

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Cambrian School District

CDS Code: 43693850000000

School Year: 2025-26

LEA contact information:

Linh Nguyen

Assistant Superintendent of Educational Services

nguyenl@cambriansd.com

408-558-4916

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

This chart shows the total general purpose revenue Cambrian School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Cambrian School District is \$51,631,545, of which \$38,819,506 is Local Control Funding Formula (LCFF), \$4,838,560 is other state funds, \$6,935,005 is local funds, and \$1,038,474 is federal funds. Of the \$38,819,506 in LCFF Funds, \$1,722,091 is

generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Cambrian School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Cambrian School District plans to spend \$53,624,982 for the 2025-26 school year. Of that amount, \$5,362,970 is tied to actions/services in the LCAP and \$48,262,012 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Cambrian School District plans to spend \$53,624,982 for the 2025-26 school year. Of that amount, \$5,362,970 is tied to actions/services in the LCAP, and \$48,262,012 is not included in the LCAP. The budgeted expenditures not included in the LCAP will be used for general operating expenditures that allow us to run these programs, encompassing the expenditures not included in this plan. This would include Administrative, Certified, and Classified salaries for staffing, Special Education programs, curriculum, supplemental materials, general supplies, technology and utilities, maintenance, and custodial needs. These items are the backbone on which we operate our exemplary programs and support the social-emotional and instructional needs of all our students at Cambrian.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Cambrian School District is projecting it will receive \$1,722,091 based on the enrollment of foster youth, English learner, and low-income students. Cambrian School District must describe how it intends to increase or improve services for high needs students in the LCAP. Cambrian School District plans to spend \$2,028,981 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Cambrian School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Cambrian School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Cambrian School District's LCAP budgeted \$2,255,965 for planned actions to increase or improve services for high needs students. Cambrian School District actually spent \$2,255,965 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$0 had the following impact on Cambrian School District's ability to increase or improve services for high needs students:

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Cambrian School District: Our Schools, Our Students, Our Community

Located in the heart of Silicon Valley, the Cambrian School District has proudly served students and families for over a century. Rooted in a legacy of educational excellence and community connection, Cambrian continues to thrive as a small, student-centered district where generations of learners return to contribute as educators, volunteers, and community leaders. Our schools reflect the rich history of the Cambrian community and a future-ready vision for preparing students to succeed in high school, college, careers, and life.

The Cambrian School District serves approximately 3,056 students in Transitional Kindergarten through 8th grade. The district comprises four elementary schools (TK-5), one K-8 school, and one middle school serving grades 6-8. Our students benefit from learning environments that foster academic achievement, creativity, and personal growth, supported by a dedicated team of educators and staff committed to each student's success.

A Diverse and Inclusive Learning Community

Cambrian schools proudly reflect the dynamic diversity of Silicon Valley, recognizing that our differences strengthen our school communities and enrich the educational experience for all students. Our student demographics include:

- 30% White (non-Hispanic)
- 29% Hispanic
- 23% Asian or Pacific Islander

- 15% Two or More Races
- 2% Black or African-American
- 1% Other racial/ethnic backgrounds

In addition, approximately:

- 13% of students are English Learners (EL)
- 17% are socio-economically disadvantaged
- 12% receive special education services through Individualized Education Plans (IEP) or 504 Plans

Our average class sizes for the 2024-25 school year are 21:1 in grades TK-3 and 27:1 in grades 4-8, allowing us to foster meaningful relationships and personalized student support.

Educational Excellence Grounded in the Whole Child Approach

At Cambrian, we are committed to providing a high-quality, well-rounded education that supports academic achievement and every learner's social-emotional development. Our instructional program is built upon:

- Full implementation of California State Standards, integrated with a focus on elevating student learning outcomes.
- Develop essential 21st-century skills, such as critical thinking, communication, collaboration, and creativity, to prepare students for future academic and career success.
- Enrichment programs in the arts, music, wellness, and technology, encouraging students to explore their interests, develop their talents, and engage in creative problem-solving.
- A commitment to the professional growth of our educators through continuous learning opportunities, ensuring access to current best practices, tools, and resources.
- Strong partnerships with families and the broader community to create warm, welcoming school environments where students feel valued, supported, and inspired to reach their full potential.

Our Vision for the Future

Cambrian School District honors its legacy while embracing innovation and continuous improvement. Our shared vision is to nurture learning communities where every student is known, challenged, and supported. Together, students, families, educators, and community members create schools that not only reflect the diverse spirit of Silicon Valley but also empower our students to thrive in an ever-changing world.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

An important consideration when reviewing Cambrian School District's (CSD) performance data is the unique structure of our schools. Four of CSD's schools, Fammatre Elementary, Farnham Elementary, Sartorette Elementary, and Price Middle School, operate as dependent charter schools. This structure provides increased flexibility, allowing us to welcome students from across Santa Clara County, beyond the district's residential boundaries. As outlined by the California School Dashboard, all charter schools, including dependent charters, are

reported separately from the district-level data. As a result, a search for "Cambrian School District" within the CA Dashboard will reflect the combined data for Bagby Elementary School and Steindorf K-8 STEAM School only. Performance data for each of CSD's dependent charter schools is available independently by searching the specific school name within the Dashboard at: <https://www.caschooldashboard.org/>.

The 2024 California School Dashboard provides performance results for both the district and each school site across a range of State and Local Indicators. These indicators offer valuable insights into student outcomes and inform our ongoing efforts to enhance them. For 2024, the State Indicators included: Academic Indicator for English Language Arts/Literacy (ELA), Mathematics & Science (Status Only), English Learner Progress Indicator (ELPI), Chronic Absenteeism Indicator, & Suspension Rate Indicator. Performance levels for each state indicator are represented using a color-coded system that ranges from highest to lowest: Blue (Highest Performance), Green, Yellow, Orange, & Red (Lowest Performance).

Performance colors are determined based on two key measures:

- Status: The current year's performance.
- Change: The difference in performance compared to the prior year.

The 2024 Dashboard also included Local Indicators, which evaluate district progress in key areas based on self-reflection tools and evidence collected locally. Local Indicators assess whether the district has met specific standards using the following designations: Met, Not Met, Not Met for Two or More Years. Local Indicators included: Basic Services, Implementation of Academic Standards, Parent and Family Engagement, Local School Climate, & Access to a Broad Course of Study. These indicators assess district efforts to establish the essential conditions for student success, encompassing not only academic outcomes but also access to quality instruction, family engagement, and a supportive school climate.

Districtwide School Performance Summary – 2024 California Dashboard

This summary highlights key indicators of performance, progress, and equity across Cambrian School District schools. Data covers academic engagement, student conditions and climate, and English learner progress. Each school is evaluated under California's color-coded accountability system, ranging from Red (lowest) to Blue (highest).

English Language Arts (ELA)

ELA performance across the district showed a mixed pattern, with several schools maintaining strong scores while others experienced notable declines:

- Steindorf STEAM K-8 Magnet: Blue, 69.4 points above standard, maintained (decreased 0.8 points).
- Bagby Elementary: Green, 37.8 points above standard, maintained (increased 1.3 points).
- Price Charter Middle: Green, 32.5 points above standard, maintained (decreased 0.1 points).
- Farnham Charter: Green, 20.2 points above standard, significant drop (decreased 20 points).
- Sartorette Charter: Green, 13.8 points above standard, maintained (increased 2.1 points).
- Fammatre Elementary: Orange, 6.9 points below standard, significant decline (decreased 25.6 points).

Mathematics

Math outcomes ranged from high achievement with gains to modest declines below the standard. Highlights include:

- Steindorf STEAM K-8 Magnet: Blue, 77.2 points above standard, strong gain (increased 10.3 points).

- Bagby Elementary: Blue, 39.5 points above standard, maintained (increased 1.4 points).
- Price Charter Middle: Green, 13.9 points above standard, showing significant improvement (increased by 13 points).
- Farnham Charter: Green, 11.6 points above standard, dropped (decreased 24.1 points).
- Sartorette Charter: Yellow, 1.1 points below standard, declined (decreased 5.4 points).
- Fammatre Elementary: Yellow, 0.7 points below standard, declined (decreased 15 points).

The 2024 CA Dashboard results for Academic Performance in English Language Arts and Mathematics across Cambrian School District schools present a varied landscape. While Steindorf STEAM K-8 Magnet and Bagby Elementary continue to demonstrate consistently high achievement in both ELA and Math, other schools, particularly Fammatre Elementary, have experienced notable declines that may warrant targeted support. Across the district, four out of six schools scored above standard in both subjects, indicating strong overall academic outcomes, although with room for improvement, particularly in equity. Notably, Mathematics saw stronger gains than ELA in some schools, suggesting possible success from instructional shifts or targeted interventions.

Chronic Absenteeism

Chronic absenteeism showed a general improvement across the district, with all schools either maintaining or reducing their rates of absenteeism. Standout performances include:

- Steindorf STEAM K-8 Magnet: Green, 3.7%, improved from 4.7% the previous year.
- Farnham Charter: Green, 6.4%, significant 7.9% decrease from 2023.
- Bagby Elementary: Green, 7.8%, decreased 1.8%.
- Price Charter Middle: Yellow, 10.4%, with a slight decline of 0.8%; however, several student groups still fall into Orange for this metric.
- Sartorette Charter: Green, 9.2%, declined 3.9%.
- Fammatre Elementary: Green, 8.8%, dropped 3.5%.

Suspension Rate

Most schools are showing improved school climate and discipline, with suspension rates either declining or remaining low:

- Steindorf STEAM K-8 Magnet: Blue, 0.2%, down 1.4% from 2023.
- Farnham Charter: Blue, 0.3%, no change from previous year.
- Bagby Elementary: Orange, 1.3%, with increased rates among Hispanic, Socioeconomically Disadvantaged, and Students with Disabilities groups (all in Red or Orange).
- Sartorette Charter: Green, 1.7%, declined 0.4%.
- Price Charter Middle: Green, 4.2%, declined 2% despite receiving Orange ratings for some subgroups, including English Learners and Long-Term English Learners.
- Fammatre Elementary: Orange, 1.3%, increased 0.8%, with six subgroups in Orange.

English Learner Progress

Performance across the district for English Learners is mixed, with notable gains at some schools and declines at others:

- Price Charter Middle: Blue, 70.5% of ELs making progress, up 12.5%; Long-Term ELs also saw a 14% increase.
- Steindorf STEAM K-8 Magnet: No Color, but 65.5% making progress, up 10.3%.
- Fammatre Elementary: Yellow, 42.9%, increased 12.4%. (Red, 30.4% on 2023 CA Dashboard)
- Farnham Charter: Yellow, 56.8%, declined 2.1%.

- Sartorette Charter: No Color, 54.8%, maintained with minor decline.
- Bagby Elementary: No Color, 50%, declined 10.7%.

Science Indicator (Informational Only)

Science performance is provided for context, but is not yet included in accountability metrics:

- Steindorf: 10.8 points above standard (+4.6 points).
- Farnham: 1.3 points above standard (-2.3 points).
- Price: 1.5 points below standard (+2.8 points).
- Bagby, Sartorette, Fammatre: All below standard with small point shifts.

Below is a summary of schools with Red Indicators

The Cambrian School District's CA Dashboard results for 2023 and 2024 reflect meaningful trends across multiple performance indicators and student groups, particularly for English Learners (EL), Students with Disabilities (SWD), and Socioeconomically Disadvantaged (SED) students. These trends are highlighted by changes in percentage data and color indicators, which represent the state's performance levels, ranging from Red (lowest) to Blue (highest).

In English Learner Progress (ELPI), Fammatre Elementary showed a substantial positive shift. In 2023, only 30.4% of EL students were making progress, a sharp decline of 24.4 percentage points that placed the school in Red. By 2024, this improved to 42.9%, a gain of 12.4 points, resulting in a move to Orange, reflecting solid improvement in language development outcomes. ELA performance for SWD at Price Charter Middle also improved. In 2023, the Distance from Standard (DFS) was -89.0, representing a drop of 13.1 points and placing the school in Red. By 2024, the DFS improved to -81.8, a gain of 7.2 points, moving it into Orange. Similarly, in Math for SWD, the 2023 DFS of -124.4 improved to -111.8 in 2024, a 12.5-point gain. While still below standard, these results show positive academic momentum for SWD. Chronic absenteeism results show both progress and ongoing challenges. For SED students districtwide, absenteeism remained high at 29.3% in 2023 and 29.1% in 2024, classified as Red with minimal change. However, some schools posted meaningful improvements. At Bagby Elementary, absenteeism among SED students dropped from 27.1% (Red) to 16.9% (Yellow), a significant reduction of 10.2 points. The rate for SWD at the same school also improved from 22.7% (Red) to 14.7% (Yellow), showing a substantial shift in student attendance.

Farnham Charter saw chronic absenteeism decrease from 21.2% (Red) to 17.5% (Yellow), a modest but important gain for their EL students. Sartorette Charter showed one of the largest improvements in this area, reducing absenteeism from 30.0% (Red) to 18.1% (Yellow), an 11.9-point drop that highlights strong attendance recovery for their SED students. However, Price Charter Middle's SWD group continued to experience high absenteeism, slightly decreasing from 28.2% to 25.2% between 2023 and 2024. Despite this modest decline, the school remained in Red, indicating a need for targeted interventions to improve engagement and attendance among students with disabilities.

In summary, several Cambrian schools demonstrated notable gains, especially Fammatre Elementary, which improved across multiple indicators, including ELPI and chronic absenteeism for SED and SWD students. Price Charter Middle showed academic gains in ELA and Math for SWD, while Farnham and Sartorette Charters made important strides in reducing chronic absenteeism among EL students. Nevertheless, districtwide absenteeism for SED students and continued concerns at Price for SWD attendance suggest further support and resources are needed. These insights can guide strategic planning and school-level supports moving forward.

Only two schools, Fammatre Elementary and Price Charter Middle, had student groups that fell into the Red performance level in 2024. No

other schools had Red indicators in academic or engagement metrics like Suspension Rate or Chronic Absenteeism.

1. Fammatre Elementary - Fammatre exhibited significant performance challenges, with multiple student groups falling into the Red category:

- English Language Arts (ELA): Students with Disabilities & Socioeconomically Disadvantaged
- Mathematics: Students with Disabilities

2. Price Charter Middle - Despite strong overall performance in both ELA and Math, two student groups at Price Charter Middle received Red performance levels:

- English Language Arts (ELA): Students with Disabilities
- Mathematics: Students with Disabilities

Finally, in alignment with CDE's special education monitoring and dashboard indicators, CSD has been identified at Targeted Level 2 for Disproportionality. While not significantly disproportionate, the district has been flagged as disproportionate and has a finding of noncompliance in the Timeline Noncompliance Review. There is no current fiscal monitoring.

