

Spring 2025

Attendance Zone Enrollment Assessment

June 2025

Attendance Zone Enrollment Assessment Goals -

There will be no changes to the Existing High School Attendance Zone

Propose changes to Elementary, Intermediate, & Middle School Attendance Zones to help balance enrollments between adjacent campuses.

Propose changes that are small and won't impact multiple schools and major areas within the District

Board Policy – FC (Local)

The administration shall provide the Board with the current proportion of economically disadvantaged students at each school.

For intermediate and middle schools, if there is a difference in the current proportion of economically disadvantaged students among the campuses on the same level that is equal to or greater than 15 percentage points, then such schools shall not be considered to have comparable composition.

For intermediate and middle schools, if there is a difference in the proportion of economically disadvantaged students among campuses on the same level that is between 10 and 15 percentage points, then the administration shall make recommendations to the Board about the actions to be taken, if any, to address issues created by such difference and to prevent the difference from increasing to the level that would be considered to cause a lack of comparable composition.

When percentage point differences in economically disadvantaged students fall in the 10 to 15-point range for intermediate and middle schools, further study is warranted.
