05 LOCATION

After thoughtful planning, campus visits, and input from our cadets, we're happy to announce that Southeast Academy will have a new home in the 1000 and 1100 wings—just inside the Foster Road entrance. This location was chosen to give our Bulldogs a space that feels welcoming, accessible, and connected. A campus map is included in the following pages to help reference the new home for Southeast Academy.

In addition to SEA-specific wings, there are shared spaces on campus that will be accessible to both Bulldogs and Eagles. These include facilities that cannot be duplicated, as well as classrooms and teachers who support both SEA and JGHS courses.