Local Indicator

All schools met local indicators for the following areas: implementation of Academic Standards, Parent and Family Engagement, Local Climate Survey, Access to a Broad Course of Study, and Basic Services.

The Cambrian School District demonstrated several notable strengths in the 2024 California School Dashboard results. Most schools experienced meaningful reductions in chronic absenteeism, with Steindorf, Farnham, and Bagby leading the way in attendance improvements. Suspension rates across the district were generally low and declining, especially at Steindorf and Farnham, where rates fell into the highest performance category. English Learner progress showed substantial gains at Price and Steindorf, both of which reported over 65% of students making progress toward proficiency. Additionally, all district schools successfully met the state's local indicators, including implementation of academic standards, parent and family engagement, access to a broad course of study, and maintaining safe, well-resourced learning environments. These strengths reflect the district's commitment to inclusive practices, stakeholder collaboration, and academic access for all students.

At the same time, the Dashboard results highlight several areas for continued focus. Disparities in suspension rates persist for specific student groups, particularly Hispanic, English Learner, and socioeconomically disadvantaged students at Bagby, Fammatre, and Price. Although overall absenteeism improved, students with disabilities and those from economically disadvantaged backgrounds continue to experience higher rates of chronic absence. English Learner progress also declined at Bagby and Farnham, signaling a need for targeted instructional support. Moreover, while access to a broad course of study is equitable across sites, students in self-contained special education settings may face limitations in full participation. These findings underscore the importance of sustaining targeted interventions, culturally responsive practices, and multi-tiered supports to ensure academic success for all learners.

Performance Summary for Goal 1: High Student Achievement

Cambrian School District remains committed to ensuring high levels of academic achievement for all students while closing performance gaps for English Learners, socioeconomically disadvantaged students, and students with disabilities. Our ongoing implementation of standards-aligned curriculum, multi-tiered systems of support (MTSS), and intentional data-driven instruction has yielded promising progress in several key areas, while also highlighting areas for focused improvement.

Strengths were most evident in science and progress for English Learners. The 2024 California Science Test (CAST) results reflect strong districtwide growth, with a six percentage point increase in the number of students meeting or exceeding standards compared to the 2023 baseline. Socioeconomically disadvantaged students and students with disabilities also experienced notable gains of 5.1 and 4.5 percentage points, respectively. This suggests that our emphasis on STEM instruction, including hands-on learning and integration of Next Generation Science Standards (NGSS), is having a positive impact.

English Learner progress, as measured by the English Learner Progress Indicator (ELPI), showed encouraging improvement in five of the six schools. Price Middle School, Farnham School, and Steindorf K-8 Magnet saw double-digit gains in the percentage of English Learners (ELs) making progress toward English Language Proficiency, indicating that targeted instructional strategies and English Language Development (ELD) supports are making a measurable difference. Additionally, early literacy and numeracy benchmarks demonstrated growth for English Learners, with increases of 1.43% in reading and 2.58% in math on the Fastbridge assessments. Cambrian also continues to ensure instructional equity, with 100% of students across all schools having access to their copies of board-adopted, standards-aligned instructional materials in English Language Arts (ELA), mathematics, and science. The district maintains a strong foundation in instructional access, which is essential for supporting all learners.

However, areas for growth remain, particularly in English Language Arts. The overall percentage of students meeting or exceeding standards in ELA declined by two percentage points, with English Learners experiencing a sharper drop of 8.3 percentage points from the prior year. Students with disabilities also showed a 3.3-point decrease in ELA performance. Math results, while slightly improved overall, revealed a 3.9-point decline for English Learners and persistent achievement gaps among socioeconomically disadvantaged students.

A key concern is the decline in the percentage of English Learners reclassified as Fluent English Proficient, which dropped from 21% to 13%, representing an 8-point decrease below the baseline. The current rate of Long-Term English Learners (LTELs) is also higher than desired at 28%, underscoring the need to strengthen early intervention and language development strategies, particularly in the primary grades. Performance on Fastbridge benchmarks for students with disabilities and those from socioeconomically disadvantaged backgrounds remains a priority for equity. Only 33.48% of students with disabilities performed at or above the "On/Above" or "Low Risk" level in reading, and just 37.86% met this threshold in math. These students continue to require targeted academic and behavioral support through differentiated instruction and more intensive, data-informed intervention.

While the Cambrian School District is seeing substantial gains in science, English learner progress, and foundational skills for some groups, continued efforts are needed to accelerate ELA outcomes, increase EL reclassification rates, and close achievement gaps for historically underserved student groups. Moving forward, our LCAP strategies will deepen instructional support through expanded professional learning, targeted MTSS structures, and inclusive classroom practices that foster equitable access and growth for every student.

Use of LREBG Funds in the 2025–26 LCAP

The LEA has unexpended Learning Recovery Emergency Block Grant (LREBG) funds that will be utilized during the 2025–26 LCAP year. These funds are embedded explicitly in Action 1.5: Provision of Instructional Specialists. The district will continue to allocate 5.5 Full-Time Equivalent (FTE) Instructional Specialists across all school sites to support student achievement and staff capacity. Of the total 5.5 FTEs, 3.0 FTEs will be funded through the remaining LREBG funds. This action aligns with the LREBG's allowable uses by providing targeted instructional, coaching, and intervention support to underserved student groups. The 3.0 FTEs funded by LREBG will:

- * Serve as instructional coaches to enhance teacher effectiveness.
 - * Provide guidance and training for instructional support specialists to improve Tier II & Tier III services.
 - * Deliver English Language Development (ELD) content and professional learning.
 - * Coordinate and implement site-based intervention programs and extended learning opportunities.
 - * Support data analysis to identify learning gaps and guide instructional decisions.
- These activities are designed to address systemic barriers that high needs student populations face directly.

The district's needs assessment shows that unduplicated pupils (including English learners, socioeconomically disadvantaged students, and foster youth) and students with disabilities face persistent achievement gaps in ELA and math and higher-than-average chronic absenteeism, particularly noted in the 2023 and 2024 California School Dashboard results. The LREBG funds are dedicated exclusively to Action 1.5 and are not spread across multiple actions. Within this action, the embedded services represent a cohesive, equity-driven strategy to improve academic outcomes and engagement for unduplicated students and students with disabilities.

Performance Summary for Goal 2: Educator Excellence

The Cambrian School District is committed to ensuring that all students have access to highly qualified teachers and that staff are supported through high-quality professional learning opportunities that empower them to improve their instructional practices continually. Goal 2 metrics emphasize the district's priorities in teacher assignment, implementation of academic standards, and the impact of professional development (PD) on instructional growth.

A continued area of strength is the district's success in maintaining 100% of teachers in appropriate assignments, as verified by the Annual School Accountability Report Card (SARC). This consistent alignment guarantees that all students are taught by credentialed educators working within their fields of expertise. The district also met its target average rating of 4 on the California Dashboard Local Indicator self-reflection tools for both the implementation of academic standards and the support provided to teachers and administrators. These ratings reflect full implementation of standards-aligned instruction and a robust infrastructure for educator support.

Professional learning data from the 2024–2025 academic year demonstrates positive momentum. Seventy-nine percent of staff agreed or strongly agreed that professional learning was an effective use of their time, a 2 percentage point increase from the prior year. Likewise, 85% of staff members affirmed that the professional development (PD) they received was relevant to improving their instructional practices, representing another 2-point gain. These trends suggest growing staff confidence in the district's professional development (PD) design, which included four district-wide professional learning days focused on coherence, collaboration, and classroom application.

An area that has shown measurable progress is the implementation and monitoring of the GLAD (Guided Language Acquisition Design) instructional model. While the district was unable to establish a Fall 2024 baseline, the Spring 2025 classroom walkthrough data set a new benchmark, revealing that 71% of tenured and GLAD-certified teachers demonstrated implementation of the model with an average rating of 3 or higher, based on the Principal's Classroom Walkthrough Observation Tool. Given the central role of GLAD in advancing inclusive instructional practices and supporting English Learners, this initial data point represents significant progress. The district is now focused on improving implementation fidelity and using ongoing observation data to reach the 2026–2027 target of 85%.

The district continues to show strong systems for ensuring appropriate teacher assignments, supporting the implementation of academic standards, and delivering high-quality professional development. The positive trajectory in staff feedback, combined with the establishment of

a new benchmark for GLAD implementation, positions the Cambrian School District to meet its Year 3 goals. Strategic next steps will center on refining instructional monitoring systems and sustaining professional learning that leads to measurable improvements in student achievement.

Performance Summary of Goal 3 LCAP Narrative: Positive School Environment

The Cambrian School District remains steadfast in its commitment to nurturing safe, inclusive, and engaging learning environments where students feel supported and connected. The 2023–2024 results for Goal 3 reflect positive trends in school climate, student wellness, and behavioral outcomes, grounded in the district’s ongoing use of PBIS frameworks and multi-tiered systems of support.

A cornerstone strength of the district is its consistent 100% compliance across all six school sites in the Williams Compliance Review, ensuring that all facilities are in good repair and that all students learn in safe, well-maintained environments. The district's average daily attendance rate remained at 95%, indicating consistent student engagement and a stable instructional environment. Disciplinary and attendance indicators continue to reflect growth. The suspension rate decreased for all students from 1.9% to 1.5%, with English Learners improving by 0.5% and Hispanic students by 0.8%. However, suspension rates rose among socioeconomically disadvantaged students (up 1.9%) and students with disabilities (up 0.9%), highlighting areas in need of more focused behavioral support strategies. Encouragingly, the chronic absenteeism rate saw a notable 3.2 percentage point drop overall, with declines among English Learners (-4.6%) and Hispanic students (-4.2%), indicating the effectiveness of the district’s outreach, family partnerships, and tiered interventions.

Student voice data from the PBIS Annual School Climate Survey further reinforces the district’s efforts to maintain a positive school climate. In Spring 2024, 85% of students in Grades 2–8 reported feeling safe at school “most” or “all of the time,” a finding that remained consistent from the prior year. Similarly, 85% of students reported having an adult at school who would help them if needed, indicating strong student-staff relationships and trusted support systems. These results reflect the district’s successful investment in schoolwide culture-building efforts and student connectedness. Behavioral data from the PBIS Behavior Matrix shows stability in disciplinary trends. In Spring 2025, 7.11% of students had at least one major office referral, a marginal improvement from 7.12% the prior year. While the change is small, it indicates a trend toward fewer major behavioral incidents and provides a foundation for deeper work around proactive, restorative discipline. The district continues to target a reduction to 5% by 2027 through refinement of PBIS and integration of social-emotional learning. The district also reported zero middle school dropouts and expulsions in 2024, affirming its restorative approach and wraparound supports that prioritize student retention and well-being.

In summary, the Cambrian School District continues to strengthen its school climate by providing safe facilities, fostering positive relationships, improving attendance, and reducing suspension rates for many students. As the district moves forward, targeted supports for high-need student groups, particularly students with disabilities and those from socioeconomically disadvantaged backgrounds, will be essential in closing gaps in disciplinary data. Sustaining strong PBIS implementation and enhancing student connectedness will remain central to this work.

Performance Summary of Goal 4: Strong Community Engagement

The Cambrian School District continues to prioritize inclusive engagement of families and educational partners in district decision-making and school improvement. The metrics for Goal 4 reflect significant gains in overall parent satisfaction and increased representation of educational partners across key advisory structures.

One of the most encouraging strengths is the growth in parents' perceptions of engagement and inclusion. The percentage of parents who felt the district engages families from diverse backgrounds rose significantly, from a baseline of 52.1% to 80% in Spring 2025, representing a gain of 27.9 percentage points. Parents of students with disabilities reported a remarkable increase of +19.7 percentage points. This metric reflects improvement in the district's efforts to build culturally responsive partnerships and ensure families feel seen and valued. Likewise, parents' perceptions of being informed and having input into decision-making improved across the board. For example, the percentage of all parents who felt informed about school procedures and decision-making grew from 62.8% to 70% (+7.2%), and 67% now agree they have opportunities to give input, compared to 58.7% last year (+8.3%). These results suggest that family outreach and communication efforts are becoming more effective. Notably, parents of students with disabilities reported positive growth across all survey indicators.

A major highlight for this goal is the inclusion of student representation on the District LCAP Advisory Committee for the first time, ensuring that all educational partner groups, students, families (including English language learners and students with Individualized Education Programs), staff, and labor organizations are now represented. This advancement addresses a previous gap in inclusive representation and marks a significant step forward in shared governance. However, there are still areas that require attention and growth. Despite high satisfaction among most parent groups, survey results for English Learner parents declined across all indicators. For example, only 57% of EL parents reported having input in decision-making, compared to 86.7% at baseline, a decline of nearly 30 percentage points. This drop suggests barriers in access, language, or outreach that must be addressed through culturally and linguistically responsive engagement strategies. Similarly, while six schools hosted their own EL parent information nights, the district did not hold a central English Parent Night, and attendance data were not documented, making it difficult to measure the impact. Engagement in the District ELAC remained steady, with three out of six schools sending a parent representative to all four meetings. The district aims to expand this to all six schools in future years. Additionally, participation in the annual LCAP ThoughtExchange decreased slightly, from 224 to 218 participants. While this is a minor drop, it signals the need to promote these engagement tools further to ensure broad and diverse input.

