

#5a Adjusting Screen Brightness & Using Night Light

This guide provides essential steps for adjusting your screen brightness and utilizing the Night Light feature, enhancing your viewing experience while also promoting eye comfort. It includes tips on optimizing settings for battery life making it a valuable resource for users looking to customize their display preferences effectively.

1 Click on "Search bar"

2 Click "Settings"

3 Click "Display"

- 4 Click "Brightness" and drag the circle to adjust brightness

- 5 Click the dropdown arrow to "Show more settings"

6 Click the dropdown arrow to "Change brightness based on content"

7 You can adjust your preferences to save battery power if needed

- 8 Click "Night light" if you want to block blue light

- 9 Click the "X" to close when you are done adding your display preferences
