FRANCIS A. MARCH ELEMENTARY SCHOOL

JANUARY

TECH TRAINING FOR STAFF

In January, we held a STEAM playground for students. Classes rotated through sessions that included Keva Planks, AR Maker, Pyramid making, Strawbees, and more.

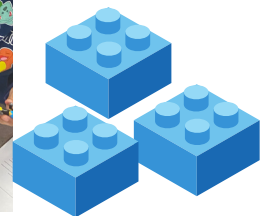

On 1/25 March staff attended a quick training session on Apple iPad apps. Three sessions were offered so that the teachers could choose what best fit the needs in their classrooms. Sessions included: Using Apple's Freeform, Keynote in the Classroom, and Creating a Winter Workbook in Pages.

TECH TUESDAY

Several classes signed up for sessions on Tech Tuesday which was Tuesday, January 30th. Mrs. Laub's class and Mrs. D'Angelo's class learned how to use Book Creator. Mrs. Gutshall's class had fun with Canva, and 3rd grade created symmetrical hearts using Keynote.

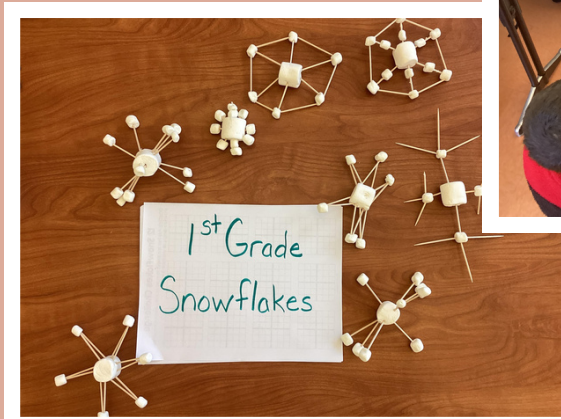

AFTER SCHOOL LEGO CLUB

GOOD LUCK TO OUR STEAM TEAM AT PETE&C!

We are super proud of our STEAM Team who will be presenting at the Pennsylvania Educational Technology Expo & Conference in February! They will be sharing March School's STEAM initiative and how it was rolled out.