In summary, the Cambrian School District is making substantial progress in strengthening family and partner engagement. Significant gains in parent satisfaction and advisory committee representation show the district's commitment to inclusive practices. Focused efforts are now needed to re-engage English Learner families, improve participation documentation, and expand consistent input across all school sites.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
<p>CSD Strategic Plan/Local Control Accountability Plan Advisory Committee</p>	<p>Cambrian School District (CSD) is committed to engaging a broad spectrum of educational partners in the development, annual review, and continuous improvement of the Local Control and Accountability Plan (LCAP). To ensure inclusive representation, the District LCAP Advisory Committee is composed of district and site administrators, certificated and classified staff, special education teachers, the presidents of CDTA and CSEA, and parent leader representatives from each school’s School Site Council (SSC) and English Learner Advisory Committee (ELAC).</p> <p>Throughout the 2024-25 school year, CSD used multiple methods to engage and communicate with educational partners. These included community input surveys, school site meetings, and districtwide committee discussions. Engagement efforts were designed to gather feedback on district priorities, evaluate the effectiveness of programs and services, and identify opportunities for growth using the most current state and local data.</p> <p>Feedback collected from school site communities, advisory groups, and stakeholder input sessions was shared, reviewed, and discussed in depth with educational partners. Input gathered during these engagements directly informed the 2025–26 LCAP development. The District LCAP Advisory Committee and District English Learner Advisory Committee (DELAC) were mainly instrumental in shaping the goals and actions of the new plan.</p>

Educational Partner(s)	Process for Engagement
	<p>Committee members had multiple opportunities throughout the year to deepen their understanding of LCAP goals and metrics, ask questions, and offer meaningful input. Meetings were conducted in person, and all meeting agendas and minutes are available to the public on the CSD website at https://www.cambriansd.org/Page/1753 to ensure transparency and open communication. Below is a list of 2024–25 meeting dates for the District LCAP Advisory Committee.</p> <ul style="list-style-type: none"> - November 4, 2024 - January 14, 2025 - February 11, 2025 - March 18, 2025 - April 22, 2025
CSD English Learner Advisory Committee Meetings (DELAC)	<p>The District English Learner Advisory Committee (DELAC) includes district office leaders, site administrators, Instructional Specialists, and parent representatives from each school site’s ELAC and School Site Council. This committee plays a key role in advising the district on developing the Local Control and Accountability Plan (LCAP) and the LCAP Federal Addendum, overseeing the Consolidated Application, and providing services that support English learners, low-income students, and Foster/Homeless Youth.</p> <p>Throughout the 2024–25 school year, DELAC members engaged in meaningful dialogue and provided input on district priorities, proposed actions, and resource allocations. Language Line provided translation services for English learner families when possible, ensuring greater access and participation.</p> <p>The district focused on ensuring all educational partner voices were acknowledged and considered. Information shared with DELAC members included:</p> <ul style="list-style-type: none"> - State Dashboard and local performance data - Prior and current LCAP goals - Progress toward those goals - Budget details aligned with each goal

Educational Partner(s)	Process for Engagement
	<p>Meeting discussions centered around proposed LCAP goals and actions designed to support academic achievement, learning acceleration, and the social-emotional well-being of all students.</p> <p>All DELAC meetings were held in person, and agendas and minutes are publicly available on the DELAC/ELAC Website at https://www.cambriansd.org/Page/1105. Below is a list of the DELAC meeting dates for the 2024-25 school year.</p> <ul style="list-style-type: none"> - November 14, 2024 - January 23, 2025 - February 27, 2025 - May 1, 2025
Students Engagement and Input Process	<p>The Cambrian School District believes that students thrive when they are empowered to have both voice and choice in their learning experiences. We recognize that when students are meaningfully engaged and their perspectives are valued, it fosters deeper learning and a stronger connection to their school community.</p> <p>Throughout the 2024–25 school year, the district provided multiple opportunities for students to share their voices and perspectives to inform key decisions, improve programs, and strengthen the learning environment.</p> <p>One of the most impactful engagement opportunities was the Student Listening Sessions, held at every school site on March 31, 2025. These sessions were attended by the Superintendent, Assistant Superintendent of Educational Services, and a Board Member assigned to each site, and were facilitated by an independent observer to create a safe and supportive space for open student dialogue. Students were invited to respond to a series of reflective and empowering questions, including:</p> <ul style="list-style-type: none"> • What does it mean to be successful in school? • What does the word “equity” mean? • What are you good at in school? • What do you like to do? • How do you see yourself? • Do you feel connected with a teacher?

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> • What does it mean to feel safe? • If you were the principal, what’s one thing you would change or do to make sure every student is successful in school? <p>These conversations provided invaluable insight into students' perceptions of success, identity, relationships, safety, and school culture. Themes from these sessions are helping shape district priorities, strengthen school-site practices, and ensure student-centered decision-making across all levels.</p> <p>In addition to these listening sessions, the district administered the Annual PBIS School Climate Survey in Spring 2025 to all students in grades 2–8, providing feedback on the effectiveness of Social-Emotional Learning (SEL) programs and efforts to improve school climate.</p> <p>To support the continuous improvement of services for English Learners, some of our schools also conducted empathy interviews and distributed targeted surveys with English Learners. These engagement activities deepened our understanding of EL students’ learning experiences and informed responsive strategies to better meet their needs.</p> <p>Together, these efforts reflect the Cambrian School District’s unwavering commitment to amplifying student voice as a vital part of our planning, program development, and pursuit of educational equity.</p>
Cambrian School District’s Multi-Tiered System of Supports (MTSS) Committee	<p>The Cambrian School District’s Multi-Tiered System of Supports (MTSS) Committee is integral to the district’s ongoing efforts to develop, implement, and refine the Local Control and Accountability Plan (LCAP). Comprised of teacher leaders, site administrators, content specialists, and representatives from the Student Services and Educational Services departments, the MTSS Committee serves as a vital voice in the district’s educational planning and decision-making process.</p> <p>As a key stakeholder group, the MTSS Committee actively contributes</p>

Educational Partner(s)	Process for Engagement
	<p>to the LCAP development by offering valuable input on curriculum, instruction, assessment practices, and implementing a districtwide multi-tiered system of supports. Their work ensures that the instructional strategies and curricular materials adopted align with evidence-based practices that meet all students' academic and social-emotional needs.</p> <p>The committee's responsibilities include:</p> <ul style="list-style-type: none"> • Advising on curriculum and instructional frameworks that align with MTSS principles • Designing and evaluating tiered intervention strategies to support students requiring additional academic or behavioral assistance • Establishing assessment protocols and data systems to identify student needs, monitor progress, and guide instructional adjustments • Planning and coordinating professional development to deepen educator understanding of MTSS and build capacity across school sites • Facilitating collaboration among educators, administrators, and specialists to foster a cohesive, student-centered support system <p>The MTSS Committee met four times during the 2024-25 school year, with each meeting offering opportunities for in-depth data analysis, system refinement, and feedback that directly informed the district's LCAP goals, actions, and metrics. Through its continuous evaluation of support structures and responsiveness to student needs, the MTSS Committee contributes to a culture of improvement and shared accountability, ensuring the LCAP reflects a comprehensive plan for equity, access, and success for all students.</p>
Instructional Leadership Council (ILC)	<p>The Instructional Leadership Council (ILC) is vital in supporting the development and implementation of the Local Control and Accountability Plan (LCAP). This collaborative council includes site administrators, site instructional leaders, district department heads, and cabinet members and serves as a strategic leadership body</p>

Educational Partner(s)	Process for Engagement
	<p>focused on instructional coherence, innovation, and continuous improvement.</p> <p>Meeting twice monthly throughout the 2024-25 school year, the ILC guided key district instructional initiatives and served as a forum for reflective dialogue on effective practices, student data, and systemic needs. The ILC’s ongoing work ensures instructional practices remain aligned with LCAP goals, California State Standards, and students’ diverse learning needs.</p> <p>As an engaged LCAP stakeholder group, the ILC contributed in the following ways:</p> <ul style="list-style-type: none"> • Reviewed student achievement and local/state data to evaluate progress toward LCAP goals • Provided input on curriculum adoption, instructional practices, and intervention strategies to support academic growth and equity • Advised on professional development priorities aligned with districtwide goals and educator needs • Collaborated on resource planning and allocation to maximize instructional impact across all schools <p>The ILC also facilitated ongoing communication and engagement with site-based instructional teams, promoting school alignment and coherence. In collaboration with educational partners, including teachers, parents, and community representatives, the ILC contributed to shared understanding and informed decision-making that helped shape the district’s priorities and strategies within the 2024–27 LCAP.</p> <p>Integrating diverse leadership perspectives and focusing on instructional excellence, the ILC ensures that the district’s planning efforts remain student-centered, equity-driven, and results-oriented.</p>
Special Education Local Plan Area (SELPA)	The Special Education Local Plan Area (SELPA) plays a key consultative role in developing the Local Control and Accountability Plan (LCAP), ensuring the needs of students with disabilities are

Educational Partner(s)	Process for Engagement
	<p>meaningfully considered. SELPA, a statewide association of special education administrators, is dedicated to reviewing, evaluating, and advising on major issues impacting special education programs and services.</p> <p>In alignment with the Assembly Bill (AB) 1808 requirements, the Cambrian School District’s LCAP team actively collaborated with the SELPA administrator during the 2024-25 school year. Before the LCAP was presented to the Governing Board for approval, SELPA conducted a formal consultation to determine whether actions and services for students with exceptional needs were appropriately identified and embedded within the LCAP or its annual update.</p> <p>This consultation process, designed to enhance coordination between general and special education planning, was completed on May 22, 2025. The SELPA’s input ensured that the district’s LCAP reflects a commitment to equitable access and inclusive practices that support the success of all learners, including those requiring specialized services.</p>
CSD Governing School Board and LCAP Public Review	<p>The Cambrian School District (CSD) Governing Board plays a vital role in the development and adoption of the Local Control and Accountability Plan (LCAP) through ongoing engagement, oversight, and leadership. The CSD Board of Trustees holds public meetings twice monthly throughout the year, where they collaborate with the Superintendent to:</p> <ul style="list-style-type: none"> - Provide strategic direction for the district - Establish policies and procedures - Ensure district accountability - Champion community leadership in support of public education <p>These meetings serve as a key platform for transparency and public input. Agendas and minutes for all Governing Board meetings are accessible to the public on the district website: https://www.cambriansd.org/board-of-trustees.</p> <p>As part of the annual LCAP process:</p>

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> - A Mid-Year Update for the current District LCAP was presented to the Board on February 6, 2025. The Public Hearing for the 2025–26 CSD LCAP was held on June 1, 2025, providing an opportunity for educational partners to provide input. - The 2025–26 CSD LCAP Draft was made available to the public on the district website before the June 1, 2025, Board meeting, with a link to the agenda posted 72 hours in advance as required by law. - The 2025–26 CSD LCAP was formally adopted by the Board of Trustees on June 15, 2025. - Following adoption, the LCAP was submitted to the Santa Clara County Office of Education by the statutory deadline of June 30, 2025. <p>This structured engagement ensures that the CSD LCAP reflects the priorities of students, staff, families, and the broader community, while maintaining alignment with state expectations and district goals.</p>

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Throughout the 2024–25 school year, the Cambrian School District actively engaged its educational partners—including students, families, staff, and community members—through surveys, listening sessions, and consultation meetings with both districtwide and site-based committees. These collaborative engagements provided valuable insights that informed the development of the 2024–27 Local Control Accountability Plan (LCAP). The recurring themes that emerged from these interactions directly shaped the LCAP’s four goals, associated actions and services, and the expected measurable outcomes.

The District LCAP Advisory Committee synthesized feedback from all educational partners to propose a list of strategies aligned to identified needs and community values. Based on this input, the district refined its goals, annual measurable outcomes, proposed actions, services, and associated expenditures to ensure that they remained responsive, equitable, and student-centered.

Notably, the four LCAP goals, which were initially created in collaboration with educational partners, were reaffirmed through continued input and feedback during the 2024–25 planning cycle. This confirmation demonstrated that our current focus areas continue to resonate with the community and reflect shared priorities. Input from our educational partners has been ****instrumental in guiding the district’s direction****, ensuring that the LCAP continues to meet the needs of our students and school communities.

Feedback-Informed Priorities Reflected in the LCAP Goals and Actions

Goal 1: High Academic Achievement

Partner input emphasized the need for:

- Continued reading and writing interventions, especially for struggling learners.
- Expanded digital tools and learning platforms for English learners and socioeconomically disadvantaged students.
- Investments in arts education, enrichment programs, and differentiated instruction.

As a result, the district sustained and enhanced programs such as:

- Targeted instruction and intervention (Action 1.1),
- Digital learning platforms (Action 1.2),
- Expansion of TK and visual arts programs (Actions 1.8, 1.11),
- Instructional specialists and assessment systems (Actions 1.5, 1.10).

Goal 2: Educator Excellence

Staff requested:

- More time for collaborative planning,
- Ongoing professional development in behavior strategies, equity, and academic interventions,
- Support in data tools and subject-specific practices.

In response, the district prioritized:

- PLC time for data-driven collaboration (Action 2.2),
- Targeted PD aligned to district needs and tools like EduClimber (Actions 2.1, 2.6),
- Technology-integrated learning opportunities through Alludo and TIMS (Action 2.4).

Goal 3: Positive School Environment

From student and staff input emerged strong advocacy for:

- Improved school climate,
- Consistent behavior support systems,
- Increased access to counseling and mental health services.

The district responded by:

- Establishing the **Coordinator of Student Support Services (Action 3.10),
- Sustaining mental health partnerships and PBIS efforts (Actions 3.2, 3.6),
- Enhancing attendance support and restorative practices (Actions 3.7, 3.8).

Goal 4: Strong Community Engagement

Feedback underscored the importance of:

- Transparent, two-way communication,
- Language access services for non-English speaking families,
- Deeper parent involvement, especially for English learner families.

In turn, the district:

- Invested in language line services and EL parent workshops (Action 4.3),
- Maintained district-level engagement committees (Action 4.1),
- Adapted its engagement tools to be more cost-effective while maintaining responsiveness (Action 4.4).

All refinements to the LCAP were also reviewed within the context of the district's 2025–26 Fiscal Stability Plan, ensuring that budget reductions did not compromise educational equity. For example, while services like A2A and Valley Sports were scaled back, investments were redirected to more strategic, community-aligned roles, such as instructional specialists, coordinators, and targeted programs.

The 2025–26 LCAP represents a collaborative roadmap, built through a year-long cycle of listening and planning with our educational partners. Their voices directly influenced every aspect of the plan, from reaffirming the four LCAP goals to selecting and revising actions and services. The result is a living document that reflects community priorities, supports student learning and wellness, and ensures a collective path forward in alignment with our district's strategic vision.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	High Student Achievement: Every student has the potential for academic success and personal growth, and our commitment to this priority underscores our dedication to realizing that potential for each individual within our school district.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The Cambrian School District developed Goal 1 to emphasize the importance of academic success and personal growth for every student. This goal reflects the district’s commitment to providing high-quality education, fostering an inclusive and supportive learning environment, and preparing students for future challenges.

Actions and Metrics:

- Supplemental Targeted Instruction & Intervention: Providing additional support to students who need it to close achievement gaps.
- Targeted Expanded Educational Resources and Digital Learning Support: Enhancing learning through technology and additional resources.
- Sustaining Core Curriculum and Supplemental Materials: Ensuring the continuity and quality of the curriculum.
- Integration of Expanded Learning Opportunities Program (ELO-P): Offering additional learning opportunities outside regular school hours.
- Advancing Technology Priorities: Keeping technology up-to-date to support learning.
- Addition of Assistant Principal Position at Price Middle School: Providing more administrative support to enhance school operations and student support.
- Expansion of the Visual Art Program: Broadening the curriculum to include more arts education.
- Enhanced Support for Elementary PE Program: Improving physical education programs to support overall student well-being.

