## Industry Challenge Winners

The Indt  smore  Share  Translate  Accessibility  1.1K came to P-TECH to visit and announce the winners. After viewing the presentations last month, a team of engineers and production workers at Trenton Technology reviewed and tested the submitted designs. The winning team consists of Bea Stayton, Eric Creekmore and Peter Maier. They also decided to incorporate designs from two other teams. These teams were made up of Liam Mahardy, Chelsy Plows, Joel Lynch, Arina Samoshuk, Gavyn Toepp and Cailyn Armstrong.

The winning students each received a \$100 award for the design and hard work. Each member of the teams from which the engineers took input received a \$25 gift card as well. Congratulations to all, and thank you to Trenton Technology for partnering with our students!

## Completion Ceremony and Signing Day

P-TECH OHM held its annual Completion Ceremony to celebrate the seniors' completion of their high school graduation requirements. Many students also received awards in addition to the recognition of completing the high school portion of the program. These awards recognized Outstanding Academic Achievement, P-TECH PRIDE, Career and Technical Achievement, Internship Performance and Perseverance, among others.

After the ceremony, multiple P-TECH alums announced their plans for the next steps in their education. Each student took photos with their families and friends. Please click the link below to read the article and see photos on the OHM BOCES website.
