***Pancreatic Cancer UK** (registered charity number 1112708).*

Around 10,500 new cases of pancreatic cancer are diagnosed in the UK each year. Pancreatic cancer remains the deadliest of common cancers, with a 5-year survival rate of less than 8%, and only 10% of patients are diagnosed early enough for surgery. Pancreatic Cancer UK receives only 3% of the total cancer research budget, making diagnosis and treatment challenging. Pancreatic cancer UK provide expert, personalised support and information via a Support Line and through a range of publications. They fund innovative research to find the breakthroughs that will change how we understand, diagnose and treat pancreatic cancer. They campaign for change; for better care, treatment, and research and for pancreatic cancer to have the recognition it needs.

Thank you for your generosity.