These actions collectively aim to improve academic performance, provide equitable resources, and support students' holistic development.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2024–25 school year, the district successfully implemented all planned actions under Goal 1, maintaining a strong focus on improving academic outcomes and increasing equitable access to services for Unduplicated Pupils (UPP), including English learners, low-income students, foster/homeless youth, as well as students with disabilities. Key strategies included the delivery of targeted academic interventions, deployment of instructional resources and digital learning tools, and the strategic use of scheduling support to ensure students received the assistance they needed without sacrificing core instructional time. The district’s comprehensive approach combined staff development, curriculum investments, and the use of data systems aligned with the Multi-Tiered System of Supports (MTSS) framework. Actions such as the provision of Instructional Specialists, access to Imagine Learning and Joy School English, and the continuation of Extended Day ELD and intervention programs were implemented as planned.

Notable successes include improved student outcomes in several key areas. CAST science assessment results showed a 6.0% increase overall, with significant gains among socio-economically disadvantaged students (+5.1%) and students with disabilities (+4.5%). While ELA CAASPP scores showed a slight overall decline, socio-economically disadvantaged students demonstrated a modest increase in performance (+1.0%). The continuation of digital learning tools supported differentiated instruction and language development for UPP students. At Price Middle School, the continued allocation of a 1.0 FTE teacher enabled effective master scheduling that prioritized targeted intervention time. Additionally, the FastBridge assessment system supported data-driven decisions, with incremental gains observed among English learners and socio-economically disadvantaged students in both reading and math benchmarks.

Despite these successes, several challenges emerged. Achievement gaps persisted, particularly for English learners and students with disabilities in CAASPP ELA and Math performance, highlighting the need for intensified supports in the coming year. Fiscal constraints also

impacted implementation; the district faced difficulties sustaining enhancements such as additional visual arts paraeducators when expenditures exceeded available Proposition 28 funds. Strategic staffing reductions were made to align with ongoing funding levels. Lastly, implementation of the CCEIS plan (Action 1.12) to address disproportionality among English learners and Hispanic students remains a developing area, requiring continued family engagement and refinement of intervention systems to achieve full impact.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

All actions and services outlined under Goal 1 were fully implemented during the 2024–25 school year as planned. The district successfully carried out key initiatives to support academic achievement and equity for Unduplicated Pupils (UPP), including the provision of targeted interventions, digital learning tools, instructional specialists, and expanded enrichment opportunities. While there are no material differences between budgeted and estimated actual expenditures for the current year, the district has identified upcoming adjustments for the 2025–26 school year that may impact future expenditures. For example, although 2.0 FTE Art Teachers and 2.0 Art Paraeducators were hired to expand the visual arts program in 2024–25 using Proposition 28 funding, the ongoing cost of the program has exceeded the allocation provided by the grant. To ensure fiscal sustainability, the district plans to eliminate 1.0 FTE Art Paraeducator in 2025–26 and align the program with available restricted funding. Similarly, the 0.50 FTE Assistant Principal position at Price Middle School was fully funded and implemented in 2024–25. However, this position is scheduled to be eliminated in 2025–26, with key responsibilities transitioning to a newly established Coordinator of Student Support Services under Goal 3. These staffing adjustments are forward-looking and do not affect the estimated actual expenditures for the 2024–25 school year.

The percentage of improved services for Unduplicated Pupils remains consistent with planned levels, as actions were implemented in full. Any variations in resource allocation are anticipated for the next year and are part of the district’s strategic planning to maintain both program quality and fiscal responsibility.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The actions implemented under Goal 1 during the 2024–25 school year have been largely effective in advancing the Cambrian School District’s objective of ensuring high academic achievement and equitable access for all students, particularly Unduplicated Pupil Populations (UPP). Through a comprehensive, multi-tiered approach grounded in the MTSS framework, the district executed a range of academic, structural, and enrichment-focused actions, each aligned to specific metrics. Supplemental targeted instruction and intervention (Action 1.1) provided site-based Tier II supports and extended day ELD programs, contributing to modest improvements in FastBridge reading benchmarks for English Learners (+1.43%) and all students (+0.4%). However, CAASPP ELA data revealed persistent gaps, with English Learners declining by 8.3%, even as socio-economically disadvantaged students improved by 1.0%. The provision of digital learning tools (Action 1.2), such as Imagine Learning and Joy School English, enabled personalized literacy and language development. Although formal performance metrics within these platforms are still being analyzed, usage has expanded access to targeted resources for UPP students. The presence of Instructional Specialists (Action 1.5) was key in strengthening data-informed practices and improving attendance supports; their work correlated with growth in FastBridge aMath scores for English Learners (+2.58%) and socio-economically disadvantaged students (+3.5%). Similarly, the maintenance of a comprehensive assessment system (Action 1.10) ensured timely progress monitoring. It supported

early intervention, while continued investment in master scheduling at Price Middle School (Action 1.13) allowed for embedded academic support during the instructional day, thereby reducing disruptions to core learning time.

Curricular access and enrichment also contributed to Goal 1 outcomes. The district sustained full access to adopted standards-aligned instructional materials (Action 1.3), and implemented technology plan priorities (Action 1.6), ensuring equitable digital integration across classrooms. Proposition 28 funds enabled an expansion of the visual arts program (Action 1.8), although sustainability issues led to a planned reduction in paraeducator staffing for the 2025–26 school year. The elementary PE program was supported through additional paraeducator staffing (Action 1.9), enhancing safety and engagement during instruction. Administrative actions further bolstered implementation: a 0.5 FTE Assistant Principal at Price (Action 1.7) facilitated master scheduling and MTSS coordination, though the position will transition to a Coordinator of Student Support Services in the following year. The Transitional Kindergarten expansion (Action 1.11) supported school readiness by increasing classroom capacity and providing instructional support for four-year-olds. Additionally, the district initiated the implementation of its CCEIS plan (Action 1.12) to address disproportionality among English Learners and Hispanic students. Although still in development, early parent engagement efforts and systems refinement are underway.

Finally, the Expanded Learning Opportunities Program (Action 1.4) provided afterschool and summer enrichment to TK–6 students, with UPP participation increasing from 21% to 24%, progressing toward the target of proportional access. Overall, the district’s alignment of resources, data systems, and instructional leadership resulted in measurable academic gains in science (CAST +6.0% overall), reading, and math benchmarks for several subgroups. However, achievement gaps remain for English Learners and students with disabilities on CAASPP assessments, signaling the need for intensified, differentiated support. As such, Goal 1 actions have laid a solid foundation, and their continued refinement will be essential to meeting the district’s long-term performance targets.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a review of implementation outcomes and reflection on practices during the 2024–25 school year, the district has identified and planned several adjustments to actions and services under Goal 1 for the 2025–26 school year. While the overall goal, metrics, and target outcomes remain consistent, key refinements have been made to improve sustainability and impact. In response to funding limitations, the district will reduce 1.0 FTE Art Paraeducator position (Action 1.8) to better align the visual arts program with Proposition 28 allocations and reduce reliance on the general fund. Similarly, the 0.50 FTE Assistant Principal position at Price Middle School (Action 1.7), implemented in 2024–25 to support MTSS and instructional leadership, will be eliminated as planned, with responsibilities transitioning to the new Coordinator of Student Support Services under Goal 3. These adjustments reflect a districtwide effort to prioritize resource alignment with long-term fiscal stability while maintaining core services that support Unduplicated Pupils. Continued investment in digital tools, intervention supports, and data systems will remain central, emphasizing deepening the impact of instructional coaching and refining interventions based on progress monitoring results. These changes are informed by student outcome data and stakeholder input and are designed to enhance effectiveness and scalability moving into Year 3 of the LCAP cycle.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Supplemental Targeted Instruction & Intervention	All school sites will offer supplemental instruction, academic interventions, and Extended Day ELD programs to support students not yet meeting grade-level academic standards. Staff training, instructional materials, and personnel will support these services. Priority will be given to our unduplicated pupils (English learners, students from low-income households, foster and homeless youth) and students with disabilities. Additional support will also be provided to any student identified by staff as needing targeted assistance.	\$670,120.00	Yes
1.2	Targeted Expanded Educational Resources and Digital Learning for UPP	The district will continue to provide supplemental instructional materials, blended learning programs, and digital learning platforms to support the academic progress of Unduplicated Pupils, specifically English learners, low-income students, and foster and homeless youth. These resources, including Imagine Learning Language & Literacy and Joy School English, will continue to be a key strategy for addressing learning gaps, promoting language development, and providing differentiated support. The continuation of this action ensures students have ongoing access to high-quality instructional tools designed to meet their unique learning needs.	\$140,000.00	Yes
1.3	Sustaining Core Curriculum and Supplemental Materials	The district will allocate ongoing funding to maintain our adopted core curriculum and supplementary materials. These resources are aligned with state standards, approved by the board, and are essential for supporting the implementation of the state's Common Core standards. This includes the new Board-adopted NGSS science curriculum for Grades K-8, the ELD/ELD curriculum for Grades K-5, and the UPK Core and Supplemental curriculum.	\$268,560.00	No
1.4	Integration of Expanded Learning Opportunities Program (ELO-P)	The district will continue to utilize state funding from the Expanded Learning Opportunities Program (ELO-P) to enhance afterschool and summer school enrichment programs, as well as extended care for students in transitional kindergarten through sixth grade. ELO-P funding will also support districtwide enrichment programs, including the elementary band and choir program, after-school learning centers, and	\$933,930.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>site-specific enrichment opportunities for students in grades TK-6. In accordance with ELO-P funding requirements, all students who qualify for free and reduced lunch programs will be able to participate in these programs at no cost, subject to program capacity.</p>		
1.5	Provision of Instructional Specialists	<p>LREBG Action: The district will continue to allocate 5.5 Full-Time Equivalent (FTE) Instructional Specialists to directly support all school sites, with a primary focus on students identified as English learners, socio-economically disadvantaged (SED), foster youth, and students with disabilities. Instructional Specialists will serve as instructional coaches for staff, providing guidance and support for instructional aides, modeling effective teaching strategies, developing and delivering English Language Development (ELD) content and training, coordinating site-based intervention programs, and supporting data analysis to inform instructional practices. While services are principally directed toward Unduplicated Pupils, all students identified by staff as needing additional academic support will benefit from these resources.</p> <p>Based on state and local assessments, our unduplicated pupils are not achieving at the same level in ELA and Math as other student groups. Additionally, the Chronic Absenteeism rates for these students are higher than those of many different student groups and “all” students, as reflected on the 2023 CA Dashboard. Unduplicated students and students with disabilities require additional tailored academic and socio-emotional support. They face language barriers, learning gaps, and limited resources, and need differentiated instruction and intervention programs. This action was developed, in part, to address the district-wide and school-wide issues (with red indicators) related to chronic absenteeism among low-income students.</p> <p>Metric: 1.1, 1.2 & 3.4</p> <p>LREBG Fund: \$370,350 for 2025-26 (2.5 FTE Instructional Specialists)</p>	\$751,350.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.6	Advancing Technology Priorities	The district will continue implementing key initiatives outlined in the CSD Technology Plan to support teaching, learning, and operational efficiency. Priority areas include leveraging data to inform instruction, integrating technology to enhance student learning experiences, promoting responsible digital citizenship, and supporting the effective management and use of classroom devices. Funding for these activities and services will be allocated in alignment with the goals and strategies identified in the district's Technology Plan, outside of the LCAP, to ensure equitable access and support for all students.	\$0.00	No
1.7	Addition of Assistant Principal Position at Price Middle School	<p>The district will not continue to fund a 0.50 Full-Time Equivalent (FTE) Assistant Principal position at Price Middle School for the 2025-26. This position was intended as a temporary action for the current year.</p> <p>The district will eliminate this position beginning in the 2025-26 school year. However, key responsibilities will transition to the newly established Coordinator of Student Support Services position identified in LCAP Goal 3, Action 3.10, ensuring continued support for student needs and alignment with district-wide student support systems.</p>	\$0.00	No
1.8	Expansion of the Visual Art Program	<p>The district utilized Proposition 28 funding to expand access to visual arts education across all school sites. This action includes adding 2.0 Full-Time Equivalent (FTE) Art Teacher positions and 2.0 Art Paraeducator positions to provide all kindergarten through eighth-grade students with increased opportunities for high-quality visual art instruction that promotes creativity, self-expression, and engagement.</p> <p>As part of the district's Fiscal Stability Plan for the 2025–26 school year, a 1.0 FTE Art Paraeducator position will be eliminated to reduce costs. The current program expenditures exceed the ongoing allocation provided through Prop 28, with the funding shortfall covered by the district's general fund. This adjustment aims to align program costs more closely with available restricted funding while sustaining strong visual arts programming within fiscal constraints.</p>	\$365,287.00	No

Action #	Title	Description	Total Funds	Contributing
1.9	Enhanced Support for Elementary PE Program	The district will continue to allocate 0.75 Full-Time Equivalent (FTE) Paraeducator support to enhance the elementary Physical Education (PE) program across the district's four transitional kindergarten through fifth-grade (TK-5) campuses. The additional paraeducator support will help reduce the student-to-teacher ratio during weekly PE classes, allowing for increased student engagement, improved class management, and more individualized instructional support. This action promotes a positive and safe physical education experience for all elementary students, supporting their physical development, teamwork skills, and overall well-being.	\$41,805.00	No
1.10	Maintaining and Implementing Comprehensive Assessment System	The district will continue to maintain and implement a comprehensive assessment system to support universal screening and ongoing progress monitoring within the Multi-Tiered System of Supports (MTSS) framework. This system will guide instructional planning, intervention programming, and service delivery by providing timely, data-driven insights into student progress and needs. The primary focus of this action is to support English learners, low-income students, foster/homeless youth, and students with disabilities while extending services to any student identified by staff needing additional academic or behavioral support.	\$100,000.00	Yes
1.11	Expansion of Transitional Kindergarten Program	The district will continue to expand its Transitional Kindergarten (TK) program by adding additional classrooms, staffing, instructional resources, and training to ensure the delivery of high-quality early learning experiences. This expansion supports school readiness and equitable access to foundational academic and social-emotional development for young learners. In alignment with state guidelines, beginning in the 2025–26 school year, children who turn four years old on or before September 1, 2025, will be eligible to enroll in TK.	\$168,967.00	No
1.12	Addressing Disproportionality for Students with	The district will follow the CDE's Compliance and Improvement Monitoring process for Comprehensive Coordinated Early Intervening Services (CCEIS). This includes reserving 15 percent of IDEA funds for a CCEIS	\$108,575.00	No

Action #	Title	Description	Total Funds	Contributing
	Disabilities, English Learners, and Hispanic Students	action plan and services. Key actions include engaging parents of students with IEPs through input meetings and an annual needs assessment survey.		
1.13	Maintain Support of Master Scheduling for Targeted Intervention at Price Middle School	To support the academic success of Unduplicated Pupil Population (UPP) students, including English learners, low-income students, and foster/homeless youth, the district will continue to allocate 1.0 Full-Time Equivalent (FTE) teacher position at Price Middle School. This position is essential in maintaining a master schedule that allows for targeted intervention opportunities while preserving access to the full core instructional program. Through intentional scheduling and resource allocation, this action ensures students receive the additional academic support they need to thrive, aligning with the district's goals of promoting equity and improving outcomes for historically underserved student groups.	\$120,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Educator Excellence: Effective teaching significantly influences student learning outcomes and overall school performance. Educator excellence focuses on attracting, retaining, and developing skilled educators dedicated to meeting the diverse needs of every student.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning) Priority 2: State Standards (Conditions of Learning)
--

An explanation of why the LEA has developed this goal.

