

Spring 2025 Chugim Class Descriptions

Drama games to develop social skills with Eti (Hausner Staff) In this fun and laughter filled class, students enjoy drama games, and create skits based on real social situations. They collaborate with others, learn perspective taking, how to make friends, creative problem solving, and build their confidence.

Soccer Futzal Hebrew Immersion Soccer Enrichment in Hebrew and English! This class will allow students to learn as well as improve their language skills while participating in soccer. As an immersion class it is appropriate for all levels of soccer and Hebrew.

Visual Arts Manga with Nexple- We will be drawing and coloring all things ANIME! Artists will learn to draw their own anime style characters ranging from easy to challenging – this is a great way to perfect those skills and learn new manga tricks. Students will complete multiple pieces of artwork like customized faces, animals, sugoi action and more ARTastic drawings.

After School Tennis with Euro school tennis Children learn the basics of tennis after school on campus. Tennis equips students with great skills that carry over to other sports and even into the classroom: Students increase their level of physical endurance and coordination, gain mental strength through enhanced concentration and self-discipline, and learn the value of integrity and honesty. All equipment is provided.

Big Mike's Creative Play Designed for the development of children's social and gross motor skills. The class will provide children with opportunities to develop their play skills in a fun and motivating way while building confidence and self-esteem. Students will join Big Mike for an afternoon of fun games, organized play, and teamwork! *Note: This class ends at 5:00pm.*

Animal Adventures with Grasshopper Kids -Roar into the wild in a series designed for young anthropologists to embark on an exciting adventure into the animal kingdom! Students will dive into the fascinating world of animals, learning about diverse habitats, intricate ecosystems, and the thrilling food chain. Each session is packed with animal-themed crafts, hands-on STEM experiments and observations, and fun-filled games that spark curiosity and creativity. Children will create their own animal masks, build miniature ecosystems, and play interactive activities that bring the wonders of wildlife to life.

Build A Bot with Nexplore Students practice their engineering skills to create a series of robot models each operating with a different mechanism and unique purpose.

Creative Canvas with Claire Students will join Claire for an afternoon of fun and creative art. Students will learn fun and new techniques and enjoy bringing their creations home.

Soccer with Euro School Around the world, soccer is considered one of the most popular sports because it's literally a sport for everyone! In fact, it's been called the universal language of sport, and it helps break down boundaries and unify people across the planet! Our new after-school soccer program is the perfect way to help your child connect with this powerful sport. All equipment provided.

Junior Chef with Grasshopper Kids- Where little chefs embark on a delicious adventure in the kitchen! This engaging early elementary cooking series encourages kids to roll up their sleeves and dive into the world of culinary creativity. Students will discover the joy of simple chopping and food preparation, all while learning about kitchen safety and healthy options in a fun and supportive environment. There will be some emphasis on Asian cuisine! Each session is packed with fresh ingredients, savory aromas, and tons of fun as children explore nutrition through hands-on activities and delightful recipes. By crafting their own dishes, kids will build confidence, spark their imaginations, and develop essential life skills along the way. Who knew learning could be this tasty?

Eco Explorers with Vineyard App Camp Children will immerse themselves in a hands-on adventure, sowing seeds, fostering an appreciation for the environment, and witnessing their understanding of plants and nature flourish.

Cooking around the world with VAC Discover the joy of cooking in our exciting After-School Cooking class! Guided by our experienced instructors, students will explore a diverse range of recipes, learn about food safety, nutrition, and food sourcing, all while fostering creativity and teamwork in a fun and supportive environment. Join us as we embark on a flavorful journey filled with tasty delights and valuable life skills!

Creative Arts Series with Grasshopper Kids- Dive into a world bursting with imagination and color with the Creative Arts Series! This multi-week adventure invites kids to explore various forms of visual and performing arts, from painting and sculpture to theater and music. Each session is an opportunity for budding artists to express themselves, discover new skills, and ignite their creative spark. Children will be encouraged to dream big as they experiment with different materials and techniques.

This hands-on, interactive series nurtures creativity, boosts confidence, and develops fine motor skills in a fun and collaborative environment. By the end of Creative Arts Series, kids will not just have created masterpieces but also cherished memories and friendships!

Jewelry Making with Electivity Kids- Unleash your creativity with our comprehensive jewelry-making program, where you'll learn the art of beading, wirework, and polymer clay earring and bead-making to craft stunning pieces for yourself, family and friends. From elegant earrings to colorful bracelets, dazzling necklaces to charming hair-clips, the possibilities are endless! Perfect for craft-loving children, our program not only hones their fine motor skills but also nurtures creativity, cognitive abilities, communication skills, and more. Join us in sparking imagination and crafting unforgettable treasures together!

STEM Education with Sphero & MicroBits with Electivity Kids - Students will use remarkably cool, programmable robots to create and invent through coding, science, music, and mechanics. Creativity inspired real life projects and self-expression will make for an amazing learning experience.

Chess with Bay Area Chess The game of chess, a healthy academic game designed to improve patience, planning and decision- making habits. Examining the board before moving is similar to evaluating your alternatives before making any life decision - so the game of chess is really about preparing for life itself! Students will also learn the value of losing and learning from your mistakes and we emphasize good sportsmanship and respect towards others.

Build a City with Kidizens- children take on a highly experiential civic leadership journey to learn 21st century real-life skills and strategies by building, managing and governing LEGO cities. They learn to become responsible citizens by developing social emotional skills, problem solving and critical thinking skills through fun, immersive role-play as city council members in a highly collaborative and engaging learning environment.

Basketball and Multi Sports Program with Coach Issaih and Bald Eagle Sports Camp- Children will explore sports such as soccer, basketball, field games and more, rotating through activities to keep them excited and energized. Our coaches emphasize the importance of good sportsmanship, active play, and confidence-building while ensuring every child feels included and supported. This program offers the perfect opportunity for your little one to stay active, make friends, and discover their love for movement—all while developing essential motor and social skills. Let's play, learn, and grow together!