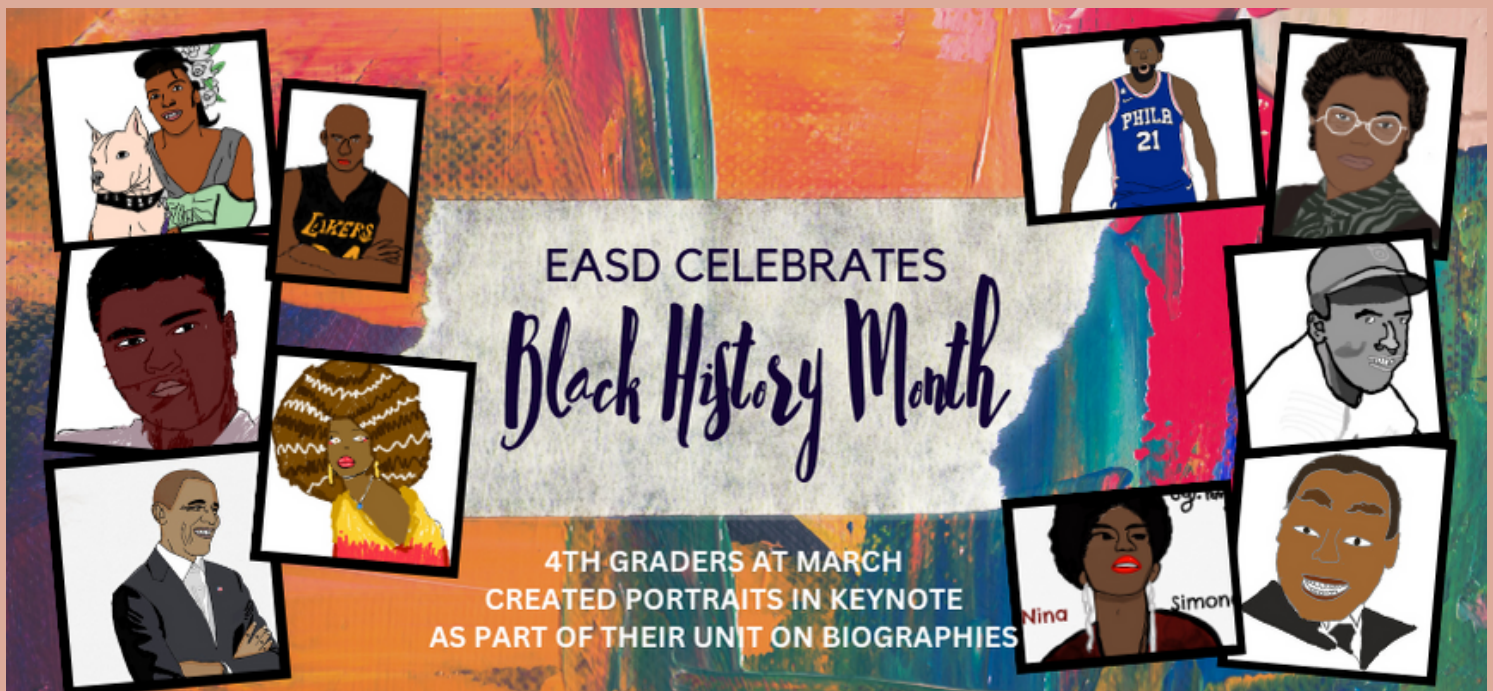

Mrs. Gutshall's
students explored
using Canva to create
an Infographic.

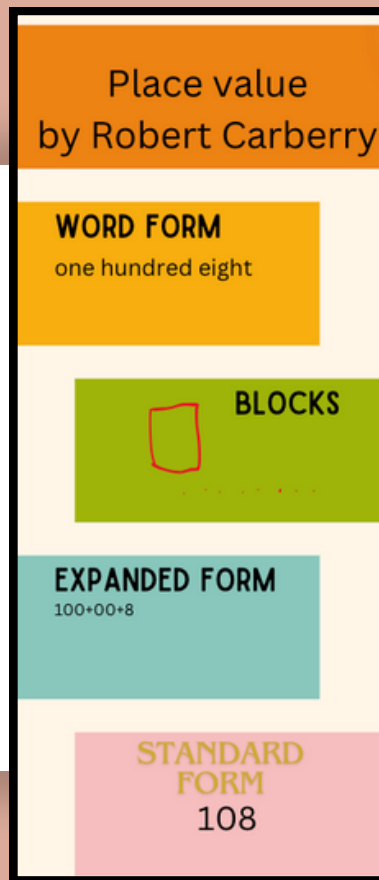

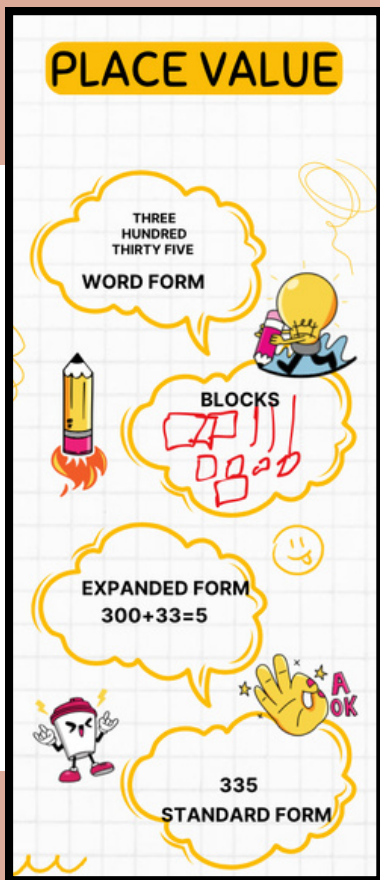

First graders made
snowflakes during
their STEAM rotation.

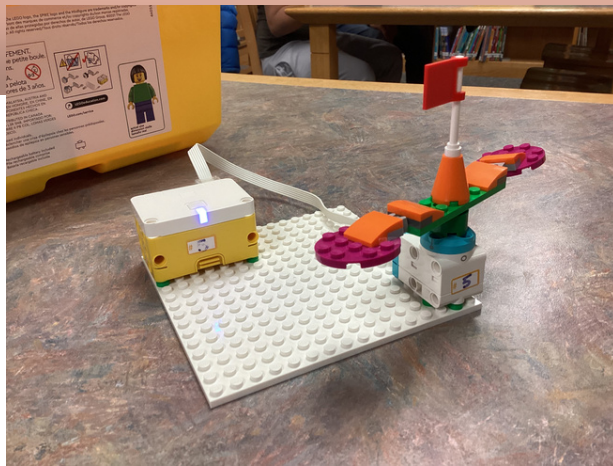

Some of our 4th graders shared their work to the EASD website!

Mrs. Gutshall's students further explored using Canva to create a PLACE VALUE Infographic.