Goal 2 was established to recognize educators' critical role in student success. The district aims to attract, retain, and develop skilled educators dedicated to meeting all students' diverse needs.

Actions and Metrics:

- Maintain Staff Training and Professional Development: Providing ongoing professional development to keep teachers and staff updated on best practices.
- Enhancing Staff Collaboration and Professional Learning Communities: Encouraging collaboration among educators to share strategies and improve teaching.
- New Teacher, Administrator, and Staff Support: Offering support to new staff members to ensure their success and retention.
- Leveraging Online and In-House Professional Development: Utilizing various platforms for professional development.
- Targeted Professional Development for Supporting Unduplicated Students: Focusing on strategies to support high-needs students.

These actions ensure that educators are well-equipped to deliver high-quality instruction and meet the needs of every student, thus improving overall educational outcomes.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2024-25 school year, the district successfully implemented the key actions outlined in LCAP Goal 2, with a continued focus on building staff capacity through professional learning, collaboration, and targeted support for all employees. The district closely followed the planned actions, and all professional development, staff collaboration, and new teacher support activities were carried out as originally designed. Professional development remained a district priority, with training opportunities provided throughout the year during in-service days, early release Wednesdays, and voluntary paid sessions outside of regular work hours. Training topics included high-quality Tier I instruction, equity, restorative practices, the Common Core State Standards, Universal Pre-Kindergarten (UPK), and the use of data tools, such as EduClimber, to support student learning. Professional Learning Communities (PLCs) were integrated into the regular Wednesday professional development schedule, allowing for cost savings while providing teachers with structured time to collaborate, review data, and

plan supports for students. The district also provided onboarding and training for new staff, including an additional day of preparation for new teachers before the start of school.

While the district implemented its actions as planned in 2024-25, adjustments aligned with the district's fiscal stability plan, such as delaying formal induction (BTSA) support for new teachers until after their second year, will go into effect beginning in the 2025-26 school year.

Overall, the district experienced several successes throughout the year. Staff participation in professional learning remained strong, with 79% of staff indicating that the professional development provided was an effective use of time, a 2% increase from the baseline. Additionally, 85% of staff reported that professional learning was relevant to improving their instruction, also a 2% increase from the baseline. The district effectively leveraged Professional Learning Community (PLC) time to foster staff collaboration, particularly in areas such as data use, differentiated instruction, and student support for English learners, foster youth, and low-income students. Orientation and training for new staff were successfully implemented, and special education staff benefited from targeted mentoring and coaching. The district continued to utilize the Alludo platform for flexible, self-paced online learning. It supported teacher leadership development through the Technology and Innovation Mentorship Program (TIMS), with a focus on integrating educational technology to enhance student outcomes.

The most significant challenge experienced this year was the inability to establish baseline data for Action 2.6 (GLAD Certification) in Fall 2024 due to limited data collection; however, a new baseline is planned for Spring 2025. The district also recognized that while instructional specialists provided most site-based professional development, balancing their responsibilities across schools with diverse needs remains an ongoing area of consideration.

Looking ahead to 2025-26, the district will continue to build on its current practices while implementing adjustments outlined in the fiscal stability plan. Instructional specialists will remain the primary facilitators of professional development, particularly in the areas of differentiated instruction and culturally responsive teaching to support unduplicated students. PLC time and districtwide professional development days will continue to be used strategically to maximize learning opportunities while managing costs. The district will focus on establishing new baseline data for GLAD implementation and will continue to monitor staff feedback through PD evaluation metrics. The use of EduClimber and Fastbridge will support ongoing data-driven collaboration to address instructional loss and meet students' academic and social-emotional needs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

During the 2024–25 school year, the district implemented the planned actions under LCAP Goal 2 as intended, with no significant differences between budgeted and estimated actual expenditures. All professional development, staff collaboration, and new teacher support activities were conducted following the original plan and funding allocations.

Although the district did not experience significant changes in expenditures for the current year, it is worth noting that adjustments aligned with the district's fiscal stability plan are scheduled to take effect in the 2025–26 school year. Specifically, beginning next year, the district will delay induction (BTSA) support for new teachers until after their second year of employment to reduce costs. Additionally, the district will continue to maximize the use of its existing professional development schedule, including Wednesday early release days, to support staff

collaboration and training through Professional Learning Communities (PLCs), minimizing the need for additional expenditures on extra training time or substitute coverage. In terms of the percentage of improved services provided to unduplicated students (English learners, foster youth, and low-income students), the district implemented all planned actions and supports for the 2024–25 school year. However, because GLAD implementation (Action 2.6) was delayed due to limited baseline data collection in Fall 2024, the district will establish new baseline data in Spring 2025 to better track progress moving forward.

Overall, there were no material differences between the budgeted and estimated actual expenditures for Goal 2 during the 2024–25 year. Planned actions were implemented as designed.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

In 2024–25, the Cambrian School District effectively implemented all six actions under Goal 2, advancing the district’s commitment to developing educator excellence and improving instructional quality for all students, particularly English Learners, low-income students, and foster youth. Professional development (Action 2.1) was offered through in-service days, early release sessions, and voluntary learning opportunities, addressing topics such as Tier I instruction, culturally responsive teaching, and data tool usage. This action was measured using staff feedback surveys, which showed that 79% of staff agreed the PD was an effective use of time and 85% found it relevant to improving instruction, with both figures showing a 2% increase over the prior year.

Staff collaboration through Professional Learning Communities (PLCs) (Action 2.2), measured by the collaborative planning time provided, was provided via release days and also integrated into the district’s weekly early release Wednesdays. Teams used this time to review student data (FastBridge, EduClimber), align instruction to pacing guides, and plan supports for UPP students. Support for new staff (Action 2.3), also measured by survey feedback and participation records, included orientation, onboarding, and additional prep time, with mentoring and coaching provided for special education staff. Induction was also offered to new teachers to support them in clearing their credentials, although the BTSA will be postponed in 2025–26 to meet the district’s fiscal responsibilities.

Professional learning pathways (Action 2.4), measured through participation logs and completion rates, were offered via the Alludo platform and other avenues. The district continued its support of the Technology and Innovation Mentorship Program (TIMS), providing educators with access to self-paced modules and peer coaching in areas such as digital learning and differentiation. Title II requirements offered equitable services for St. Francis Cabrini (Action 2.5), though the school ultimately chose not to participate this year.

Action 2.6 provided targeted professional development for teachers serving unduplicated pupils, with a focus on GLAD strategies. The associated metrics for this action included ELA/Math performance and attendance rates for English Learners. A Spring 2025 baseline indicated that 71% of trained teachers implemented GLAD strategies with an average observation score of 3 or higher. Supporting data showed academic gains: FastBridge aMath scores increased by 2.58% for English Learners and 3.5% for low-income students, while chronic absenteeism among English Learners declined by 4.6%, indicating improved engagement.

Overall, the district demonstrated strong progress toward Goal 2, with all actions implemented as planned. Metrics showed measurable growth in educator practices and student outcomes, and systems were in place to sustain and expand these efforts in the years ahead.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the implementation and reflection of actions under LCAP Goal 2 during the 2024–25 school year, several adjustments have been made to planned actions for the 2025–26 school year to align with district priorities and support fiscal stability. While the overall goal and focus areas remain the same, building staff capacity through professional learning, collaboration, and targeted support, key changes include delaying formal induction (BTSA) support for new teachers until after their second year in the district. This change, part of the district’s fiscal stability plan, will help manage costs while continuing to provide onboarding, mentoring, and support for new staff in their first two years. Additionally, the district will prioritize the use of existing early release Wednesdays and district professional development days for staff collaboration and training, rather than expanding additional release time, to reduce costs while maintaining a focus on Professional Learning Communities (PLCs).

In response to challenges with data collection for GLAD implementation (Action 2.6), a new plan is in place to establish baseline data in the Spring of 2025, allowing for better monitoring and evaluation of the effectiveness of targeted professional development for unduplicated students. No changes were made to the goal metrics or target outcomes; however, the district will continue to monitor staff feedback and training participation data to guide future professional development planning.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Maintain Staff Training and Professional Development	<p>Our district is committed to ensuring all staff, including teachers, support staff, and school leaders, have access to ongoing training and professional learning. These learning opportunities enable staff to enhance their teaching skills, support students, and foster a positive learning environment for all. Training topics are based on staff feedback and focus on critical areas, including high-quality classroom instruction (Tier I), academic and behavioral supports for students, the utilization of state standards (such as Common Core and NGSS), and the use of data to inform student learning. Other training areas include Restorative Practices, Equity, Universal Pre-Kindergarten (UPK), and EduClimber, a data tool that supports student learning and achievement.</p> <p>Staff participate in these professional learning opportunities during scheduled in-service days, early release Wednesdays, and occasionally outside their regular work hours, including summer sessions or voluntary,</p>	\$169,093.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>paid training sessions after school. This ongoing learning helps ensure that staff are well-prepared to meet the needs of all students and support their academic, social, and emotional growth.</p>		
2.2	<p>Enhancing Staff Collaboration and Professional Learning Communities</p>	<p>Beginning in the 2025-26 school year, during the regular professional development schedule on Wednesdays, the district will allocate dedicated time for teachers and staff to collaborate in Professional Learning Communities (PLCs). This enables staff to focus on enhancing instruction, promoting student social-emotional well-being, and addressing learning loss, while minimizing additional costs.</p> <p>Staff will utilize data tools such as EduClimber and Fastbridge to review student progress and plan targeted support, particularly for English learners, low-income students, Foster/Homeless Youth, and Students with Disabilities. This collaboration time enables staff to learn from one another, share best practices, and more effectively meet the academic and social-emotional needs of all students.</p>	\$30,000.00	No
2.3	<p>New Teacher, Administrator, and Staff Support</p>	<p>Beginning 2025-26, as part of the fiscal stability plan, formal induction support (BTSA) for new teachers will start after their second year. The district is committed to helping new teachers, administrators, and staff feel prepared and supported as they join our schools. New staff will receive orientation and training to familiarize themselves with our curriculum, teaching practices, and student assessment procedures. Special education staff will also receive mentoring and coaching.</p> <p>All new employees will attend a district-wide orientation to help them get started and feel welcomed. New teachers will have an extra day before school begins to prepare their classrooms and become familiar with district expectations.</p>	\$30,000.00	No

Action #	Title	Description	Total Funds	Contributing
2.4	Leveraging Online and In-House Professional Development	The district will continue to offer flexible, self-paced online professional learning for teachers and paraeducators through the Alludo platform. This allows staff to select training topics that meet their needs and complete them at their own pace. In addition, the district will support the Technology and Innovation Mentorship Program (TIMS), which helps develop teacher leaders who can support their colleagues at school sites. This program emphasizes the creative and effective use of technology to enhance student learning and achievement. These efforts provide teachers with more opportunities to learn, grow, and use technology to support students in the classroom.	\$33,050.00	No
2.5	Equitable Services Under ESSA for Private School Participation	The Elementary and Secondary Education Act (ESEA), reauthorized as the Every Student Succeeds Act (ESSA), includes provisions for the participation of private school children and teachers under Sections 1117 and 8501. The district consults with non-profit private schools within its area to ensure equitable services for eligible students. St. Francis Cabrini School is the sole non-private school participating in the Title II program.	\$5,000.00	No
2.6	Targeted Professional Development for Supporting Unduplicated Students	<p>The district will provide training for teachers to help them better support students with diverse learning needs, including English learners, foster youth, and students from low-income families. This training will focus on culturally responsive teaching, trauma-informed care, differentiated instruction, and building strong partnerships with families. Most of this professional development will be facilitated by the district's instructional specialists, who work directly with school sites to meet specific student and staff needs. Additional training will take place during district-wide professional development days.</p> <p>Teachers will also receive ongoing coaching, collaboration time in Professional Learning Communities (PLCs), and access to resources to support their work. The district will monitor progress to ensure these efforts are helping all students succeed.</p>	\$81,500.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Learning Environment: An enriching learning environment is vital for supporting student success. Physical, social, emotional, and cultural factors shape students' educational experiences. The learning environment supports safe, inclusive, and engaging spaces that motivate and inspire learning.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Goal 3 focuses on creating a supportive, inclusive school environment that enhances student well-being and engagement. This goal addresses the physical, social, emotional, and cultural factors influencing students' educational experiences.

Actions and Metrics:

- Maintain Program Specialist for Student Services: Providing specialized support for student services.
- Comprehensive Counseling and Mental Health Support: Offering mental health services to support students' emotional well-being.
- Enhance SEL Support, School Climate, and Extended Day Programs: Strengthening social-emotional learning (SEL) and improving the overall school climate.
- Targeted Support for Foster and Homeless Youth: Providing additional support for vulnerable student populations.
- Enhanced Health Services through El Camino Grant: Improving student health services.
- Enhancing General Education Behavior Support & Sustaining PBIS: Implementing Positive Behavioral Interventions and Supports to improve behavior and school climate.
- Enhancing Student Attendance through A2A Implementation: Focusing on improving student attendance rates.
- Enrollment/Engagement & Support Specialist for Improving Attendance: Addressing attendance issues through targeted support.
- Enhancing Social-Emotional Learning Through Structured Recess and Lunchtime Activities: Using structured activities to support SEL.

These actions aim to foster a positive and inclusive environment supporting students' development and readiness to learn.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

LCAP Goal 3 focuses on improving school climate, ensuring equitable support services, and fostering inclusive learning environments through targeted interventions that address behavioral, emotional, health, and attendance issues. The 2024–25 school year marked the first year of implementation under the current three-year plan, and all planned actions were carried out as proposed. These included enhanced mental health services, behavior supports through PBIS, expanded attendance interventions, structured recess programs to promote social-emotional learning, and targeted outreach to foster and homeless youth.

