1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

During the 2024–2025 school year, our LEA used Prop 28 funds to support a robust professional development plan and expand access to arts instruction. We partnered with the San Joaquin County Office of Education Student Engagement and Arts team to provide 14 days of professional learning focused on various art mediums, curriculum alignment, and lesson progression. These sessions were designed to deepen teachers' knowledge and confidence in delivering high-quality, standards-aligned arts instruction. To support this work, we purchased art supplies for use during the professional development sessions and for teachers to use in their classrooms with students throughout the year. This ensured that teachers had hands-on experience with the materials and could immediately apply new strategies in their instructional practice. Teachers were also compensated for their participation in the training, recognizing their time and commitment to improving arts education. In addition to professional development, we received additional support from the county office in arts program planning, curriculum consultation across multiple disciplines (art, music, theatre), and guidance for organizing student art showcases. These coordinated efforts have strengthened our LEA's capacity to deliver engaging, inclusive, and well-supported arts instruction across grade levels.
