later than one (1) hour prior to reporting time. The District will notify Provider as soon as possible should any Service Provider assigned to the District fail to report to work as scheduled. Provider shall be responsible for providing substitute coverage without a lapse in service to the District for Service Providers who are absent for more than 5 consecutive days.

8. **Contemporaneous Log of Service Time.** Each Service Provider shall complete a log of the names (or initials) of the students served and the amount of time for each student. Any deviation from the amount of service time shall be noted and explained. Such log shall be submitted weekly (or monthly as agreed upon) via email to the District's Special Education Director.

9. **Record Access.** Provider and Service Providers shall be responsible for maintaining and securing any records or logs necessary to justify, support, and document the services provided under this Contract. Provider shall retain such records for not less than the period prescribed by law. All duly authorized auditors of Provider and the District shall have access to examine said records.

10. **Confidentiality.** In providing services under this Contract, Provider and Service Providers may have access to personally identifiable education records and confidential information regarding District students, parents/guardians, or staff (collectively referred to as "Confidential Information"). The use or disclosure of any Confidential Information for any purpose not directly connected to Provider's services under this Contract is strictly prohibited except where required or authorized by law.

Provider and Service Providers agree to maintain the confidentiality of student records and provide access to the parents/guardians and students of such records in accordance with the Family Education Rights and Privacy Act (FERPA) and the Health Information Privacy and Accountability Act (HIPAA).

11. **Independent Contractor.** The Provider shall perform all duties pursuant to this Contract as an independent contractor. The District shall not control or supervise the manner in which this Contract is performed, except as expressly provided herein. Important Notes

Terms of Sale

This Quote will, if Customer issues a purchase order for the quoted items that is accepted by Supplier, constitute a contract between the entity issuing this Quote ("Supplier") and the entity to whom this Quote was issued ("Customer"). Unless otherwise stated herein, pricing is valid for thirty days from the date of this Quote. All products, pricing, and other information is based on the latest information available and is subject to change for any reason, including but not limited to tariffs imposed by government authorities. Supplier reserves the right to cancel this Quote and Customer purchase orders arising from pricing errors. Taxes and/or freight charges listed on this Quote are only estimates. The final amounts shall be stated on the relevant invoice. Additional freight charges will be applied if Customer requests expedited shipping. Please indicate any tax exemption status on your purchase order and send your tax exemption certificate to Tax_Department@dell.com or ARSalesTax@emc.com, as applicable.

Governing Terms: This Quote is subject to: (a) a separate written agreement between Customer or Customer's affiliate and Supplier or a Supplier's affiliate to the extent that it expressly applies to the products and/or services in this Quote or, to the extent there is no such agreement, to the applicable set of Dell's Terms of Sale (available at www.dell.com/terms or www.dell.com/oemterms), or for cloud/as-a-Service offerings, the applicable cloud terms of service (identified on the Offer Specific Terms referenced below); and (b) the terms referenced herein (collectively, the "Governing Terms"). Different Governing Terms may apply to different products and services on this Quote. The Governing Terms apply to the exclusion of all terms and conditions incorporated in or referred to in any documentation submitted by Customer to Supplier.

Supplier Software Licenses and Services Descriptions: Customer's use of any Supplier software is subject to the license terms accompanying the software, or in the absence of accompanying terms, the applicable terms posted on www.Dell.com/eula. Descriptions and terms for Supplier-branded standard services are stated at www.dell.com/servicecontracts/global or for certain infrastructure products at www.dell.com/en-us/customer-services/product-warranty-and-service-descriptions.htm.

Offer-Specific, Third Party and Program Specific Terms: Customer's use of third-party software is subject to the license terms that accompany the software. Certain Supplier-branded and third-party products and services listed on this Quote are subject to additional, specific terms stated on www.dell.com/offerspecificterms ("Offer Specific Terms").

In case of Resale only: Should Customer procure any products or services for resale, whether on standalone basis or as part of a solution, Customer shall include the applicable software license terms, services terms, and/or offer-specific terms in a written agreement with the end-user and provide written evidence of doing so upon receipt of request from Supplier.

In case of Financing only: If Customer intends to enter into a financing arrangement ("Financing Agreement") for the products and/or services on this Quote with Dell Financial Services LLC or other funding source pre-approved by Supplier ("FS"), Customer may issue its purchase order to Supplier or to FS. If issued to FS, Supplier will fulfill and invoice FS upon confirmation that: (a) FS intends to enter into a Financing Agreement with Customer for this order; and (b) FS agrees to procure these items from Supplier. Notwithstanding the Financing Agreement, Customer's use (and Customer's resale of and the end-user's use) of these items in the order is subject to the applicable governing agreement between Customer and Supplier, except that title shall transfer from Supplier to FS instead of to Customer. If FS notifies Supplier after shipment that Customer is no longer pursuing a Financing Agreement for these items, or if Customer fails to enter into such Financing Agreement within 120 days after shipment by Supplier, Customer shall promptly pay the Supplier invoice amounts directly to Supplier.

Customer represents that this transaction does not involve: (a) use of U.S. Government funds; (b) use by or resale to the U.S. Government; or (c) maintenance and support of the product(s) listed in this document within classified spaces. Customer further represents that this transaction does not require Supplier's compliance with any statute, regulation or information technology standard applicable to a U.S. Government procurement.

For certain products shipped to end users in California, a State Environmental Fee will be applied to Customer's invoice. Supplier encourages customers to dispose of electronic equipment properly.