The implementation of these actions was correlated with several positive trends in student outcomes. Suspension rates decreased overall, from 1.9% to 1.5%, with notable reductions for Hispanic students and increased supports evident for English learners. Chronic absenteeism also declined significantly across multiple subgroups, with reductions of 3.2% for all students, 4.6% for English learners, and 6.8% for socioeconomically disadvantaged students. These improvements suggest that attendance interventions such as the A2A program and family engagement efforts were effective. Other indicators, including average daily attendance and middle school dropout rates, remained stable with no signs of decline. Expulsion rates held at zero, reflecting continued emphasis on restorative practices. Climate survey data showed that students' perception of safety remained steady at 85%, while the percentage of students who reported having a supportive adult on campus rose from 80% to 85%. Although the percentage of students with one or more major behavior referrals showed minimal change (from 7.12% to 7.11%), this highlights the need for continued focus on individual supports and intervention strategies. Among the most notable successes were the collaborative efforts to support foster and homeless youth through tailored services, as well as the early progress made toward district-wide MTSS alignment. The foundational work completed in 2024–25 will support the transition to a centralized leadership model under the newly established Coordinator of Student Support Services. This shift is expected to strengthen the coherence and sustainability of support further moving forward.

Overall, LCAP Goal 3 was implemented with high fidelity in its first year. Improvements in behavioral and attendance outcomes, particularly among high-need subgroups, indicate the effectiveness of the district's targeted supports. While challenges related to measuring impact and sustaining programs remain, thoughtful adjustments have been made to inform and strengthen implementation in the years ahead.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

All actions under Goal 3 were implemented as planned, and there were no material differences between budgeted and estimated actual expenditures or between the planned and estimated actual percentages of improved services for unduplicated students. All services, including structured recess and lunchtime supports, the A2A attendance intervention program, and additional leadership and behavior supports, were fully funded and executed as described in the LCAP.

While there are planned changes for the 2025–26 school year, such as the discontinuation of A2A, the transition from the Program Specialist and Assistant Principal positions to a centralized Coordinator of Student Support Services, and the elimination of supplemental funding for

structured recess activities—these adjustments did not impact the 2024–25 expenditures or services. Therefore, all actions and services contributing to improved outcomes for unduplicated students were delivered in alignment with the adopted plan for the current year, and no material variances occurred.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The implementation of Goal 3 during the 2024–25 school year was effective in supporting the creation of safe, inclusive, and engaging school environments. All planned actions were carried out with fidelity, contributing to measurable improvements in school climate, attendance, and student well-being. Central to these efforts was the work of the Program Specialist for Student Services (Action 3.1), who played a pivotal role in coordinating support for students with additional needs, including those with disabilities, English Learners, foster youth, and individuals experiencing homelessness. This role supported the district’s implementation of PBIS, Student Study Teams (SSTs), and social-emotional interventions, laying the groundwork for a more centralized support model that will transition to a Coordinator of Student Support Services in the 2025–26 school year.

Another significant contributor was the Enhanced Health Services provided through the El Camino Grant (Action 3.5). These services included a full-time school nurse and trained health clerks who supported student wellness across all school sites. These staff members provided day-to-day health care, chronic condition monitoring, medication administration, and emergency response, ensuring that health-related barriers to learning were minimized for hundreds of students throughout the year.

Mental health and emotional support services were expanded through counseling services (Action 3.2), provided by district counselors and contracted providers, addressing the social-emotional needs of English Learners, foster youth, and low-income students. These services were instrumental in improving student perceptions of school connectedness, with climate survey data showing a rise in students reporting that a caring adult was available to them, from 80% to 85%. School safety perceptions remained stable, with 85% of students indicating they felt safe at school. Likewise, the 0.5 FTE Assistant Principal at Price Middle School (Action 3.3) contributed to improved behavior and climate by supporting the implementation of PBIS and student engagement strategies, although this role will also be consolidated under the new districtwide Coordinator moving forward.

Attendance-focused actions yielded particularly strong results. The A2A program (Action 3.7) and support from the Enrollment & Engagement Specialist (Action 3.8) helped reduce chronic absenteeism across nearly all student groups: -3.2% for all students, -4.6% for English Learners, and -6.8% for socio-economically disadvantaged students. These improvements were achieved through early intervention, family outreach, and individualized supports, reinforcing student connection to school. Specific supports for foster and homeless youth (Action 3.4) included assistance with transportation, access to technology, after-school programs, and weekend meals. While the California Dashboard does not disaggregate these students’ attendance rates due to low numbers, they are part of the socio-economically disadvantaged (SED) group that experienced one of the largest reductions in chronic absenteeism. Therefore, it is reasonable to infer that foster and homeless students also benefited meaningfully from the services provided under this action.

Efforts to improve behavior through the implementation of the General Education Behavior Specialist and PBIS (Action 3.6) contributed to a decrease in overall suspension rates, from 1.9% to 1.5%, with reductions also observed among subgroups, such as Hispanic students. Office

referral rates remained steady at 7.11%, indicating a continued need for targeted support for students with chronic behavioral challenges. The district also maintained zero expulsions (Action 3.6) and zero middle school dropouts (Action 3.5) for the year.

Lastly, the structured recess and lunchtime SEL activities (Action 3.9) offered inclusive opportunities for social-emotional growth; however, data did not demonstrate a measurable impact on unduplicated student groups. As a result, this action will be discontinued for the 2025–26 period, allowing resources to be redirected toward more targeted supports. Overall, the combined actions under Goal 3 have led to clear gains in attendance, school connectedness, and climate, especially for students with the highest needs. These results underscore the importance of integrated systems of support and inform the district’s shift to a centralized model that will enhance coherence and sustainability moving forward.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following the implementation of LCAP Goal 3 in the 2024–25 school year, the district conducted a thorough review of the effectiveness and impact of each action, particularly with unduplicated students. As a result, several adjustments have been made to actions for the 2025–26 school year, while the overall goal, metrics, and long-term outcomes remain consistent.

A key change is the elimination of supplemental funding for structured recess and lunchtime activities (Action 3.9). While these activities created positive social opportunities for students, data did not demonstrate a measurable impact specifically on unduplicated student groups. This reflection led to the decision to discontinue the action under Goal 3, allowing the district to reallocate resources toward services that more clearly advance equitable outcomes. Another significant change is the transition from site-based leadership roles to a centralized support structure. The Program Specialist for Student Services (Action 3.1) and the 0.5 FTE Assistant Principal at Price Middle School (Action 3.3) will be phased out and replaced by a newly established Coordinator of Student Support Services (Action 3.10). This change reflects the district’s recognition of the need for a more coherent, district-wide approach to implementing the Multi-Tiered System of Support (MTSS), Positive Behavioral Interventions and Supports (PBIS), attendance monitoring, and support for foster and homeless youth. The new role is expected to improve alignment, oversight, and consistency across all school sites.

Additionally, due to budgetary constraints, the district will not renew its contract with the A2A (Attention2Attendance) program (Action 3.7). While the program helped reduce chronic absenteeism during the 2024–25 school year, the district determined that it could continue attendance monitoring and interventions through the EduClimber system without the associated costs, maintaining the same level of student support more sustainably.

These adjustments reflect the district’s commitment to using data and stakeholder feedback to continuously refine its actions, ensuring that resources are used effectively and that services remain focused on achieving meaningful, measurable outcomes for all students, especially those with the greatest needs.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Maintain Program Specialist for Student Services	<p>This position is being transitioned beginning in the 2025–26 school year. While the district continued to support the Program Specialist position during the 2024–25 school year to assist students with additional needs, including students with disabilities, students from low-income families, foster youth, and students experiencing homelessness, this role will be phased out and replaced by the newly established Student Support Services Coordinator.</p> <p>The Coordinator position, referenced in Action 3.10, will assume districtwide responsibility for coordinating student support programs within a Multi-Tiered System of Support (MTSS) framework. This includes leadership and oversight of Student Study Teams (SST), Positive Behavioral Interventions and Supports (PBIS), and Restorative Practices. In addition, the Coordinator will serve as the District’s Homeless and Foster Youth Liaison, lead school climate and student well-being initiatives, and work to align student services with the district’s goals. This transition supports the development of a more cohesive, integrated, and sustainable support system that meets the needs of all students across the district.</p>	\$0.00	No
3.2	Comprehensive Counseling and Mental Health Support	<p>The District will continue to provide counseling and mental health services at all schools to support students who are struggling socially, emotionally, or have difficulty staying engaged in school. These services will help students facing challenges affecting their well-being or learning ability. The District will partner with Nugent Counseling Services to offer this support, focusing on helping students who are English learners, from low-income families, or in foster care, or experiencing homelessness. However, any student identified by school staff as needing extra support will also have access to these services.</p>	\$422,000.00	Yes
3.3	Enhance SEL Support, School Climate, and Extended Day	<p>This position is scheduled for transition beginning in the 2025–26 school year. During the 2024–25 school year, the district funded a 0.50 FTE Assistant Principal position at Price Middle School to support student behavior, engagement, and overall school climate. This additional</p>	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
	Programs at Price Middle School	<p>leadership role played a key part in strengthening the implementation of Positive Behavioral Interventions and Supports (PBIS), promoting a safe and inclusive learning environment, and fostering student connectedness. The Assistant Principal collaborated closely with staff to implement strategies that encouraged positive behavior, minimized disruptions, and supported student well-being.</p> <p>To ensure sustainability and a more unified approach to student support, this site-level position will be phased out, and its responsibilities will be transitioned to the newly established district-level Coordinator of Student Support Services. As outlined in Action 3.1 and funded through Action 3.10, this role will provide comprehensive oversight of PBIS implementation, school climate initiatives, and student engagement strategies across all school sites. This strategic shift enables more consistent, district-wide alignment of student support services, ultimately enhancing the district's ability to promote student success systematically.</p>		
3.4	Targeted Support for Foster and Homeless Youth	The District will provide extra help and resources for students in foster care or experiencing homelessness. Support will be tailored to each student's specific situation and needs. School staff will work with families to identify the support that might be most helpful when students are struggling with schoolwork, friendships, or their emotional well-being. Some of the support available may include transportation assistance to help students get to and from school, extra meals on weekends, after-school programs, tutoring, technology devices, internet access, and connections to family and social services. The district's Educational Services and Student Services teams coordinate these services to ensure that students and families experiencing hardship or homelessness get the help they need to feel supported and successful in school.	\$20,000.00	Yes
3.5	Enhanced Health Services through El Camino Grant	The District will provide a full-time school nurse to support the health and wellness needs of students across all schools. Additionally, school health clerks will continue to receive training and support to assist in caring for students with health needs during the school day. These health services	\$155,059.00	No

Action #	Title	Description	Total Funds	Contributing
		help students stay safe, healthy, and ready to learn. The availability of these services depends on continued funding from the El Camino Grant.		
3.6	Enhancing General Education Behavior Support & Sustaining PBIS	<p>The District will continue to provide support for student behavior by hiring a full-time General Education Behavior Specialist. This specialist will assist students with behavioral difficulties in the classroom and collaborate with teachers, school leaders, and families to develop personalized behavior support plans tailored to each student’s needs. The Behavior Specialist will also work directly with students to teach positive behavior strategies, lead training sessions for staff on how to manage behavior in supportive ways, and analyze behavior data to help schools understand what is working and what can be improved.</p> <p>Additionally, the District will continue to support all schools in implementing the Positive Behavioral Interventions and Supports (PBIS) framework. PBIS helps schools create safe, respectful, inclusive environments where students learn and thrive. Each school will have a plan to continue or relaunch PBIS and receive assistance with planning and integrating it into everyday school life.</p>	\$98,000.00	No
3.7	Enhancing Student Attendance through A2A Implementation	<p>The district will continue to prioritize improving student attendance and reducing chronic absenteeism, recognizing that consistent attendance is essential for academic success and fostering a strong sense of school belonging. Throughout the 2024–25 school year, the district will utilize the Attention2Attendance (A2A) program to monitor attendance patterns and identify students who require additional support. Through this system, school staff will proactively reach out to families when attendance concerns arise, offering assistance such as counseling, academic support, or connections to other services. Regular communication will be provided to families to emphasize the importance of daily attendance and to highlight the resources available to help students stay engaged in school.</p> <p>Due to budget reduction measures, the district will not renew its contract with A2A for the 2025–26 school year. However, the essential work of monitoring attendance and providing early intervention will continue</p>	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>through the use of the District’s existing EduClimber data system. Site and district staff will maintain consistent practices in tracking attendance, identifying at-risk students, and conducting outreach to provide necessary supports. This action aligns with the district’s goal of reducing chronic absenteeism, particularly among students from low-income families and at school sites where attendance challenges have historically been significant.</p>		
3.8	Enrollment/Engagement & Support Specialist for Improving Attendance	<p>The district will fund a 0.50 FTE Enrollment & Engagement Specialist to support improved student attendance and provide targeted assistance to families at school sites identified for additional support. This staff member focuses on guiding families through the enrollment process, increasing parent and family participation in school-related activities, and addressing challenges that may prevent students from attending school regularly.</p> <p>In addition to facilitating family workshops, the Enrollment & Engagement Specialist analyzes attendance data to identify students needing intervention and works in partnership with school staff and community organizations to connect families with vital services and resources. The goal is to foster a welcoming and inclusive environment where families feel supported and students stay engaged in their school community.</p> <p>This 0.50 FTE allocation is tied explicitly to student attendance and engagement under Goal 3. The remaining 0.50 FTE of this position is funded under Action 4.2 of the LCAP, with a focus on broader family engagement and community communication efforts.</p>	\$59,087.00	No
3.9	Enhancing Social-Emotional Learning Through Structured Recess and Lunchtime Activities	<p>The District has provided extra support during recess and lunchtime to help students build social skills, stay active, and interact positively with their peers. In partnership with Valley Sports, every school received help with organizing fun and structured activities, such as games and sports, to support students' social and emotional learning. This action was designed to meet the needs of our English learners, foster youth, and students from</p>	\$30,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>low-income families, thereby creating a safe and welcoming environment for all students.</p> <p>However, for the 2025-26 school year, the District will no longer provide this service using supplemental funds, as it did not impact meeting the specific needs of our unduplicated students, including English Learners, students from low-income families, and Foster Youth. While all students benefited from the activities, the District could not measure how these services directly supported the students who needed them most.</p> <p>Some individual school sites may continue to offer these structured activities during recess and lunch. Sites will utilize different resources or site-based funding to support them based on their specific school needs.</p>		
3.10	Provision for the Coordinator of Student Support Services	<p>Starting in the 2025-26 school year, the District will fund a Coordinator of Student Support Services through the LCFF Supplemental and Base Grant to lead and coordinate student support programs across all schools. This position will oversee the implementation of a district-wide Multi-Tiered System of Support (MTSS), support site-based Student Study Teams (SSTs) and Problem-Solving Plans (PSPs), and provide leadership for Positive Behavioral Interventions and Supports (PBIS) and Restorative Practices. The Coordinator will also serve as the District's Foster Youth and Homeless Liaison, monitor student attendance and engagement, ensure Section 504 compliance, and support school climate and family engagement initiatives. This role will strengthen and align student services to create a more inclusive, supportive, and connected school environment for all students.</p>	\$240,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Community Engagement: Strong connections between schools, families, and the community positively influence student success and improvement. Community engagement cultivates relationships, encourages communication, and utilizes community resources to support student well-being.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement) Priority 6: School Climate (Engagement)
--

An explanation of why the LEA has developed this goal.

