

# TULSA PUBLIC SCHOOLS

## Charter Annual Board Report

## Our Goals

**Compliance:** The state requires authorizers to present charter annual reports in an open meeting to the authorizing board.

**Transparency:** Share performance of Tulsa Public Schools' authorized charter schools with the Tulsa Public Schools board and the public.

**Alignment:** Provide context for authorizing, charter annual reporting, and the timing of the reports.

## Role of the Authorizer

1. **Maintain high standards** for schools by **monitoring** charters that, over time, meet the **performance standards** and targets on a range of measures and metrics set forth in their charter contracts.
2. **Uphold school autonomy** by **providing oversight** and assuming responsibility for **holding schools accountable for outcomes** rather than processes and inputs. Authorizers honor, preserve, and where appropriate, promote creative use of core autonomies crucial to school success such as governing board independence, personnel, school vision and culture, and instructional programming and design.
3. **Protect student and public interests** by making the well-being and interests of students the fundamental value informing all authorizer actions and decisions and holding schools accountable for fulfilling fundamental public education obligations to all students and the public.

## Performance Framework At-A-Glance

### ACADEMIC DOMAIN

The Academic Domain calculates a school's 1-100 point score based on growth and proficiency on NWEA MAP, ACT, and school climate measures. Based on this score, the school is placed in a tier.

**Tier 1:** 75-100 points  
Performing within the top 25% of TPS schools.

**Tier 2:** 33-74.9 points  
Performing in the mid-range of TPS schools.

**Tier 3:** 0-32.9 points  
Performing in the bottom third of TPS schools.

### FINANCIAL & ORGANIZATIONAL DOMAINS

Evaluation in these important domains includes the financial audit, accreditation, and compliance with our charter contract, and state and federal laws. Results are folded into the tiered assessment giving us a picture of school performance.

### ANNUAL REPORT

The annual tier rating provides a comprehensive picture over the charter term of the school's performance, enabling a data rich view to inform the Board's authorizing decisions, such as renewal.

## Charter School Annual Results for 2023-2024

### College Bound Academy

In the middle school, CBA is working to increase math growth, but exceeded targets for proficiency. CBA has an 80% re-enrollment rate, and strong performance in the financial and organization domains.

## Charter School Annual Results for 2023-2024

### Tulsa School of Arts and Sciences

TSAS exceeded most of the NWEA MAP targets in middle school and exceeded all ACT targets in high school. TSAS' re-enrollment rate is very high. TSAS met all organizational measures and most financial measures. They did not meet the fund balance measure but have continued to show improvement year over year. Not meeting this measure caused the overall tier rating to fall.

Tulsa School of Arts and Sciences			Measures Met
