June 20, 2025

Dear Neighbors,

This letter is to notify you of the upcoming White Plains City School District's construction project for the new building addition at White Plains High School. Construction is scheduled to begin on July 1, 2025, with an anticipated completion in twenty months.

The new addition will consist of a 50,000 square foot building for classrooms that will support new Career and Technical Education (CTE) programs. For detailed information please visit the White Plains Public School website, Facilities and Operations, Capital Projects at https://www.whiteplainspublicschools.org/district-offices/facilities-maintenance.

Pursuant to Education Commissioner's Regulation 155.S(d), the WPCSD will provide a safe school environment throughout this project, including an updated school emergency plan to reflect any temporary exits or procedures needed because of the construction work at White Plains High School. Fire drills will be held to familiarize students and staff with any temporary exits. The construction areas will be separated as possible from occupied areas of the building, all construction workers will be required to wear photo identification badges, and noise levels will be kept to a minimum while the building is occupied. All applicable federal and state rules and regulations will be strictly adhered to throughout the length of the projects.

If you have any concerns, please contact our Facilities and Operations Office at 914-422-2050.

Thank you,

Xavier Hernandez-Delgado
Director School Facilities & Operations