The district recognizes the importance of strong connections between schools, families, and the community in enhancing student success. Goal 4 aims to cultivate these relationships to support student well-being and academic achievement.

Actions and Metrics:

- Parent and Community Education and Engagement: Enhancing engagement through various committees and partnerships.
- Family Engagement & Support Specialist: Providing dedicated support for family engagement.
- Supporting English Learners with Language Line Interpreting and Translation Services & Parent Education: Offering services to support English Learner families.
- Enhancing Engagement Through Thought Exchange: Using interactive platforms to engage with educational partners.
- Enhancing Parent and Community Engagement through the Coordinator of Marketing, Communications, and Community Engagement: Improving communication and engagement strategies.

These actions are designed to build a supportive and engaged community that collaborates with schools to enhance students' educational experiences.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2024–25 school year, all planned actions and associated expenditures under Goal 4 were fully implemented as intended. The district remained committed to enhancing parent and community education and engagement by implementing a comprehensive set of districtwide and site-based initiatives. These efforts focused on increasing opportunities for parents and educational partners to participate in decision-making processes and access resources that support student learning and well-being.

The district successfully implemented various activities, events, and committee meetings that supported this goal. Action 4.1 provided numerous opportunities for engagement at the district and school levels. Collaborations with organizations such as Project Cornerstone, Health Connected, and the San Jose City Public Library added depth to the parent education offerings. Attending in-person events remained high, reflecting the community’s strong connection to and investment in the district’s work.

Action 4.2, which sustained a 0.50 FTE Family Engagement and Support Specialist through grant funding from the Santa Clara County Office of Education, played a key role in supporting family engagement. This specialist provided targeted assistance to families, especially English Learners, helping them navigate the school system and access academic and social-emotional resources for their children. The district also continued to utilize Language Line and Communicaid services under Action 4.3 to enhance communication with English Learner families. Additionally, a series of parent workshops, specifically designed for this group, addressed topics such as English Language Development (ELD) standards, literacy strategies, and available community resources. These efforts were instrumental in making information accessible and actionable for non-English-speaking families. Through Action 4.4, the district successfully implemented the Thought Exchange platform to elevate parent and community engagement. This interactive tool allowed stakeholders to provide feedback and prioritize real-time input,

offering a more dynamic alternative to traditional surveys. While the district plans to transition to a more cost-effective platform in 2025–26 due to budget constraints, the use of Thought Exchange in 2024–25 was fully implemented and received a positive response. Action 4.5 maintained the 0.50 FTE Marketing, Communications, and Community Engagement Coordinator, who ensured ongoing communication with families and the broader community. The district utilized various tools, including email, text messaging, newsletters, and social media platforms like Blackboard and SMORE, to maintain transparency and keep stakeholders informed and engaged.

Despite these successes, the district faced a challenge in securing high response rates to district and school surveys. While in-person participation was strong, the return rate for digital surveys fell below expectations. This highlighted an area for continued improvement in engaging families through remote or asynchronous feedback mechanisms.

Overall, the implementation of Goal 4 during the 2024–25 school year was effective and aligned with the district’s strategic priorities. High in-person involvement, meaningful partnerships with community organizations, and effective communication strategies reflected the district’s ongoing efforts to foster inclusive and impactful engagement. While challenges such as low survey response rates emerged, the district demonstrated a commitment to continuous improvement and remained responsive to the diverse educational needs of its partners.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and the estimated actual expenditures for the actions and services implemented under Goal 4. All expenditures were aligned with the planned actions, including support for parent and community engagement activities (Action 4.1), staffing for the Family Engagement and Support Specialist (Action 4.2), interpretation and translation services and targeted workshops for English learner families (Action 4.3), implementation of the Thought Exchange engagement platform (Action 4.4), and communication efforts led by the Coordinator of Marketing and Communications (Action 4.5). Each of these services was implemented as planned, with expenditures closely matching the budgeted amounts.

There were also no significant differences between the planned percentage of improved services for unduplicated students and the estimated actual percentage. The actions under Goal 4 directly supported increased access to information, resources, and decision-making opportunities for families of English learners, foster youth, and socioeconomically disadvantaged students. The Family Engagement and Support Specialist played a key role in supporting these families, and multilingual access to communication platforms and workshops ensured inclusive engagement. Any minor adjustments to the timing or allocation of expenditures did not materially affect the scope or delivery of services. As such, the district met its commitments to both financial stewardship and service equity for its unduplicated student populations under Goal 4.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Implementing Goal 4 during the 2024-25 school year has greatly improved the district’s commitment to strengthening parent and community engagement. Through a series of coordinated actions, including parent education events, targeted communication strategies, language support services, and inclusive advisory opportunities, the district created more opportunities for educational partners to engage meaningfully in school- and districtwide initiatives.

A key contributing action was Action 4.3 (Language Line, Translation Services, and Parent Education), which provided interpretation services for conferences, meetings, and IEPs, as well as parent workshops on topics such as ELD standards, literacy, and community resources. This action was crucial in reducing barriers for non-English-speaking families. It was measured by the number of English Learner parents and staff utilizing the services, thereby helping the district promote equitable access and culturally responsive engagement.

Survey data from Spring 2025 shows improvement across several indicators. Notably, there was an 8.3 percentage point increase in parents who felt they had opportunities to participate in decision-making, and a 7.2 percentage point gain in parents who reported feeling informed about district procedures and policies. The perception that the district engages families from diverse backgrounds increased substantially by nearly 28 percentage points, reflecting the district's effective use of multilingual communication supports and community partnerships. These outcomes suggest that the district's efforts to provide relevant workshops (Action 4.3), support through the Family Engagement and Support Specialist (Action 4.2), and expanded communication platforms (Action 4.5, including newsletters, website updates, and digital tools like Blackboard and SMORE) have contributed to more inclusive and informed participation.

Additionally, the district continued to promote engagement through platforms like ThoughtExchange (Action 4.4). It maintained representation of all educational partner groups, including students, on the LCAP Advisory Committee for the first time, a key objective of Action 4.1 (Engage Educational Partners in Planning and Decision-Making). This action ensured that input from parents, staff, students, and community members was integrated into LCAP planning, fostering a culture of shared responsibility and transparency.

While in-person engagement remained strong, and district ELAC participation held steady, the lack of centralized data collection for some site-level events limited the ability to fully evaluate participation levels. There was also a decline in survey responses from English Learner families, highlighting the need for targeted strategies to re-engage these stakeholders. To address this, the district is reviewing and refining its evaluation and progress monitoring strategies, a focus of Action 4.6 (Evaluate the Impact of Engagement Activities and Monitor Progress). Though some data limitations exist, these reflective efforts support a continuous improvement approach and will guide adjustments to future engagement practices.

Despite these challenges, the district made measurable progress in fostering authentic and equitable partnerships with families, supporting students' academic and social-emotional outcomes. The work carried out under Goal 4 reflects a solid foundation for continued growth and responsiveness in future years.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Reflections on the 2024–25 implementation of Goal 4 led to thoughtful adjustments in actions and strategies for the 2025–26 school year to strengthen impact and address identified areas for improvement. While the goal itself remains focused on enhancing parent and community engagement, refinements to actions and approaches reflect both successes and challenges observed in the prior year.

One of the key changes involves the shift from the use of the ThoughtExchange platform to a more cost-effective Google-based system for stakeholder engagement. This decision, as reflected in the revised Action 4.4, results from anticipated budget reductions and the recognition

that, although ThoughtExchange was well-received, overall participation declined slightly. The transition will maintain opportunities for real-time feedback and inclusive engagement, though it will require more staff coordination to replicate the same level of interactivity. Another area of refinement centers on increasing inclusivity and addressing gaps in engagement among English Learner families. While parent education and support efforts were successful overall, Spring 2025 survey results showed a notable drop in perceived involvement from this group. As a result, Action 4.3 has been expanded to include the formation of parent heritage language focus groups, along with a more comprehensive series of workshops tailored specifically to the needs of English Learner families. These adjustments aim to rebuild trust, foster culturally responsive engagement, and address language access barriers more effectively.

Additionally, Action 4.1 has been refined to strengthen site-level ownership of parent engagement. In response to uneven participation and inconsistent data collection across schools, the 2025–26 plan places greater emphasis on site and district coordination of committees such as School Site Councils (SSC), ELACs, and DELAC, while also formalizing partnerships with community-based organizations to support workshop delivery. These changes aim to create a more structured, consistent approach to engagement across all school sites. Lastly, metrics and data collection practices are being strengthened in response to the limited tracking of attendance at site-based events in the prior year. Although no new metrics are listed in the proposed actions document, there is a clear focus on improving documentation and monitoring to evaluate engagement outcomes moving forward more accurately.

Together, these refinements reflect a commitment to continuous improvement and responsiveness to stakeholder feedback. The district is prioritizing greater cultural and linguistic inclusivity, cost-effective tools for engagement, and clearer expectations for consistent implementation across all sites, ensuring that Goal 4 continues to support meaningful and equitable parent and community engagement in the 2025–26 year.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Parent and Community Education and Engagement	The district and school sites will enhance parent and community education and engagement by coordinating and facilitating various site and district-wide committees, including the School Site Council (SSC), the English Learner Advisory Committee (ELAC), the Strategic Plan/LCAP Advisory Committee, and the District English Learner Advisory Committee (DELAC). Additionally, the district will maintain and expand partnerships with community organizations, including Project Cornerstone, Health Connected, the San Jose City Public Library, the Santa Clara County Office of Education, My City Forest, Harvest Food Bank, and other potential community partners, to provide parent education workshops.	\$28,500.00	No

Action #	Title	Description	Total Funds	Contributing
		Through these coordinated efforts, continuous opportunities for parent and community education and engagement will be ensured.		
4.2	Family Engagement & Support Specialist	The Santa Clara County Office of Education has granted the district funding to sustain a 0.50 FTE specialist role focused on family engagement. This specialist will enhance parent participation in programs to elevate their children's academic performance and social-emotional well-being. The district will offer consistent engagement opportunities for parents of English Learners, facilitating their involvement at the district level to support their children's high academic achievements.	\$59,087.00	No
4.3	Supporting English Learners with Language Line Interpreting and Translation Services & Parent Education	<p>The district will provide Language Line & Communicaid services to enhance communication during English learner-parent conferences, meetings, IEP/504s, and other interactions across various sites and departments. Additionally, the district will support the creation of parent heritage language focus groups and host various informational meetings and workshops for English Learner parents. This service is primarily aimed at students identified as English learners but is available to all students recognized by staff as needing extra primary language support.</p> <p>In addition, the district will organize a series of educational workshops specifically designed for parents of English learners. These workshops will cover topics such as understanding the English Language Development (ELD) standards, navigating the school system, supporting literacy and language development at home, and accessing community resources.</p>	\$110,000.00	Yes
4.4	Enhancing Engagement Through Thought Exchange	Due to budget reductions, this action is modified for the 2025–26 school year. The district will discontinue using Thought Exchange as an engagement tool and instead utilize the Google platform to continue fostering inclusive and dynamic engagement among educational partners, including students, parents, teachers, and community members. While Thought Exchange previously allowed for real-time, interactive participation and broad stakeholder voice, the shift to the Google platform reflects a	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>cost-effective alternative that still supports meaningful input and collaboration.</p> <p>Although the Google platform requires more staff time to design and facilitate these engagement opportunities, the district remains committed to maintaining transparency, trust, and responsiveness to community needs. This transition ensures that diverse perspectives continue to inform district planning and decision-making processes while aligning with fiscal responsibility. Despite the change in platform, the district's focus on continuous improvement and equitable stakeholder involvement remains central to the Local Control and Accountability Plan (LCAP).</p>		
4.5	Enhancing Parent and Community Engagement through the Coordinator of Marketing, Communications, and Community Engagement	<p>The district will maintain a 0.50 FTE Coordinator of Marketing, Communications, and Community Engagement, leveraging various communication methods, including social media, to foster strong connections with families and the broader community. This position supports the district's efforts to enhance parent engagement and ensure timely, clear, and accessible communication across all school sites. The district and school sites will continue to use multiple communication channels, including email, text messaging, and regular newsletters, through platforms such as Blackboard and SMORE.</p> <p>In addition to overseeing communications and engagement strategies, the Coordinator allocates a significant portion of their time to researching and writing grants. These efforts result in securing external funding that consistently exceeds the cost of the position itself, making this role a strategic and cost-effective investment for the district. The grant funding obtained supports student programs, services, and initiatives aligned with the district's goals, ultimately contributing to improved outcomes and opportunities for all students.</p>	\$124,000.00	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2025-26]

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Supplemental Targeted Instruction & Intervention</p> <p>Need: The significant achievement gaps and the necessity for educational equity drive the need for supplemental targeted instruction for unduplicated students, such as English learners, low-income students, and foster youth, as well as students with/ disabilities.</p>	By providing additional resources, personalized tutoring, and specialized programs, the district ensures that unduplicated pupils receive the focused attention they need to succeed. Offering these services on an LEA-wide basis ensures equity, allowing all students, regardless of their school, to access high-quality support. This approach also enables the district to efficiently allocate resources, standardize intervention practices, and monitor progress uniformly,	Local Reading Assessment (Grades K-8), CAASPP ELA 3-8 ELPAC, and Student Participation

