Ensure that all students across all district educational settings at the identified grade levels are included in screenings.

Data sources do not have to be the same for every student.

Review student IEP and 504 plans for supportive data and follow accommodations.

Review data for Multilingual students for rapid language acquisition and use nonverbal assessments if native language assessments are not available.

Districts must prioritize equitable identification of low income students.

Universal screening is not used to exit students from placement for services.
