

How to Clear the Cache in Chrome

1. On your computer, open Chrome.
2. At the top right, click on the three dots.
3. Scroll down to "More tools."
4. Click on "Clear browsing data."

5. At the top, choose a time range. To delete everything, use the drop down menu to choose "All time."
6. Make sure all three boxes are checked.
7. Click Clear data.