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>These students often require individualized support due to language barriers, socioeconomic challenges, and emotional needs. Tailored instruction addresses these issues, providing personalized academic support and fostering better long-term outcomes.</p> <p>Scope: LEA-wide</p>	<p>ensuring that all unduplicated pupils benefit from consistent and effective educational interventions.</p>	
<p>1.2</p>	<p>Action: Targeted Expanded Educational Resources and Digital Learning for UPP</p> <p>Need: The identified need for Targeted Expanded Educational Resources and Digital Learning for UPP stems from the disparities in educational access and quality that underserved populations face. These gaps hinder academic achievement and future opportunities. By providing tailored educational materials and leveraging digital platforms, UPP can enhance learning experiences, bridge educational divides, and empower students with the skills and knowledge necessary for success in an increasingly digital world.</p> <p>Scope: LEA-wide</p>	<p>The actions address the needs of unduplicated pupils by delivering customized educational resources and digital learning tools during and beyond the school. This support caters to these students' unique challenges, such as language barriers and socioeconomic disadvantages. Providing these resources, LEA-wide ensures consistent support across all schools.</p>	<p>The district monitors the number of UPP students participating in the blended learning Imagine Learning Language/Literacy and Imagine Math Tier I Intervention blended learning program during and beyond the school day. The district will monitor UPP ELA and math outcomes embedded in the program to assess program effectiveness. The district will also monitor the number of UPP students participating in the loan program for digital learning devices, such as iPads and Chromebooks, provided by the district for use at home.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>1.5</p>	<p>Action: Provision of Instructional Specialists</p> <p>Need: Based on state and local assessments, our unduplicated pupils are not achieving at the same level in ELA and Math as other student groups. Additionally, the Chronic Absenteeism rates for these students are higher than those of many other student groups and “all” students, as reflected on the 2023 CA Dashboard. Unduplicated students and students with disabilities require additional tailored academic and socio-emotional support. They face language barriers, learning gaps, and limited resources and need differentiated instruction and intervention programs. This action was developed, in part, to address the district-wide and school-wide (Bagby) red indicators for chronic absenteeism for low-income students.</p> <p>Scope: LEA-wide</p>	<p>The district will deploy full-time instructional specialists (IS) at each site to support the needs of unduplicated pupils and students with disabilities. These specialists will primarily coordinate and facilitate targeted services, including Tier II interventions, ELD support, and extended day programs. They will also assist schools by enhancing teacher practices through professional development, co-teaching, and coaching. The specialists will use data-driven instruction to identify and address learning gaps. By providing this support across the LEA, the district aims to close the achievement gap and improve attendance rates for UPP and students with disabilities.</p>	<p>Academic Performance (ELA & Math); Attendance Rates</p>
<p>1.10</p>	<p>Action: Maintaining and Implementing Comprehensive Assessment System</p> <p>Need: Our local reading assessments show that our English Learners, Low-Income, and Foster Youth students need earlier identification for support and interventions and need to be closely monitored to ensure reading growth.</p>	<p>The district will maintain and implement a comprehensive assessment system for universal screening and ongoing progress monitoring to support students needing additional support within the MTSS framework. This action is crucial for unduplicated pupils, such as English learners, low-income students, Foster/Homeless Youth, and Students with Disabilities, as it ensures timely identification and tailored interventions to address their unique needs. By applying this system on an LEA-wide basis, the district ensures that all</p>	<p>Local ELA Assessments - FastBridge, Curriculum Embedded Assessment, Tier II Progress Monitoring. The district will monitor unduplicated students' results by identifying and providing early reading interventions, as research indicates these have a</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>students receive equitable access to necessary resources and support regardless of their background, thereby enhancing overall educational outcomes.</p>	<p>significant impact on achievement. Through effective progress monitoring and regular assessments, the district aims to enhance unduplicated students' performance on local reading assessments.</p>
<p>1.13</p>	<p>Action: Maintain Support of Master Scheduling for Targeted Intervention at Price Middle School</p> <p>Need: Data from district assessments, progress monitoring tools, and state indicators reveal that many UPP students at Price Middle School require additional academic support to meet grade-level standards, particularly in core subjects such as English Language Arts and Mathematics. These students often face barriers, including interrupted learning, limited access to learning resources outside of school, and increased social-emotional needs that impact academic performance.</p> <p>UPP students benefit from structured intervention time within the school day, rather than relying solely on before- or after-school support, which they may be less able to access due to transportation or family obligations. A master schedule that prioritizes targeted intervention time is crucial for providing equitable instructional access, closing achievement gaps, and ensuring that</p>	<p>This action directly addresses the academic and support needs of Unduplicated Pupils (English learners, low-income students, and foster/homeless youth) by ensuring that Price Middle School has the staffing capacity necessary to build a master schedule that embeds time for targeted academic intervention during the regular instructional day. This structure allows UPP students to receive additional, differentiated support in core subjects without being removed from essential content instruction or extracurricular opportunities. By reducing scheduling conflicts and strategically grouping students based on need, this approach promotes timely intervention and improved academic outcomes.</p> <p>While this action is principally directed toward Unduplicated Pupils, it is implemented on a schoolwide basis to ensure that all students, including UPP students, benefit from an inclusive, flexible schedule that allows for fluid academic support, enrichment, and tiered interventions. A schoolwide approach also reduces stigma, promotes a culture of equity, and allows for more effective use of staffing and instructional resources. This inclusive model ensures that every student who demonstrates a need for additional</p>	<p>The district will monitor the effectiveness of this action using multiple measures, including CAASPP scores, local benchmark assessments, and grade distribution data, with a focus on outcomes for Unduplicated Pupils. Additional metrics will include participation rates in intervention periods, progress monitoring results for students receiving targeted support, and reductions in D/F rates. The master schedule will be reviewed to ensure intervention time is protected and equitably accessed. Attendance, chronic absenteeism, and discipline data, particularly for UPP student groups, will also be analyzed, along with staff and student feedback, to</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>these students receive timely, differentiated support aligned with their individual needs.</p> <p>Scope: Schoolwide</p>	<p>support, regardless of formal designation, has equitable access to timely intervention aligned with the principles of a Multi-Tiered System of Supports (MTSS).</p>	<p>assess the overall impact of the intervention schedule on academic achievement and school climate.</p>
<p>2.6</p>	<p>Action: Targeted Professional Development for Supporting Unduplicated Students</p> <p>Need: Unduplicated students, including English Learners, Foster Youth, and students from low-income families, face systemic barriers to achieving equitable academic outcomes. District needs assessment data and educational partners' input highlight persistent opportunity gaps in English Language Arts and Math achievement and an overrepresentation of unduplicated pupils in chronic absenteeism and behavioral referrals.</p> <p>Instructional staff identified a need for additional training and coaching on culturally responsive teaching, differentiated instruction, trauma-informed practices, and asset-based strategies for language development. These supports are critical to building educators' capacity to deliver Tier I instruction that reflects and responds to the diverse backgrounds of unduplicated pupils.</p> <p>Additionally, feedback from classroom walkthroughs and coaching logs indicates that while GLAD (Guided Language Acquisition</p>	<p>This action addresses the identified needs by providing targeted, job-embedded professional development on the GLAD instructional model and other evidence-based practices that have shown strong outcomes for unduplicated students. Through the support of district instructional specialists, teachers receive ongoing training, coaching, and data-informed feedback on how to implement inclusive instructional strategies and better support language acquisition and differentiated instruction.</p> <p>By offering this training on an LEA-wide basis, the district ensures consistency in instructional quality and equity of access to effective practices across all sites, particularly important for unduplicated pupils who may transition between schools or classrooms. Centralizing this professional development also facilitates shared learning across sites and grade levels, reinforces districtwide expectations for culturally and linguistically responsive pedagogy, and provides all educators with the tools needed to close achievement and engagement gaps.</p> <p>By targeting instruction and educator capacity building through this action, the district is taking a systemic approach to support unduplicated pupils and ensure equitable access to high-quality</p>	<p>Progress will be monitored using multiple metrics, including:</p> <ul style="list-style-type: none"> -The percentage of trained teachers implementing GLAD with fidelity (as measured through classroom walkthrough tools), -Student outcome data (e.g., ELA/Math scores disaggregated by student group), -Attendance trends for ELs and low-income students, <ul style="list-style-type: none"> • Feedback from PD evaluations and coaching observations.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Design) strategies are being introduced, their implementation is inconsistent without targeted follow-up. Teachers need sustained professional learning and feedback cycles to build efficacy in serving ELs and other high-need students. Therefore, this action focuses on equipping teachers with tools and approaches specifically designed to meet the academic and social-emotional needs of unduplicated pupils.</p> <p>Scope: LEA-wide</p>	<p>teaching and learning experiences across all schools.</p>	
<p>3.2</p>	<p>Action: Comprehensive Counseling and Mental Health Support</p> <p>Need: Unduplicated students, specifically English Learners, Foster Youth, and students from low-income families, experience higher levels of stress, emotional dysregulation, and barriers to school connectedness due to factors such as housing instability, trauma, and language access issues. Needs assessment data from climate surveys and engagement with educational partners identified a lack of consistent, accessible mental health support as a significant barrier to academic success.</p> <p>Scope:</p>	<p>This action addresses these needs by ensuring equitable access to school-based counseling and mental health services across all school sites. Services are delivered through both district-employed counselors and partnerships (e.g., Nugent Counseling Services). While available to all students, they are primarily directed toward unduplicated pupils through priority referral, culturally responsive practices, and language-accessible outreach.</p> <p>The districtwide approach is justified because unduplicated students are enrolled across all campuses and may require supports at any site throughout the year. Centralized access prevents inequities in service provision, ensuring that all eligible students can benefit from timely interventions, regardless of their school assignment.</p>	<p>The district will monitor unduplicated students' data through various outcomes, including academic performance (grades, test scores, attendance), behavioral indicators (disciplinary actions, classroom behavior), and mental health and emotional well-being (counseling attendance, assessments, surveys). This will ensure effective evaluation and enhancement of counseling and mental health services to support the educational success and resilience of unduplicated students.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
3.4	<p>Action: Targeted Support for Foster and Homeless Youth</p> <p>Need: Students in foster care and those experiencing homelessness face significant challenges to consistent school attendance, engagement, and academic success. Needs assessment data, including qualitative feedback from families and attendance data, highlight chronic absenteeism and a lack of access to basic needs (e.g., transportation, meals, technology) as key barriers.</p> <p>Scope: LEA-wide</p>	<p>This action directly addresses these needs by funding services such as transportation assistance, after-school programming, tutoring, and access to technology and meals. These services are highly individualized and responsive to student and family needs, and coordination is managed by the district’s Educational and Student Services teams.</p> <p>Although these services target a small population, they are provided on an districtwide basis because foster and homeless students are mobile and may change schools frequently. Districtwide availability ensures continuity of support regardless of site transitions.</p>	Attendance Rate of Foster & Homeless Youth
3.9	<p>Action: Enhancing Social-Emotional Learning Through Structured Recess and Lunchtime Activities</p> <p>Need: Unduplicated students often benefit from structured opportunities to develop social-emotional competencies, particularly during unstructured time such as recess and lunch. Needs assessment data indicated that English Learners, Foster Youth, and Low-Income students sometimes struggle with peer relationships and behavioral regulation, leading to disengagement and increased office referrals.</p>	<p>This action aimed to address those needs by providing structured SEL-aligned activities during recess and lunch, in partnership with Valley Sports, to promote positive peer interactions, emotional regulation, and school connectedness. These activities supported inclusive environments where UPP students could safely practice communication, teamwork, and resilience.</p> <p>However, outcome data for 2024–25 did not show a measurable differential impact for unduplicated students. As such, the district will discontinue centralized funding for this action and instead encourage sites to use discretionary resources for schoolwide implementation, if aligned to their</p>	The school(s) will monitor data for unduplicated students by tracking their participation in structured recess and lunchtime activities, assessing improvements in inclusivity, emotional well-being, physical health, and social skills.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: Schoolwide</p>	<p>unique site needs. The original rationale for schoolwide provision was to ensure inclusivity and equitable access at sites with diverse student populations, but future resources will be reallocated to more directly targeted supports.</p>	
<p>3.10</p>	<p>Action: Provision for the Coordinator of Student Support Services</p> <p>Need: Our analysis of district data shows that our Unduplicated Pupils, including students from low-income households, foster youth, homeless students, and English learners, are more likely to experience barriers to academic success and school engagement. These students will need additional support to access learning, maintain regular attendance, and develop positive connections to school. Data indicates higher rates of chronic absenteeism, discipline referrals, and social-emotional needs among these student groups compared to their peers. Additionally, schools require more consistent systems and resources to address the complex needs of these students and provide equitable access to supports across all sites.</p> <p>Scope: LEA-wide</p>	<p>To address these needs, the District will create a Coordinator of Student Support Services to lead and coordinate programs that directly support the academic, behavioral, and social-emotional success of Unduplicated Pupils. This position will develop a district-wide Multi-Tiered System of Support (MTSS), ensure implementation of Positive Behavioral Interventions and Supports (PBIS), support site Student Study Teams (SST), and coordinate services for foster and homeless youth. The Coordinator will provide staff training, monitor student progress, and connect students and families to resources that remove barriers to learning and promote engagement and well-being.</p> <p>Providing this position on a districtwide basis ensures equitable access to student support systems for all Unduplicated Pupils, regardless of the school they attend. A centralized leadership role is necessary to align practices, coordinate services, and ensure consistency in how supports are delivered across the District. This approach allows the District to efficiently allocate resources, build staff capacity, and ensure that every school has access to expertise and structures that promote success for students with the greatest needs.</p>	<p>The District will monitor the effectiveness of this action using multiple measures, including:</p> <ul style="list-style-type: none"> • Reduction in chronic absenteeism rates for UPP • Decrease in suspension rates and office discipline referrals • Improved student engagement and school climate survey results • Increased participation of families in parent education and engagement opportunities • Consistent implementation of MTSS, PBIS, and SST processes across school sites

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			<ul style="list-style-type: none"> Monitoring of progress for students receiving targeted supports (PSPs/SST plans) <p>Annual review of student outcome data, site implementation reports, and stakeholder feedback will be used to evaluate progress and adjust supports as needed to ensure the action is effectively meeting the needs of Unduplicated Pupils.</p>
<p>4.3</p>	<p>Action: Supporting English Learners with Language Line Interpreting and Translation Services & Parent Education</p> <p>Need: EL Parents indicated through our annual survey that they need to enhance language services to understand better the programs and services being delivered and provided at their child's school.</p> <p>Scope: LEA-wide</p>	<p>The district is increasing language translation services for EL parents to enhance communication, boost parental engagement, and ensure equity and inclusion. This initiative lets parents fully understand school policies and their child's progress, fostering better relationships and trust. Additionally, it aligns with legal requirements to support non-English-speaking families, ultimately improving student outcomes by empowering parents to be more informed and involved. While this service is intended for identified EL students and their families, there may also be a need for multilingual families whose students are not identified as ELs.</p>	<p>Number of EL parents & staff using the services</p>

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

NONE

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

NA

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
