In cases where students have previously completed enough lower-division Gen-Ed courses listed in the Year 2 and Year 3 Plan of Study so that there are not enough of these courses available to fill the Year 1 Plan of Study, ACC may consider including a Math or Science course listed in the Year 2 or Year 3 Plan of Study, in the Year 1 curriculum. It is recommended that prior to making this change the ACC Program Director should discuss the change with the PSU Program Director in an effort to determine the best solution for the student and the program.

It is also understood that courses offered and courses recommended at ACC and/or PSU may change from year to year. When this occurs, it will be the responsibility of the Program Directors at ACC, PSU, and KCU to work together to determine what changes should be made in the Year 1 Plan of Study.

After successful completion of Year 1 at ACC earning an overall 3.5 GPA and a Math and Sciences GPA of 3.5 in the courses included in the program plan of study and, earning a grade of "C" or higher in all courses included in the program plan of study, students are eligible to transfer to PSU for their 3rd semester in the Program.

The Year 1 Plan of Study Articulation is intended to serve as a guideline.

It is understood that students may have previously completed certain courses listed in the Year 1 Plan of Study as "dual credit" courses prior to high school graduation and,

It is understood that ACC could be limited in their ability to offer certain courses listed in the Year 1 Plan of Study in one or the other semester of the first year.

When either of these situations occur ACC may identify a lower-division Gen-Ed course listed in Year 2 or Year 3 of the Plan of Study and include that course(s) in the Year 1 Plan of Study in order to fill the Year 1 curriculum.
